State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2019 and 2018, for purposes of taxation, was:

	<u>2019</u>	<u>2018</u>
Real Estate	\$ 79,316,190	\$ 76,751,460
Personal Property	22,426,354	21,031,289
Railroad and Utilities	<u>1,821,128</u>	<u>2,700,751</u>
	<u>\$ 103,563,672</u>	<u>\$ 100,483,500</u>

During 2019 and 2018, the County Commission approved a \$0.1433 and \$0.1433 tax levy per \$100 of assessed valuation of tangible taxable property for the calendar year, for purposes of County taxation, as follows:

	<u>2019</u>	<u>2018</u>
Productive Living Board Fund (SB40)	\$.0955	\$.0955
Senior Citizens Tax Fund	<u>.0478</u>	<u>.0478</u>
	<u>\$.1433</u>	<u>\$.1433</u>

F. Cash and Investments

Cash and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Investment" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019, and 2018, the carrying amount of the County's deposits and investments were \$947,488 and \$1,005,571, respectively, and the bank balance was \$4,376,977 and \$4,624,329, respectively. The total bank balances as of December 31, 2019, and 2018 were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2019, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash</u>	
<u>and Investment Balances – Governmental Funds:</u>	
Deposits	\$ 783,029
Investments	164,459
Total Governmental Funds	<u>947,488</u>
<u>Statement of Assets and Liabilities Arising from Cash</u>	
<u>Transactions – Agency Funds:</u>	
Deposits	<u>3,706,126</u>
Total Agency Funds	<u>3,706,126</u>
Total Deposits and Investments as of December 31, 2019	<u>\$ 4,653,614</u>

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits at December 31, 2018, are as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash</u> <u>and Investment Balances – Governmental Funds:</u>	
Deposits	\$ 843,468
Investments	162,103
Total Governmental Funds	<u>1,005,571</u>
<u>Statement of Assets and Liabilities Arising from Cash</u> <u>Transactions – Agency Funds:</u>	
Deposits	<u>3,931,184</u>
Total Agency Funds	<u>3,931,184</u>
Total Deposits and Investments as of December 31, 2018	\$ <u>4,936,755</u>

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2019, and 2018.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2019, and 2018.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

III. LONG-TERM DEBT

In 2013, the County entered into a lease agreement for \$569,257 with Caterpillar Financial Services for the purchase of three 12M2 Motor Graders. The County is required to make five annual payments of \$45,480.81 and one balloon payment of \$405,000. The lease agreement carries an interest rate of 2.50%. Caterpillar Financial Services is the holder of this lease. The lease was paid off during the 2018 fiscal year.

In 2018, the County entered into a lease agreement for \$712,866.66 with Caterpillar Financial Services for the purchase of three 12M3 Caterpillar Motor Graders. The County is required to make five annual payments of \$100,429.98 and one balloon payment of \$330,000. The lease agreement carries an interest rate of 4.21%. Caterpillar Financial Services is the holder of this lease.

As of December 31, 2019, the unpaid principal balances of the lease purchase agreements were \$642,850.71.

Description	Balance Prior Year 12/31/2018	Current Year Additions	Current Year Deletions & Payments	Balance 12/31/2019	Interest Paid Current Year
John Deere Motor Graders	\$ 712,866.66	\$ -	\$ 70,015.95	\$ 642,850.71	\$ 30,414.03
	<u>\$ 712,866.66</u>	<u>\$ -</u>	<u>\$ 70,015.95</u>	<u>\$ 642,850.71</u>	<u>\$ 30,414.03</u>

The future payments for the lease purchase agreements of the County are as follows:

December 31,	Interest	Principal	Total
2020	\$ 27,036.42	\$ 73,393.56	\$ 100,429.98
2021	23,943.12	76,486.86	100,429.98
2022	20,719.53	79,710.45	100,429.98
2023	17,170.14	413,259.84	430,429.98
	<u>\$ 88,869.21</u>	<u>\$ 642,850.71</u>	<u>\$ 731,719.92</u>

As of December 31, 2018, the unpaid principal balances of the lease purchase agreements were \$712,866.66.

Description	Balance Prior Year 12/31/2017	Current Year Additions	Current Year Deletions & Payments	Balance 12/31/2018	Interest Paid Current Year
John Deere Motor Graders	\$ 439,493.46	\$ 712,866.66	\$ 439,493.46	\$ 712,866.66	\$ 10,987.35
	<u>\$ 439,493.46</u>	<u>\$ 712,866.66</u>	<u>\$ 439,493.46</u>	<u>\$ 712,866.66</u>	<u>\$ 10,987.35</u>

Agency Funds	3,300	-	3,350	-
TOTAL	\$ <u>1,118,308</u>	\$ <u>1,118,308</u>	\$ <u>724,198</u>	\$ <u>724,198</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement.

Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system. The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the County) are refunded to the employee.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (Concluded)

B. Contributions (concluded)

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2019, and 2018 were \$64,127 and \$60,274, respectively.

VI. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 and \$3,366, respectively, for the years ended December 31, 2019, and 2018.

VII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had no COBRA participants at December 31, 2019, and December 31, 2018.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

B. Compensated Absences

The County provides each full-time or seasonal/temporary employee with sick leave equal to one-half of regular work day each pay period, with the leave to be added at the end of each pay period. Sick leave may accrue and roll over to the subsequent calendar year in an amount not to exceed four regular work days. Upon termination, an employee will not be reimbursed for any unused sick days.

Vacation is accrued based on years of service with a maximum of 17 days of vacation awarded each year after 25 or more years of service. For those employees with service greater than one year, vacation leave shall accrue proportionately each pay period following the anniversary of the employee's hire date. Vacation leave does not accrue and is forfeited if not used within one year of the anniversary of an employee's hire date. Upon termination, an employee will be paid for any remaining vacation leave accrued. Vacation and sick leave have not been subjected to auditing procedures.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES (Concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

X. SUBSEQUENT EVENTS

There are no subsequent events to report up to the date of the audit report.

XI. PRIOR PERIOD ADJUSTMENT

The prior audit cash balances at December 31, 2017, has been adjusted to \$1,181,449 for a net adjustment of (32.66). The adjustment was made to reclassify the Prosecuting Attorney Retirement Fund as an Agency Fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Ripley, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Ripley ("County") as of and for the years ended December 31, 2019, and 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 18, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [2019-001, 2019-002]

Compliance and Other Matters

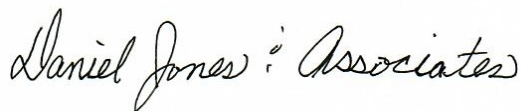

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To The County Commission
The County of Ripley, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Ripley's ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2019, and 2018. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2019, and 2018.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2019-003. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

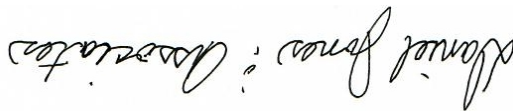

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2019-003, that we consider to be a significant deficiency.

The County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The accompanying notes are an integral part of this schedule.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2019 AND 2018

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the federal award activity of the County of Ripley under programs of the federal government for the years ended December 31, 2019 and 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Ripley, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Ripley.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 – INDIRECT COST RATE

The County has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2019 AND 2018

NOTE 4 – SUB-RECIPIENTS

Of the federal expenditures presented in the accompanying schedule of expenditures of federal awards, the County provided federal awards to sub-recipients as follows:

<u>Program Title</u>	<u>Sub-Recipient</u>	<u>Year</u>	<u>Federal CFDA Number</u>	<u>Amount Provided to Sub-Recipient</u>
Schools and Roads - Grants to States	Doniphan Road District	2019	10.665	\$ 1,207.75
Schools and Roads - Grants to States	Doniphan Road District	2018	10.665	1,262.96
Schools and Roads - Grants to States	Bennett Road District	2019	10.665	6,740.45
Schools and Roads - Grants to States	Bennett Road District	2018	10.665	7,048.56
Schools and Roads - Grants to States	Jordan Road District	2019	10.665	7,635.69
Schools and Roads - Grants to States	Jordan Road District	2018	10.665	7,984.72
Schools and Roads - Grants to States	Mabrey Bay Road District	2019	10.665	2,105.65
Schools and Roads - Grants to States	Mabrey Bay Road District	2018	10.665	2,201.90

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unmodified – Regulatory Basis
2. Internal control over financial reporting:
 - a. Material weakness(es) identified? 2019 ☐ Yes ☒ No
2018 ☐ Yes ☒ No
 - b. Significant deficiency(ies) identified? 2019 ☒ Yes ☐ None Reported
2018 ☒ Yes ☐ None Reported
3. Noncompliance material to financial statements noted? 2019 ☐ Yes ☒ No
2018 ☐ Yes ☒ No

B. Federal Awards

1. Internal control over major federal programs:
 - a. Material weakness(es) identified? 2019 ☐ Yes ☒ No
2018 ☐ Yes ☒ No
 - b. Significant deficiency(ies) identified? 2019 ☒ Yes ☐ None Reported
2018 ☒ Yes ☐ None Reported
2. Type of auditor's report issued on compliance for major federal programs: 2019 - Unmodified
2018 - Unmodified
3. Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a)? 2019 ☒ Yes ☐ No
2018 ☒ Yes ☐ No

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

II. FINANCIAL STATEMENT FINDINGS (concluded)

2019-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there was no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls. This is a repeat finding of FS 2017-002.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Commission will work with each of the various officeholders on developing the required documentation of fraud risk management for each office. Many of the offices have practices of fraud risk management in place but not written policies; the County Clerk has a written policy. The County Clerk is Becky York, and her office phone number is (573)996-3215.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2019-003	Federal Grantor:	All
	Pass-Through Grantor:	All
	Federal CFDA Number:	All
	Program Title:	All
	Pass-Through Entity	
	Identification Number:	All
	Award year	2019, 2018
	Type of Finding	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective risk assessment over Federal awards, regulation and the terms and conditions of the Federal awards.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (concluded)

2019-003 Criteria: Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) require the auditee to document risk assessment over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over federal awards.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over federal awards.

Effect: No risk assessment over federal awards.

Cause: The County has not prepared the required risk assessment over federal awards. This is a repeat finding of SA 2017-001.

Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards are addressed going forward and formally documented. This is a repeat finding.

Views of responsible officials and planned corrective actions: The County practices a number of checks and balances but has not formally documented a written policy. The County is in the process of preparing the required risk assessment for federal programs and hopes to have the documentation completed for the next audit period. The phone number for the County Commission is (573) 966-3215.

THE COUNTY OF RIPLEY
DONIPHAN, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 2017-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared for the County.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Commission will work with each of the various officeholders on developing the required documentation of internal controls for each office. Many of the offices have practices of internal controls in place but not written policies; the County Clerk has a written policy. The County Clerk is Becky York, and her office phone number is (573)996-3215.

Status: The finding is repeated in the current audit period as 2019-001.

FS 2017-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the required risk assessment for federal programs and hopes to have the documentation completed for the next audit period. The phone number for the Clerk's office is (573) 966-3215.

Status: This finding is repeated as 2019-003.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

August 18, 2020

To the County Commission
The County of Ripley, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Ripley (the "County") as of and for the years ended December 31, 2019 and December 31, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

DANIEL JONES & ASSOCIATES, P.C.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls. This is a repeat finding of FS 2017-002.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (concluded)

2019-002 Views of responsible officials and planned corrective actions: The County Commission will work with each of the various officeholders on developing the required documentation of fraud risk management for each office. Many of the offices have practices of fraud risk management in place but not written policies; the County Clerk has a written policy. The County Clerk is Becky York, and her office phone number is (573)996-3215.

2019-003 Federal Grantor: All
Pass-Through Grantor: All
Federal CFDA Number: All
Program Title: All
Pass-Through Entity
Identification Number: All
Award year 2019, 2018
Type of Finding Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective risk assessment over Federal awards, regulation and the terms and conditions of the Federal awards.

Criteria: Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) require the auditee to document risk assessment over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over federal awards.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over federal awards.

Effect: No risk assessment over federal awards.

Cause: The County has not prepared the required risk assessment over federal awards. This is a repeat finding of SA 2017-001.

Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards are addressed going forward and formally documented. This is a repeat finding.

Views of responsible officials and planned corrective actions: The County practices a number of checks and balances but has not formally documented a written policy. The County is in the process of preparing the required risk assessment for federal programs and hopes to have the documentation completed for the next audit period. The phone number for the County Commission is (573) 966-3215.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards and the Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2019 and 2018 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 18, 2020.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report the schedule of expenditure of federal awards, which accompanies the financial statements but is not RSI (required supplementary information). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity. Although we were able to track receipts and transfers to the law enforcement sales tax fund for Title III funds, we were not able to determine what law enforcement used the funds for. We recommend keeping these grant funds in a separate account to properly track the expenses. Title III funds should only be used to (1) carry out activities under the Firewise Communities program to provide to homeowners in fire-sensitive ecosystems education on, and assistance with implementing, techniques in home siting, home construction, and home landscaping that can increase the protection of people and property from wildfires; (2) reimburse participating county for search and rescue and other emergency services, including firefighting, that are (a) performed on federal land and (b) paid for by the participating county; and (3) develop community wildfire protection plans in coordination with the appropriate Secretary concerned. We will review this during the next audit and if corrective action has not been implemented, a finding will be issued.

Missouri State Auditor

To the County Commission
and
Officeholders of Montgomery County, Missouri

The Office of the State Auditor contracted for an audit of the Montgomery County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

Nicole R. Galloway, CPA
State Auditor

September 2020
Report No. 2020-062

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Montgomery County

2019-001	We recommend that the county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-002	We recommend that the county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Montgomery, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Montgomery ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2019, and 2018, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2019, and 2018, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2019, and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 19, 2020, on our consideration of the County of Montgomery’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Montgomery’s internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Montgomery, Missouri (“County”), which is governed by a three-member board of commissioners, was established in 1818 by an Act of the Missouri Territory. In addition to the three Commissioners, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector of Revenue, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder of Deeds, Sheriff, Surveyor, and Treasurer.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of Montgomery County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County’s legal entity. The financial statements do not include financial data for the County’s legally separate component unit, which accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting require to be reported with the financial data of the County. In accordance with accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting, the Senate Bill 40 (DDAB) Board Fund is also not included in this report but has been audited separately by an independent certified public accountant.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2019 and 2018, for purposes of taxation, was:

	2019	2018
Real Estate	\$ 138,661,020	\$ 137,165,380
Personal Property	44,800,145	40,436,290
Railroad and Utilities	49,247,561	46,320,686
	<u>\$ 232,708,726</u>	<u>\$ 223,922,356</u>

During 2019 and 2018, the County Commission approved a \$0.8458 and \$0.8389 tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2019	2018
General Revenue Fund	\$ 0.2651	\$ 0.2582
Special Road and Bridge Fund	0.3075	0.3075
Road and Bridge	0.2732	0.2732
	<u>\$ 0.8458</u>	<u>\$ 0.8389</u>

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable,

MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions (concluded)

are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019, and 2018, the carrying amount of the County's deposits was \$2,885,707.74 and \$3,032,453.55, respectively, and the bank balance was \$12,029,077.82 and \$11,626,903.91, respectively. The total bank balances as of December 31, 2019, and 2018 were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2019, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash</u> <u>and Investment Balances – Governmental Funds</u>	
Deposits and cash equivalents	\$ 2,880,678.66
Investments	<u>5,029.08</u>

Total Deposits as of December 31, 2019	<u>\$ 11,828,879.80</u>

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits shown above are included in the financial statements at December 31, 2018, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash</u> <u>and Investment Balances – Governmental Funds:</u>	
Deposits and cash equivalents	\$ 3,027,478.08
Investments	4,975.47
Total Governmental Funds	<u>3,032,453.55</u>
<u>Statement of Assets and Liabilities Arising from Cash</u> <u>Transactions – Agency Funds:</u>	
Deposits	8,435,483.59
Total Agency Funds	<u>8,435,483.59</u>
Total Deposits as of December 31, 2018	<u>\$ 11,467,937.14</u>

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2019, and 2018.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. The County's investments were not exposed to custodial credit risk for the years ended December 31, 2019, and 2018.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2019, and 2018.

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

III. LONG-TERM DEBT

Tax Anticipation Loan

On December 3, 2018, the County received a tax anticipation loan in the amount of \$100,000 from People's Saving Bank. The County received an additional \$50,000 advance on this loan on January 3, 2019. The loan matured on January 31, 2019, with an interest rate of 3.90%.

On June 5, 2019, the County received a tax anticipation loan in the amount of \$50,000 from People's Saving Bank. The County received an additional \$50,000 advance on this loan on November 6, 2019, plus an additional \$100,000, on December 4, 2019. The loan matures on March 4, 2020 and with an interest rate of 4.50%.

As of December 31, 2019, the unpaid principal balances of the tax anticipation loan agreements were \$200,000.00.

Description	Balance Prior Year 12/31/2018	Current Year Additions	Current Year Deletions & Payments	Balance 12/31/2019	Interest Paid Current Year
Tax Anticipation Loan	\$ 100,000.00	\$ 250,000.00	\$ 150,000.00	\$ 200,000.00	\$ 2,766.77
	<u>\$ 100,000.00</u>	<u>\$ 250,000.00</u>	<u>\$ 150,000.00</u>	<u>\$ 200,000.00</u>	<u>\$ 2,766.77</u>

The future payments for the tax anticipation loan agreements of the County are as follows:

December 31,	Interest	Principal	Total
2020	\$ 2,250.00	\$ 200,000.00	\$ 202,250.00
	<u>\$ 2,250.00</u>	<u>\$ 200,000.00</u>	<u>\$ 202,250.00</u>

As of December 31, 2018, the unpaid principal balances of the tax anticipation loan agreements were \$100,000.00.

Description	Balance Prior Year 12/31/2017	Current Year Additions	Current Year Deletions & Payments	Balance 12/31/2018	Interest Paid Current Year

	<u>\$ 650.00</u>	<u>\$ 100,000.00</u>	<u>\$ 100,650.00</u>

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2019, and 2018, are as follows:

	2019		2018	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	\$ 585,212.20	\$ 51,000.00	\$ 1,024,681.34	\$ 30,000.00
Special Road and Bridge Fund	-	45,941.62	-	55,475.17
Emergency Management Fund	-	2,500.00	-	5,000.00
Emergency 911 Fund	51,000.00	-	30,000.00	-
Prosecuting Attorney Bad Check Fund	-	1,527.91	-	2,339.72
General Revenue Reserve Fund	-	-	-	421,300.00
Law Enforcement Sales Tax Fund	-	524,969.08	-	534,677.95
Collector Tax Maintenance Fund	-	64,816.79	-	5,888.50
Agency Funds	54,543.20	-	-	-
TOTAL	\$ 690,755.40	\$ 690,755.40	\$ 1,054,681.34	\$ 1,054,681.34

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement.

Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system. The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the County) are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2019, and 2018, were \$85,722.83 and \$83,844.55, respectively.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Montgomery County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Montgomery County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

accordance with Sections 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

	<u>2019 Valuation</u>
Benefit Multiplier:	1.50%
Final Average Salary:	3 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2019, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	47	8
Inactive employees entitled to but not yet receiving benefits	20	13
Active employees	59	21
	<u>126</u>	<u>42</u>

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 0.7% (General) and 2.0% (Police) of annual covered payroll.

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2019.

Actuarial Assumptions

The total pension liability in the February 28, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25% wage inflation; 2.50% price inflation
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%, net of investment expenses

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2019, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Alpha	15.00%	3.67%
Equity	35.00%	4.78%

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Changes in the Net Pension Liability

	General Division	Police Division
A. Total Pension Liability		
1 Service Cost	\$ 173,959	\$ 90,952
2 Interest on Total Pension Liability	438,021	161,752
3 Changes of Benefit Terms	-	-
4 Difference between expected and actual experience of the Total Pension Liability	71,714	69,468
5 Changes of Assumptions	-	-
6 Benefit payments, including refunds of employee contributions	(327,857)	(65,660)
7 Net change in total pension liability	355,837	256,512
8 Total pension liability - beginning	6,117,271	2,218,636
9 Total pension liability - ending	<u>\$ 6,473,108</u>	<u>\$ 2,475,148</u>
B. Plan Fiduciary Net Position		
1 Contributions - employer	\$ 6,194	\$ 10,235
2 Contributions - employee	82,582	33,920
3 Net investment income	525,084	192,486
4 Benefit payments, including refunds of employee contributions	(327,857)	(65,660)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2019, the employer recognized pension expense of \$84,308 for the general and \$30,536 for police. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	General		Police	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 72,645	\$ (62,393)	\$ 67,635	\$ (33,298)
Changes in assumptions	41,988	-	35,734	-
Net difference between projected and actual earnings on pension plan investments	-	(204,683)	-	(86,638)
Employer contributions subsequent to the measurement date	-	-	-	-
Total	\$ 114,633	\$ (267,076)	\$ 103,369	\$ (119,936)

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2019.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2020	\$ 663	\$ (569)
2021	(129,613)	(35,557)
2022	(45,173)	(6,058)
2023	19,980	14,151
2024	-	9,294
Thereafter	-	2,172
Total	<u>\$ (154,143)</u>	<u>\$ (16,567)</u>

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$14,422 and \$3,366, respectively, for the years ended December 31, 2019, and 2018.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had no COBRA participants at December 31, 2019, or at December 31, 2018.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

IX. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

XI. SUBSEQUENT EVENTS

There are no subsequent events to report as of the date of the audit report.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Montgomery, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Montgomery ("County"), as of and for the years ended December 31, 2019, and 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 19, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. (2019-001, 2019-002)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

August 19, 2020

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. FINANCIAL STATEMENT FINDINGS

2019-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Commission is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is for the next audit period. The phone number for the County Commission is 573-564-3357.

2019-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

THE COUNTY OF MONTGOMERY
MONTGOMERY CITY, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. FINANCIAL STATEMENT FINDINGS (concluded)

2019-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Commission is in the process of preparing the needed documentation to implement a formal fraud risk assessment. The expected completion date is the next audit period. The phone number for the County Commission is 573-564-3357.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

August 19, 2020

To the County Commission
The County of Montgomery, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Montgomery (the "County") as of and for the years ended December 31, 2019 and December 31, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be a significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

DANIEL JONES & ASSOCIATES, P.C.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and Government Auditing Standards

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2019 and 2018 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 19, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Carter County, Missouri

The Office of the State Auditor contracted for an audit of the Carter County's financial statements for the year ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Carter, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Carter ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2019, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2019, or changes in net position or cash flows thereof for the year then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2019, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

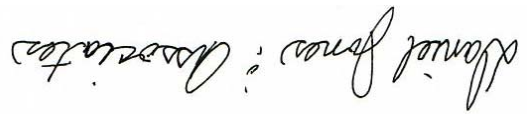

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Carter’s basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 9, 2020, on our consideration of the County of Carter's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Carter's internal control over financial reporting and compliance.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Carter, Missouri (“County”), which is governed by a three-member board of commissioners, was established in 1859 by an Act of the Missouri Territory. In addition to the three Commissioners, there are nine elected Constitutional Officers: Assessor, County Clerk, Collector, Coroner, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Prosecuting Attorney and Public Administrator. The Emergency Management Director is appointed.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the County of Carter County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County’s legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash Balances– Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2019, for purposes of taxation, was:

	<u>2019</u>
Real Estate	\$ 56,170,779
Personal Property	18,033,799
Railroad and Utilities	<u>883,583</u>
	<u>\$ 75,088,161</u>

During 2019, the County Commission approved a \$0.4165 tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	<u>2019</u>
General Revenue Fund	\$ 0.0979
Special Road and Bridge Fund	0.2153
Senior Citizen Tax Fund	0.0268
Developmentally Disabled Board Fund	<u>0.0765</u>
	<u>\$ 0.4165</u>

F. Cash Deposits and Investments

Cash deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019, the carrying amount of the County's deposits was \$1,306,744.02, and the bank balances were \$3,408,167.77. The total bank balances as of December 31, 2019, were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2019, as follows:

Included in the following fund financial statement captions:

Statements of Receipts, Disbursements and Changes
in Cash Balances – Governmental Funds:

Deposits and cash equivalents	\$ 1,306,744.02
Total Deposits as of December 31, 2019	1,306,744.02

Statements of Assets and Liabilities Arising from Cash
Transactions – Agency Funds:

Deposits and cash equivalents	2,535,839.63
Total Agency Funds	2,535,839.63
Total Deposits and cash equivalents as of December 31, 2019	\$ <u>3,842,583.65</u>

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2019.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the year ended December 31, 2019.

III. LONG-TERM DEBT

Revenue Bonds

On November 22, 2000, the County issued Sewer Revenue Bonds in the amount of \$250,000 through the U.S. Department of Agriculture used to construct the South Van Buren Sewer District. The agreement calls for monthly payments of \$1,244 for twenty-five years and carries a 4.5% interest rate. The revenue bonds mature April 30, 2033.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

III. LONG-TERM DEBT (continued)

As of December 31, 2019, the unpaid principal balance of the sewer revenue bonds was as follows:

	Balance 12/31/2018	Current year Additions	Current year Refunding & Payments	Balance 12/31/2019	Interest Paid 2019
Revenue Bonds	\$ 157,805.29	\$ -	\$ 7,990.24	\$ 149,815.05	\$ 6,937.76
Total	<u>\$ 157,805.29</u>	<u>\$ -</u>	<u>\$ 7,990.24</u>	<u>\$ 149,815.05</u>	<u>\$ 6,937.76</u>

The future payments for the sewer revenue bonds as of December 31, 2019, are as follows:

Year Ended December 31,	Principal	Interest	Total
2020	\$ 8,357.29	\$ 6,570.71	\$ 14,928.00
2021	8,741.22	6,186.78	14,928.00
2022	9,142.79	5,785.21	14,928.00
2023	9,562.81	5,365.19	14,928.00
2024	10,002.12	4,925.88	14,928.00
2025-2029	57,340.05	17,299.95	74,640.00
2030-2034	46,668.77	3,719.73	50,388.50
	<u>\$ 149,815.05</u>	<u>\$ 49,853.45</u>	<u>\$ 199,668.50</u>

Promissory Notes

On December 14, 2009, the County entered into a promissory note with the U.S. Department of Agriculture to purchase and remodel a building for a County Justice Center in the amount of \$160,000. The grant agreement calls for monthly payments of \$880.00 for twenty-five years. The rate of interest is 4.25%. The grant agreement matures on August 31, 2033.

As of December 31, 2019, the principal unpaid balances for the promissory notes of the County are as follows:

	Balance at December 31, 2018	Amount Borrowed	Amount Repaid	Balance at December 31, 2019	Interest Paid 2019
Justice Center Promissory Note	\$ 115,561.45	\$ -	\$ 115,561.45	\$ -	\$ -
Totals	<u>\$ 115,561.45</u>	<u>\$ -</u>	<u>\$ 115,561.45</u>	<u>\$ -</u>	<u>\$ -</u>

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

III. LONG-TERM DEBT (concluded)

Lease Purchases

On November 14, 2017, the County entered into a lease purchase agreement with the Missouri Development Finance Board in the amount of \$150,000.00 to finance the costs of repairs caused by the 2017 flood. The lease purchase agreement calls for twenty annual payments of \$9,891.62 and carries a 3.00% interest rate. The County's payments for the lease were deferred for 2018.

As of December 31, 2019, the unpaid principal balance for the lease purchases of the County are as follows:

	Balance at December 31, 2018	Amount Borrowed	Amount Repaid	Balance at December 31, 2019	Interest Paid During Year
Missouri Development	\$ 150,000.00	\$ -	\$ 9,891.62	\$ 140,108.38	\$ -
Totals	<u>\$ 150,000.00</u>	<u>\$ -</u>	<u>\$ 9,891.62</u>	<u>\$ 140,108.38</u>	<u>\$ -</u>

The future payments for the lease purchases as of December 31, 2019, are as follows:

Year Ended December 31,	Principal	Interest	Total
2020	\$ 9,891.62	\$ -	\$ 9,891.62
2021	5,985.12	3,906.50	9,891.62

IV. INTERFUND TRANSFERS

Transfers between funds for the year ended December 31, 2019, are as follows:

	2019	
	Transfers In	Transfers Out
General Revenue Fund	\$ 15,000.00	\$ 28,362.19
Special Road and Bridge Fund	-	15,000.00
Assessment Fund	31,362.19	-
Sheriff Federal Fund	13,660.67	-
Forest Reserve (15%) Fund	-	13,660.67
Collector Tax Maintenance Fund	-	3,000.00
TOTAL	\$ <u>60,022.86</u>	\$ <u>60,022.86</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the county) are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the year ended December 31, 2019, were \$79,865.42

VI. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County did not have any COBRA participants at December 31, 2019.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366.00 for the year ended December 31, 2019.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. This ranges from getting one week after the first year of service, to three weeks after fifteen years of service. Upon termination from county employment, an employee is reimbursed for unused vacation, if applicable. These have not been subjected to auditing procedures.

Employees in the County earn 6 days of sick leave per year and this can be accrued to a maximum of 30 calendar days. It is not paid to the employee upon separation of employment of the County.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in refunding of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

X. SUBSEQUENT EVENTS

There were no subsequent events to report as of the audit report date.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Carter, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Carter ("County"), Missouri as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 9, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To The County Commission
The County of Carter, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Carter's ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2019. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2019.

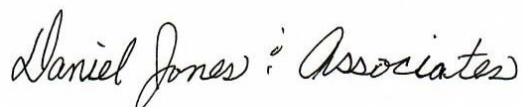

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The notes to the Schedule of Expenditures of Federal Awards are an integral part of this statement.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2019

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the “Schedule”) includes the federal award activity of the County of Carter under programs of the federal government for the year ended December 31, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Carter, it is not intended to and does not present the financial position, changes in net assets, or cash flows, of the County of Carter.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 – INDIRECT COST RATE

The County has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4 – SUB-RECIPIENTS

Of the federal expenditures presented in the accompanying schedule of expenditures of federal awards, the County provided federal awards to sub-recipients as follows:

Program Title	Sub-Recipients	Federal CFDA Number		Amount Provided to Sub- Recipients
Schools and Roads – Grants to States	Van Buren R-I School District	10.665	2019	\$ 94,901.50
Schools and Roads – Grants to States	East Carter R-II School District	10.665	2019	26,790.88
National Forest Acquired Lands	Van Buren R-I School District	15.438	2019	75,436.24
National Forest Acquired Lands	East Carter R-II School District	15.438	2019	21,295.80
				<u>\$ 218,424.42</u>

6. Auditee qualified as low-risk auditee? 2019 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

There were no financial statement findings noted for the year ended December 31, 2019.

THE COUNTY OF CARTER
VAN BUREN, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2019

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

2018-001 Criteria: The County's deposits held by financial institutions must be fully collateralized through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our review of the County's bank accounts, it was noted that the County's deposits were under-collateralized for the year ended December 31, 2018.

Context: The County's bank accounts were under-collateralized for the year ended December 31, 2018.

Effect: There is a risk that the County's under-collateralized bank balances may not be returned to the County because the balances were not fully collateralized with coverage under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: The County Treasurer should periodically review with the bank that its deposits are fully collateralized with securities pledged and FDIC insurance.

Views of Responsible Officials and Planned Corrective Actions: The County Treasurer will monitor this closer in the future and the bank is also aware of the issue. The Treasurer is Velvet Ricker and her office number is 573-323-8271.

Status: This finding has been resolved in the current audit period.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There were no federal award findings or questioned costs noted for the year ended December 31, 2018.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

July 9, 2020

To the Board of Commissioners
County of Carter

In planning and performing our audit of the regulatory based financial statements of the County of Carter (the "County") as of and for the year ended December 31, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, material weaknesses may exist that have not been identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our comments concerning internal control and other significant matters are presented as follows:

I. Information Required by Professional Standards

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards and the Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2019 fiscal year. We noted no transactions entered into by the county during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 9, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the schedule of expenditure of federal awards, which accompanies the financial statements but is not RSI (required supplementary information). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Bates County, Missouri

The Office of the State Auditor contracted for an audit of the Bates County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

Nicole R. Galloway, CPA
State Auditor

September 2020
Report No. 2020-060

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Bates County

2019-001	We recommend that the county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-002	We recommend that the county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.
2019-003	We recommend that the Collector's office prepare accurate bank reconciliations for this account.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Bates, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Bates ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2019, and 2018, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

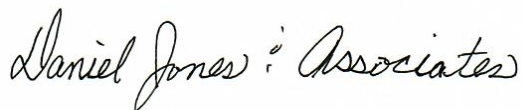

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2019, and 2018, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2019, and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 19, 2020, on our consideration of the County of Bates’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Bates’s internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Bates, Missouri (“the County”), which is governed by a three-member board of commissioners, was established in 1841 by an Act of the Missouri Territory. In addition to the three Commissioners, there are 10 elected Constitutional Officers: County Clerk, Collector-Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator, County Surveyor/Engineer and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County’s operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services and cultural and recreation services.

The financial statements referred to above include only the primary government of the County of Bates, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County’s legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector-Treasurer and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2019 and 2018, for purposes of taxation, was:

	2019	2018
Real Estate	\$ 143,716,250	\$ 139,981,130
Personal Property	54,027,207	53,251,597
Railroad and Utilities	36,014,095	34,680,945
	<u>\$ 233,757,552</u>	<u>\$ 227,913,672</u>

During 2019 and 2018, the County Commission approved a \$0.4633 and \$0.4633, respectively, tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2019	2018
General Revenue Fund	\$ 0.2724	\$ 0.2724
Senate Bill 40 Fund	0.0503	0.0503
Senior Services Board Fund	0.1406	0.1406
	<u>\$ 0.4633</u>	<u>\$ 0.4633</u>

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on a weighted average of cash balance. Cash equivalents include any instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019, and 2018, the carrying amount of the County's deposits was \$5,054,188.88 and \$5,294,655.16. The bank balance was \$16,175,329.99 and \$15,568,155.02, respectively. As of December 31, 2019 and 2018, the County's deposits were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2019, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes
in Cash Balances – Governmental Funds:

Deposits	\$ 5,054,188.88
Total Governmental Funds	5,054,188.88

Transactions – Agency Funds:

Deposits	10,947,084.32
Total Agency Funds	10,947,084.32

Total Deposits as of December 31, 2019	<u>\$ 16,001,273.20</u>
--	-------------------------

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits shown above are included in the financial statements at December 31, 2018, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes
in Cash Balances – Governmental Funds:

Deposits	\$ 5,294,655.16
Total Governmental Funds	5,294,655.16

Statement of Assets and Liabilities Arising From Cash
Transactions – Agency Funds:

Deposits	10,110,163.07
Total Agency Funds	10,110,163.07

Total Deposits as of December 31, 2018	\$ <u>15,404,818.23</u>
--	-------------------------

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ending December 31, 2019, and 2018.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has a policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ending December 31, 2019, and 2018.

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

III. LONG-TERM DEBT

On March 7, 2018, the County entered into a lease certificates of participation agreement with LJ Hart and Company for \$6,580,000. Principal and interest payments are due April 15 and interest only payments are due every October 15, with variable interest rates ranging from 1.75% to 4.00%.

As of December 31, 2019, the unpaid principal balance of the lease purchase was \$6,150,000. The changes in long-term debt for the lease certificates of participation are as follows:

Balance 12/31/2018	Additions	Payments	Balance 12/31/2019	Interest Paid
<u>\$6,580,000.00</u>	<u>\$ -</u>	<u>\$430,000.00</u>	<u>\$6,150,000.00</u>	<u>\$190,500.00</u>
December 31,	Interest	Principal	Total

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

IV. CAPITAL LEASES

On March 23, 2018, Bates County entered into a lease purchase agreement with First Capital Equipment Leasing Corporation for 9 Ford Police Interceptor vehicles. The lease purchase is in the amount of \$196,000 with 3 annual payments of \$69,266.94. The lease purchase agreement carries an interest rate of 4.214%.

On October 25, 2018, Bates County entered into a lease purchase agreement with First Capital Equipment Leasing Corporation for 2012 B6 Armored F-550 Officer Transport Truck. The lease purchase is in the amount of \$87,000 with 5 annual payments of \$19,808.63. The lease purchase agreement carries an interest rate of 5.791%.

As of December 31, 2019, the unpaid principal balances of the capital leases were \$135,434.82. The changes in long-term debt for the capital leases are as follows:

Description	Balance 12/31/2018	Current Year Additions	Current Year Deletions and Payments	Balance 12/31/2019	Interest Paid
9 Police Interceptors	\$ 130,244.49	\$ -	\$ 63,778.44	\$ 66,466.05	\$ 5,488.50
Armored F-550	87,000.00	-	18,031.23	68,968.77	1,777.40
	<u>\$ 217,244.49</u>	<u>\$ -</u>	<u>\$ 81,809.67</u>	<u>\$ 135,434.82</u>	<u>\$ 7,265.90</u>

The future payments for the capital leases of the County are as follows:

December 31,	Interest	Principal	Total
2020	\$ 6,794.86	\$ 82,280.71	\$ 89,075.57
2021	3,078.16	16,730.47	19,808.63
2022	2,109.29	17,699.34	19,808.63
2023	1,084.32	18,724.30	19,808.62
	<u>\$ 13,066.63</u>	<u>\$ 135,434.82</u>	<u>\$ 148,501.45</u>

As of December 31, 2018, the unpaid principal balances of the capital leases were \$217,244.49. The changes in long-term debt for the capital leases are as follows:

Description	Balance 12/31/2017	Current Year Additions	Current Year Deletions and Payments	Balance 12/31/2018	Interest Paid
9 Police Interceptors	\$ -	\$ 196,000.00	\$ 65,755.51	\$ 130,244.49	\$ 3,511.43
Armored F-550	-	87,000.00	-	87,000.00	-
	<u>\$ -</u>	<u>\$ 283,000.00</u>	<u>\$ 65,755.51</u>	<u>\$ 217,244.49</u>	<u>\$ 3,511.43</u>

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

IV. CAPITAL LEASES (concluded)

The future payments for the capital leases of the County are as follows:

<u>December 31,</u>	<u>Interest</u>	<u>Principal</u>	<u>Total</u>
2019	\$ 7,265.90	\$ 81,809.67	\$ 89,075.57
2020	6,794.86	82,280.71	89,075.57
2021	3,078.16	16,730.47	19,808.63
2022	2,109.29	17,699.34	19,808.63
2023	1,084.32	18,724.30	19,808.62
	<u>\$ 20,332.53</u>	<u>\$ 217,244.49</u>	<u>\$ 237,577.02</u>

V. OPERATING LEASES

On April 1, 2019, the County entered into an operating lease with Mobilis Technologies LLC for records management software and hardware. Monthly charges are \$1,000, but are billed quarterly. This is a 5 year lease starting June 2019 and ends May 2024. The lease will automatically renew for 1 year periods unless terminated.

2019 Future Minimum Payments for Operating Leases:

<u>Year Ending</u> <u>December 31,</u>	<u>Total</u> <u>Minimum</u> <u>Payments</u>
2020	\$ 12,000.00
2021	12,000.00
2022	12,000.00
2023	12,000.00
2024	5,000.00
	<u>\$ 53,000.00</u>

VI. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2019 and 2018 are as follows:

	<u>2019</u>		<u>2018</u>	
	<u>Transfers In</u>	<u>Transfers Out</u>	<u>Transfers In</u>	<u>Transfers Out</u>
General Revenue Fund	\$ -	\$ -	\$ 40,000.00	\$ -
Special Road and Bridge Fund	-	-	-	40,000.00
TOTAL	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 40,000.00</u>	<u>\$ 40,000.00</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system. The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the County) are refunded

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2019, and 2018 were \$317,277.99 and \$269,603.52, respectively.

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$11,628 and \$11,628, respectively, for the years ended December 31, 2019, and 2018.

IX. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had no COBRA participants at December 31, 2019 or December 31, 2018.

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Only regular employees who have completed their three-month introductory period are eligible to receive vacation time. Vacation time must be used in its entirety within the year that it is earned, and unused time is forfeited at the year end. Vacation time is not paid out if the employment terminates. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as not appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

THE COUNTY OF BATES
BUTLER, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

XI. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence for 2019 and \$2,000,000 per occurrence for 2018. It is then reinsured up to the statutory limit through excess insurance.

XII. SUBSEQUENT EVENTS

There were no subsequent events to be reported as of the audit report date

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Bates, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Bates ("County") as of and for the years ended December 31, 2019, and 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 19, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. (2019-001, 2019-002 and 2019-003)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

August 19, 2020

THE COUNTY OF BATES
BUTLER, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. FINANCIAL STATEMENT FINDINGS

2019-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Marlene Wainscott) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (660) 679-3371.

2019-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

THE COUNTY OF BATES
BUTLER, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. FINANCIAL STATEMENT FINDINGS (concluded)

2019-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Marlene Wainscott) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (660) 679-3371.

2019-003 Criteria: Bank reconciliations must be accurately prepared for the Collector's accounts.

Condition: We noted that the bank reconciliations for the Collector did not reconcile back to the bank statement.

Context: During our audit procedures of cash we reviewed the bank reconciliations for the Collector's office.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Collector's office prepare accurate bank reconciliations for this account.

Views of Responsible Officials and Planned Corrective Actions: The County Collector's Office (Jimmy Platt) will modify the bank reconciliations to the recommended format. The County Collector's office phone number is (660) 679-3341.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

August 19, 2020

To the County Commission
The County of Bates, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Bates (the "County") as of and for the years ended December 31, 2019 and December 31, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be a significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

DANIEL JONES & ASSOCIATES, P.C.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2019-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Marlene Wainscott) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (660) 679-3371.

2019-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (concluded)

2019-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Marlene Wainscott) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (660) 679-3371.

2019-003 Criteria: Bank reconciliations must be accurately prepared for the Collector's accounts.

Condition: We noted that the bank reconciliations for the Collector did not reconcile back to the bank statement.

Context: During our audit procedures of cash we reviewed the bank reconciliations for the Collector's office.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Collector's office prepare accurate bank reconciliations for this account.

Views of Responsible Officials and Planned Corrective Actions: The County Collector's Office (Jimmy Platt) will modify the bank reconciliations to the recommended format. The County Collector's office phone number is (660) 679-3341.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards and the Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2019 and 2018 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 19, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Other Matters

We made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by July 31, 2020, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in July 2020, after their filing deadline. The filing status for these 186 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name and title.

Monthly Report on Political Subdivision Filings

July 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of January 31, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 9 filed an annual financial report timely.

This report also includes the filing status for 186 political subdivisions, other than cities, towns, and villages, that filed their financial report in July 2020, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipality required to file a financial report by July 31, 2020, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 1 city is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in July 2020, after their filing deadline. The filing status for these 44 cities, 2 towns, and 10 villages is presented in summary on pages 3 and 4 and by individual entity in Appendixes B to G.

Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

July 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 1 city with a fiscal year end of January 31, 2020, whose financial report was due by July 31, 2020. That 1 municipality filed the report timely. No municipalities were required to file an addendum or certification.

This report includes the filing status for 44 cities, 2 towns, and 10 villages that filed at least one of the items (financial report, addendum, or certification)

Monthly Report on Municipal Court and Revenue Filings
July 2020
Executive Summary

in July 2020, after their filing deadline. Of these municipalities, 42 filed an annual financial report, 15 filed an addendum, and 13 filed a certification.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Polk County, Missouri

The Office of the State Auditor contracted for an audit of Polk County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

Nicole R. Galloway, CPA
State Auditor

August 2020
Report No. 2020-057

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Polk County

2019-001	We recommend that the county adopt a budget for all funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes. Additionally, the county should closely monitor fund balances on an ongoing basis in order to prevent negative fund balances.
2019-002	We recommend that the county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.
2019-003	We recommend management develop internal controls over reporting and consult with external consultants, if possible, to ensure an accurate SEFA is prepared.

Independent Auditor's Report

To the County Commission and
Officeholders of Polk County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Polk County, Missouri, as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Polk County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Polk County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Polk County, Missouri as of December 31, 2019 and 2018, or changes in financial position or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Polk County, Missouri as of December 31, 2019 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Matters

Other Information

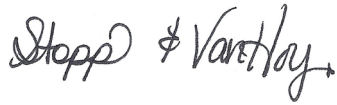

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Polk County, Missouri's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 8, 2020 on our consideration of Polk County, Missouri's internal control over financial reporting and on our tests of

its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Polk County, Missouri's internal control over financial reporting and compliance.

A handwritten signature in black ink, appearing to read "Stopp & VanHay". The signature is written in a cursive, flowing style.

**The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies

Organized in 1835, the county of Polk was named after former U.S. President James K. Polk. It is a third-class county, and the county seat is Bolivar. Polk County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Polk County, Missouri, the Polk County Senior Citizens Service Board, and the Polk County Senate Bill 40 Board.

Polk County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Polk County, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Polk County's legal entity. The Senior Citizens Service Board and the Senate Bill 40 Board are controlled by separate boards and are also included under the control of the County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statements of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Polk County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Polk County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, Polk County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute RSMo. Chapter 50. The following funds had actual expenditures which exceeded the budgeted expenditures in 2019: Senate Bill 40 Board Fund. The following funds had an ending deficit fund balance in 2018: Deputy Sheriff Salary Supplement Fund and Prosecuting Attorney Training Fund.

The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within Polk County's boundaries for the calendar year 2019 and 2018, respectively, for the purposes of County taxation was as follows:

	<u>2019</u>	<u>2018</u>
Real Estate	\$ 238,733,780	\$ 219,004,370
Personal Property	74,965,470	70,926,944
Railroad and Utilities	29,999,912	23,930,627
	<u>\$ 343,699,162</u>	<u>\$ 313,861,941</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2019 and 2018, respectively, for the purpose of County taxation, was as follows:

	<u>2019</u>	<u>2018</u>
General Revenue Fund	\$ 0.3094	\$ 0.3250
Special Road and Bridge Fund	0.2662	0.2811
Senior Citizens Service Board Fund	0.0476	0.0500
Senate Bill 40 Board Fund	0.0200	0.0210

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Polk County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

**The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Polk County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statements of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown below are included in the financial statements at December 31, 2019, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 13,947,369	\$ 13,977,196
Investments	3,070,000	3,070,000
Total Deposits and Investments as of December 31, 2019	<u>\$ 17,017,369</u>	<u>\$ 17,047,196</u>
Total Cash and Equivalents - Governmental Funds	\$ 5,812,246	
Total Cash and Equivalents - Agency Funds	11,205,123	
	<u>\$ 17,017,369</u>	

The carrying values and bank balances of deposits and investments shown below are included in the financial statements at December 31, 2018, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 13,357,836	\$ 13,403,613
Investments	3,070,000	3,070,000
Total Deposits and Investments as of December 31, 2018	<u>\$ 16,427,836</u>	<u>\$ 16,473,613</u>
Total Cash and Equivalents - Governmental Funds	\$ 5,835,181	
Total Cash and Equivalents - Agency Funds	10,592,655	
	<u>\$ 16,427,836</u>	

**The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2019 and 2018, 100% of Polk County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Polk County or its agent but not in the government's name. Polk County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of Polk County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Polk County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Polk County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	2019 Balance	% of Portfolio	2018 Balance	% of Portfolio
Oakstar Bank	Cert. of Deposit	\$ 3,070,000	100.00%	\$ 2,400,000	78.18%
Farmers State Bank	Cert. of Deposit	-	n/a	670,000	21.82%

Note 3 - Long-Term Debt

On June 16, 2014, the County entered into a \$1,400,000 lease purchase agreement with U.S. Bancorp Government Leasing and Finance, Inc. for courthouse improvements, payable in ten annual payments of \$159,446 with a final payment due June 16, 2024. The lease agreement carries an interest rate of 2.411%.

**The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 3 - Long-Term Debt (continued)

On June 12, 2015, the County entered into a \$192,424 lease purchase agreement with Caterpillar Financial Services Corporation for a motor grader, payable in four annual payments of \$16,453 with a final payment of \$150,453 due July 15, 2020. The lease agreement carries an interest rate of 2.710%. On May 19, 2020, the County refinanced the lease purchase agreement for \$137,000 to be payable in four semiannual payments of \$10,671 with a final payment of \$115,800 due September 15, 2022. The new lease agreement carries an interest rate of 6.985%.

On July 31, 2015, the County entered into a \$660,756 lease purchase agreement with Deere Credit Inc. for three 672G motor graders, payable in five annual payments of \$50,369 and a final payment of \$417,000 due on August 31, 2020. The lease agreement carries an interest rate of 0.283%.

On October 2, 2015, the County entered into a \$192,424 lease purchase agreement with Caterpillar Financial Services Corporation for a motor grader payable in four annual payments of \$16,453 with a final payment of \$150,453 due October 2, 2020. The lease agreement carries an interest rate of 2.710%.

On September 26, 2016, the County entered into \$128,800 lease purchase agreement with Deere Credit, Inc. for a 670G motor grader, payable in two annual payments of \$67,102 with a final payment due September 26, 2018. The lease agreement carries an interest rate of 2.750%.

On November 18, 2018, the County entered into a \$94,902 lease purchase agreement with Deere Credit Inc. for a Loader Backhoe payable in one annual payment of \$47,450 and a second annual payment of \$50,274 due February 19, 2020. The lease agreement carries an interest rate of 5.790%.

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under RSMo. Sections 56.800 to 56.840, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under RSMo. Sections 57.949 to 57.997, and certain personnel not defined as an employee per RSMo. Section 50.1000(8). The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

**The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 5 - State of Missouri County Employees' Retirement Fund (CERF) (continued)

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2019 and 2018, the County remitted to CERF, employee contributions of \$157,525 and \$145,823, respectively, for the years ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchants' and manufacturers' license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$238,277 and \$204,612 for the years ended December 31, 2019 and 2018, respectively.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

**The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute RSMo. Section 56.807, Polk County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$11,628 and \$11,628, respectively, for the years ended December 31, 2019 and 2018.

Note 7 - Other Retirement Plans

Polk County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which are paid by deductions from employees' salaries. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 457 plan were \$48,361 and \$53,851, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 401(a) plan were \$19,813 and \$18,488, respectively.

Note 8 - Post Employment Benefits

Polk County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Polk County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County is subject to various claims and legal proceedings covering a wide range of matters in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. This ranges from getting one week after the first year of service, two weeks after two years of service, and three weeks after 10 years of service. Upon termination from county employment, an employee is reimbursed for unused vacation leave, if applicable. County employees receive personal days when they start, after 90 days of continuous employment. An employee is not reimbursed for unused personal time upon termination of employment. Full-time employees earn 4 hours per month of sick time, up to a maximum of 240 hours. Upon voluntary termination, employees will be compensated for half of their unused sick time if the employee provides two weeks' notice. Employees may not be compensated for unused sick time if involuntarily terminated.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

**The County of Polk
Bolivar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 9 - Claims, Commitments, and Contingencies (continued)

Other Commitments

Part of the County's taxing district contains a development area subject to an Enhanced Enterprise Zone (EEZ) plan where the County must abate 100% of the real property tax assessed on improvements. If approved, the abatements within the EEZ must continue for 10 years if the business maintains operations and eligibility. Future amounts abated are based on maintaining operations and eligibility and cannot be estimated. The County is committed to abating these taxes through the year ended December 31, 2029.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through July 8, 2020, the date the financial statements were available to be issued.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of multiple organizations. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the County expects this matter to negatively impact its operating results. However, the related financial impact and duration cannot be estimated at this time.

On May 19, 2020, the County refinanced the June 12, 2015 lease purchase agreement for \$137,000. See Note 3 for more details.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Polk County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Polk County, Missouri as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Polk County, Missouri's basic financial statements, and have issued our report thereon dated July 8, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Polk County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Polk County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Polk County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2019-002 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Polk County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the schedule of findings and questioned costs as item 2019-001.

Polk County, Missouri's Responses to Findings

Polk County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Polk County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Creve Coeur, Missouri
July 8, 2020

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT
ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE
UNIFORM GUIDANCE

Independent Auditor's Report

To the County Commission and
Officeholders of Polk County, Missouri

Report on Compliance for Each Major Federal Program

We have audited Polk County, Missouri's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Polk County, Missouri's major federal programs for the years ended December 31, 2019 and 2018. Polk County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Polk County, Missouri's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Polk County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Polk County, Missouri's compliance.

Opinion on Each Major Federal Program

In our opinion, Polk County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2019 and 2018.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2019-003. Our opinion on each major federal program is not modified with respect to these matters.

Polk County, Missouri's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Polk County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

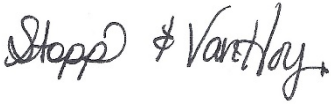

Management of Polk County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Polk County, Missouri's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Polk County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2019-003, that we consider to be a significant deficiency.

Polk County, Missouri's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Polk County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in black ink, reading "Stopp & VanHoy". The signature is written in a cursive, flowing style.

Notes to the Schedule of Expenditures of Federal Awards
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This Uniform Guidance requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA number is not available.

This schedule includes all federal awards administered by Polk County, Missouri.

Basis of Presentation

The *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Because the Schedule presents only a selected portion of the operations of Polk County, Missouri, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Polk County, Missouri.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

Polk County, Missouri has not elected to use the 10% de minimis indirect cost rate.

Bolivar, Missouri
Schedule of Findings and Questioned Costs
For the years ended December 31, 2019 and 2018**

Section 2 - Financial Statement Findings

2019-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget and funds are not to be budgeted at a deficit. Additionally, expenditures are not to exceed available funds, resulting in a deficit fund balance available.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute RSMo. Chapter 50. The following funds had actual expenditures which exceeded the budgeted expenditures in 2019: Senate Bill 40 Board Fund. The following funds had an ending deficit fund balance in 2018: Deputy Sheriff Salary Supplement Fund and Prosecuting Attorney Training Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds and expending funds in excess of funds available in certain funds.

Recommendation: We recommend that the County adopt a budget for all funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes. Additionally, the County should closely monitor fund balances on an ongoing basis in order to prevent negative fund balances.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (417) 326-4031.

2019-002 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (417) 326-4031.

**The County of Polk
Bolivar, Missouri
Schedule of Findings and Questioned Costs
For the years ended December 31, 2019 and 2018**

Section 3 - Federal Award Findings and Questioned Costs

2019-003 Federal Grantor: All Programs
Pass-Through Grantor: All Programs
Federal CFDA Number: All Programs
Program Title: All Programs

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, CFDA title and number, award number, name of the Federal agency, name of pass-through entity, and awards paid to subrecipients.

Condition: During our audit, we noted the SEFA contained errors. The County's current internal controls over SEFA reporting are not sufficient enough to ensure correct SEFA reporting.

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Effect: Federal expenditures reported in the SEFA were incorrect.

Recommendation: We recommend management develop internal controls over reporting and consult with external consultants, if possible, to ensure an accurate SEFA is prepared.

Management's Response: Title 2 U.S. *Code of Federal Regulations* Part 200 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (417) 326-4031.

**The County of Polk
Bolivar, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2019 and 2018**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Polk County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2015 and 2014.

Prior Year Financial Statement Findings

2015-001 **Condition:** We noted two areas of noncompliance with State Statutes regarding the County's budgeting process during 2015 and 2014, as follows: a) Adoption of formal budget is required by law. However, the County did not adopt a formal budget for the Sheriff's Special Operations Fund in 2015 and 2014. b) Actual expenditures exceeded budgeted expenditures for the Senate Bill 40 Fund in 2015 and 2014. State statutes prohibit the County from approving expenditures in excess of the authorized budgeted amount for any County fund. This requirement ensures that expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting.

Recommendation: We recommend the County Commission and County Clerk ensure compliance with State Statutes by adopting a formal budget for all funds and refraining from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to finance current year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

County's Response: We are scheduled to amend the budget on August 16, 2016, at that time we will adopt a formal budget for the Sheriff's Special Operation Fund as per recommendation of the auditors.

2014 is when we started working with the Center for Human Services and we did not have any idea what kind of revenues or expenditures would be associated with this relationship. In the future, the Senate Bill 40 Board will take into consideration when setting the budget expenditures to include any possible requests that may come before the Board during the budget year and budget accordingly, as to not go over in expenditures.

Auditor's Evaluation: The responses are appropriate to correct the concern.

Status: Management has not corrected this issue; therefore, this finding is repeated as 2019-001 in the current year.

Polk County, Missouri Corrective Action Plan

Corrective Action Plan – 2019-001

Finding: During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute RSMo. Chapter 50.

Contact Person Responsible for Corrective Action: Polk County Clerk

Corrective Action Planned: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary.

Anticipated Completion Date: December 31, 2020

Corrective Action Plan – 2019-002

Finding: During our audit, we noted there is no formal fraud risk assessment in place.

Contact Person Responsible for Corrective Action: Polk County Clerk

Corrective Action Planned: The County will work to prepare a risk assessment procedure.

Anticipated Completion Date: December 31, 2020

Corrective Action Plan – 2019-003

Finding: Management has not implemented internal controls related to the preparation of the Schedule of Expenditures of Federal Awards (SEFA). During our audit we noted the SEFA contained errors.

Contact Person Responsible for Corrective Action: Polk County Clerk

Corrective Action Planned: Title 2 U.S. *Code of Federal Regulations* Part 200 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period.

Anticipated Completion Date: December 31, 2020

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Linn County, Missouri

The Office of the State Auditor contracted for an audit of the Linn County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

Nicole R. Galloway, CPA
State Auditor

August 2020
Report No. 2020-056

Recommendations in the contracted audit of Linn County

2019-001	The County Treasurer should periodically review with the bank that its deposits are fully collateralized with securities pledged and FDIC insurance.
2019-002	We recommend that the county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-003	The county should implement procedures to ensure that the documentation of internal controls over federal awards is addressed going forward.
2019-004	The county should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The county should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Linn, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Linn ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2019, and 2018, and the related statements of cash receipts and disbursements and disbursements - budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2019, and 2018, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2019, and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Linn’s basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 16, 2020, on our consideration of the County of Linn's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Linn's internal control over financial reporting and compliance.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Linn, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1837 by an Act of the Missouri Territory. In addition to the three Commissioners, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector-Treasurer, Coroner, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of the County of Linn, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The SB40 Board and 911 have separate audits.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector-Treasurer and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1, and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2019 and 2018, for purposes of taxation, was:

	2019	2018
Real Estate	\$ 90,989,029	\$ 89,408,942
Personal Property	49,922,644	47,072,365
Railroad and Utilities	29,027,272	24,992,842
	<u>\$ 169,938,945</u>	<u>\$ 161,474,149</u>

During 2019 and 2018, the County Commission approved a \$0.1216 and 0.1213, respectively, tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2019	2018
General Revenue Fund	\$ 0.0725	\$ 0.0725
Senior Citizens' Services Fund Board Fund	0.0491	0.0488
	<u>\$ 0.1216</u>	<u>\$ 0.1213</u>

F. Cash and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS

The County maintains a cash investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019, and 2018, the carrying amounts of the County's deposits were \$3,866,257.19 and \$3,676,838.94, and the bank balances were \$11,452,713.19 and \$9,591,114.01, respectively. The total bank balances as of December 31, 2019, and 2018 were not fully insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2019, as follows:

--	--------------------------------

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

II. DEPOSITS (concluded)

The carrying values of deposits at December 31, 2018, are as follows:

Included in the following fund financial statement captions:

<u>Statement of Receipts, Disbursements and Changes in</u> <u>Cash Balances -</u>	
Deposits	\$ 3,676,838.94
Total Governmental Funds	3,676,838.94
<u>Statement of Assets and Liabilities Arising from Cash Transactions</u> <u>- Agency Funds:</u>	
Deposits	8,399,852.61
Total Agency Funds	8,399,852.61
 Total Deposits as of December 31, 2018	 \$ 12,076,691.55

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2019, and 2018.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2019, and 2018.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

III. LONG-TERM DEBT

On November 26, 2019, Linn County entered into a lease purchase agreement with Preferred Bank in the amount of \$84,745.80 for the purchase of Motorola Radio Equipment. The Lease Purchase agreement calls for sixty monthly payments of \$1,541.71 and carries a 3.50% interest rate.

As of December 31, 2019, the schedule of future payments of the lease purchase agreement of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2020	\$ 2,675.53	\$ 15,824.99	\$ 18,500.52
2021	2,104.74	16,395.78	18,500.52
2022	1,521.58	16,978.94	18,500.52
2023	917.68	17,582.84	18,500.52
2024	293.68	16,665.13	16,958.81
	<u>\$ 7,513.21</u>	<u>\$ 83,447.68</u>	<u>\$ 90,960.89</u>

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2019, and 2018 are as follows:

	2019		2018	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	\$ 81,921.62	\$ -	\$ 60,942.00	\$ -
Special Road and Bridge Fund	<u>-</u>	<u>81,921.62</u>	<u>-</u>	<u>60,942.00</u>
TOTAL	<u>\$ 81,921.62</u>	<u>\$ 81,921.62</u>	<u>\$ 60,942.00</u>	<u>\$ 60,942.00</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2019, and 2018, were \$149,417.70 and \$145,909.37, respectively.

VI. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had no COBRA participants at December 31, 2019, and December 31, 2018.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 and \$3,366, respectively, for the years ended December 31, 2019, and 2018.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for unused vacation if vested and overtime if applicable. Unused sick time is not reimbursed. These have not been subjected to auditing procedures.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Linn, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Linn ("County") as of and for the years ended December 31, 2019, and 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 16, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2019-001 and 2019-002 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County's Responses to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To the County Commission
The County of Linn, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Linn's ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2019, and 2018. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2019, and 2018.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2019-003 and 2019-004. Our opinion on each major federal program is not modified with respect to these matters.

The County's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

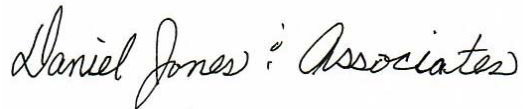

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2019-003 and 2019-004 that we consider to be significant deficiencies.

The County's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

THE COUNTY OF LINN
LINNEUS, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
DECEMBER 31, 2019 AND 2018

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the “Schedule”) includes the federal award activity of the County of Linn under programs of the federal government for the years ended December 31, 2019, and 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Linn, it is not intended to and does not present the financial position, changes in net assets, or cash flows, of the County of Linn.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 – INDIRECT COST RATE

The County of Linn has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4 – SUBRECIPIENTS

The County provided no federal awards to subrecipients during the years ended December 31, 2019, and 2018.

THE COUNTY OF LINN
LINNEUS, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

THE COUNTY OF LINN
LINNEUS, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

II. FINANCIAL STATEMENT FINDINGS (concluded)

2019-002 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County does have an Internal Control Narratives and Policy already in place. A folder is prepared for each grant based on budget and the grant amount. Bills are approved by Commissioners and paid the balance monthly. The County will continue to develop internal control procedures accordingly. The Commission's phone number is (660) 895-5547.

THE COUNTY OF LINN
LINNEUS, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2019, AND 2018

2019-003

Federal Grantor:	All federal grantors listed on SEFA schedule
Pass-Through Grantor:	All pass-through grantors listed on SEFA schedule
Federal CFDA Number:	All federal CFDA numbers listed on SEFA schedule
Program Title:	All program titles listed on SEFA schedule
Pass-Through Entity Identifying Number:	All pass-through entity identifying numbers listed on SEFA schedule
Award Year:	2019 and 2018
Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective internal controls over Federal awards, regulation and the terms and conditions of the Federal awards.

Criteria: Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards requires the auditee to document internal controls over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required internal control documentation over federal awards.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required internal control documentation over federal awards.

Effect: No documentation of internal controls over federal awards.

Cause: The County was not aware of this required assessment under the Uniform Guidance for the 2019-2018 audit years.

Recommendation: The County should implement procedures to ensure that the documentation of internal controls over federal awards is addressed going forward.

Views of responsible officials and planned corrective actions: The County has an Internal Control Policy in place. Each federal program director will be implementing internal controls for each individual grant and will be completed by the next audit period. The Commission's phone number is (660) 895-5547.

THE COUNTY OF LINN
LINNEUS, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2019, AND 2018 (concluded)

2019-004

Federal Grantor:	All federal grantors listed on SEFA schedule
Pass-Through Grantor:	All pass-through grantors listed on SEFA schedule
Federal CFDA Number:	All federal CFDA numbers listed on SEFA schedule
Program Title:	All program titles listed on SEFA schedule
Pass-Through Entity Identifying Number:	All pass-through entity identifying numbers listed on SEFA schedule
Award Year:	2019 and 2018
Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: The Uniform Guidance requires the auditee to prepare the Schedule of Expenditures of Federal Awards in accordance with 2 CFR Section 200.502, Basis for Determining Federal Awards Expended.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards. Prior to these corrections, the Schedule of Expenditures of Federal Awards was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards.

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards.

Recommendation: The County should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

Views of responsible officials and planned corrective actions: The County will be implementing a tracking system for monitoring each grant individually and continue in its efforts to prepare a schedule of expenditures of federal awards with correct information. The Commission's phone number is (660) 895-5547.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

July 16, 2020

To the County Commissioners
The County of Linn, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Linn (the "County") as of and for the years ended December 31, 2019, and 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in the County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. The responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2019-001 Criteria: The County's deposits held by financial institutions must be fully collateralized through the Federal Deposit Insurance Corporation (FDIC) or securities pledged by the financial institution.

Condition: During our review of the County's bank accounts, it was noted that the County's deposits were under-collateralized for the years ended December 31, 2019 and December 31, 2018.

Context: The County's bank accounts were under-collateralized for the years ended December 31, 2019 and December 31, 2018.

Effect: There is a risk that the County's under-collateralized bank balances may not be returned to the County because the balances were not fully collateralized with coverage under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: The County Treasurer should periodically review with the bank that its deposits are fully collateralized with securities pledged and FDIC insurance.

Views of Responsible Officials and Planned Corrective Actions: The bank was made aware that this happened and said they would watch the collateral pledges more closely. Also, the Collector-Treasurer will watch them better. The Commission's phone number is (660) 895-5547.

2019-002 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

2019-002 Views of Responsible Officials and Planned Corrective Actions: The County does have an Internal Control Narratives and Policy already in place. A folder is prepared for each grant based on budget and the grant amount. Bills are approved by Commissioners and paid the balance monthly. The County will continue to develop internal control procedures accordingly. The Commission's phone number is (660) 895-5547.

2019-003

Federal Grantor:	All federal grantors listed on SEFA schedule
Pass-Through Grantor:	All pass-through grantors listed on SEFA schedule
Federal CFDA Number:	All federal CFDA numbers listed on SEFA schedule
Program Title:	All program titles listed on SEFA schedule
Pass-Through Entity Identifying Number:	All pass-through entity identifying numbers listed on SEFA schedule
Award Year:	2019 and 2018
Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective internal controls over Federal awards, regulation and the terms and conditions of the Federal awards.

Criteria: Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* requires the auditee to document internal controls over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required internal control documentation over federal awards.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required internal control documentation over federal awards.

Effect: No documentation of internal controls over federal awards.

Cause: The County was not aware of this required assessment under the Uniform Guidance for the 2019-2018 audit years.

Recommendation: The County should implement procedures to ensure that the documentation of internal controls over federal awards is addressed going forward.

Views of responsible officials and planned corrective actions: The County has an Internal Control Policy in place. Each federal program director will be implementing internal controls for each individual grant and will be completed by the next audit period. The Commission's phone number is (660) 895-5547.

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: The Uniform Guidance requires the auditee to prepare the Schedule of Expenditures of Federal Awards in accordance with 2 CFR Section 200.502, Basis for Determining Federal Awards Expended.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards. Prior to these corrections, the Schedule of Expenditures of Federal Awards was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards.

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards.

Recommendation: The County should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

Views of responsible officials and planned corrective actions: The County will be implementing a tracking system for monitoring each grant individually and continue in its efforts to prepare a schedule of expenditures of federal awards with correct information. The Commission's phone number is (660) 895-5547.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards, *Government Auditing Standards*, and the *Uniform Guidance*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards and the Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2019 and 2018 years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 16, 2020.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the schedule of expenditure of federal awards, which accompanies the financial statements but is not RSI (required supplementary information). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff, which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

**CORRECTIVE ACTION PLAN
2 CFR § 200.511(c)
December 31, 2019 and 2018**

FINDING NUMBER	PLANNED CORRECTIVE ACTION	ANTICIPATED COMPLETION DATE	RESPONSIBLE CONTACT PERSON
2019-001	The bank was made aware that this happened and said they would watch the collateral pledges more closely. Also, the Collector-Treasurer will watch them better.	12/31/2020	Dick King, Presiding Commissioner
2019-002	The County does have an Internal Control Narratives and Policy already in place. A folder is prepared for each grant based on budget and the grant amount. Bills are approved by Commissioners and paid the balance monthly. The County will continue to develop internal control procedures accordingly.	12/31/2020	Dick King, Presiding Commissioner
2019-003	The County has an Internal Control Policy in place. Each federal program director will be implementing internal controls for each individual grant and will be completed by the next audit period.	12/31/2020	Dick King, Presiding Commissioner
2019-004	The County will be implementing a tracking system for monitoring each grant individually and continue in its efforts to prepare a schedule of expenditures of federal awards with correct information.	12/31/2020	Dick King, Presiding Commissioner

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Lawrence County, Missouri

The Office of the State Auditor contracted for an audit of the Lawrence County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

Nicole R. Galloway, CPA
State Auditor

August 2020
Report No. 2020-055

Recommendations in the contracted audit of Lawrence County

2019-001	We recommend that the county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-002	We recommend that the county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.
2019-003	The county should implement procedures to ensure that the risk assessment over federal awards are addressed going forward.
2019-004	The county should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The county should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Lawrence, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Lawrence ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2019, and 2018, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2019, and 2018, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2019, and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

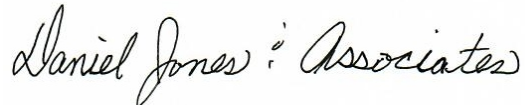

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Lawrence’s basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 14, 2020, on our consideration of the County of Lawrence's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Lawrence's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Lawrence, Missouri (“County”), which is governed by a three-member board of commissioners, was established in 1845 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk and ex officio Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the County of Lawrence County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County’s legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2019 and 2018, for purposes of taxation, was:

	2019	2018
Real Estate	\$ 324,491,160	\$ 323,276,200
Personal Property	114,791,847	112,396,611
Railroad and Utilities	65,360,325	53,218,545
	<u>\$ 504,643,332</u>	<u>\$ 488,891,356</u>

During 2019 and 2018, the County Commission approved a \$.7826 and \$.7857, respectively, tax levy per \$100 of assessed valuation of tangible taxable, for purposes of County taxation, as follows:

	2019	2018
General Revenue Fund	\$ 0.1249	\$ 0.1205
Special Road and Bridge Fund	0.1000	0.1000
Common I Fund	0.2178	0.2196
Common II Fund	0.2055	0.2112
Senior Citizens Service Board Fund	0.0477	0.0477
Developmentally Disabled Board Fund	0.0867	0.0867
	<u>\$ 0.7826</u>	<u>\$ 0.7857</u>

F. Cash Deposits and Investments

Cash deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on a weighted average of cash balance. Cash equivalents include any instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash balances are separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019, and 2018, the carrying amounts of the County's deposits and investments were \$7,546,664.97 and \$6,520,159.12, respectively, and the bank balances were \$20,341,839.09 and \$17,379,074.11, respectively. As of December 31, 2019, and 2018, the County's deposits were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2019, as follows:

Total Deposits and Investments as of December 31, 2018	\$ <u><u>17,240,289.52</u></u>
--	--------------------------------

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2019, and 2018.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2019, and 2018.

Agency Funds	-	-	60,523.90	-
TOTAL	\$ 1,189,834.72	\$ 1,189,834.72	\$ 1,140,607.47	\$ 1,140,607.47

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Lawrence County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Lawrence County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Sections 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

2019 Valuation

Benefit Multiplier:	1.50%
Final Average Salary:	3 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2019, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	46	19
Inactive employees entitled to but not yet receiving benefits	20	15
Active employees	<u>52</u>	<u>26</u>
	<u>118</u>	<u>60</u>

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 5.6% (General) and 1.8% (Police) of annual covered payroll for 2019.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2019.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

2018 Valuation

Benefit Multiplier:	1.50%
Final Average Salary:	3 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2018, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	41	17
Inactive employees entitled to but not yet receiving benefits	18	15
Active employees	55	25
	<u>114</u>	<u>57</u>

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 5.5% (General) and 1.5% (Police) of annual covered payroll for 2018.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2018.

Actuarial Assumptions

The total pension liability in the February 28, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25% wage inflation; 2.50% price inflation
Salary Increase	3.25% to 6.55% including wage inflation
Investment rate of return	7.25%, net of investment expenses

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2019, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Alpha	15.00%	3.67%
Equity	35.00%	4.78%
Fixed Income	31.00%	1.41%
Real Assets	36.00%	3.29%
Strategic Assets	8.00%	5.25%
Cash	10.00%	0.00%
Leverage	-35.00%	-0.51%

Discount rate. The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs.

Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2019 and 2018, the County collected and remitted to CERF, employee contributions of approximately \$58,510.30 and \$72,773.39, respectively, for the years then ended.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$11,628 and \$11,628, respectively, for the years ended December 31, 2019, and 2018.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were two participants at December 31, 2019 and December 31, 2018, with contributions of \$10,502.56 and \$7,775.07.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

Each full-time regular employee shall accrue vacation leave credit as follows: One week vacation after one year of service. Two weeks' vacation after two years of service. Three weeks' vacation after ten years of service. Comp time must be depleted before vacation time is used. All Part-time employees shall be subject to all the provisions of this section, except that vacation shall be credited at the same rate shown for full-time employees, based on percentage of days worked. Vacation time not taken will be forfeited. Employees may not accrue vacation leave unless they have prior permission from the Department head and the County Commission. No vacation leave will accumulate while an employee is taking paid or unpaid sick leave but may be added to their account after returning to normal duties. Any employee with benefits leaving the County service due to resignation, death or termination shall be compensated for vacation credit unused to the date of termination. To be eligible for such compensation, employees resigning from the County service must comply with the provisions of Article 12 of these rules governing resignations. In the event of separation due to death of the employee, compensation shall be made to the employee's beneficiary. No accrual shall occur after the date of termination.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Lawrence, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Lawrence ("County") as of and for the years ended December 31, 2019, and 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 14, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [2019-001 and 2019-002]

Compliance and Other Matters

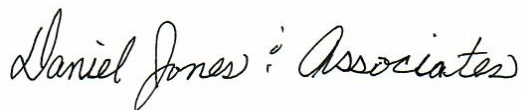

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

Independent Auditor's Report

To The County Commission
The County of Lawrence, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Lawrence's ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2019, and 2018. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2019, and 2018.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2019-003 and 2019-004. Our opinion on each major federal program is not modified with respect to these matters.

The County's responses to the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2019-003 and 2019-004, that we consider to be significant deficiencies.

The County's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The accompanying notes to the schedule of expenditures of federal awards are an integral part of this statement.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2019 AND 2018

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the federal award activity of the County of Lawrence under programs of the federal government for the years ended December 31, 2019, and 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Lawrence, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Lawrence.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 – INDIRECT COST RATE

The County has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4 – SUBRECIPIENTS

The County provided no federal awards to subrecipients during the years ended of December 31, 2019, and 2018.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unmodified – Regulatory Basis
2. Internal control over financial reporting:
 - a. Material weakness(es) identified? 2019 ☐ Yes ☒ No
2018 ☐ Yes ☒ No
 - b. Significant deficiency(ies) identified? 2019 ☒ Yes ☐ None Reported
2018 ☒ Yes ☐ None Reported
3. Noncompliance material to financial statements noted? 2019 ☐ Yes ☒ No
2018 ☐ Yes ☒ No

B. Federal Awards

1. Internal control over major federal programs:
 - a. Material weakness(es) identified? 2019 ☐ Yes ☒ No
2018 ☐ Yes ☒ No
 - b. Significant deficiency(ies) identified? 2019 ☒ Yes ☐ None Reported
2018 ☒ Yes ☐ None Reported
2. Type of auditor's report issued on compliance for major federal programs: 2019 - Unmodified
2018 - Unmodified
3. Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a)? 2019 ☒ Yes ☐ No
2018 ☒ Yes ☐ No

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major federal program:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2019/2018	93.563	Child Support Enforcement Program
2019/2018	16.738	Edward Byrne Memorial Justice Assistance Grant
2019	16.922	Equitable Sharing of Seized and Forfeited Property

5. Dollar threshold used to distinguish between type A and type B programs: \$ 750,000

6. Auditee qualified as low-risk auditee? 2019 Yes X No

2018 Yes X No

II. FINANCIAL STATEMENT FINDINGS

2019-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation. This is a repeat finding of 2016-001/2017-001.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

II. FINANCIAL STATEMENT FINDINGS (concluded)

2019-001 Views of responsible officials and planned corrective actions: The County has started researching the COSO internal control guidance and will begin the process of internal control documentation in the County Commission's office. The County Commission's office phone number is (417) 466-3666.

2019-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there was no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls. This is a repeat finding of 2016-002/2017-002.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County will address fraud risk assessment and work on preparing in all of the offices. The County Commission's office phone number is (417) 466-3666.

MT. VERNON, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

2019-003	Federal Grantor:	All
	Pass-Through Grantor:	All
	Federal CFDA Number:	All
	Program Title:	All
	Pass- Through Entity	
	Identification Number:	All
	Award Year:	2019 and 2018
	Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective risk assessment over federal awards, regulation and the terms and conditions of the federal awards.

Criteria: Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* requires the auditee to document risk assessment over each federal award.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over federal awards.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over federal awards.

Effect: No risk assessment over federal awards.

Cause: The County was not aware of this required assessment under the Uniform Guidance for the 2019 and 2018 audit years.

Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards are addressed going forward.

Views of responsible officials and planned corrective actions: Each federal program director will be implementing internal controls for each individual grant and will be completed by the next audit period. The Commission's phone number is (417) 466-3666.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018 (concluded)

2019-004	Federal Grantor:	All
	Pass-Through Grantor:	All
	Federal CFDA Number:	All except 10.559 and 20.616
	Program Title:	All except Summer Food Service Program for Children and National Priority Safety Programs
	Pass-Through Entity	
	Identifying Number:	All except 18-M2OP-05-020
	Award year	2019 and 2018
	Type of Finding	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires the auditee to prepare the Schedule of Expenditures of Federal Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards. Prior to these corrections, the Schedule of Expenditures of Federal Awards was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards.

Effect: No control monitoring or control over federal expenditures reporting, as required by Governmental Accounting and Financial Reporting Standards.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards.

Recommendation: The County should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

Views of responsible officials and planned corrective actions: The County will be implementing a tracking system for monitoring each grant individually and continue in its efforts to prepare a schedule of expenditures of federal awards with correct information. The Commission's phone number is (417) 466-3666.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

Section II – Financial Statement Findings

2016-001

2017-001

Condition: Documentation of the County's internal controls has not been prepared for the County.

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Cause: The County did not prepare the required documentation.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Recommendation: We recommend the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

County Response: Lawrence County will work on developing the required documentation of internal controls in the offices of the County. The County Clerk is Gary Emerson, and his office phone number is (417) 466-4348.

Status: This finding is repeated in the current audit period as 2019-001.

2016-002

2017-002

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

THE COUNTY OF LAWRENCE
MT. VERNON, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (concluded)

2016-002
2017-002 (continued)

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Recommendation: We recommend the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

County Response: Lawrence County will work on developing the required risk assessments of the offices of the County. The County Clerk is Gary Emerson, and his office phone number is (417) 466-4348.

Status: This finding is repeated in the current audit period as 2019-002.

2016-003
2017-003

Condition: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Criteria: Duties should be segregated so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Cause: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties.

Effect: Risk is present that errors or irregularities in amounts that would be material to the basic financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Recommendation: We realize that because of limited resources and personnel, management may not be able to achieve a proper segregation of duties; however, our professional standards require that we bring this lack of segregation of duties to your attention in the report.

County Response: Lawrence County will continue to monitor the separation of duties with the limited resources available to the County.

Status: This finding has been resolved in the current audit period.

YEARS ENDED DECEMBER 31, 2019 AND 2018

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There were no prior year federal award findings or questioned costs reported.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

August 14, 2020

To the County Commission
The County of Lawrence, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Lawrence (the "County") as of and for the years ended December 31, 2019 and December 31, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be a significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be a significant deficiency as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiency Considered to be Significant
- II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

- 2019-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.
- Condition: Documentation of the County's internal controls has not been prepared.
- Context: During discussions with management, we noted that internal control documentation has not been prepared.
- Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.
- Cause: The County did not prepare the required documentation. This is a repeat finding of 2016-001/2017-001.
- Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
- Views of responsible officials and planned corrective actions: The County has started researching the COSO internal control guidance and will begin the process of internal control documentation in the County Commission's office. The County Commission's office phone number is (417) 466-3666.
- 2019-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.
- Condition: During our audit, we noted there is no formal fraud risk assessment in place.
- Context: During discussions with management, we noted there was no formal fraud risk assessments implemented.
- Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.
- Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls. This is a repeat finding of 2016-002/2017-002.
- Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.
- Views of responsible officials and planned corrective actions: The County will address fraud risk assessment and work on preparing in all of the offices. The County Commission's office phone number is (417) 466-3666.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

2019-003 Federal Grantor: All
Pass-Through Grantor: All
Federal CFDA Number: All
Program Title: All
Pass- Through Entity
Identification Number: All
Award Year: 2019 and 2018
Type of Finding: Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective risk assessment over federal awards, regulation and the terms and conditions of the federal awards.

Criteria: Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* requires the auditee to document risk assessment over each federal award.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over federal awards.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over federal awards.

Effect: No risk assessment over federal awards.

Cause: The County was not aware of this required assessment under the Uniform Guidance for the 2019 and 2018 audit years.

Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards are addressed going forward.

Views of responsible officials and planned corrective actions: Each federal program director will be implementing internal controls for each individual grant and will be completed by the next audit period. The Commission's phone number is (417) 466-3666.

2019-004 Federal Grantor: All
Pass-Through Grantor: All
Federal CFDA Number: All except 10.559 and 20.616
Program Title: All except Summer Food Service Program for Children and
National Priority Safety Programs
Pass-Through Entity
Identifying Number: All except 18-M2OP-05-020
Award year 2019 and 2018
Type of Finding Other Information – Significant Deficiency

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (concluded)

2019-004 Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) requires the auditee to prepare the Schedule of Expenditures of Federal Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards. Prior to these corrections, the Schedule of Expenditures of Federal Awards was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards.

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards.

Recommendation: The County should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

Views of responsible officials and planned corrective actions: The County will be implementing a tracking system for monitoring each grant individually and continue in its efforts to prepare a schedule of expenditures of federal awards with correct information. The Commission's phone number is (417) 466-3666.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and Government Auditing Standards

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards and the Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2019 and 2018 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 14, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report the schedule of expenditure of federal awards, which accompanies the financial statements but is not RSI (required supplementary information). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Caldwell County, Missouri

The Office of the State Auditor contracted for an audit of Caldwell County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Caldwell County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Caldwell County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2018 and 2019, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law, as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Caldwell County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Caldwell County, Missouri, as of December 31, 2018 and 2019, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Caldwell County, Missouri, as of December 31, 2018 and 2019, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Caldwell County, Missouri’s basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 14, 2020, on our consideration of Caldwell County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Caldwell County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

CALDWELL COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2018 and 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Caldwell County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Caldwell County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the County budgeted a negative ending fund balance for the Little Otter Creek NRCS Grant Fund in 2018 and the Law Enforcement Sales Tax Fund in 2019.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2019 and 2018, for purposes of taxation were:

	2019	2018
Real Estate	\$ 81,137,470	\$ 73,665,820
Personal Property	31,805,720	31,806,860
Railroad and Utilities	58,918,238	51,924,942
Total	<u>\$ 171,861,428</u>	<u>\$ 157,397,622</u>

For calendar years 2019 and 2018, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2019	2018
General Revenue	\$ 0.2451	\$ 0.2578
Senior Citizens Services	0.0500	0.0495

F. Cash Deposits and Investments

Deposits and cash investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019 and 2018, the carrying amounts of the County's deposits were \$6,155,786 and \$5,810,114, respectively, and the bank balances were \$5,483,943 and \$5,004,694, respectively. Of the bank balances, \$504,266 and \$505,456 were covered by federal depository insurance at December 31, 2019 and December 31, 2018, respectively. The remainder of the balances at December 31, 2019 and December 31, 2018 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

In addition to the bank balances noted above, the County held assets in a Certificates of Participation Project Fund held by Security Bank of Kansas City in the amount of \$1,364,001 and \$1,338,271 as of December 31, 2019 and 2018. Of these balances, \$150,000 each year was held in an FDIC insured money market account, while \$1,214,001 and \$1,188,271 at December 31, 2019 and 2018, respectively, was held in non-FDIC insured money market funds that invest in U.S. Treasury and government securities.

At December 31, 2019 and 2018, County officeholders held, in addition to the cash and investments listed above, cash and cash equivalents held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2019 and 2018, the carrying amounts of the County's custodial funds were \$5,173,693, and \$4,623,365, respectively, and the bank balances were \$5,337,989 and \$4,665,385, respectively. Of the bank balances, \$619,676 and \$573,354 were covered by federal depository insurance at December 31, 2019 and December 31, 2018, respectively. The remainder of the balances at December 31, 2019 and December 31, 2018 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Caldwell County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's

responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Caldwell County contribute 4% to the pension plan. The January 1st statutorily required contribution rates were 2.9% and 2.7% (General), and 5.4% and 4.7% (Police) of annual covered payroll for 2019 and 2018 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2019 and 2018, full time employees of the County contributed \$91,770 and \$83,991. For the years ended December 31, 2019 and 2018, the County contributed \$75,451 and \$63,324 to LAGERS.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2019 and 2018, the County collected and remitted to CERF employee withholdings of \$90,556 and \$86,510, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 and \$3,366, respectively, for the years ended December 31, 2019 and 2018.

D. Other Retirement Plan

Caldwell County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 were \$28,844 and \$21,198, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with eight hours of sick leave for each completed calendar month of employment, up to a maximum of 360 hours. Upon termination, employees will not be compensated for any unused sick time.

Vacation time is made available in whole on the employee's anniversary date. Vacation time is five days for employees with one year of service; ten days for employees with two to nine years of service; 15 days for employees with ten to nineteen years of service; and 15 days for employees with 20 or more years of service. Employees are not allowed to carry over vacation into a new employment year, unless permitted. Upon termination, employees are compensated for any unused vacation time.

Full-time employees earn overtime or compensatory time credits based on department assignment. Overtime and Compensatory Time credits are earned at 1.5 times the regular hourly rate of the employee for work hours accumulated over 40 hours in a work week and 80 hours in a two-week pay period. Upon termination, employees are compensated for any compensatory time credits.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to

make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2019:

- A. In 2007, Certificates of Participation (COPS) in the amount of \$2,500,000 were issued by First Bank of Missouri on behalf of the County for the Little Otter Creek Watershed Project with a 25 year maturity. The debt is repaid through annual principal payments and semi-annual interest payments. The interest rate varies between 4.625% and 4.875%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2020	\$ 95,000	\$ 80,801	\$ 175,801
2021	100,000	76,408	176,408
2022	105,000	71,783	176,783
2023	110,000	66,795	176,795
2024	115,000	61,570	176,570
2025-2029	665,000	220,175	885,175
2030-2032	495,000	40,706	535,706
Totals	<u>\$ 1,685,000</u>	<u>\$ 618,238</u>	<u>\$ 2,303,238</u>

- B. In April 2011, the County entered into a \$1,940,291, 15-year capital lease with Caldwell County Development Company related to the Detention Center. The lease had an interest rate of 4.95% and a maturity date April 18, 2026. The first addendum to the lease was entered on January 14, 2013 which increased the funds by \$56,000 for the purpose of building repairs. A payment of \$590,541 was made in January 2018 leaving a remaining balance under this lease of \$1,000.

In 2019, the County entered into an agreement with Bank Northwest for up to \$500,000 in loans to construct an outdoor recreation area at the Detention Center, which was added to the \$1,000 remaining balance on the old debt. As of December 31, 2019, the County had been advanced \$300,000. Interest-only payments were made on the advances in 2019. Once the construction is complete and the total amount borrowed is determined, a schedule for repayment will be created.

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
Certificates of Participation	\$ 1,865,000	\$ -	\$ (90,000)	\$ 1,775,000	\$ 89,126
Detention Center	603,537	-	(602,537)	1,000	3,372

The following schedule shows changes in long-term debt during the year ended December 31, 2019:

Description	Balance 12/31/2018	Additions	Payments	Balance 12/31/2019	Interest Paid
Certificates of Participation	\$ 1,775,000	\$ -	\$ (90,000)	\$ 1,685,000	\$ 84,964
Detention Center	1,000	300,000	-	301,000	2,517

8. OPERATING LEASES

At December 31, 2019, the County has three non-cancellable 60-month leases for copiers. The Recorder's office has a 60-month lease through March 15, 2024 with a monthly payment of \$94. The County Clerk's office has a 60-month copier lease through January 8, 2022 with a monthly payment of \$141. The County also has a 60 month copier lease for the Assessor, Treasurer, Sheriff and Detention Center through June 29, 2021 with a monthly payment of \$875.

Fiscal Year Ending December 31,	Amount
2020	\$ 13,328
2021	8,076
2022	1,272
2023	1,131
2024	283

9. CHANGE IN REPORTING ENTITY

The County has changed the definition of the reporting entity at January 1, 2018 to include the Law Library Fund. The Law Library Fund is under the control of the Prosecuting Attorney and therefore will be included in the County's financial statements. This change had the effect of increasing the County's cash balances at January 1, 2018 by \$2,882.

10. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 14, 2020, the date the financial statements were available to be issued.

Subsequent to December 31, 2019, the County has been impacted by the coronavirus pandemic in the United States. This event led to a decrease in business and consumer activity within the County and could have a negative impact on sales and other tax revenues in 2020, as well as potentially affecting the availability of grants and other assistance from the state and federal governments.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Caldwell County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Caldwell County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2018 and 2019, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Caldwell County, Missouri's basic financial statements and have issued our report thereon dated July 14, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Caldwell County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Caldwell County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Caldwell County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control described in the accompanying schedule of findings and questioned costs as items 2019-001, 2019-002, and 2019-003 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Caldwell County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and questioned costs as item 2019-004.

Caldwell County, Missouri's Response to Findings

Caldwell County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Caldwell County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Caldwell County, Missouri

Report on Compliance for Each Major Federal Program

We have audited Caldwell County, Missouri's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Caldwell County, Missouri's major federal programs for the years ended December 31, 2018 and 2019. Caldwell County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Caldwell County, Missouri's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Caldwell County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Caldwell County, Missouri's compliance.

Opinion on Each Major Federal Program

In our opinion, Caldwell County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2018 and 2019.

Report on Internal Control over Compliance

Management of Caldwell County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Caldwell County, Missouri's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Caldwell County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2019-005, that we consider to be a significant deficiency.

Caldwell County, Missouri's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Caldwell County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

CALDWELL COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2018 AND 2019

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Caldwell County, Missouri for the years ended December 31, 2019 and 2018. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

The SEFA in 2018 included \$136,330 of costs for CFDA 10.902 that were incurred by the County during 2013 and 2014 but were not reported on the SEFA's for those years. These costs were requested for and reimbursed by the grant in 2018.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2019 and 2018.

CALDWELL COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2018 AND 2019

- Significant deficiencies identified that are not considered to be material weaknesses? X Yes None Reported
- Noncompliance material to financial statements noted? X Yes No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are not considered to be material weaknesses? X Yes None Reported

Type of Auditor’s Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516? X Yes No

Identification of Major Programs:

<u>CFDA Number(s)</u>	<u>Name of Federal Program or Cluster</u>
10.902	Soil and Water Conservation

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2019-001: Pay Rate Approval and Documentation

Criteria: A proper system of internal controls dictates that rates of pay, and any changes to the rate of pay, be properly documented and approved by an appropriate official.

Condition: The County does not maintain documentation to support the current pay rates of some full-time and all part-time employees and does not maintain documentation of approval of changes in pay rates for part-time employees in personnel files. The salaries for elected officials and their deputies are approved through the annual budget documents, and annual raises for full-time employees are approved in the Commission minutes. Raises for part-time employees are left to the discretion of the elected official, however, these new rates of pay for the part-time employees were not adequately documented. The County Clerk's office maintains an informal list of salaries and wage levels for all full-time and part-time employees to use as reference for payroll. In our testing of individual payroll transactions, we could not verify the employee's rate of pay to an approved document for 14 out of 20 transactions.

Cause: The part-time employee's pay rate changes were decided by each elected official but not formally documented.

Effect: The lack of documented approved rates of pay could lead to unauthorized changes in employee pay rates.

Recommendation: We recommend that the county improve the documentation of employee pay rates and ensure that pay rate changes for part-time employees are approved and documented.

County's Response: The County has prepared a new policy form called a "Pay Rate Form", this will be filled out for all full-time and part-time employees and then subsequently formally approved.

Auditor's Evaluation: The response is appropriate to correct the concern.

2019-002: Fraud Risk Assessment

Criteria: An overall system of internal controls that ensures the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations requires the County to perform an assessment of the risks of fraud within the County and implement policies and procedures to mitigate these risks.

Condition: A formal assessment of the risks of fraud within the County has not been performed.

Cause: Management did not perform a documented risk assessment in response to the finding in the prior audit report.

Effect: The lack of a formal process to identify and respond to the risks of fraud within the County could lead to fraud going undetected.

Recommendation: We recommend that the County perform and document an assessment of the risks of fraud within the County and implement any necessary policies and procedures to respond to the risks identified.

County Response: The County will adopt both Investment and Fraud Risk Assessment policies.

Auditor's Evaluation: The response is appropriate to correct the concern.

2019-003: Bank Reconciliations

Criteria: Bank reconciliations are a key internal control to assist in the prevention and detection of misstatements, whether due to fraud or error.

Condition: The County does not prepare or document formal bank reconciliations for the License Office bank account. The County has been contracted to operate a license office in Kingston, MO which maintains its own bank account for collecting payments and distributing the funds to the State and the County.

Cause: The County took control of the license office in late 2018 with new employees who were unaware that a bank reconciliation needed to be prepared in addition to maintaining a checkbook register.

Effect: The lack of formal reconciliations of bank account statements to recorded book or register balances increases the likelihood that misstatements will not be prevented or detected in a timely manner.

Recommendation: We recommend that the License Office prepare and document formal bank reconciliations on a monthly basis.

County's Response: The License Office will begin preparing bank reconciliations.

Auditor's Evaluation: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

2019-004: Absence of Investment Policy

Criteria: Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy.

Condition: The County has not adopted an investment policy as required by state statute.

Cause: The County was unaware of the requirement to adopt a written investment policy.

Effect: Adoption of a written investment policy commits a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation.

Recommendation: We recommend that the County adopt an investment policy and review compliance with this policy at least annually as required by state statute.

County's Response: The County will adopt both Investment and Fraud Risk Assessment policies.

Auditor's Evaluation: The response is appropriate to correct the concern.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2019-005: Incorrect Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Agriculture, U.S. Department of Justice, U.S. Department of Transportation, U.S. Department of Health and Human Services, and U.S. Department of Homeland Security

Pass-Through Grantor: Missouri Department of Public Safety, Missouri Department of Social Services, and Missouri Department of Transportation

Federal CFDA Number: 10.902, 16.575, 20.205, 93.563 and 97.042

Program Title: Soil and Water Conservation, Crime Victim Assistance, Highway Planning and Construction, Child Support Enforcement and Emergency Management Performance Grants

Pass-through Entity Identifying Number: 69-6424-13-001, 2016VOCA006NO, BRO-36, BRO-38, ER10214C009, and EMK-2018-EP-00003-016

Award Year: 2018 and 2019

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. The County has not implemented proper internal controls to ensure the completeness and accuracy of the SEFA.

This finding was noted in the prior audit for the years ended December 31, 2017 and 2016 as item 2107-003.

Condition: The schedules of expenditures of federal awards (SEFA) reported by the County in the 2018 and 2019 annual budget documents contained errors in amounts of federal expenditures reported. Expenditures by the county were understated by \$559,116 in 2019 and overstated by \$208,582 in 2018.

The 2019 SEFA did not report \$569,814 of expenditures for CFDA 10.902.

The 2019 SEFA reported expenditures of \$49,264 for CFDA 16.575, however, based on supporting documentation, actual expenditures were \$41,956.

The 2019 SEFA reported expenditures of \$124,497 for CFDA 93.563, however, based on supporting documentation, actual expenditures were \$121,107.

The 2018 SEFA reported expenditures of \$603,352 for CFDA 10.902, however, based on supporting documentation, actual expenditures were \$593,387.

The 2018 SEFA reported expenditures of \$71,072 for CFDA 16.575, however, based on supporting documentation, actual expenditures were \$41,564.

The 2018 SEFA reported expenditures of \$509,639 for CFDA 20.205, however, based on supporting documentation, actual expenditures were \$357,961.

The 2018 SEFA reported expenditures of \$30,380 for CFDA 97.042, however, based on supporting documentation, actual expenditures were \$12,949.

Cause: The County Clerk did not prepare an accurate SEFA for the years ending December 31, 2019 and 2018. In most cases, this was caused by reporting the receipts of federal funds rather than the amount expended.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2019 and 2018.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.

County's Response: I will start with the fact that I was elected into the Clerk position in 2018 and had no training from my predecessor when I took office January 1, 2019. Previously, I was an assistant branch manager for our local bank. I had never worked in county government, but I had experience with city government from serving on the city council. I had to hire a new deputy clerk because the previous deputy clerk took a new position in the county's license office. To say the least, I did not have anyone to show me how to do certain things in my office. I reached out to other county clerks to ask questions and thankfully they helped me out, but the SEFA was an area that I never got a good feel for what I needed to do or how important it was. The commissioners were not familiar with what needed to be reported on the SEFA and what numbers to use either.

As 2020 started I became more familiar with getting the award letters for the grants as the Presiding Commissioner signed them, so that I would have them in preparation of the SEFA for the year.

On the 2018 SEFA, I taught myself to do the budget from studying the 2018 budget and reports that were used to prepare it. Then I did the 2019 budget with what I learned. I used the CFDA numbers from the previous year and tried to sort out what figures we needed to report there. When the 2020 budget rolled around, I had figured out some things but still I didn't have a good grasp on it. Through this audit of 2018-2019 I have learned more about the SEFA as I worked with the auditors. It is a learning process and I think I will be better equipped in preparing the SEFA.

Auditor's Evaluation: The response is appropriate to correct the concern.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

- **Summary Schedule of Prior Audit Findings**
 - **Corrective Action Plan**

CALDWELL COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Caldwell County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2017 and 2016.

2017-001: It was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following fund did not have a budget prepared for 2017 and 2016: Little Otter Creek NRCS Grant Fund.

Status: Resolved.

2017-002: There is no formal fraud risk assessment in place.

Status: Not resolved, see finding 2019-002.

2017-003: Management has not implemented internal controls related to the preparation of the Schedule of Expenditures of Federal Awards (SEFA). The SEFA contained errors.

Status: Not resolved, see finding 2019-005.

2017-004: The County did not ensure all invoices for expenditures related to the Highway Planning and Construction Cluster were paid in accordance with the "Cash Management" requirements.

Status: Resolved.

CALDWELL COUNTY, MISSOURI CORRECTIVE ACTION PLAN

Finding Reference Number: 2019-001

Federal Agency: N/A

Program Name: N/A

CFDA Number: N/A

Responsible Official: Christine Owen, County Clerk

Views of Responsible Individuals: The County clerk has prepared a new policy form called a "Pay Rate Form", this will be filled out for all full-time and part-time employees and then subsequently formally signed and approved by the employee, supervisor and elected official. The form will remain in the employee file for documentation.

Finding Reference Number: 2019-002

Federal Agency: N/A

Program Name: N/A

CFDA Number: N/A

Responsible Official: County Commission

Views of Responsible Individuals: The County will adopt both Investment and Fraud Risk Assessment policies.

Finding Reference Number: 2019-003

Federal Agency: N/A

Program Name: N/A

CFDA Number: N/A

Responsible Official: Kingston License Office, County Commission

Views of Responsible Individuals: The License Office will begin preparing bank reconciliations.

Finding Reference Number: 2019-004

Federal Agency: N/A

Program Name: N/A

CFDA Number: N/A

Responsible Official: County Commission

Views of Responsible Individuals: The County will adopt both Investment and Fraud Risk Assessment policies.

Finding Reference Number: 2019-005

Federal Agency: U.S. Department of Agriculture, U.S. Department of Justice, U.S. Department of Transportation, U.S. Department of Health and Human Services, and U.S. Department of Homeland Security

Program Name: Soil and Water Conservation, Crime Victim Assistance Grant, Highway Planning and Construction, Child Support Enforcement, and Emergency Management Performance Grants

CFDA Number: 10.902, 16.575, 20.205, 93.563 and 97.042

Responsible Official: Christine Owen, County Clerk

Views of Responsible Individuals:

I will start with the fact that I was elected into the Clerk position in 2018 and had no training from my predecessor when I took office January 1, 2019. Previously, I was an assistant branch manager for our local bank. I had never worked in county government, but I had experience with city government from serving on the city council. I had to hire a new deputy clerk because the previous deputy clerk took a new position in the county's license office. To say the least, I did not have

anyone to show me how to do certain things in my office. I reached out to other county clerks to ask questions and thankfully they helped me out, but the SEFA was an area that I never got a good feel for what I needed to do or how important it was. The commissioners were not familiar with what needed to be reported on the SEFA and what numbers to use either.

As 2020 started I became more familiar with getting the award letters for the grants as the Presiding Commissioner signed them, so that I would have them in preparation of the SEFA for the year.

On the 2018 SEFA, I taught myself to do the budget from studying the 2018 budget and reports that were used to prepare it. Then I did the 2019 budget with what I learned. I used the CFDA numbers from the previous year and tried to sort out what figures we needed to report there. When the 2020 budget rolled around, I had figured out some things but still I didn't have a good grasp on it. Through this audit of 2018-2019 I have learned more about the SEFA as I worked with the auditors. It is a learning process and I think I will be better equipped in preparing the SEFA.

Nicole Galloway, CPA

Missouri State Auditor

City of St. Louis

Office of Collector of Revenue

Report No. 2020-053

August 2020

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis Office of Collector of Revenue

Procurement Procedures, Contracts, and Disbursements	Controls and procedures over procurement and contracts for professional services and department disbursements need improvement. The Collector of Revenue did not solicit proposals or conduct a competitive selection process for various professional services, such as legal and consulting services. A relative of a high ranking office employee was hired without documenting the reason why, creating the appearance of a conflict of interest. On some out-of-state trips, office personnel used the office's credit card to purchase alcohol and did not provide detailed support for meals purchased.
Payroll Controls and Procedures	The office did not properly report the total value of personal and commuting mileage for the Chief of Staff's use of a city vehicle on his W-2 form. Timesheets are not maintained for employees of the Collector's office. The office does not submit employee leave records to the Comptroller's office to maintain and reconcile with the city's centralized leave records.
Receipt and Deposit Controls and Procedures	The office needs to improve verifications of receipts and deposits. Daily batch reports are not consistently signed to document employees' verification of payments received. Office personnel did not obtain customer acknowledgment documentation for 3 of 6 prepayment void motor vehicle and license transactions tested.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Gregory F. X. Daly,
Collector of Revenue
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Office of Collector of Revenue in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2018. Additionally, the City of St. Louis Office of Collector of Revenue engaged KPMG LLP, to audit the office's financial statements for the year ended March 3, 2019. To minimize duplication of effort, we reviewed the CPA firm's report for the year ended March 3, 2019. The scope of our audit included, but was not necessarily limited to, the year ended March 3, 2019. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.
2. Evaluate the office's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

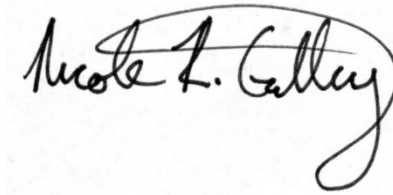

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the office's management and was not subjected to the procedures applied in our audit of the office.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Office of Collector of Revenue.

Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

City of St. Louis - Office of Collector of Revenue

Management Advisory Report

State Auditor's Findings

1. Procurement Procedures, Contracts, and Disbursements

Controls and procedures over procurement and contracts for professional services and department disbursements need improvement. The Collector of Revenue expended approximately \$8.7 million during the year ended March 3, 2019.

1.1 Professional services and contracts

The Collector of Revenue did not solicit proposals or conduct a competitive selection process for various professional services, such as legal and consulting services. The Collector of Revenue also did not always enter into contracts with the providers selected. While the Collector of Revenue has a written bidding policy, it is vague regarding professional services. The policy only requires bids if a purchase request is greater than \$5,000.

During the 2 years ended March 3, 2019 and 2018, the Collector of Revenue used the services of 5 private attorneys and 1 law firm to handle all court cases pertaining to real estate and personal property taxes, city earnings and payroll expense taxes, and civil litigation. Requests for proposals were not solicited for any of these legal services. Payments for legal services are listed in the following table:

Vendor	Year Ended March 3,		Competitively Procured	Written Contract
	2019	2018		
Attorney #1 (1)	\$ 244,751	\$ 0	No	No
Attorney #2 (2)	126,495	142,103	No	Yes
Attorney #3 (2)	65,368	79,606	No	No
Attorney #4 (2)	38,203	40,112	No	No
Attorney #5 (1)	0	211,156	No	No
Law Firm (3)	33,150	107,978	No	No
Totals	\$ 507,967	\$ 580,955		

- (1) Each attorney was paid a 10 percent fee in accordance with state law for personal property cases. Attorney 1 worked as an intern for attorney 5 and then replaced attorney 5 when he retired.
- (2) Each attorney was paid a 6 percent fee in accordance with state law for real property cases. In addition, attorney 2 was also paid a retainer of \$6,000 per month for earnings tax matters and general matters.
- (3) The firm was paid an hourly rate for earnings tax cases and civil litigation.

The Collector of Revenue did not enter into formal written contracts with any of these attorneys or the law firm except for Attorney #2. In addition, the law firm was paid on an hourly rate from monthly billings.

The Collector of Revenue also has not bid consulting services for human resources and public relations since at least 2010. The contract with the current vendor began on March 1, 2010.

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

Soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the Collector of Revenue to make better-informed decisions to ensure necessary services are obtained from the best qualified provider taking expertise and experience into consideration. Written procedures should be established and followed to ensure consistency when soliciting proposals. In addition, Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

1.2 Conflict of interest

Attorney #1 noted in section 1.1, is the daughter of the Collector of Revenue's Chief of Staff. Business relationships that impair independence reduce the effectiveness of controls and decision making and harm public confidence. If a relative is selected as a vendor, documenting why that person was selected could help reduce the appearance of a conflict of interest.

1.3 Inappropriate or unsupported credit card purchases

On some out-of-state trips, office personnel used the office's credit card to purchase alcohol and did not provide detailed support for meals charged. The office also does not have policies detailing what can or cannot be purchased with the card or when traveling.

The Chief of Staff and 2 other employees attended a conference in Chicago, Illinois. Detailed restaurant charge slips showed the purchase of alcohol on at least two occasions during this trip. On the first night of the trip, dinner for the Chief of Staff and the 2 employees totaled \$119, which included alcohol purchases totaling \$36. On the second night of the trip, they purchased alcohol totaling \$61 at the same restaurant prior to eating dinner at another restaurant. For the dinner purchase, only a restaurant charge slip showing the total amount of \$89 charged was submitted rather than a detailed restaurant invoice or receipt slip. On another occasion, the Chief of Staff and 2 other employees took a trip to Cleveland, Ohio. The documentation for meal costs only showed \$79 charged rather than the detailed restaurant receipt or invoice. Without the detailed invoice or receipt, it is unclear what was purchased. While the Collector of Revenue's office is not required to follow the city's travel policy, that policy limits dinner meals to \$25 per person while traveling for city business.

Public funds should be spent only on items necessary and beneficial to the city. City residents have placed a fiduciary trust in their public officials to spend tax monies in a prudent and necessary manner. In addition, detailed supporting documentation improves the Collector of Revenue's ability to review charges and provides better documentation of the items purchased to ensure charges are reasonable and a prudent use of taxpayer funds. Also, a comprehensive policy establishing appropriate purchases and travel expenses would provide a more effective framework for economical management of city resources.

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

Recommendations

The Collector of Revenue:

- 1.1 Solicit proposals for professional services and update the bidding policy to address professional services. In addition, enter into written agreements for those services as required by state law.
- 1.2 Document explanations for why certain vendors were selected to avoid appearances of a conflict of interest.
- 1.3 Ensure all disbursements are a necessary and prudent use of public funds and are supported by proper detailed documentation. In addition, the Collector of Revenue should establish a more detailed purchasing policy.

Auditee's Response

- 1.1 *The Collector of Revenue's (COR) office is completely compliant with Missouri law in its employment of professional services and department disbursements.*

The COR hires lawyers according to the Revised Missouri State Statute (RSMo) 92.770. Based upon the auditor's own numbers, the COR spent a total of \$1,088,922 on legal services in the years 2018 and 2019. Only \$141,128 was paid by the COR for legal fees, as the remaining \$947,194 in legal fees was paid by the individual taxpayers who violated Missouri tax laws.

Hiring Attorneys

Under Missouri State Statute 92.770.1, the Collector of Revenue "may employ such attorneys as he deems necessary to collect taxes and prosecute suits for [unpaid] taxes." The auditor may not understand that the legal fees related to tax collection and prosecution are established by state statute and are not negotiable by an individual attorney or law firm. Attorneys are paid by the number of cases they manage, not by fees they set. Specifically, the statute provides:

Such attorneys shall receive as total compensation a sum, not to exceed six percent of the amount of taxes actually collected and paid into the treasury, and an additional sum not to exceed two dollars for each suit filed when publication is not necessary and not to exceed five dollars where publication is necessary, as may be agreed upon in writing and approved by the collector, before such services are rendered.

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

The attorney fees shall be taxed as costs in the suit and collected as other costs.

RSMo 92.770(2) and (3)

Given this state statute, there is no financial benefit to the taxpayer to undergo the costs of a competitive selection process or to secure a contract for attorneys who collect back taxes.

The Collector of Revenue chooses attorneys with the specific legal expertise and knowledge required to properly serve the people of the City of St. Louis. The attorneys we hire treat taxpayers with integrity and respect, which is an important factor in retaining legal counsel.

St. Louis taxpayers deserve to have qualified, knowledgeable legal representation. The COR has one attorney that is paid an hourly rate for civil litigation. This attorney has had a relationship with the office for more than 10 years. He provides a competitive government rate, which is 25 percent below his regular hourly rate. In the last 10 years, this lawyer has successfully prosecuted or defended multiple taxpayer lawsuits, some of which challenged the constitutionality of the earnings tax and/or the payroll tax while others involved interpretations of these laws advanced by taxpayers to avoid paying the taxes. These two sources of revenue are a tremendous portion of the revenue to the city relies on for operations. This successful litigation has saved taxpayers hundreds of millions of dollars in potentially lost taxes. The loss of this litigation could have bankrupted the City of St. Louis.

Hiring a Consultant

The contract with the public relations and human resources professional remains a valid contract, despite the longevity of her service to the office. This consultant was hired by the previous Collector of Revenue and has been retained for over a decade because she does an excellent job and has valuable historical knowledge of the office, of the city and of the local media. Since she has been working with the office, she has not increased her fee.

While there is no Missouri law that requires this action, if the need arises to replace a professional services provider, the COR will consider putting the project out for bid and ensure there is a current contract in place.

Finally, the Collector of Revenue's office does have a detailed purchasing policy and has followed this policy to the letter. There

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

was no legitimate issue found in the portion of the audit that would require an improvement in this area.

- 1.2 *Section 105.452, RSMo, defines "nepotism" as relatives of the elected official and not relatives of employees of the office. Unless the Collector is hiring his own relatives, which he has not done, there is no nepotism.*

There is no conflict of interest violation under the law, nor has any business relationship impaired the independence or reduced the effective controls in decision making due to the business decision to continue to utilize a law firm that employs the daughter of the Collector of Revenue's Chief of Staff.

The Collector of Revenue has been using the same law firm for more than 40 years to collect unpaid earnings, payroll, and property taxes. When the principal lawyer from the law firm retired, a new attorney was chosen to be the lead contact at that firm by the COR from among other firm lawyers because she had previous experience and extensive knowledge in the tax collection arena. As noted above, this attorney's fees are fixed pursuant to state statute and are non-negotiable. The benefits of utilizing a law firm and lawyers with extensive experience in this area far outweigh the concerns brought forward by the auditor.

While there is no conflict of interest or nepotism in the office, the COR will document the reasons for choosing specific lawyers.

- 1.3 *The use of the Collector of Revenue credit card to purchase \$97.00 in alcohol was an oversight. The staff member who purchased the alcohol believed he had paid the bill on a different credit card. Once it was brought to the attention of the office, it was reimbursed. Collector of Revenue employees rarely travel on office business. As an independent office, the COR is not required to follow city policy limiting dinner to \$25 per person. We believe the amount of \$89.00 spent on dinner for three people is not excessive.*

While there has been no impropriety, to aid in the future, the COR will establish a written travel expense policy.

Auditor's Comment

- 1.1 *While Section 92.770, RSMo does not require soliciting proposals for legal services for the collection of taxes, soliciting proposals for all services remains a good business practice and allows for better, informed decisions. In addition, Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.*

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

The purchasing policy provided by the Collector of Revenue's office does not specifically address soliciting proposals for all professional services. The policy states 3 vendors will be contacted to obtain bids if the request is over \$5,000 and 1 individual is responsible for goods and the other for services.

- 1.2 The finding does not indicate the contracting with the Chief of Staff's daughter as an attorney is a violation of Chapter 105, RSMo. Rather, the contracting with a staff member's relative gives the appearance a conflict may exist, particularly given that there was no competitive selection, as noted in section 1.1. Documentation supporting vendor selection would help reduce the appearance of conflicts of interest.

2. Payroll Controls and Procedures

Improvement over payroll controls and procedures is needed. The Collector of Revenue's payroll expenses totaled approximately \$6.2 million for the year ended March 3, 2019.

2.1 Commuting miles

The Collector of Revenue's office did not properly report the total value of personal and commuting mileage for the Chief of Staff's use of a city vehicle on his 2018 W-2 form. In addition, a vehicle usage log to document business, commuting, and personal use of the vehicle was not maintained.

The office maintains a Ford Explorer assigned to the Chief of Staff. Office personnel indicated this is a multiple-user vehicle for office business, but due to the lack of secure overnight parking, it is removed from city property each night by the Chief of Staff and used for commuting to and from his home. The Chief of Staff reports personal and commuting mileage to the city for inclusion on his W-2.

The Chief of Staff only reported 1,125 personal miles and 120 commuting miles to the city for calendar year 2018. However, the round trip distance between city hall and the Chief of Staff's residence is approximately 18 miles. If the vehicle was used for daily commuting as indicated, the estimated commuting mileage for calendar year 2018 was likely significantly underreported by thousands of miles and the fringe benefit also underreported on his W-2. Without a vehicle log to document additional business usage, it is unclear whether the vehicle is necessary.

IRS reporting guidelines in Publication 15-B indicate personal and commuting mileage is a reportable fringe benefit and require the value for all use of the provided vehicle to be reported if the employer does not require submission of detailed logs that distinguish between business and personal use. In addition, because the fringe benefit was underreported, the city may be subject to penalties and/or fines for failure to report all of the taxable benefit. A vehicle log would help document that all personal and commuting

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

mileage is properly reported and would provide information to determine if the vehicle's business usage supports its continued retention.

2.2 Time records

Timesheets are not maintained for office employees. Instead, employees are required to sign and note the time on a sign-in sheet upon arrival to work each morning. Midday, these sheets are collected and signed by each department supervisor and then forwarded to human resources for processing. If an employee does not sign in, an absentee report is filled out by the supervisor for that day. A sign-out sheet is not completed to note when employees leave for the day; therefore, total hours worked for the day cannot be determined.

To adequately account for all payroll expenses and ensure the accuracy of hours worked, employees should prepare and sign timesheets, and timesheets should contain documented supervisory or independent reviews. In addition, the Fair Labor Standards Act under 29 CFR Section 516.2(a) requires records of actual time worked by employees be maintained.

2.3 Centralized leave records

The Collector of Revenue does not submit employee leave records to the Comptroller's office to maintain and reconcile with the city's centralized leave records. While records of vacation leave, medical/sick leave, and compensatory time earned, taken, or accumulated are prepared and maintained by the Collector of Revenue, they are not submitted to the Comptroller's office to be properly accounted for by the city.

By not submitting complete leave records to the Comptroller's office, city officials cannot ensure the compensatory time and leave usage and balances for Collector of Revenue employees are accurate and properly accounted for. Centralized records also aid in ensuring equitable treatment of employees, and help demonstrate compliance with the Fair Labor Standards Act.

Recommendations

The Collector of Revenue:

- 2.1 Comply with IRS guidelines for reporting fringe benefits related to personal and commuting mileage and require logs that distinguish between business and personal/commuting use. In addition, the Collector of Revenue should evaluate whether a city-owned vehicle is necessary for the Chief of Staff.
- 2.2 Maintain sufficient documentation of actual time worked that is prepared and signed by employees and reviewed and approved by the supervisor.
- 2.3 Ensure records of vacation leave, medical/sick leave, and compensatory time are forwarded to the Comptroller's office.

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 2.1 *The Chief of Staff transposed his commuting mileage on his W-2 forms to the benefit of the city and to his own detriment. He overstated his personal miles and understated his commuting miles, which means he paid more income tax than he should have for his personal miles and taxpayers paid less. There are a few things that need to be clarified in the mileage calculation by the auditor. 1) The Chief of Staff takes a different route to the office that has fewer miles than the auditors calculated. (10 miles versus 18 miles). 2) The Chief of Staff regularly visits banks and other businesses on official business on the way into the office in the morning or on the way home. 3) The Chief of Staff is regularly on the phone with local businesses or solving problems at the office on his way into or home from work. Those miles are not calculated in his personal miles. 4) The Chief of Staff has a personal car, and drives that in the evenings and on weekends when doing personal business.*

The office has already completed an evaluation as to the number of cars the office needs to conduct business. Over the last several years, the COR has reduced the number of office cars from seven cars to three cars. Each of these vehicles is properly dedicated to office use and mileage records are retained.

The Chief of Staff will rectify the mileage log and record his personal miles for IRS reporting.

- 2.2 *Evening timesheets are not necessary to ensure people are working efficiently on behalf of taxpayers. Right now, the office goes above and beyond the recommendations of the auditor to maintain documentation of the actual time worked for all employees. The COR has an effective process in place to document every employee's hours. The COR utilizes its trained managers to keep proper track of the hours employees work each day. These hours are recorded and managed by the Human Resources Manager, who has extensive experience in this area. Then these hours are reviewed by supervisors for accuracy and reflected on the employees pay stub. There are sufficient checks and balances in place today to ensure employees are working proper hours. Adding another step to the process provides no additional benefit to the checks and balances in the office.*

- 2.3 *There is no policy, ordinance, or state statute that requires the COR to report employee leave records to the Comptroller. The auditors are working under the misconception that the Comptroller's Office reconciles payroll time for every COR employee. They do not. In fact, the COR conducts more checks and balances than the Comptroller's Office does related to our staff.*

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

The COR has exceptional procedures in place to ensure payroll expenses are accurate, calculated properly and with sufficient oversight by management and each employee. The COR Human Resources Manager creates a report each pay period for all levels of managers to review with a summary of each employee's hours worked, time accrued, and time utilized. The employee also gets a copy of his/her own documentation so it's reviewed by the employee and several levels of management.

The office regularly conducts salary reviews for all employees to ensure the office is in compliance with all laws and ordinances.

Auditor's Comment

- 2.1 As discussed in the finding, the route calculated is 18 miles round trip from the Chief of Staff's residence to city hall. The 10 mile route mentioned in the auditee's response is for a one-way trip. In addition, maintaining a vehicle usage log to document business, commuting, and personal use of the vehicle would help reduce uncertainty about the use of the vehicle.
- 2.2 Failing to obtain time records documenting the time in and out and/or total hours worked per day that are verified by the employee and supervisor, such as a timesheets, prevents the Collector of Revenue's office from adequately accounting for the actual number of employee hours worked and the accuracy of payroll expenses.
- 2.3 Submitting employee leave records to the Comptroller's office allows someone independent of the Collector of Revenue's office to ensure the leave balances are accurate and properly accounted for.

3. Receipt and Deposit Controls and Procedures

The Collector of Revenue does not require employees to document verifications of receipts and deposits.

During the year ended March 3, 2019, the Collector of Revenue processed receipts of property taxes, earnings taxes, water and sewer and trash billings, motor vehicle sales taxes and registration fees, and driver's license fees totaling approximately \$734 million.

3.1 Receipts and deposits

Daily batch reports are not consistently signed to document employees' verification of receipts and deposits of payments received. In addition, the numerical sequence of receipt slips issued is not accounted for.

Employees in the Collector of Revenue's Finance Department and the Motor Vehicle and Driver's License Department receive payments at their respective collection windows. As payments are received and entered into the system, a receipt slip is generated. At the end of the day, a daily batch report is printed and turned over to the finance department along with the collections received to be verified and processed for deposit. Staff in both departments indicated

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

they verify the daily batch reports of collections with the monies remitted for deposit. Established procedures require staff performing the verification to initial or sign the batch reports and deposit records to document the review. We noted this procedure is not consistently applied. In addition, the numerical sequence of receipts issued is not accounted for and the composition of receipts is not reconciled with the composition of the deposits and, as a result, there is less assurance all monies received are deposited.

To ensure receipts have been properly processed, collection reports should be verified with monies received. These procedures should be consistently documented with the reviewing employee's signature on the related collection report to provide assurance to management the procedure was completed. In addition, the numerical sequence of all receipt slips issued should be accounted for and the composition of receipts should be reconciled to the composition of the deposits.

A similar condition was noted in our prior audit report. In the *Follow-Up Report on Audit Findings City of St. Louis Office of Collector of Revenue*, Report No. 2018-091, released in September 2018, the office reported this previous recommendation had been implemented; however, we found that the corrective action is not consistently applied and problems continue to exist.

3.2 Prepayment void transactions

The Motor Vehicle and Driver's License Department personnel did not obtain customer acknowledgment documentation for 3 of 6 (50 percent) applicable prepayment void transactions that occurred on February 22, 2019.

A prepayment void transaction occurs when a transaction is entered in the Missouri Department of Revenue (DOR) Titling and Registration Intranet Processing System but is voided before payment is made. Valid reasons for prepayment void transactions include when customers lack sufficient funds to pay for the transaction and entries with incorrect information.

DOR official procedures require customer acknowledgment of a void transaction if a new one is not completed or is completed for a lesser amount. In addition, obtaining a customer's acknowledgement helps ensure the transaction was voided for a valid reason.

Recommendations

The Collector of Revenue:

- 3.1 Require documentation of deposit verification procedures for deposits made by office departments. In addition, the Collector of Revenue should ensure personnel are accounting for the numerical sequence of receipts issued and reconciling the composition of receipts to the composition of deposits.
- 3.2 Ensure all prepayment void transactions are supported by customer acknowledgement of the void, when applicable.

City of St. Louis - Office of Collector of Revenue
Management Advisory Report - State Auditor's Findings

Auditee's Response

3.1 *The COR has been signing water/refuse deposit vouchers daily and the vouchers are verified by two water department and three finance employees to ensure accuracy. DOR deposits are counted, verified and signed off by a finance department employee in the presence of a DOR supervisor and by the employee daily.*

While the audit team was on site, the COR was advised that cashiers needed to verify daily collections (employees verified only discrepancies). The COR immediately implemented a step that would include each cashier signing off on collections after balancing a drawer. Earnings tax deposits are verified by both an earning tax employee and by the finance department.

The auditor is requesting that the COR should account for the numerical sequence of receipts issued and reconcile the composition of the receipts to the composition of the deposits. The process to conduct this numerical sequencing as suggested by the auditor was investigated to determine the feasibility. Transaction numbers are randomly generated by the main frame computer. A reprogramming of the system by an outside party would be required to fulfill this recommendation. The cost to create a specific report to address number sequencing would be about \$5,280.

Given the fact that no money was found to be missing and there were no financial errors found after the office collected taxes of \$800 million, the Collector of Revenue will determine whether cost/benefit of spending additional dollars is a value to the citizens of the city.

3.2 *The requirement for customer-signed documentation acknowledging a void has been implemented. There is no evidence that any void made by employees was improper.*

City of St. Louis - Office of Collector of Revenue

Organization and Statistical Information

The Office of Collector of Revenue is an elective office. The Collector of Revenue's duties are defined in Missouri statutes and the City of St. Louis Revised Code. These duties include collecting taxes and fees through the real estate and personal property taxes section; the city earnings taxes and payroll expense taxes section; and the water, sewer, and refuse section of the office. Additionally, the Collector of Revenue collects motor vehicle sales taxes and registration fees and drivers' license fees under a contract with the Missouri Department of Revenue.

Gregory F.X. Daly currently serves as the Collector of Revenue for the City of St. Louis. He has served in that capacity since he was elected to the position and took office on March 5, 2007. His current term expires March 3, 2023. Office functions are performed and supervised by the Collector of Revenue's appointed staff. The Collector of Revenue had 91 full-time and 2 performance employees as of March 3, 2019.

CITIZENS SUMMARY

Findings in the audit of Monroe County

Personal Property Tax Statements of Non-Assessment	The County Assessor has not established proper controls or procedures for the issuance of statements of non-assessment, commonly referred to as personal property tax waivers, and some waivers were issued in violation of state law.
Public Administrator's Annual Settlements	The Public Administrator does not always file annual settlements timely in compliance with state law.
Senate Bill 40 Board's Budgets	The Senate Bill 40 Board does not prepare adequate budgets as required by state law.
County Controls and Procedures	The county does not collect retail sales tax on sales of rock and culverts for private purposes. The County Commission does not adequately review court orders for property tax abatements.
County Assessor's Accounting Controls	The County Assessor's office has not established proper controls or procedures for receipting, recording, and transmitting payments received.
County Collector's Bank Reconciliations	The County Collector does not properly maintain a running checkbook balance or prepare adequate bank reconciliations for 2 of the 5 bank accounts.
Electronic Data Security	The County Assessor, Recorder of Deeds, and County Clerk have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The County Assessor and Recorder of Deeds do not have security controls in place to lock computers after a specified number of incorrect logon attempts and/or after a certain period of inactivity.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Monroe County

We have audited certain operations of Monroe County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

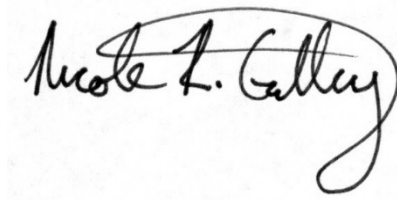

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Monroe County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Audit Staff:	Sherrye Lesmes
	John J. Thompson

Monroe County Management Advisory Report State Auditor's Findings

1. Personal Property Tax Statements of Non-Assessment

The County Assessor has not established proper controls or procedures for the issuance of statements of non-assessment, commonly referred to as personal property tax waivers, and some waivers were issued in violation of state law. The County Assessor's office issued 626 waivers during the year ended December 31, 2019.

When a taxpayer requests a waiver, a County Assessor's office employee determines whether the request is valid based on their internal policies and, if so, generates the waiver statement from the property tax system. The practice of the County Assessor's office is to issue waivers without verification of records from the Missouri Department of Motor Vehicles (DMV). In some cases, DMV records demonstrated the taxpayer still had ownership of the vehicle and, as a result, waivers were issued in violation of state law. Also, despite having access to prior year records of assessment and waivers, office personnel do not adequately review the personal property tax assessment lists submitted annually by taxpayers to determine if the waived personal property items were added to the current year's personal property assessment list when applicable.

We reviewed 40 personal property tax waivers issued during the year ended December 31, 2019. Twelve of the 40 (30 percent) waivers were issued for personal property owned or held on January 1 of the year(s) waived. Examples of concerns include the following:

- A taxpayer received a waiver for tax year 2018 for a truck purchased and titled in 2008. The County Assessor indicated she believes her office properly issued the waiver because the taxpayer indicated the vehicle was inoperable for an extended period of time.
- A taxpayer received a waiver for tax years 2017 and 2018 for a recreational vehicle (motor home) purchased and titled in 2015. The County Assessor indicated she believes her office properly issued the waiver because the vehicle had not been licensed until 2019. However, this information conflicts with DMV records indicating the vehicle was licensed in Missouri and the vehicle's license plates expired in 2019.
- A taxpayer received a waiver for tax years 2017 and 2018 for a farm/utility trailer purchased and titled in 1996. The County Assessor indicated she believes her office properly issued the waiver because the trailer did not have much value due to its age.
- A taxpayer received a waiver for tax year 2018 for a car purchased and titled in 2017. The County Assessor indicated she believes her office properly issued the waiver because the taxpayer had not owned any vehicles licensed and registered in Monroe County until 2020.

Monroe County Management Advisory Report - State Auditor's Findings

State law does not allow issuance of waivers for personal property that is not properly licensed, is inoperable, or otherwise not used to travel on public roads. The improper issuance of waivers has resulted in the county and various political subdivisions including schools receiving less money than they were legally owed.

Section 301.025, RSMo, provides that a state registration license for a vehicle or trailer cannot be issued unless the applicant provides a tax receipt for the tax year immediately preceding the year of registration that shows all taxes but provides an exception when the applicant provides a statement certified by the county collector that no taxes were assessed or due.

No provision of law exempts taxes from being due on property that should have been assessed but was not assessed. Section 137.075, RSMo, states "Every person owning or holding real property or tangible personal property on the first day of January, including all such property purchased on that day, shall be liable for taxes thereon during the same calendar year." Section 137.130, RSMo, states the County Assessor "shall assess property based upon a physical inspection or on the best information the assessor can obtain." This section also provides that the County Assessor must assess and cause taxes to be imposed on taxable personal property that should have been assessed, but was omitted, for the current year and up to the three previous years. Also, Section 139.300, RSMo, states that a County Assessor who unlawfully exempts property from taxation may be held liable for double the amount of the loss, may be subject to a fine, and may be removed from office at the discretion of the court.

To ensure personal property tax waivers are issued appropriately and comply with all applicable state statutes, all personal property tax waivers should be supported by proper DMV purchase reports and/or other detailed documentation with a clearly documented reason for issuing the waiver.

Recommendation

The County Assessor and her staff review personal property tax waiver requests and ensure the requests are allowed by state law before granting the waivers.

Auditee's Response

In response to waivers given by my office, my office makes every effort to ensure that citizens of the county are given waivers for their appropriate non-licensed vehicles and to ensure that those vehicles are taxed for the appropriate year if the person resides in Monroe County.

One of the main discussions with auditors was the issue of unlicensed vehicles. It has always been a practice in the office that if an individual does not license a vehicle, we do not make the individuals report those vehicles to us until they update or renew the registration and license on that vehicle. I spoke with the State Tax Commission staff who stated that as long as I am

Monroe County
Management Advisory Report - State Auditor's Findings

consistent with my policy then I am within their recommendation. This has been a practice for my office for the last 34 years.

Another topic discussed with auditors was some waivers given on trailers. I believe our main problem with the trailers was for many years the local license bureau allowed citizens to renew license plates without proving they had paid any property taxes on the trailers. When the license bureau changed hands, the new staff sent them to us for waivers or a paid tax receipt. We established the policy to give waivers on the trailers and to make sure they paid taxes on trailers from that point forward. This has been a struggle to keep up with licensed and unlicensed trailers. There are still some that we are working on to bring them up to date, and I feel we are trying our best to get them on their yearly assessment list.

When I spoke to the auditors they were concerned that of the 40 waivers that were randomly pulled, 30 percent or 12 waivers, were given in error. When you deduct vehicles that were not licensed or inoperable and were granted a waiver, that number drops to 7, or 17.5 percent. When you factor in the trailers that we are trying to get placed on the taxpayers' assessment list, that number drops to 3, or 7.5 percent.

I agree that the remaining 3 vehicles should have been assessed and they slipped past our attention.

Auditor's Comment

Based on statutory provisions, the County Assessor has no legal authority to issue a property tax waiver unless the taxpayer did not own the vehicle or trailer on January 1st of the year(s) waived, or did not reside in Monroe County.

2. Public Administrator's Annual Settlements

The Public Administrator does not always file annual settlements timely in compliance with state law. The Public Administrator is the court appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 8 wards and estates during the year ended December 31, 2019.

During our review of 6 active cases, we noted 5 cases (83 percent) did not have annual settlements filed timely. Settlements filed (or still due) for these cases ranged from 35 to 167 days after the due date, as of May 31, 2020. In addition, the Public Administrator filed one annual settlement for a period of 18 months instead of 12 months as required by state law.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate annually on the anniversary date of the date of letters. Timely filing of settlements is necessary for the court to properly oversee the administration of cases and

Monroe County
Management Advisory Report - State Auditor's Findings

reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

Recommendation

The Public Administrator file annual settlements timely and ensure they are completed for a one year period as required by state law.

Auditee's Response

I will strive to ensure all annual settlements are submitted timely and for the correct time period. As I previously discussed with auditors, I have an attorney prepare the annual settlement for the ward with the largest amount of assets. The attorney had some unforeseen circumstances arise that delayed her completion of the annual settlement. Also, for another ward the Probate Judge and I informally discussed delaying the settlement because we had information that another individual would be filing for guardianship and conservatorship; however, this individual still has not filed those documents at this time. I understand that it is my responsibility to file the settlements on time.

3. Senate Bill 40 Board's Budgets

The Senate Bill 40 Board does not prepare adequate budgets as required by state law. The Board for Monroe County is known as the Monroe County Developmental Disabilities Resource Board (MCDDRB). The MCDDRB collected approximately \$129,000 in property tax revenues and interest during the year ended December 31, 2019.

The 2019 and 2020 MCDDRB budgets submitted to the State Auditor's Office did not include estimated revenues and appropriations, and only included the prior year's actual revenues and expenditures.

Budget documents are an essential tool for the efficient management of finances and should be prepared annually at the beginning of each year. Section 50.590, RSMo, requires county budgets to present a complete and detailed financial plan and include proposed expenditures and estimated revenues.

A similar condition was noted in our 3 prior audit reports.

Recommendation

The Monroe County Developmental Disabilities Resource Board prepare accurate and complete budgets.

Auditee's Response

We will implement a budget committee to ensure both revenues and expenditures are included in the budget, and the budget is in the format required by state law. The 2020 budget was just corrected and re-submitted to the State Auditor's Office in August 2020 after the Board's approval.

Monroe County
Management Advisory Report - State Auditor's Findings

4. County Controls and Procedures

Improvements are needed in the county's procedures over rock and culvert sales and abatements of property taxes.

4.1 Rock and culvert sales

The county does not collect retail sales tax on sales of rock and culverts for private purposes. Total receipts from rock and culvert sales (excluding sales to tax-exempt entities such as cities and road districts) were approximately \$22,000 for the year ended December 31, 2019.

Rock and culverts are sold to residents, cities, and road districts. The county is not charging residents sales tax for rock and culverts sold to them. As a result, residents avoided paying sales tax on these purchases. The county may have circumvented sales tax laws by selling rock and culverts for private purposes and not collecting and remitting retail sales tax to the state.

Section 144.080.1, RSMo, requires every person receiving any payment or consideration upon the sale of property or rendering of service to collect and remit sales tax. While sales to government entities are exempt from this tax, sales by Missouri political subdivisions are subject to tax.

A similar condition was noted in our prior audit report. At that time, the County Commission indicated the County Clerk would check into collecting retail sales tax with the Missouri Department of Revenue but the County Clerk indicated she did not contact the department.

4.2 Abatements

The County Commission does not adequately review court orders for property tax abatements. During the year ended February 29, 2020, abatements totaled approximately \$60,000.

The County Assessor and County Collector process abatements and print court orders for review and approval by the County Commission. The County Clerk and County Commission review the court orders and sign them to document approval. None of the 14 abatement court orders we reviewed indicated a reason for the abatement. As a result, current procedures are not adequate to verify the reasonableness of these court orders.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making corrections to the tax books with the approval of the County Commission. To ensure changes made to the property tax system are proper, adequate review and approval of property tax abatements is necessary.

Recommendations

The County Commission:

- 4.1 Contact the Department of Revenue regarding the collection and remittance of retail sales tax on sales intended for private purposes.

Monroe County
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 4.2 And the County Clerk ensure the reason for the abatement is clearly documented prior to approving court orders to abate property taxes.
- 4.1 *We will implement collecting sales tax on all sales of rock and culverts as of January 1, 2021.*
- 4.2 *We along with the County Clerk have implemented a new practice of ensuring the reason for the court order for abatement is properly documented and is reasonable.*

5. County Assessor's Accounting Controls

The County Assessor's office has not established proper controls or procedures for receipting, recording, and transmitting payments received. The County Assessor's office receives payments for maps, copies, district reports, and data files. The County Assessor's office collected and transmitted approximately \$2,500 during the year ended December 31, 2019.

Office personnel do not issue receipt slips for payments received and the County Assessor has not established adequate procedures to ensure all money collected has been transmitted to the County Treasurer. Office personnel issue invoices at the time of sale. While some customers make immediate payment, many customers are allowed to make purchases on account and are subsequently billed for these purchases by mail or email. Paid invoices include the item(s) provided, amount, and date received and are filed in the order paid.

We reviewed the office's financial activity during December 2019. Invoice records indicated receipts totaled \$266 but \$275 was transmitted to the County Treasurer. When reviewing the County Treasurer's records, we determined the County Assessor had transmitted 2 receipts, totaling \$9, not supported by an invoice.

Failure to implement adequate receipting, recording, and transmitting procedures increases the risk of loss, theft, or misuse of monies received going undetected.

Recommendation

The County Assessor issue prenumbered receipt slips for all money received and indicate the method of payment on all receipt slips, and maintain a receipts log. In addition, the numerical sequence of receipt slips should be accounted for and the composition of receipts should be reconciled to the composition of amounts transmitted.

Auditee's Response

Before the year 2017, we did not charge for copies, emails, or faxes. After I took office, we implemented a schedule for businesses to pay for our information. We make an invoice for those charges and normally email, fax, or mail those invoices to the customers. There were some cash payments that

Monroe County
Management Advisory Report - State Auditor's Findings

did not get invoiced. I believe that's where we are short on invoices compared to what was transmitted.

Since the auditors brought this to my attention, I have changed our policy to where we will no longer accept cash payments.

I believe this will allow us to better track the money received. We now take our copy of the invoice along with the check to the County Treasurer on a daily basis. Before this, I would keep the checks until I had several to take to the County Treasurer. This has been addressed by transmitting those checks as soon as they are received along with maintaining a receipt slip booklet for payments.

6. County Collector's Bank Reconciliations

The County Collector does not properly maintain a running checkbook balance or prepare adequate bank reconciliations for 2 of the 5 bank accounts. The County Collector's office collected approximately \$9 million in property taxes and other receipts during the year ended February 29, 2020.

For the Credit (used for depositing all credit/debit card payments) bank account and the Bankruptcy (used for depositing monies received from bankruptcy courts) bank account, the County Collector does not ensure all receipt and disbursement transactions are recorded in the checkbook balance in order to maintain an accurate book balance. The County Collector said checkbook entries are sometimes documented in the checkbook register on the date the transactions cleared the bank and not the date the transactions occurred.

The February 2020 bank reconciliation for the Credit bank account indicated the bank balance agreed to the checkbook balance of \$25,605; however, the County Collector had not updated the balance. Our review indicated the correct checkbook balance was \$29,343, resulting in a difference of \$3,738. The difference related to 4 credit card receipts (deposits in transit) not included in the bank reconciliation. The February 2020 bank reconciliation for the Bankruptcy bank account indicated the bank balance agreed to the checkbook balance of \$1,014; however, the checkbook balance had not been updated and the last recorded book balance was \$625, resulting in a difference of \$389. The difference was due to the County Collector not posting the last 3 months of interest earned on the account totaling \$5 and a deposit of \$384 to the checkbook balance. These items had already cleared the bank account prior to the end of February 2020.

Without preparing adequate monthly bank reconciliations and maintaining accurate cumulative checkbook balances there is less assurance receipts and disbursements have been properly handled and recorded. In addition, accounting and bank errors may not be detected and corrected timely.

Monroe County
Management Advisory Report - State Auditor's Findings

Recommendation

The County Collector ensure monthly bank reconciliations are prepared and reconciled to the book balance, and maintain cumulative book balances for all bank accounts. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

Auditee's Response

All collections and distributions for each month and the year ending February 29, 2020, matched perfectly. Credit card payments received the last day of the month are posted to the bank account the following day. On-line payments are not visible until the next business day, and procedures will be updated to reflect "deposit in transits" to show payments on the last day of the month and not the date monies are received/deposited. Checkbook balances are monitored daily and checked multiple ways including by written, electronic and paper statement, that along with computer generated monthly reports assure all tax monies are properly accounted for and distributed each month.

7. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

7.1 User identification and passwords

The County Assessor, Recorder of Deeds, and County Clerk have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in the County Assessor's office share user identifications and passwords for the property tax system. As a result, there is no assurance that the user listed in the system for posting or deleting a transaction was the person who did it. In addition, employees in the County Assessor's office and the Recorder of Deeds' office are not required to change passwords periodically. Also, employees of the County Assessor's office and the County Clerk's office are not required to use passwords with a minimum number of characters.

Unique user identifications and passwords are necessary to identify activity performed by each individual. While user identifications and passwords are required to authenticate access to computers, the security of these logon credentials is dependent upon keeping them confidential. Allowing certain users to share logon credentials increases the risk of unauthorized access and/or changes to the system and records and does not provide assurance access is limited to only those individuals who need access to perform their job responsibilities. Also, since passwords in certain offices are not required to be periodically changed or contain a minimum number of characters, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be confidential, changed periodically, and contain a minimum number of characters to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

Monroe County
Management Advisory Report - State Auditor's Findings

7.2 Security controls

The County Assessor and Recorder of Deeds do not have security controls in place to lock computers after a specified number of incorrect logon attempts and/or after a certain period of inactivity.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive unsuccessful logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files.

Recommendations

The County Commission work with other county officials to:

- 7.1 Require each employee to have a unique user identification and confidential password with a minimum number of characters that is periodically changed.
- 7.2 Require each county computer to have security controls in place to lock it after a specific number of incorrect logon attempts or after a certain period of inactivity.

Auditee's Response

The County Commission provided the following response:

We will implement these changes.

The County Assessor provided the following response:

Before the audit, one of my deputies had her own login and password but the other deputy shared my login and password. That has been corrected for the office and each computer/employee has its own login and password. It was also brought to my attention that we need to have a screen timeout if we are away from our desks. That will be implemented soon.

The County Clerk provided the following response:

I will implement a requirement to establish passwords with a minimum number of characters.

Monroe County

Organization and Statistical Information

Monroe County is a county-organized, third-class county. The county seat is Paris.

Monroe County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 34 full-time employees and 7 part-time employees on December 31, 2019.

In addition, county operations include a Senate Bill 40 Board (Monroe County Developmental Disabilities Resource Board), Mark Twain Reservoir Board, and Law Enforcement Restitution Fund Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2020	2019
Michael Minor, Presiding Commissioner	\$	28,400
Ron Staggs, Associate Commissioner		26,400
Mike Whelan, Associate Commissioner		26,400
Lori Decker, Recorder of Deeds		40,000
Christina Buie, County Clerk		40,000
Talley Smith, Prosecuting Attorney		47,000
J. David Hoffman, Sheriff		44,000
Sheila Jurgesmeyer, County Treasurer		40,000
James K. Reinhard, County Coroner		12,000
Marguerite Jones, Public Administrator		20,000
Chrissy Graupman, County Collector, year ended February 29,	40,000	
Angelia Baker, County Assessor, year ended August 31,		40,000

NICOLE GALLOWAY, CPA

Missouri State Auditor

August 20, 2020

Honorable Mike Parson, Governor
and
Members of the General Assembly

The State Auditor's Office reviewed state agency compliance with Section 536.175, RSMo. We determined that the Department of Commerce and Insurance and the Missouri Consolidated Health Care Plan met the requirements of Section 536.175, RSMo. These requirements include each agency reviewing its existing rules, completing and filing the periodic rule review report with the Joint Committee on Administrative Rules (JCAR), and ensuring the report is available on the agency's website.

Section 536.175, RSMo, requires a 5 year rolling review by all state agencies of their existing rules. The first group of agencies (Title 1 through 6 of the Code of State Regulations [CSR]) were required to begin their rule review no later than July 1, 2015, and to complete it by June 30, 2016. The second group of agencies (Title 7 through 10 of the CSR) were required to begin their rule review no later than July 1, 2016, and to complete it by June 30, 2017. The third group of agencies (Title 11 through 14 of the CSR) were required to begin their rule review no later than July 1, 2017, and complete it by July 30, 2018. The fourth group of agencies (Title 15 through 19 of the CSR) were required to begin their rule review no later than July 1, 2018, and complete it by July 30, 2019. The final group of agencies (Title 20 through 22 of the CSR) were required to begin their rule review no later than July 1, 2019, and complete it by June 30, 2020. Each agency must repeat this process every 5 years, and the first group of agencies began their second review process no later than July 1, 2020.

The JCAR publishes in the Missouri Register a notification of which rules are subject to review and the process for this review, including who the public may submit comments to at each agency. Each agency must prepare a report of the results of the agency's rule review with an attached appendix summarizing comments received and the agency's response. The agency must file the report and appendix electronically with the JCAR and the small business regulatory fairness board no later than June 30th after the JCAR publishes the notice. These reports also must be made available on the state agency's website.

Any rule not included in the agency review and report may become null and void. There is a process in place before nullification of a rule, including the ability of the agency to request an extension from the JCAR and a notice and opportunity for the agency to correct the delinquency.

On July 1, 2019, the JCAR published in the Missouri Register the notification of the agency rules (Title 20 and 22¹) subject to review and the process, as required by Section 536.175.2, RSMo.² The following agencies began their rule review on July 1, 2019, and completed the review process by June 30, 2020:

¹ Title 21 of the CSR has been rescinded.

² 44 Mo Reg. 1957 (July 1, 2019).

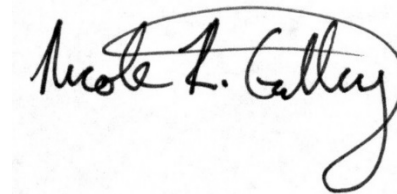

Title 20 - Department of Commerce and Insurance
Title 22 - Missouri Consolidated Health Care Plan

Based on a review of the JCAR's website, each agency timely completed and filed its periodic rule review report by June 30, 2020. These reports are available on that website. Each agency also posts its report on the agency's website.

On July 29, 2020, my office sent a letter to each agency to confirm the information from this review. Each agency provided a response. The table below provides a summary of the information determined from this review.

Department	Number of Rules Reviewed	Number of Comments Received	Rule Report Filed with the JCAR	Rule Report Available on Agency Website
Department of Commerce and Insurance	1,840	2	Yes	Yes
Missouri Consolidated Health Care Plan	47	0	Yes	Yes

Based on this review, these agencies timely completed their rule review process and report as required under Section 536.175, RSMo; and, no further action is necessary.

Greene County

Report No. 2020-050

August 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Greene County

Disbursements	The county disbursed \$15,125 during the year ended December 31, 2018, for employee appreciation and employee recognition that was questionable and/or an unnecessary use of county resources. The Highway department gave gift cards to employees in violation of the Missouri Constitution.
Prosecuting Attorney's Accounting Controls and Procedures	The Prosecuting Attorney has not adequately segregated accounting duties and does not perform supervisory reviews of accounting and transmittal records for delinquent tax payments. The cashiers do not transmit monies received timely and intact in accordance with office policy. Checks and money orders made payable to Greene County are not restrictively endorsed upon receipt. The Prosecuting Attorney does not account for the numerical sequence of receipt slips issued for delinquent tax receipts.
County Clerk's Liquor Licenses	The County Clerk does not issue receipt slips for liquor licenses and does not account for the numerical sequence of liquor licenses issued.
County Treasurer's Controls and Procedures	The County Treasurer does not deposit receipts intact, does not maintain the change fund at a constant amount, and uses the change fund for petty cash purchases and to replenish petty cash funds for other county offices and departments. The County Treasurer does not require the Building Maintenance department to limit petty cash purchases to \$25 as stated in the county's purchasing guide.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Greene County

The State Auditor was requested under Section 50.057, RSMo, to audit Greene County. In addition, KPM CPA & Advisors, Certified Public Accountants, was engaged to audit the financial statements of Greene County for the year ended December 31, 2018. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

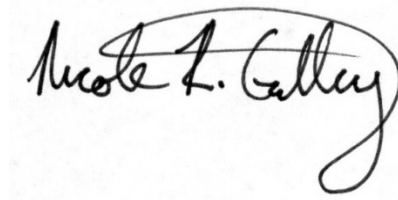

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Greene County.

Additional work related to the operations of the Sheriff's office and the County Commission are still in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Audit Staff:	Misty Bowen, MSED, CFE
	Ethan D. Evans, CFE, CGAP
	Shelby Reams

Greene County Management Advisory Report State Auditor's Findings

1. Disbursements

County controls and procedures over disbursements need improvement. The county disbursed approximately \$100.3 million, excluding payroll, according to the disbursement detail listing provided by the county for the year ended December 31, 2018.

1.1 Questionable purchases

The county disbursed \$15,125 during the year ended December 31, 2018, for employee appreciation and employee recognition that was questionable and/or an unnecessary use of county resources. Examples of these disbursements included payments for:

- An employee appreciation day held on October 10, 2018, that included a catered barbecue luncheon and t-shirts totaling \$9,262.
- Gift cards totaling \$2,000 (16 cards at \$35 each and 36 cards at \$40 each) to employees as part of the Top Branch program to recognize exceptional employees.
- A winter thank you lunch costing \$1,028 for the Highway department.

These expenditures were funded with \$11,489 from the Employee Recognition Fund, \$2,967 from the Road and Bridge Fund, and \$669 from the Prosecuting Attorney Administrative Cost Handling Fund.

Public funds should be spent only on items necessary and beneficial to the county. County residents have placed a fiduciary trust in their public officials to spend county revenues in a prudent and necessary manner.

1.2 Christmas gift cards

The Highway department gave gift cards to employees in violation of the Missouri Constitution. During the year ended December 31, 2018, the Highway department purchased 120 gift cards totaling \$3,000 (\$25 each) for employees as Christmas gifts.

These gifts represent additional compensation for services previously rendered. Article III, Section 39, Missouri Constitution prohibits counties from granting additional compensation for services previously rendered. Additionally, Article VI, Sections 23 and 25, Missouri Constitution prevent local governments from granting public money to any private individual, except as otherwise provided by law.

Recommendations

The County Commission:

- 1.1 Ensure all disbursements are necessary and prudent uses of public funds.
- 1.2 Work with the Highway department to discontinue the practice of giving gift cards to employees.

Greene County
Management Advisory Report - State Auditor's Findings

Auditee's Response

1.1 *Funding for the Employee Recognition Fund, which was used in part for the employee appreciation and recognition purchases, is from vending receipts from employees. Employee appreciation and recognition purchases from that fund has been suspended due to declining vending receipts. Gift cards previously provided as awards were included as taxable income to the recipients; however, gift cards are no longer in use.*

1.2 *Although gift cards were included in taxable income for the recipients, the county has discontinued the use of gift cards.*

2. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately \$2.4 million in bad check, court-ordered restitution, delinquent tax payments, and fees during the year ended December 31, 2018.

2.1 Segregation of duties

The Prosecuting Attorney has not adequately segregated accounting duties and does not perform supervisory reviews of accounting and transmittal records for delinquent tax payments. The cashiers are responsible for receipting, recording, and transmitting monies. The cashiers transmit delinquent tax payments received to the Missouri Department of Revenue without a supervisory review. The office receipted approximately \$1.7 million in delinquent tax payments for the year ended December 31, 2018.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and transmitting monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and transmittal records are essential and should include comparing daily receipt activity to transmittals.

2.2 Receipts and transmittals

The cashiers do not transmit monies received timely and intact in accordance with office policy.

For example, as shown in the table below, 38 bad check receipts totaling \$4,342 receipted from April 16, 2018, through May 16, 2019, were not transmitted timely by the cashiers because the full amount owed to each victim had not yet been received.

Greene County
Management Advisory Report - State Auditor's Findings

<u>Date(s) Received</u>	<u>Date Transmitted</u>	<u>Number of Receipts</u>	<u>Amount</u>
August 6, 2018, and August 15, 2018 May 25, 2018, and February 6, 2019 June 25, 2018, to May 16, 2019 April 16, 2018, to March 15, 2019 September 4, 2018 April 30, 2018, to May 11, 2018	July 31, 2019 August 1, 2019 August 2, 2019 August 16, 2019 September 19, 2019 September 24, 2019 Total	2 2 26 4 1 3 38	\$ 253 178 3,043 562 26 280 \$ 4,342

One receipt was held 512 days before it was transmitted to the victim. Prosecuting Attorney office policy states receipts are to be transmitted to the victim by the cashiers after being reviewed by the Office Manager and/or the Assistant Prosecuting Attorney. The County Treasurer was requested to issue replacement checks for 4 money orders totaling \$96 at the expense of the Prosecuting Attorney Administrative Cost Handling Fund because the money orders had expired.

In addition, \$8,345 in court-ordered restitution and fees, received from June 10, 2019, through July 15, 2019, was not transmitted until July 16, 2019, (\$8,040), and August 6, 2019 (\$305).

Additionally, checks and money orders made payable to Greene County are not restrictively endorsed upon receipt. The Office Manager indicated checks and money orders are endorsed before or after the review process, prior to transmittal.

Failure to implement adequate receipting and transmitting procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected. In addition, checks and money orders should be restrictively endorsed immediately upon receipt.

2.3 Numerical sequence of receipt slips

The Prosecuting Attorney does not account for the numerical sequence of receipt slips issued for delinquent tax receipts. Due to a previous vendor-wide system limitation, a report of receipt slips for delinquent tax monies received was not able to be printed from the case management computerized system.

Greene County
Management Advisory Report - State Auditor's Findings

To ensure all monies received are properly recorded and transmitted, and to reduce the risk of loss, theft, or misuse of funds, the Prosecuting Attorney should ensure adequate controls are in place to properly account for the numerical sequence of receipt slip numbers assigned by the case management system for all receipts.

Recommendations

The Prosecuting Attorney:

- 2.1 Segregate accounting duties or ensure independent or supervisory reviews of detailed accounting and transmittal records are performed and documented.
- 2.2 Transmit all receipts timely and intact and restrictively endorse checks and money orders immediately upon receipt.
- 2.3 Account for the numerical sequence of receipt slip numbers.

Auditee's Response

- 2.1 *I concur with this recommendation. Because of the small size (two clerks) of the cashier window staff; however, complete segregation of duties is not possible. Though not noted in the report, the Prosecuting Attorney's office conducts documented supervisory reviews of detailed accounting and transmittal records with regard to bad check and restitution payments made out to victims. As recommended, the Prosecuting Attorney's office has also implemented such reviews with regard to delinquent tax payments made to the Department of Revenue.*
- 2.2 *I concur with this recommendation. As noted in the report, there was a relatively small portion of total receipts that were not transmitted timely by the cashier staff contrary to the policy and procedure of the Prosecuting Attorney's office. We found this matter attributable to turnover among cashier staff and addressed it immediately through both additional training and supervision. With regard to restrictive endorsements, for the portion of payments made out to Greene County, we have clarified our existing restrictive endorsement practice to ensure it uniformly occurs at the time of receipt rather than following the supervisory review.*
- 2.3 *I concur with this recommendation. Though not specifically noted in the report, all receipt slips are issued in a numerical sequence. During the audit it was found that the computerized case management system used by some of the Prosecuting Attorney's offices throughout the state of Missouri did not list the receipt slip numbers on the report of delinquent taxes collected. The Prosecuting Attorney's office worked with the case management system vendor to reprogram the delinquent tax report so that, like the restitution and*

Greene County
Management Advisory Report - State Auditor's Findings

bad check reports, it would include the prenumbered receipt slip numbers to allow for an additional control measure.

3. County Clerk's Liquor Licenses

The County Clerk does not issue receipt slips for liquor licenses and does not account for the numerical sequence of liquor licenses issued. Liquor license receipts totaled \$220,415 for the year ended December 31, 2018.

Liquor license numbers are considered receipt slip numbers; however, these numbers are not used in numerical order. Each business is assigned a liquor license number at the time of application that is reused for that business each year. In addition, the method of payment is not recorded on the liquor licenses when payment is received.

During our review of the liquor license log maintained by the County Clerk we could not account for 4,513 of 5,569 license numbers for the year ended December 31, 2018. In addition, 167 license numbers were used twice. The Chief Deputy Clerk indicated the missing license numbers were attributed to closed businesses or unpaid applications and the license numbers used twice were due to the business paying for the 2017 license and 2018 license during 2018.

Failure to implement adequate receipting and liquor license procedures increases the risk that loss, theft, or misuse of monies received for liquor licenses will occur and go undetected.

Recommendation

The County Clerk issue prenumbered receipt slips for all monies received and account for the numerical sequence.

Auditee's Response

The County Clerk is working on a new web-based renewal process that will create a separate serialized receipt slip number for all renewal payments. The receipt slips will indicate method of payment and will be a separate document from the license itself. Two of the license numbers that were not accounted for were assigned to a company that is now closed, so those license numbers no longer exist and will not be reissued. Greene County Information Systems has confirmed that the majority of the missing numbers are due to the liquor license program's use of "primary keys" as unique identifiers for saved licenses. The County Clerk will work with Greene County Information Systems to eliminate the use of primary keys, and to create a new fully serialized license number.

4. County Treasurer's Controls and Procedures

Controls and procedures in the County Treasurer's office need improvement.

4.1 Deposits and change fund

The County Treasurer does not deposit receipts intact, does not maintain the change fund at a constant amount, and uses the change fund for petty cash purchases and to replenish petty cash funds for other county offices and departments. The County Treasurer replenishes the change fund with cash from the transmittals received from various county offices.

Our cash count on June 24, 2019, included \$9,053 in the change fund. In addition, the cash count included cash receipts totaling \$1,385 and checks and money orders totaling \$24,108. The checks and money orders were deposited later that day. The cash receipts were added to the change fund and the change fund balance increased to \$10,438.

Failure to implement adequate depositing procedures and maintain change funds at a constant amount increases the risk that loss, theft, or misuse of monies will occur and go undetected. To reduce that risk, all receipts should be deposited intact. In addition, if a change fund is needed, it should be set at a constant amount and a procedure should be established to reconcile to this amount every time a deposit is made. If needed, a separate petty cash fund should be established and maintained on an imprest basis. Petty cash funds should only be reimbursed through a county disbursement approved by the County Commission and not from daily receipts.

4.2 Petty cash purchases

The County Treasurer does not require the Building Maintenance department to limit petty cash purchases to \$25 as stated in the county's purchasing guide. The Building Maintenance department maintains a petty cash fund of \$300 that is replenished by the County Treasurer from his change fund. The County Treasurer is responsible for ensuring the department submits receipt slips for all petty cash purchases and for enforcing the \$25 limit on petty cash purchases.

The Building Maintenance department's petty cash reimbursements, totaling \$2,828 for January 2018, were reviewed and we noted 37 of the 67 items purchased, totaling \$2,417, exceeded the \$25 limit. The County Treasurer indicated the department is allowed to exceed the \$25 limit because the department would not otherwise be able to make emergency and minor repairs in a timely manner by going through the requisition process, which can take several weeks.

To better safeguard county funds and provide less risk for employees using petty cash for items costing more than \$25, the county should review its

Greene County
Management Advisory Report - State Auditor's Findings

current practice of using petty cash for these purchases and determine if a more secure method of payment could be used.

Recommendations

The County Treasurer:

- 4.1 Deposit monies received intact and determine if a change fund is needed. If needed, determine the amount of the change fund that is needed and maintain it at a constant amount. If needed, a petty cash fund should be established and maintained on an imprest basis and reimbursed through a county disbursement.
- 4.2 Ensure the Building Maintenance department's petty cash purchases do not exceed the \$25 limit in the county purchasing guidelines and consider implementing alternative methods of payment for these expenses.

Auditee's Response

- 4.1 *I agree that the creation of a separate petty cash drawer would be beneficial to operations. I have reduced the change drawer to \$4,000 and created a separate petty cash drawer of \$3,000 on an imprest accounting system as recommended. Checks are deposited daily by using a remote scanner and I have increased our frequency of cash deposits. The daily cash balancing and cross checking takes into account the prior day's balance and the inflows and outflows of cash for the day; for which the County Auditor reviews daily.*
- 4.2 *I concur with this recommendation. The Building Maintenance department has established accounts with common vendors and are utilizing blanket purchase orders for that purpose in lieu of petty cash. This has greatly reduced the use of petty cash transactions. In addition, the outdated purchasing limit of \$25 for each petty cash transaction has been removed from purchasing guidelines. As a general rule, the County Treasurer does not honor petty cash transactions for more than the amount of the petty cash drawer issued. This amount varies by office, based on the office's needs.*

Greene County

Organization and Statistical Information

Greene County is a county-organized, first-class county. The county seat is Springfield.

Greene County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 850 full-time employees and 19 part-time employees on December 31, 2018.

In addition, county operations include Senate Bill 40 Board, 911 Board, Senior Citizens' Services Board, Board of Equalization, Building Commission, Historic Sites Board, Industrial Development Authority, Planning and Zoning Board, Neighborhood Improvement Districts, Tax Increment Financing Commission, and Shelters for Victims of Domestic Violence Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2019	2018
Bob Cirtin, Presiding Commissioner	\$	81,339
Harold Bengsch, Associate Commissioner		79,339
Lincoln Hough, Associate Commissioner		79,339
Cheryl Dawson-Spaulding, Recorder of Deeds		81,339
Shane Schoeller, County Clerk		81,339
Dan Patterson, Prosecuting Attorney		138,719
Jim Arnott, Sheriff		88,233
Justin Hill, County Treasurer		81,339
Cindy S. Stein, County Auditor		81,339
Lee Ann Walker, Public Administrator		81,339
Leah Betts, County Collector, year ended February 28,	81,339	
Rick Kessinger, County Assessor, year ended August 31,		81,091

Greene County
Organization and Statistical Information

New Sales Tax and
Financing Arrangements

In November 2017, voters approved a 1/2-cent sales tax for the purpose of general revenue. The county issued \$64,470,000 in Certificates of Participation (COPS) in September 2018 to provide funding for several capital projects including an expansion of the Greene County Justice Center, renovations to the Judicial Courts Facility, and a new Operations Center to house the Building Operations and General Services departments. The new sales tax revenues, which are accounted for in the General Revenue II Fund, are used to make the payments on the COPS. The COPS are scheduled to be paid off in 2038. The remaining principal and interest due at December 31, 2018, was \$64,470,000 and \$27,700,000, respectively.

Nicole Galloway, CPA

Missouri State Auditor

Warren County

Report No. 2020-049

August 2020

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of Warren County

Property Tax System Controls and Procedures	The County Collector has not prepared and filed an annual settlement for the years ended February 28 (29) 2017, 2018, 2019, and 2020 in violation of state law. The County Clerk does not (1) maintain an account book or other records summarizing property tax charges, transactions, and changes and (2) prepare or verify the accuracy of the current or delinquent tax books.
Passwords	The County Assessor, Recorder of Deeds, and Public Administrator have not established adequate password controls to reduce the risk of unauthorized access to computers and data.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

----------	--------------------------

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Warren County

We have audited certain operations of Warren County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

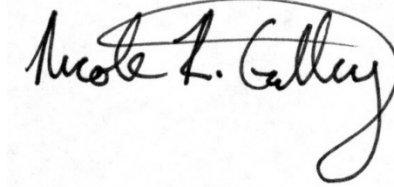

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Warren County.

Warren County Management Advisory Report State Auditor's Findings

1. Property Tax System Controls and Procedures

Controls and procedures over the property tax system need improvement. Property taxes and other monies collected by the County Collector's office totaled approximately \$40.8 million during the year ended February 29, 2020.

1.1 Annual settlements

The County Collector has not prepared and filed an annual settlement for the years ended February 28 (29) 2017, 2018, 2019, and 2020 in violation of state law. Because the County Collector does not file annual settlements, the County Commission cannot verify the County Collector's accounts.

To help ensure the validity of tax book charges, collections, and credits, and for the County Clerk and County Commission to properly verify these amounts, it is imperative the County Collector file annual settlements. Section 139.160, RSMo, requires the County Collector to annually settle with the County Commission the accounts of all monies received from taxes and other sources. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector and the County Clerk to certify the amounts to the state. Such procedures are intended to establish checks and balances related to the collection of property taxes.

1.2 Account book

The County Clerk does not maintain an account book or other records summarizing property tax charges, transactions, and changes. As a result, there is an increased risk of loss, theft, or misuse of property tax monies going undetected.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatement, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate.

1.3 Tax books

The County Clerk does not prepare or verify the accuracy of the current or delinquent tax books. The county's property tax system programmer prepares the real estate and personal property tax books using assessed valuations provided by the County Assessor and tax levies provided by the County Clerk. The County Collector indicated she reviews the tax books for accuracy. However, because the County Collector is responsible for collecting property tax monies, good internal controls and state law require someone independent of the collection process be responsible for generating and testing the accuracy of the tax books. In addition, the County Collector prepares the delinquent tax books by combining the uncollected taxes from the current tax year and uncollected taxes from all prior years. A review of the current and

Warren County
Management Advisory Report - State Auditor's Findings

delinquent tax books should include verification of individual entries in the current tax books and recalculating tax book totals and charges. Failure to properly prepare and/or review the tax books and test individual tax statement computations may result in errors or irregularities going undetected.

Sections 137.290 and 140.050, RSMo, require the County Clerk to extend the current and delinquent tax books and charge the County Collector with the amount of taxes to be collected. If it is not feasible for the County Clerk to prepare the tax books, at a minimum, the accuracy of the tax books should be verified and approval of the tax book amounts to be charged to the County Collector should be documented.

Recommendations

- 1.1 The County Collector prepare and file annual settlements in accordance with state law. In addition, the County Commission should ensure the annual settlements are filed and are carefully and fully examined to ensure tax book charges and credits are accurately reported.
- 1.2 The County Clerk maintain an account book with the County Collector.
- 1.3 The County Clerk prepare the current and delinquent tax books, or at a minimum, verify the accuracy of the tax books prior to charging the County Collector with the property tax amounts to be collected. Procedures performed should be documented.

Auditee's Response

The County Collector, County Commission, and County Clerk provided a written response. See Appendix.

2. Passwords

The County Assessor, Recorder of Deeds, and Public Administrator have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically.

Passwords are required to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords in certain offices are not required to be periodically changed there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

A similar condition was noted in our prior two audit reports.

Warren County
Management Advisory Report - State Auditor's Findings

Recommendation

The County Commission work with other county officials to require passwords for each employee be periodically changed to prevent unauthorized access to the county's computers and data.

Auditee's Response

The County Commission provided a written response. See Appendix.

Warren County

Organization and Statistical Information

Warren County is a county-organized, third-class county. The county seat is Warrenton.

Warren County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 116 full-time employees and 14 part-time employees on December 31, 2019.

In addition, county operations include the Developmental Disabilities Board, county health department, and Planning and Zoning Commission.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2020	2019
Joe Gildehaus, Presiding Commissioner	\$	38,137
Daniel Hampson, Associate Commissioner		35,937
Hubert Kluesner, Associate Commissioner		35,937
Deborah Engemann, Recorder of Deeds		54,450
Denise Stotler, County Clerk		54,450
Kelly King, Prosecuting Attorney		140,667
Kevin Harrison, Sheriff		62,920
Jeffrey Hoelscher, County Treasurer		54,450
Glenn Craig, County Coroner (1)		7,448
Mark O'Neill, County Coroner (1)		12,907
Melissa Dempsey, Public Administrator		25,000
Julie Schaumberg, County Collector, year ended February 29,	54,450	
Wendy Nordwald, County Assessor, year ended August 31,		54,450
Robert L. Lewis, County Surveyor (2)		

(1) Glenn Craig resigned as County Coroner in April 2019. Mark O'Neill was temporarily appointed to the position by the County Commission in April 2019 and appointed by the Governor and sworn into office in June 2019.

(2) Compensation on a fee basis.

Missouri State Auditor's,

After speaking with you, and the other elected officials in our County, the County Commission, County Clerk and County Collector recognize and acknowledge the issues presented by the State Auditor's report. The Warren County Collector will complete her annual settlement's with oversight and communication with the Warren County Clerk and the Warren County Commission. The Warren County Clerk has had the necessary software installed in her office to properly complete the required accounting book and print and verify the accuracy of the tax books. The County Commission, County Clerk and County Collector will work together to review and verify the accuracy of all tax records.

The Warren County Commission will work with the other offices within the County Buildings to implement password controls to reduce the risk of unauthorized access to computers and data by making the required changes to passwords periodically.

Sincerely,

NICOLE GALLOWAY, CPA

Missouri State Auditor

Mr. Grant Mabie, Chairman
and
Board of Directors
Big Bend Crossing Transportation Development District
City of Crestwood, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On April 27, 2020, the Board of Directors of the Big Bend Crossing Transportation Development District formalized its intent to dissolve the district and requested an audit as required by statute. The State Auditor was notified of this request.

The district engaged Wade Stables, P.C., Certified Public Accountants (CPAs) to audit the district's financial statements for the year ended December 31, 2019. To minimize duplication of effort, we reviewed the report of the CPA firm. The objectives of our audit were to:

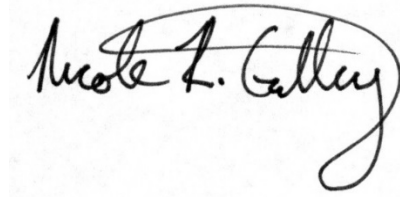

1. Evaluate the financial status of the district and determine whether it may be abolished pursuant to law.
2. Evaluate the district's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; interviewing a district official, as well as certain external parties; and testing selected transactions. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Background section and financial information is presented for informational purposes. This information was obtained from the district's management and audited financial reports and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we (1) determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo, (2) identified no significant noncompliance with legal provisions, and (3) identified no significant deficiencies in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Big Bend Crossing Transportation Development District.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Big Bend Crossing Transportation Development District

Introduction

Background

The Big Bend Crossing Transportation Development District is located in St. Louis County, in the City of Crestwood. The district was organized in June 2001 by petition of the property owners and the city filed with the Circuit Court of St. Louis County. The members of the Board of Directors consist of three city representatives and two representatives of the property owner. The district has a fiscal year end of December 31 and obtained independent audits annually.

In October 2001, the qualified voters¹ of the district approved a 1/4 of 1 percent sales tax on all taxable transactions within the boundaries of the district. The Board of Directors subsequently passed a resolution formally establishing that sales tax rate to be effective November 1, 2001, for 40 years unless terminated sooner. The retail establishments within the district remitted sales tax collections directly to the district until 2010. In 2010, due to a state law change, those establishments began remitting the tax collections to the Missouri Department of Revenue and the department disbursed them to the district. The sales tax was terminated on March 31, 2020.

The district was formed for the purpose of improving Big Bend Boulevard with the construction of new traffic signals, new lanes, and other road improvements in the city. The city and the county are the public entities with jurisdiction over the project and served as the Local Transportation Authorities. The project was completed in July 2002 and the city and county accepted dedication of the project that month.

In 2002, the district issued a revenue bond for \$1,555,000 to fund the project. The bond debt was satisfied in January 2020. Over its lifetime, the district received \$2,894,540 in sales tax revenue² and made disbursements of \$2,831,264. See the Appendix for district financial activity from 2002 through April 2020.

In April 2020, the district Board formalized its intent to dissolve the district. A district official advised the State Auditor's Office (SAO) of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. That law also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

¹ The only qualified voters in the district were Novus-Crestwood, L.L.C. and Lauber-Crestwood, L.L.C.

² This amount includes the sales tax revenues and the prior period adjustment reported in the Appendix.

Big Bend Crossing Transportation Development District

Management Advisory Report

State Auditor's Findings

Financial Status

Our audit of the Big Bend Crossing Transportation Development District indicates the financial condition of the district is such that it may be abolished.

The district satisfied its bond debt in January 2020. As of April 30, 2020, the cash balance of the district was \$73,247 (see the Appendix). As of June 24, 2020, the fees for legal services to be provided to abolish the district are estimated at \$35,000. There are no pending, threatened, or unasserted claims or assessments against the district according to district legal counsel. District officials confirmed the district is not insolvent, in receivership or under the jurisdiction of the bankruptcy court. Therefore, the district meets the abolishment criteria established in Section 238.275.3, RSMo.

The Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

Missouri State Auditor

Pathway Academy Charter School

Report No. 2020-047

August 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Pathway Academy Charter School

Bonuses and Other Additional Compensation	The Pathway Academy Charter School (PACS) paid bonuses, totaling \$25,000 during the 2 years ended June 30, 2019, to employees contrary to state law. In addition, the PACS paid other additional unsupported compensation to employees totaling \$3,164.
Disbursements	The PACS controls and procedures over disbursements and credit card purchases were insufficient. Questionable and unsupported transactions for the 2 years ended June 30, 2019, totaled \$19,779. PACS credit card oversight and payment procedures were not adequate.
Accounting Controls and Procedures	Significant weaknesses existed in the PACS accounting controls and procedures. The Chief Operations Officer made unauthorized transfers between various school bank accounts. The school's procedures for receipting and depositing monies were poor. The PACS failed to follow multiple record retention schedules, including requirements related to purchasing, receipt slips, and employee personnel records.
Hiring Policy	The Board did not adequately monitor staff hiring procedures.
Sunshine Law	Closed meeting minutes were not maintained for the 7 closed sessions referenced in the open meeting minutes during the 2 years ended June 30, 2019.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Board of Directors
Pathway Academy Charter School
and
Executive Director, Missouri Charter Public School Commission (sponsor)

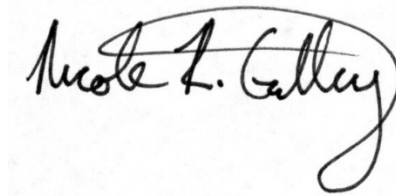

The State Auditor conducted an audit of the Pathway Academy Charter School under authority granted in Section 29.205, RSMo. A request for an audit was received from the charter school Board of Directors after concerns regarding financial practices were reported to the Board by the charter school's sponsor and the Closure Coordinator. We have audited certain operations of the charter school in fulfillment of our duties. The charter school engaged KPM, Certified Public Accountants (CPAs) and Advisors, to audit the charter school's financial statements for the year ended June 30, 2019. The scope of our audit included, but was not necessarily limited to, the 2 years ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the charter school's internal controls over significant management and financial functions.
2. Evaluate the charter school's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine the amount of monies misappropriated from the charter school, if any.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the charter school, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) no evidence of misappropriation of monies. The accompanying Management Advisory Report presents our findings arising from our audit of the Pathway Academy Charter School.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Pathway Academy Charter School

Introduction

Background

Representatives from the Missouri Charter Public School Commission (MCPSC) contacted the State Auditor's Office (SAO) in June 2019 and expressed concerns over financial practices of the Pathway Academy Charter School (PACS). On June 27, 2019, the school's Board of Directors voted to request the SAO to conduct an audit.

In August 2019, the contracted Closure Coordinator for the MCPSC sent a letter outlining multiple issues with the school's former Chief Operations Officer alleging the following: (1) unauthorized payroll disbursements, (2) bonus payouts, (3) issues with credit card purchases, (4) cash payments not receipted or deposited, (5) an employee overpayment, (6) issues with former employees still on the school's health insurance, (7) unauthorized hires, and (8) the former Chief Operations Officer's refusal to cooperate with school officials. The SAO reviewed these concerns under Section 29.221, RSMo, and on September 4, 2019, determined further investigation was warranted.

The Closure Coordinator indicated some records might not be available. To obtain some of the records, the SAO issued a subpoena to UMB Financial Corporation (see Appendix A) to produce records related to disbursements and deposits made to/from the school's bank accounts. Appendix A includes redactions of information privileged or sensitive in nature.

School

The PACS began operating in Kansas City in August 2009. There were 206 students enrolled for the 2017-2018 school year and 181 students for 2018-2019. Students attended pre-kindergarten through fourth grade.

The four member Board of Directors (Board) acted as the policy-making body for the charter school's operations. Board members served without compensation. Members of the Board serving at June 30, 2019, were

Corbyn Jones, President
Steve Mauer, Treasurer
Patty Schumacher, Member
Kenton Schiele, Member

The Executive Director and Chief Operations Officer were appointed positions. The school's principal officials, for the 2 years ended June 30, 2019, were

Deanna Rogers, Executive Director
Danté Bolden, Chief Operations Officer

Sponsor

When the PACS was established, the University of Missouri - Kansas City (UMKC) was the sponsor. In order for a charter school to be established, the school must have a sponsor. This sponsor is responsible for accepting and reviewing the application submitted by the proposed school. From this

Pathway Academy Charter School Background

application, a charter can be granted. This charter includes a legally binding performance contract as well as several other areas that are outlined in Sections 160.405 and 167.349, RSMo. The sponsor is responsible for overseeing the school to make sure the school is fulfilling the obligations of the charter.

In November 2017, UMKC placed the school on probation. In October 2018 UMKC announced it was ending its role as a charter school sponsor for all of its charter schools, which included the PACS. On December 4, 2018, the MCPSC became the school's sponsor.

Financial audit

The Board engaged KPM, Certified Public Accountants & Advisors, to audit the charter school's financial statements for the year ended June 30, 2019. The audit report, issued January 17, 2020, disclaimed the opinion for the financial statements because auditors were not able to obtain sufficient audit evidence. Included in the audit report was a statement of activities prepared on the modified cash basis of accounting for year ended June 30, 2019. The report stated revenues totaled \$2,505,362 and expenses totaled \$3,288,880, resulting in a decrease to net assets totaling \$783,518.

Closure and dissolution

In February 2019, the MCPSC determined the school did not meet the minimum academic outcomes outlined in the terms of its probation and lacked sufficient financial controls because the school's fund balance had dropped significantly over the last three years. Based on these concerns, the MCPSC recommended the school close at the end of the 2018-2019 school year. The Board voted to relinquish the charter and close the school at the end of 2018-2019 school year at the March 12, 2019, Board meeting.

Final dissolution of the charter school is pending the completion of final closure activities including transmitting any remaining monies back to the state.

Because Management Advisory Report (MAR) finding numbers 2 through 5 relate to the operations of the school prior to closure and the Board is no longer active and is in the process of dissolution, no recommendations are provided for those findings. Also, because the Board is in the process of dissolution and no longer active, the recommendation for MAR finding number 1 is made to the charter school sponsor.

Pathway Academy Charter School

Management Advisory Report

State Auditor's Findings

1. Bonuses and Other Additional Compensation

The Pathway Academy Charter School (PACS) paid bonuses, totaling \$25,000, to employees contrary to state law. In addition, the PACS paid other additional unsupported compensation to employees totaling \$3,164. Payroll-related disbursements were processed through an outside vendor. The Chief Operations Officer (COO) was responsible for recording, approving, and transmitting all school payroll information, including his own, to the vendor. The additional compensation, including the bonuses, was not detailed in the annual school budgets approved by the Board or included with disbursement documentation provided to the Board for approval at meetings.

We reviewed the payroll reports for the 2 years ended June 30, 2019, and noted 75 disbursements totaling \$113,502 were recorded as "other earns." These earnings were in addition to the employees' regular salaries. We reviewed all available payroll files including employment contracts, stipend agreements, and any other documentation of employee salaries and noted the following:

Bonuses

The PACS paid employees at least \$25,000 in bonuses during the 2 years ended June 30, 2019.

On November 17, 2017, \$10,000 was paid to the COO. Previous COO contracts included a \$10,000 bonus to be paid in November. However, there was no documentation to support the 2017 payment, nor was anything documented in the Board meeting minutes. The COO's personnel file was not complete, as discussed in Management Advisory Report (MAR) finding number 3.3, and did not include a 2017 contract authorizing this bonus. However, the amount and timing of the November 2017 payment indicate this payment was a bonus. Also, because the COO was the only person responsible for authorizing and sending payroll information to the vendor for processing, the COO could have authorized this payment to himself without the knowledge of any charter school personnel.

On November 30, 2017, and December 31, 2018, the school paid additional earnings totaling \$15,000 (\$1,000 each to 15 employees). A former employee indicated teachers and other staff could receive a bonus of up to \$1,000 each for helping with recruitment. However, there was no discussion of these bonuses in the employee contracts or other documentation to support these bonuses, such as an explanation of how or when the bonuses would be awarded or what recruitment activities each teacher participated in. In addition, there was no discussion or approval of these bonuses in Board meeting minutes.

Other additional compensation

During the 2 years ended June 30, 2019, the PACS made 5 unsupported disbursements for other additional compensation to 3 teachers and the COO totaling \$3,164. The disbursement dates did not coincide with other similar payout date types (i.e., stipends, summer school, leave payout, or bonuses).

Pathway Academy Charter School Management Advisory Report - State Auditor's Findings

Without documentation, we could not determine if the additional compensation was appropriate. In addition, Board meeting minutes do not include a discussion or approval of these disbursements.

Conclusion

All compensation should have been approved by the Board and included on salary schedules or in the teachers' contracts, as necessary, to ensure all employees were treated fairly and equitably. In addition, adequate supporting documentation should have been maintained to support all compensation and payroll disbursements to ensure all payroll transactions were accounted for properly.

The bonus payments represent additional compensation for services previously rendered. Article III, Section 39(3), of the Missouri Constitution prohibits the granting of additional compensation for services previously rendered. As stated in, Attorney General's Opinion No. 72-1955 (June 14, 1955), "...a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered." Additionally, Article VI, Sections 23 and 25, of the Missouri Constitution prohibit local subdivisions of the state from granting money to any private individual, except as otherwise provided by law.

Recommendation

The Missouri Charter Public School Commission work with the Department of Elementary and Secondary Education to determine the proper resolution for the bonuses and additional unsupported compensation paid.

Auditee's Response

The Missouri Charter Public School Commission's written response is included at Appendix B.

2. Disbursements

The PACS controls and procedures over disbursements and credit card purchases were insufficient. The PACS disbursed \$7,469,238 during the 2 years ended June 30, 2019.

2.1 Questionable and unsupported transactions

Questionable and unsupported transactions for the 2 years ended June 30, 2019, totaled \$19,779¹ (see Appendix C). These transactions included purchases for food, sporting and art functions, and gift cards; a donation; and disbursements to employees.

- Transactions of at least \$9,500 were not reasonable and/or did not provide a benefit to the PACS, as there was no documentation to support the purpose or the stated purpose did not appear to be for the benefit of the

¹ Amounts presented in the report findings are rounded to the nearest dollar, whereas amounts presented in Appendix C are not rounded.

Pathway Academy Charter School Management Advisory Report - State Auditor's Findings

students. Many of these transactions were supported by a receipt slip or invoice that agreed to the amount charged, but there was no additional information to demonstrate the purpose of the purchase and how it related to school business. Of the 146 transactions tested, 49 (34 percent) did not have a documented purpose or the purpose was not related to school business. In addition, there were no established guidelines or policies for purchases. These questionable transactions are summarized by category below:

Category	Amount
Food	\$ 9,144
Sporting & Art Functions	342
Donation	50
Total	\$ 9,536

- We identified 7 unsupported disbursements to employees included in the bank records totaling \$7,958 during the 2 years ended June 30, 2019. The disbursements were not recorded in the school's electronic check register or in the school's accounting system. These disbursements were not processed through the payroll system, so may be employee reimbursements.
- We identified \$2,285 in unsupported gift card purchases. The reason for the purchase was not noted on the invoice for two of the gift card purchases and there was no support for how the gift cards were distributed for these two and another gift card purchase. As a result, there was no assurance all gift cards purchased by the PACS were used to benefit the school.

Public funds should be spent only on items necessary and beneficial to the school. Detailed supporting documentation, including a list of attendees and/or general information stating who was served or attended, would have improved the school's ability to ensure charges were reasonable. In addition, comprehensive policies regarding food and other purchases would have provided guidance to employees to help control and reduce these disbursements. Article VI, Sections 23 and 25 of the Missouri Constitution prohibit the use of public money or property to benefit any private individual, associations, or corporations except as provided in the constitution. Public funds should have been spent only on items necessary and beneficial to the school. Citizens have placed a fiduciary trust in their public officials to spend school monies in a prudent and necessary manner.

2.2 Credit Cards

PACS credit card oversight and payment procedures were not adequate. Credit card purchases are inherently more risky than other purchases because credit card purchases are, or can be, made prior to proper approval. That risk and the potential for fraud and misuse increases even more when internal

Pathway Academy Charter School
Management Advisory Report - State Auditor's Findings

controls and proper procedures are lacking. The PACS made payments to its credit card company totaling \$47,785 during the 2 years ended June 30, 2019.

Credit card policy

The PACS had no credit card policy outlining the guidelines for the use of credit cards. Many of the disbursements without support or documentation of the purpose noted in section 2.1 were made by credit card. Without guidelines, employees were not aware of what purchases were allowable, the limits of what could be purchased without prior Board approval, or the documentation required to support purchases. In addition, without Board approval, there was no monitoring to ensure timely payments were made or credit card payments were legitimate.

Late payments

The PACS did not ensure some credit card payments were timely, resulting in late fees and finance charges totaling \$319. From January 2019 through May 2019, late fees were assessed on 4 occasions and finance charges were assessed on 5 occasions. To prevent unnecessary fees and other charges, procedures should have been in place to ensure bills were paid timely.

3. Accounting Controls and Procedures

Significant weaknesses existed in the PACS accounting controls and procedures.

3.1 Unauthorized transfers

The COO made unauthorized transfers between various school bank accounts. During the period January 23, 2018, through May 16, 2019, the PACS transferred \$760,000 from the business account to the operating account; however, only \$450,000 was approved by the Board. Approvals for a December 12, 2018, transfer of \$150,000; an April 11, 2019, transfer of \$60,000; and a May 16, 2019, transfer of \$100,000 were not documented in the meeting minutes.

Adequately documented reasons and support for transfer amounts and Board review and approval would have provided more assurance monies were used for the intended purposes.

3.2 Receipts and deposits

The school's procedures for receipting and depositing monies were poor. As a result, there was no assurance all monies collected were properly receipted and deposited.

The COO did not issue receipt slips or log the monies collected from teachers for meals purchased. No report was retained tracking the number of meals purchased by the teachers or the amount of money collected. Without receipt slips, logs, or tracking reports the PACS could not reconcile meals purchased to collections or ensure all monies were deposited. During the 2 years ended June 30, 2019, only \$339 was deposited into the PACS food bank account.

Pathway Academy Charter School
Management Advisory Report - State Auditor's Findings

These deposits had hand written notes on the deposit slips indicating they were for adult lunches. According to invoices, the price per lunch was \$3.25 for the 2017-2018 school year and \$3.35 for the 2018-2019 school year, and the school employed at least 20 employees who were eligible to purchase meals.

In addition, receipts were not always deposited timely. Our review of deposits made to the food bank account for the 2 years ended June 30, 2019, noted of the 8 checks deposited, 5 were not deposited within a month. One check, dated October 5, 2017, and another check dated October 10, 2017, were not deposited until September 2, 2018.

Failure to implement adequate receipting and depositing procedures, along with proper accountability over teacher meal collections, increased the risk of potential loss, theft, or misuse of funds.

3.3 Supporting documentation

The PACS failed to follow multiple record retention schedules, including requirements related to purchasing, receipt slips, and employee personnel records.

As noted in MAR finding number 2.1, many invoices and receipt slips were not available or did not include explanations of the need for the purchases or disbursements to employees, making it difficult to ensure these disbursements were prudent and necessary. In some cases no documentation beyond the credit card statement was available. In addition, PACS personnel could not locate 21 employee personnel files, including the employee contracts and stipend agreements.

The MCPSC charter contract section 3.6, School Records and Reporting, stated, "The Charter School shall comply with applicable federal and state (as specified by the state board of education) laws and regulations for maintenance and transmittal of school records including as provided for under section 167.020.7, RSMo, the Missouri Public School Record Retention Schedule, and the Federal Family Education Rights and Privacy Act (FERPA)."

Retention of records was necessary to ensure the validity of transactions and provide an audit trail. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. Record retention schedules can be found on the Secretary of State's website.²

² <https://www.sos.mo.gov/archives/localrecs/schedules>

Pathway Academy Charter School
Management Advisory Report - State Auditor's Findings

4. Hiring Policy

The Board did not adequately monitor staff hiring procedures. On August 12, 2016, the COO signed a contract hiring an accountant to work at PACS. The accountant performed various duties for the school until her resignation on April 12, 2019. The Board meeting minutes did not document Board approval for the hiring of the accountant. One Board member indicated she knew of the accountant, but did not know she worked for the school until after the accountant's resignation.

The UMKC charter school contract with the PACS stated employment hiring was contingent on Board approval. The Board should have reviewed and approved hiring decisions to ensure the school was properly administered.

5. Sunshine Law

Closed meeting minutes were not maintained for the 7 closed sessions referenced in the open meeting minutes during the 2 years ended June 30, 2019. In addition, open meeting minutes did not document the specific reasons or section of law allowing the meetings to be closed. Instead, the open meeting minutes only indicated the Board went into closed session.

Section 610.020, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of Board actions and decisions. Section 610.022, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed session and to enter the vote and reason into the minutes.

RE: Subpoena from Missouri State Auditor

To whom it may concern:

Enclosed is a subpoena from the Missouri State Auditor's office. It is directed to records related to the Pathway Academy Charter School. We know some of the account numbers associated with the school, but not all. Based on instructions a representative of UMB provided to our staff, we have listed known account numbers of the bank accounts and credit cards, and items we are requesting. If those details are insufficient, we would appreciate it if you would let us know so that we may determine if we have any other details that might be helpful.

Production of the records themselves will satisfy the subpoena. If the date set forth in the subpoena is problematic, please let me know as soon as possible.

If you have any questions, I may be contacted by mail and phone as shown at the bottom of this letter, as well as by email at Joel.Anderson@auditor.mo.gov.

Sincerely,

Joel E. Anderson
Chief Litigation Counsel

OFFICE OF MISSOURI STATE AUDITOR
SUBPOENA

To: UMB Financial Corporation
ATTN: Judicial Compliance
1010 Grand Boulevard
Kansas City, MO 64106

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative, Joel Anderson, Chief Litigation Counsel, at the Truman State Office Building, 301 West High Street Room 880, Jefferson City, Missouri 65101, at 8:00 a.m., March 12, 2020, for purposes of providing testimony and producing for examination, copying, and interrogation the records and documents described in Exhibit A attached to this Subpoena.

In lieu of appearance, you may ship the records listed in Exhibit A to the Missouri State Auditor to the attention of James Kayser at 149 Park Central Square, Suite 814, Springfield, Missouri 65806 or you may send them electronically to james.kayser@auditor.mo.gov.

ISSUED this 13th day of February, 2020, pursuant to Section 29.235.4(1) of the Revised Statutes of Missouri.

Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by HAND DELIVERY on this 13th day of FEBRUARY, 2020.

TRANSMITTED VIA EMAIL

RE: RESPONSE TO AUDIT OF PATHWAY ACADEMY CHARTER SCHOOL

Dear Auditor Galloway,

It is with deep appreciation that the Missouri Charter Public School Commission (Commission) response to the audit of Pathway Academy Charter School (PACS) conducted by your office. This audit was formally requested by the former Board of Directors of PACS at the insistence of the Commission. Your findings align with the concerns expressed by Robbyn Wahby, Executive Director of the Commission and attorney Dana Cutler, contracted by the Commission to serve as the Closure Coordinator of Pathway Academy.

The Commission is the recipient of this audit report because the PACS Board has been dissolved and the Commission agreed to serve as the charter school's sponsor after the University of Missouri – Kansas City (UMKC) closed its sponsorship office, and both the University of Missouri – Columbia and the Kansas City Public Schools declined PACS' request to become its sponsor. The Commission agreed to sponsor PACS because as the state's only independent charter school sponsor, we believe that is our responsibility— no matter the health of a school.

We officially became the sponsor on December 4, 2018. The Commission staff immediately conducted its due diligence on the school's academic, fiscal and operational compliance. The staff found the school was out of compliance with state statutes and its contract. Our initial findings were detailed in a Letter of Concern issued to the PACS board in February, 2019. Besides financial irregularities, PACS also failed to meet the minimum academic outcomes outlined in the terms of its probation.

In March 2019, our staff presented its findings to the PACS board in a public meeting, and informed the board the school's charter would not be renewed. The Commission also expressed serious concerns about the financial viability of the school in its final year of its contract. As a result, the PACS board voted to relinquish its charter. PACS was closed on June 30, 2019. The Commission then pressed the former PACS board to seek a state audit of the anomalies discovered by the Commission staff. The former PACS board agreed.

We have reviewed the audit report. The findings are consistent with the concerns submitted to your office in letter from our Closure Coordinator.

Appendix B

Pathway Academy Charter School

Missouri Charter Public School Commission Response Letter

RESPONSE TO PATHWAY ACADEMY AUDIT – Page 2

Our specific responses are as follows:

1. Bonuses and Other Additional Compensation

- a. MCPSC agrees that PACS did not have the documentation or evidence to support the bonuses. We have had preliminary discussions with the Department of Elementary and Secondary Education (DESE). Both agencies agree efforts should be made to recover unsupported paid compensation.
- b. We will work with DESE to supply any supporting documentation if they choose to recover through the civil courts.
- c. The Commission will forward your audit to the Missouri Attorney General and to the Kansas City Prosecutor's Office.

2. Disbursements

- a. The Commission agrees that PACS lacked the controls and procedures over disbursements and credit card purchases. We found evidence of this problem during our investigation of PACS.
- b. PACS was not being sponsored by the MCPSC during the time period covered in the audit. Had we been the sponsor, we believe our systems of accountability and review of our sponsored schools would have provided appropriate oversight. Our performance framework, which includes the submission of monthly financial statements, board packets and board policies, allows the Commission to understand the school's controls and procedures. These are then tested and confirmed during the Commission's annual site visit. Our findings are reported to the school's board and executive director immediately following the visit, and in writing in the school's annual report.

3. Accounting Controls and Procedures

- a. MCPSC agrees that PACS lacked the accounting controls and procedures. MCPSC found evidence of this problem during its initial due diligence of PACS. Had the Commission been the sponsor of PACS during the time covered by the audit, our compliance and monitoring program would have required the submission of board and committee meeting minutes. Meeting minutes are reviewed and monitored by MCPSC staff to insure boards are following statutes and standards. Board chairs and school leaders are contacted immediately when we find irregularities.

4. Hiring Policy

- a. MCPSC agrees that PACS did not adequately monitor staff hiring procedures. MCPSC staff found evidence of this problem during its due diligence of PACS.

5. Sunshine Law

- a. MCPSC agrees that PACS did not comply with the Missouri Sunshine Law provisions concerning closed meetings. MCPSC cautioned the PACS board in a public meeting and spoke with the board chair about the legal requirement that the PACS board comply with the Sunshine Law. We subsequently included our concerns in the Letter of Concern. The board's lack of compliance was considered in the decision to not renew the school's charter.

• Toll Free (855) 267-7323 • <https://mcpsc.mo.gov/> • info@mcpsc.mo.gov •

Appendix B
Pathway Academy Charter School
Missouri Charter Public School Commission Response Letter

RESPONSE TO PATHWAY ACADEMY AUDIT – Page 3

- b. Charter schools are public schools. MCPSC is a public agency that is fully committed to being transparent. We believe quality board governance is essential. In October, 2019 MCPSC underwrote the cost of board training at the annual Missouri Charter School Conference, including a session on the Sunshine Law. This made it possible for all charter boards, not just those sponsored by the Commission, to participate and learn.
- c. This year, MCPSC will reinforce the importance of complying with the closed meeting provisions of the Missouri Sunshine Law. The Commission has engaged a consultant to support the development of additional training and support of the school's sponsored by the Commission. We have already entered into discussions on how we can support the Missouri Charter Public School Association to promote additional training.

Please extend our thanks and appreciation to your audit team, especially Mr. James Kayser, In-Charge Auditor. His professionalism and commitment to accuracy is a testament to the quality of your office.

Sincerely,

Delbert Scott
President
Missouri Charter Public School Commission

Report No. 2020-046

August 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of City of St. Louis Department of Health

Food Inspections	The Department of Health (DOH) has not performed food safety inspections in accordance with city code requirements.
Capital Assets	The DOH has not accounted for capital assets in accordance with city policies and procedures.
Accounting Controls	DOH personnel do not record all payments received on prenumbered receipt slips or in a log and do not always restrictively endorse checks or money orders immediately upon receipt.
Payroll Procedures	Controls and procedures over the payroll process need improvement.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Dr. Fredrick Echols, Acting Director of Health
City of St. Louis Department of Health
1520 Market
Room 4051
St. Louis, MO 63103

We have audited certain operations of the City of St. Louis Department of Health in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2019. To minimize duplication of effort, we reviewed the CPA firm's report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.
2. Evaluate the department's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

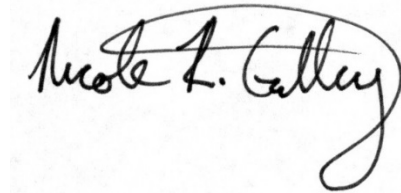

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant within the context of the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Department of Health.

Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

City of St. Louis Department of Health

Management Advisory Report

State Auditor's Findings

1. Food Inspections

The Department of Health (DOH) has not performed food safety inspections in accordance with city code requirements. In addition, the DOH did not charge food establishments for food safety re-inspections as required by the city code. The city code defines food establishments as restaurants, bars, grocery stores, food trucks, cafeterias, sport venues, etc. As of March 23, 2020, the city had 2,797 food establishments.

Food establishments are required to obtain permits from the DOH to legally operate in the city. The city code requires the DOH to perform an annual priority assessment for each food establishment. Based on a priority assessment, health inspectors conduct routine inspections of each establishment. The frequency of these inspections range from once per year to every 120 days. Health code violations identified by the inspectors require subsequent re-inspections to evaluate corrective actions taken.

We selected 25 food establishments and reviewed the DOH's food safety inspection documentation for each entity to determine the department's compliance with city code requirements. We noted the following concerns:

- Re-inspections of critical violations did not occur within 48 hours for all 7 food establishments reviewed with a documented critical violation and a downgraded inspection rating. The re-inspections for 6 establishments occurred from 2 to 40 days late and the other establishment did not receive a re-inspection.
- The DOH did not assess or collect required fees for food establishment re-inspections. A DOH official indicated re-inspection fees have not been collected for several years. The official indicated a notification campaign was established in July 2018 to ensure establishments were aware of the fees, however, due to supervisory turnover, the DOH did not implement fee assessment and collection procedures. The city code requires a \$50 fee for the first re-inspection of food establishments with a critical violation and a downgraded inspection rating and a \$100 fee for all subsequent re-inspections. Based on DOH inspection records, 365 inspections required a subsequent re-inspection during the year ended June 30, 2019. Therefore, the city lost revenue of at least \$18,250 for the fiscal year.
- 11 of 23 (48 percent) food establishments requiring an annual priority assessment did not receive the required assessment during the fiscal year.
- DOH staff did not perform all required annual inspections for 2 of 25 (8 percent) food establishments reviewed. One establishment received 1 of 2 required inspections while the other received 2 of 3 required inspections.

City of St. Louis Department of Health
Management Advisory Report - State Auditor's Findings

Section 11.42.232 of the city code establishes requirements for food establishment permits and includes requirements for annual priority assessments, routine food inspections based on the assessed priority level, re-inspections for critical violations involving a downgraded inspection rating within 48 hours after discovery, and the assessment of fees for re-inspections. Failure to adhere to food establishment assessment and inspection regulations increases the risk health violations will not be detected or corrected. In addition, failure to assess and collect fees established by city code reduces city funding available to pay for the services.

Recommendation

The Department of Health should ensure food inspectors perform all required assessments, inspections, and re-inspections. In addition, DOH staff should ensure all fees required by city code are assessed and collected.

Auditee's Response

- *Food Establishment Inspectors (FEIs) operated with the understanding that the 48-hour re-inspection for downgraded establishments did not include weekend hours. FEI's have been instructed to make arrangements to re-inspect any downgraded establishment within 48 hours, unless the establishment will not be open during that time period. FEIs have been instructed to note in the record in Healthspace if there are extenuating circumstances that would prevent performing the re-inspection within 48 hours, such as the establishment not being open during that 48-hour period of time.*
- *The current Food Code under Ordinance 68597 was approved in March 2010 using the U.S. Food and Drug Administration (FDA) 2009 Food Code. During drafting of that code, shortly after the recession that occurred in 2008-2009, staff was advised to find ways to increase fee revenue to the city. It was at this time that the additional fees for re-inspections of downgraded establishments was adopted. Since then, the Ferguson Report identified the burden that these penalty fees place on African American citizens and vendors. The Food Control program is in the process of updating the city's Food Code to the current 2017 FDA Food Code. During this process, the Food Control program will recommend that these penalty fees for re-inspections be removed from the code, as the vendors already pay an annual fee for their permit, which is based on the risk level of the food establishment. The risk level of the food establishment takes into consideration inspection results from the previous year and the risk factor may be increased as a result of critical violations and downgrades.*

In addition, it has been determined that the majority of the downgrades that occurred in fiscal year 2019 were due to a procedural flaw by a new FEI. In fiscal year 2018, there were a total of 92 downgrades, compared to 365 in fiscal year 2019. In fiscal year 2020, after this procedural flaw was discovered and corrected, there were 116 downgrades.

City of St. Louis Department of Health
Management Advisory Report - State Auditor's Findings

The Department of Health acknowledges the auditor's remark that "due to supervisory turnover" these fees were not charged for the fiscal year 2019 time period. It should be noted that in fiscal year 2018, turnover in the entire Department of Health was nearly 40 percent. At the start of fiscal year 2019, the Environmental Health Services Manager II was also serving as the Acting Director and Acting Commissioner of Health, as well as covering the vacancies in Environmental Health Services of the Program Manager I, the Animal Regulation Center Supervisor, and one of the Environmental Health Supervisors. During this time and the following fiscal year, the Department of Health has prioritized filling vacant positions and reducing the turnover rate.

- *As reflected in the auditor's second point that supervisory turnover impacted fee collection, it also impacted oversight of the annual priority assessments for food establishments that had been identified and assigned by the previous Food Control Environmental Health Supervisor. This was not corrected until early in fiscal year 2020, but had already been corrected by the time of the audit of fiscal year 2019. A report is run four months prior to renewal of food permits, and the FEIs each perform the annual priority assessment so that when the notifications go out for renewal, the establishment is made aware of any adjustments in their risk priority and fees.*
- *Monitoring of the late and missed food inspections was also impacted by supervisory turnover. The current Food Control Environmental Health Supervisor performs a monthly review identifying any food establishments for which inspections are overdue, and directs assistance to ensure that the inspections are performed as timely as possible, preventing extremely late or missed inspections.*

2. Capital Assets

The DOH has not accounted for capital assets in accordance with city policies and procedures. As a result, assets are more susceptible to theft or misuse and capital asset records are incomplete and inaccurate. DOH records indicate the department maintained approximately 820 assets as of February 2020.

We noted the following concerns related to capital assets:

- Department staff did not report more than 350 capital asset dispositions occurring in July 2018 to the Comptroller's office for input into the city's Fixed Asset Management System (FAMS).
- Department staff do not tag, number, or otherwise identify capital assets as required in the FAMS policies and procedure manual.
- Annual physical inventories of department assets are not conducted or reconciled to the capital asset listing.

City of St. Louis Department of Health
Management Advisory Report - State Auditor's Findings

- During our review of 25 capital assets, department personnel could not locate 20 of them (80 percent). Department capital asset records indicate DOH staff disposed of 3 of the 20 missing items in July 2018, but did not update the capital asset listing. The Comptroller's office reported similar issues in internal audit reports issued in June 2016 and September 2017.

The city's FAMS policies and procedures manual requires each department to conduct an annual physical inventory of all departmental property, reconcile the inventory to the capital asset listing provided by the Comptroller's office, and notify the Comptroller's office of capital asset additions, dispositions, transfers, and adjustments or corrections necessary to ensure city records are accurate and complete.

The policies and procedures required by the city's FAMS policies and procedures manual are necessary to provide controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage. In addition, property control tags should be affixed to all property items to help improve accountability and ensure assets are properly identified as belonging to the city.

Recommendation

The Department of Health ensure complete and detailed capital asset records are maintained. In addition, the department should work with the Comptroller's office to properly tag, number, or otherwise identify all applicable city property, and conduct and document an annual inventory.

Auditee's Response

The Department of Health agrees with this finding and has commenced the process of physical inventory count to be conducted twice yearly, in June and in December each year. The implementation of this process and other related asset/equipment management processes are expected to be completed by December 31, 2020. Part of this process would include working with the Comptroller's office to clear from the FAMS list items that had been destroyed or no longer in use and ensuring that proper tags/labels are placed on equipment and assets that are currently in use.

3. Accounting Controls

DOH personnel do not record all payments received on prenumbered receipt slips or in a log and do not always restrictively endorse checks or money orders immediately upon receipt.

The department's Fiscal Bureau staff receive mail for the department and transmit payments received to the respective divisions within each bureau. Mail that does not clearly identify the appropriate division within DOH is opened by fiscal staff to determine the correct recipient. However, these staff do not record checks and money orders received through the use of a receipt log or prenumbered receipt slips and do not restrictively endorse the checks or money orders immediately upon receipt. After Fiscal Bureau staff forward

City of St. Louis Department of Health
Management Advisory Report - State Auditor's Findings

the money received to the appropriate divisions, division staff record the payments through the use of prenumbered receipt slips or receipt logs and add the restrictive endorsement.

Failure to record payments upon initial receipt by the Fiscal Bureau means the initial custody of funds received and the subsequent transmittal of funds to other DOH divisions is not documented. Without this initial recording of payments and supervisory review of transmittals, the DOH cannot ensure all payments received have been properly transmitted to the correct divisions and subsequently transmitted to the Treasurer's office for deposit.

To adequately account for collections and reduce the risk of loss or misuse of monies, all monies received should be recorded on either official prenumbered receipt slips or a log and restrictively endorsed immediately upon receipt. The DOH should verify the numerical sequence of receipt slips, document all changes in custody, and ensure all receipts have been properly transmitted to the Treasurer's office.

Recommendation

The Department of Health ensure all monies received are immediately recorded on an official prenumbered receipt slip or receipt log and checks and money orders are restrictively endorsed immediately. In addition, the department should ensure the numerical sequence of receipt slips is accounted for, changes in custody are documented, and all receipts are reconciled to transmittals to the Treasurer's office.

Auditee's Response

The Department of Health agrees with this finding and has implemented a procedure to record all monies (both cash and check) on a log maintained by the Fiscal Bureau. This procedure was implemented effective on July 1, 2020, to enhance the earlier process of relying only on the log maintained by the programs. The Department of Health Fiscal Bureau will further work with the Treasurer's office to obtain the right endorsement stamp for checks received, to ensure that checks are properly marked "for deposit only" at the time of initial receipt.

4. Payroll Procedures

Controls and procedures over the payroll process need improvement. DOH staff received approximately \$4,300,000 in wages during the fiscal year ended June 30, 2019.

Department staff complete daily or bi-weekly timesheets approved by their supervisors. For 4 of 25 (16 percent) timesheets reviewed, we noted the staff person prepared and the supervisor approved the timesheet prior to all recorded hours being worked, reducing the ability to ensure its accuracy.

In addition, the department's payroll clerk uses the timesheets to create an electronic departmental timesheet for processing into the city's payroll system. We noted 2 of 25 (8 percent) timesheets reviewed did not match the

City of St. Louis Department of Health
Management Advisory Report - State Auditor's Findings

information input into the department's payroll system. In one instance, the staff person's vacation balance was improperly reduced instead of his/her compensatory time balance. In the second instance, the staff person received pay for a quarter of an hour more overtime than the time recorded on the approved timesheet. A documented review is not performed to ensure timesheet information has been correctly entered into the department's payroll system. Such a review is necessary to ensure work hours and leave are accurately tracked by the department and city.

City of St. Louis Personnel Administrative Regulation 134 states "it is the responsibility of each appointing authority to assure that employees on payroll have actually worked the time for which they are paid." Without properly approved timesheets the city cannot ensure hours worked are properly documented. To ensure the accuracy of the hours worked, employees should prepare and sign timesheets after all hours have been worked. Timesheets should then be submitted to the employee's supervisor for review and approval. Without adequate review over timesheet data entry, DOH officials cannot ensure wages paid and leave balances are accurate.

Recommendation

The Department of Health ensure timesheets are adequately prepared and properly approved. In addition, establish documented procedures to review the accuracy of timesheet information entered into the department's payroll system.

Auditee's Response

The City of St. Louis Department of Health agrees with this finding and has implemented additional internal controls to ensure staff time is properly documented and reviewed. At present, daily time sheets are submitted for all programs. Requests to use benefit time is submitted in advance. However, the verification of sufficient available time is completed prior to approving an employee's request. These measures have helped ensure accuracy of wages paid and leave balances.

City of St. Louis Department of Health

Organization and Statistical Information

The City of St. Louis Department of Health's (DOH) mission is to assure a healthy St. Louis community through continuous protection, prevention, and promotion of the public's health. This task is accomplished through the administration of federal, state, and city programs by various bureaus. The department operates under the direction of Dr. Fredrick Echols, MD.¹ Dr. Echols replaced acting director Jeanine Arrighi in February 2019. The department employed 93 individuals as of June 30, 2019 in the following offices and bureaus:

Director of Health

The Director of Health is responsible for providing leadership and direction to the DOH by establishing strategic goals and objectives for planning, developing, implementing, and evaluating programs and services provided. The Director of Health also oversees the Center for Health Information Planning and Research; department fiscal operations; and the department's payroll.

Communicable Disease Control

The Communicable Disease Control Bureau monitors, protects, and promotes public health to the citizens of St. Louis with regards to communicable diseases. Services include prevention programs, diagnostic testing, treatment, follow-up, and contact investigations for all reported communicable diseases.

Environmental Health Services

The Environmental Health Services Bureau protects citizens from environmental hazards and disease through effective and efficient prevention and treatment efforts. The following offices operate under Environmental Health Services: Air Pollution Control, Animal Care and Control, Community Sanitation, Food and Beverage Control, and Vector Control.

Women, Children, & Adolescent Health

The Bureau of Women, Children, and Adolescent Health houses child asthma, lead testing, smoking cessation, and school health services. Programs include Show Me Healthy Women, Health Equity, and Maternal/Child Health.

¹ In May 2020, the Mayor changed Dr. Echols' title to Acting Director after the City Counselor determined Dr. Echols did not meet all requirements for the Department of Health Director under the City Charter.

Report No. 2020-045

August 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Office of Attorney General

Travel and Relocation Costs	The Attorney General's Office (AGO) did not ensure lodging costs associated with attending an out-of-state conference were reasonable as required by state travel policy and did not always follow state travel policies and regulations requiring employees select the most cost-effective method of travel. The AGO did not comply with state policies and laws regarding relocation expenses.
Vehicle Usage Logs	The AGO did not maintain complete and accurate vehicle usage logs.
FSS Accounts Receivable	The Financial Services Section (FSS) has not established policies and procedures over accounts receivable collections and records. Our review of 47 open cases identified 11 cases (23 percent) with remaining balances totaling approximately \$79,000 for which collection efforts had not been performed for at least a year.
Fiscal Office User Access, Identifications, and Passwords	Computer logon credentials are shared among users in the fiscal office.
Capital Assets	The AGO had inadequate records and procedures over unaccounted for and/or missing assets identified in annual physical inventories and office personnel wrote off some items without proper approval. Completed offboarding checklists did not document the assets returned by terminated employees.
Outside Counsel and Experts	The AGO did not prepare written engagement letters for some outside counsel and expert witness services.
Payroll	Payroll procedures over final paychecks were not adequate and 2 terminated employees were overpaid.
Additional Comments	To address a complaint regarding the potential use of state resources for political purposes, we performed additional work related to certain transactions and procedures of the AGO. Findings and recommendations related to this additional work are addressed in a separate report, No. 2020-006, <i>Review of Whether State Resources Were Used for Political Purposes</i> .

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Josh Hawley
and
Honorable Eric Schmitt, Attorney General
Jefferson City, Missouri

We have audited certain operations of the Office of Attorney General, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the period January 9, 2017, to January 3, 2019. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.
2. Evaluate the office's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

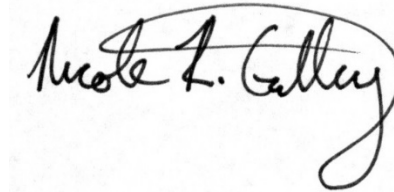

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the office's management and was not subjected to the procedures applied in our audit of the office.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Office of Attorney General.

To address a complaint regarding the potential use of state resources for political purposes, we performed additional work related to certain transactions and procedures of the Attorney General's Office. Findings and recommendations related to this additional work are addressed in a separate report, No. 2020-006, *Review of Whether State Resources Were Used for Political Purposes*.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The initials "R." are written between the first and last names.

Audit Staff:	Terese Summers, MSAS, CPA
	Devin Jackson
	Tori L. Riley, MBA, CFE

Office of Attorney General

Management Advisory Report

State Auditor's Findings

1. Travel and Relocation Costs

The Attorney General's Office (AGO) did not take adequate measures to minimize travel costs or follow state travel and relocation policies.

1.1 Lodging

AGO personnel did not ensure lodging costs associated with attending an out-of-state conference were reasonable as required by state travel policy.

We reviewed 7 trips that included 1 to 3 employees, covering 24 lodging nights. Lodging costs for 6 trips were less than or equal to Continental United States (CONUS) lodging rates (federal employee per diem maximums, established by the U.S. General Services Administration) or conference room rates. However, for one trip, for 3 employees to attend a conference in Portland, Oregon, in June 2018, lodging costs for 9 nights exceeded the conference rate by \$1,840, or an average of \$204 per night. The AGO paid lodging costs ranging from \$359 to \$450 per employee per night for 3 nights. Personnel of the hotel where the conference was held told us the conference lodging rate was \$209 per night for reservations made by May 22, 2018. Trip documentation showed AGO personnel reserved the rooms after the deadline. AGO personnel could not provide documentation explaining why the higher lodging costs were necessary and reasonable.

State of Missouri Administrative Policy SP-6, Article III, Section C, indicates, "[i]n areas where comparable accommodations are available at significantly different prices you should seek prior approval before selecting higher price lodging and document the reason(s) for selecting the higher priced lodging. Key issues that determine hotel acceptability to the State include accountability, transparency, price, safety, convenience, ease of booking and payment, oversight and issue resolution." The policy also provides that CONUS rates should be used as a benchmark when evaluating lodging costs. Procedures requiring performing price comparisons and ensuring rates do not exceed CONUS and/or conference room rates are necessary to demonstrate compliance with state policies and ensure lodging costs are reasonable. Documentation should be maintained to support any lodging expenses exceeding CONUS and/or conference room rates.

We noted a similar condition in our two prior audit reports.

1.2 Vehicular travel

The AGO did not always follow state travel policies and regulations requiring employees select the most cost-effective method of travel.

AGO personnel have various options for vehicular travel. The AGO maintains a fleet of pool vehicles at various locations throughout the state and available for employee travel (see MAR finding number 2). In addition, for travel considerations of state agencies, the Office of Administration (OA) maintains a fleet of vehicles in Jefferson City, and has contracts with rental car companies throughout the state. The OA maintains a Trip Optimizer website for state employees to determine the most cost-effective method of

Office of Attorney General
Management Advisory Report - State Auditor's Findings

travel. The calculation is based on the employee's location, the trip destination, and the number of travel days and considers the cost of using a rental vehicle, an OA state fleet vehicle, or reimbursing an employee for use of a personal vehicle. During Attorney General Hawley's term, the AGO paid approximately \$389,200 for in-state vehicular travel, including \$174,600 for rental vehicles, \$134,000 for personal mileage reimbursement, \$54,900 for OA state fleet vehicles, and \$25,700 for maintaining the AGO fleet.

We reviewed 10 trips, of which 8 trips required completion of a Trip Optimizer report or another equivalent method to determine the most cost-effective method of travel. AGO personnel did not prepare a Trip Optimizer report or other cost calculation for any of these trips. We generated a Trip Optimizer report for each of the trips. The reports indicated 3 trips should have used a lower-cost option than the selected one (rental vehicle). The potential cost savings for these 3 trips totaled about \$100. The AGO did not maintain documentation explaining why personnel did not use the lower-cost option or AGO pool vehicles for these trips.

State of Missouri Administrative Policies SP-6 and SP-12, and Code of State Regulations, 1 CSR 10-11.030, require officials and employees select the most cost-effective travel method, retain documentation to justify any exceptions to the requirement, and use the Trip Optimizer or another equivalent method to calculate travel costs.¹

1.3 Relocation expenses

The AGO did not comply with state policies and laws regarding relocation expenses. During Attorney General Hawley's term, the AGO reimbursed 5 employees for relocation expenses totaling \$33,328.

The AGO could not provide documentation to support the prior approval of these expense reimbursements. In addition, our review noted reimbursements to one employee for temporary lodging expenses included state sales tax totaling \$229, including \$31 not actually paid because the hotel removed the costs.

State of Missouri Administrative Policy B-4, Article II, Section A, requires all offers to reimburse relocation and recruitment expenses be approved in writing prior to the offer being made to an employee or perspective employee. Additionally, state sales tax should not be paid when traveling on state business in Missouri since the agency is tax exempt per Section 144.030.1, RSMo. State of Missouri Administrative Policy SP-6, Article III, Section C, states "[w]hen traveling on state business in Missouri, your lodging is exempt

¹ In May 2019, these provisions were incorporated into 1 CSR 10-11.010 and 1 CSR 10-11.030 was rescinded.

Office of Attorney General
Management Advisory Report - State Auditor's Findings

from state sales tax. At the time of check-in, provide a copy of your agency's Missouri Sales and Use Tax Exemption Certificate."

We noted a similar condition regarding state sales tax paid on in-state lodging costs in our prior audit report.

Recommendations

The AGO:

- 1.1 Require employees perform price comparisons and ensure rates do not exceed CONUS and/or conference room rates when making lodging arrangements. If it is necessary to exceed CONUS rates, the AGO should ensure adequate documentation of the justification and reasoning is prepared and retained.
- 1.2 Follow state travel policies and regulations requiring employees use the most cost-effective method of travel. If circumstances require a higher-cost travel method, documentation should be maintained for the justification.
- 1.3 Ensure reimbursements for relocation expenses comply with state policies and state law. Reimbursements should be supported by written approval prior to the offer being made to an employee or perspective employee and should not include state sales tax.

Auditee's Response

Former Attorney General Hawley's written response, provided by his attorney, is included at Appendix A.

Current Attorney General Schmitt's administration stated that they were not providing a response to the finding.

2. Vehicle Usage Logs

The AGO did not maintain complete and accurate vehicle usage logs.

At January 3, 2019, the AGO maintained a fleet of 19 pool vehicles in Jefferson City and at satellite offices.² On a quarterly basis, the satellite offices and sections submit to the fiscal office (1) vehicle usage logs listing the date(s), driver initials, odometer readings, and destination/purpose of each trip; (2) repair costs; and (3) fuel costs for each pool vehicle.

Our review of usage logs for 144 trips for 7 pool vehicles during Attorney General Hawley's term noted incomplete and/or inaccurate records for 28 trips (19 percent).

² Cape Girardeau (2), Jefferson City (3), Jefferson City - Medicaid Fraud Control Section (4), Kansas City (3), Springfield (4), and St. Louis (3).

Office of Attorney General
Management Advisory Report - State Auditor's Findings

- Mileage for 19 trips was excessive when compared to actual miles between the recorded trip origin and destination. For example, beginning and ending odometer readings recorded for a round trip from Jefferson City to Lebanon indicate the vehicle was driven 526 miles, while the actual round trip mileage between these cities is approximately 180 miles.
- Odometer readings were omitted for 4 trips and inaccurate for another 4 trips. For example, for a February 2018 trip, the beginning odometer reading recorded (106,382) was greater than the ending odometer reading recorded (106,332).
- Trip destination/purpose recorded was not complete or accurate for several trips. For example, for an April 2018 trip, totaling 598 miles, the destination/purpose was recorded as "lots of places." For 2 trips listed in the previous bullet, the destination/ purpose was not legible.

State of Missouri Administrative Policy SP-4, Article III, Section A, Subsection 3, requires vehicle usage logs be maintained for each state vehicle and include the following information: name of driver, date(s) used, beginning and ending odometer readings, destination, and purpose of use. Complete and accurate vehicle usage logs are necessary to document the appropriate use of vehicles and to support fuel purchases and maintenance expenses. To ensure accuracy, the logs should be periodically reviewed for completeness and reasonableness.

A similar condition was noted in our report No. 2020-006, *Review of Whether State Resources Were Used for Political Purposes*.

Recommendation

The AGO maintain complete and accurate vehicle usage logs, and periodically review the logs for completeness and reasonableness.

Auditee's Response

Former Attorney General Hawley's written response, provided by his attorney, is included at Appendix A.

Current Attorney General Schmitt's administration stated that they were not providing a response to the finding.

3. FSS Accounts Receivable

The Financial Services Section (FSS) has not established policies and procedures over accounts receivable collections and records. The FSS did not properly monitor accounts receivable cases; and as a result, cases needing additional collection efforts or closure may not have been identified timely. In addition, some records in the accounts receivable database were inaccurate.

The FSS in Jefferson City handles most AGO collection efforts to recoup monies owed to the state, or its officers and agencies. The FSS maintains a database to track collections and monitor accounts receivable.

Office of Attorney General
Management Advisory Report - State Auditor's Findings

Our review of 47 open cases noted 11 cases (23 percent) with remaining balances totaling approximately \$79,000 for which adequate collection efforts were not performed, and 8 cases (17 percent) that should have been closed.

- For the 11 cases, collection efforts were not performed for more than a year for 2 cases, 2 years for 1 case, 3 years for 4 cases, 4 years for 1 case, and 5 years for 3 cases. Although the FSS sent demand letters to the debtors reflecting a deadline and said other collection efforts will be pursued, section personnel could not provide documentation that additional action took place when the debtors did not respond. In addition, the FSS established promissory notes and payment plans for 3 of these cases, but did not timely monitor or pursue collection when payments ceased.
- For the 8 cases, the database inaccurately showed the case as open when it should have been closed. We noted 4 cases where the obligation was satisfied or dismissed, 2 cases with bankruptcy orders discharging the debt, 1 case deemed uncollectible, and 1 case duplicated in the database.

Policies and procedures over accounts receivable are necessary to help ensure collection efforts are adequate and records are accurate. Such policies should outline when and how collection efforts should be performed, provide for timely monitoring of amounts due and payments received, and ensure database records are accurate and cases are closed timely.

Recommendation

The AGO establish policies and procedures over accounts receivable to ensure periodic monitoring of amounts due and payments received, proper and timely collection efforts, and database records are accurate.

Auditee's Response

Former Attorney General Hawley's written response, provided by his attorney, is included at Appendix A.

Current Attorney General Schmitt's administration stated that they were not providing a response to the finding.

4. Fiscal Office User Access, Identifications, and Passwords

Computer logon credentials are shared among users in the fiscal office. The Fiscal Officer, Accounting Analyst, and Accounting Clerk share their user identifications and passwords to the accounting and purchasing systems, including the Statewide Advantage for Missouri (SAM II) system, with each other.

The Accounting Analyst and the Accounting Clerk are primarily responsible for entering payment information into SAM II and the Fiscal Officer is responsible for approving those entries. The Fiscal Officer indicated they

Office of Attorney General
Management Advisory Report - State Auditor's Findings

share logon credentials so transactions can be processed and approved during their absences.

While a user identification and passwords are required to authenticate access, the security of these logon credentials is dependent upon keeping them confidential. Allowing users to share logon credentials increases the risk of unsupported or unauthorized transactions being made and does not provide assurance access is limited to only those individuals who need access to perform their job responsibilities. System controls would be improved by ensuring all employees maintain confidential passwords and limiting user access in the accounting and purchases systems to only those functions necessary to perform their duties.

Recommendation

The AGO require employees maintain confidential passwords and ensure access to accounting and purchasing systems is limited to only what is needed for users to perform their job duties and responsibilities. If necessary, the AGO should establish procedures for processing and approving transactions during employee absences.

Auditee's Response

Former Attorney General Hawley's written response, provided by his attorney, is included at Appendix A.

Current Attorney General Schmitt's administration stated that they were not providing a response to the finding.

5. Capital Assets

The AGO's procedures to account for capital assets need improvement. As of January 3, 2019, the AGO had about \$5.9 million in assets recorded in the SAM II system capital asset records.

5.1 Inventory records and procedures

The AGO had inadequate records and procedures over unaccounted for and/or missing assets identified in annual physical inventories and office personnel wrote off some items without proper approval.

AGO personnel perform annual physical inventories of assets. The fiscal office provides an exception listing of assets that could not be located during annual inventories to the Information Technology Section (ITS). The ITS is responsible for attempting to locate the missing items and reporting to the fiscal office regarding those items. The Fiscal Officer prepares a reconciled exception listing and provides the listing along with a memorandum to the Deputy Chief of Staff for review and approval. In the memorandum, the Fiscal Officer typically recommends those items still missing since the prior year's inventory be written off and items missing solely in current year's inventory remain in the inventory records and be investigated again during the next inventory.

Office of Attorney General
Management Advisory Report - State Auditor's Findings

We reviewed the records supporting the year ended June 30, 2018, physical inventory. The physical inventory records showed 18 unaccounted for items (total cost of \$51,245), the initial exception listing included 15 missing items, and the reconciled exception listing included 12 missing items. The reconciled exception listing and memorandum were submitted to the Deputy Chief of Staff on August 21, 2018. Since all 12 items were only missing in the current year, the memorandum did not recommend any items for write-off. We noted the following concerns:

- Six unaccounted for items, costing approximately \$3,100, were omitted from the reconciled exception listing and three of these items were also omitted from the initial exception listing.
- The three items identified as missing in the initial exception listing and omitted from the reconciled exception listing were subsequently written-off as lost on September 25, 2018, without approval. These items included a laptop computer, a cloud device, and an iPad (#13853). In response to our inquiries, AGO personnel located this iPad on May 7, 2019.
- The three unaccounted for items omitted from both exception listings included two iPads (#14748 and #15016) and a printer. AGO personnel could not explain why these items were not accounted for during the physical inventory.
- ITS records indicated 3 missing assets included in both the initial and reconciled exception listings were assigned to former employees. These individuals terminated in 2014, 2015, and January 2018.
- Another iPad (#15019) was included on the initial exception listing, and documented as located in June 2018. However, AGO personnel could not locate this iPad in response to our inquiries on May 7, 2019.
- Exception listings were not always complete or accurate. For example, the reconciled exception listing does not include the cost of each missing item. While most items in the year ended June 30, 2018, reconciled exception listing cost less than \$1,400; one item, a video conferencing system, cost approximately \$42,000.

The AGO's Internal Control Plan requires assets be inventoried annually and states controls and procedures over capital assets are consistent with state regulations. Code of State Regulations, 15 CSR 40-2.031, requires each department to account for all acquisitions and dispositions of equipment items that cost \$1,000 or more, and to maintain adequate capital asset records that contain identification number; description of the item including name, make, model and serial number, where appropriate; acquisition cost; date of

Office of Attorney General
Management Advisory Report - State Auditor's Findings

acquisition; estimated useful life at the date of acquisition; physical location in sufficient detail to readily locate the item; and method and date of disposition. An annual physical inventory of capital assets is required, and should be reconciled to capital asset records and the prior annual physical inventory. In addition, departments are required to establish controls over sensitive items that cost less than \$1,000.

The inability to maintain complete and accurate capital asset records, properly account for all items, and document and follow up on all missing items identified during physical inventories reduces the control and accountability over capital assets and increases the potential that loss, theft, or misuse will go undetected. All discrepancies noted during annual inventories should be promptly investigated, necessary adjustments made to the capital asset records, and write-offs approved.

5.2 Offboarding checklists

Completed offboarding checklists did not document the assets returned by terminated employees.

The AGO developed an offboarding checklist form to help ensure the ITS collects all AGO equipment and disables user access to computer systems, e-mail, and online accounts when an employee leaves the AGO. This checklist includes a section to record each item returned by the employee and the corresponding asset identification number.

We reviewed the completed checklists for the 20 terminated employees during the 7-week period ended February 1, 2019. While ITS personnel initialed they had completed all steps on each checklist (e.g. collected equipment, disabled access/accounts, updated inventory sheet), they did not record the assets returned on any of the 20 checklists. As a result, there is no documentation of the returned assets.

Proper recording of items returned by terminated employees on offboarding checklists is necessary to ensure all AGO issued equipment is properly returned, and can serve as a useful tool to ensure capital asset records are updated timely.

Recommendations

The AGO:

- 5.1 Ensure all discrepancies noted in annual inventories are documented on exception listings and promptly investigated, capital assets records are properly adjusted, and documented approvals are maintained for all items disposed of or written off. In addition, the AGO should ensure capital asset records, including exception listings, are complete and accurate.

Office of Attorney General
Management Advisory Report - State Auditor's Findings

- 5.2 Ensure returned assets and their corresponding asset identification numbers are properly recorded on offboarding checklists and use this information to promptly update capital assets records.

Auditee's Response

Former Attorney General Hawley's written response, provided by his attorney, is included at Appendix A.

Current Attorney General Schmitt's administration stated that they were not providing a response to the finding.

6. Outside Counsel and Experts

The AGO did not prepare written engagement letters for some outside counsel and expert witness services.

The AGO engages outside counsel (private attorneys) to provide representation for certain cases, primarily cases requiring specialized attorneys or for cases involving a conflict of interest. In addition, the AGO engages various expert witnesses. Services performed by outside counsel and expert witnesses are paid from both AGO appropriations and the State Legal Expense Fund (LEF). When the AGO is the plaintiff, expenses are paid from AGO appropriations; and when the AGO is the defendant, expenses are paid from the LEF. The AGO uses an engagement letter to document arrangements and compensation for these services.

Payments for outside counsel and expert witness services during Attorney General Hawley's term (January 9, 2017, to January 3, 2019) totaled approximately \$4.5 million from AGO appropriations and the LEF.

AGO Appropriations:

Legal services	\$	31,217
Expert witnesses		831,863
Total	\$	863,080

LEF:

Legal services	\$	550,064
Expert witnesses ¹		3,118,962
Total	\$	3,669,026

¹ Includes payments to plaintiffs' expert witnesses.

The AGO pays predetermined hourly rates (\$160 for medical malpractice cases and \$140 for conflict cases) for outside counsel paid from the LEF. The AGO negotiates rates for outside counsel and expert witnesses paid from AGO appropriations and some expert witnesses paid from the LEF. During Attorney General Hawley's term, the AGO paid 5 outside counsels for legal services from AGO appropriations and 146 vendors for expert witness services from both sources. Our review of payments for 22 engagements

Office of Attorney General
Management Advisory Report - State Auditor's Findings

noted negotiated rates paid to outside counsel ranging from \$150 to \$595 per hour and to expert witnesses ranging from \$70 to \$1600 per hour.

We identified the AGO did not prepare a written engagement letter for 2 of the 22 (9 percent) engagements. Payments on those engagements totaled approximately \$10,600 for services billed at rates of \$300 per hour for outside counsel and \$250 per hour for expert witness.

Without written engagement letters, it is difficult to determine whether all charges billed are proper. In addition, written engagement letters are necessary to ensure all parties are aware of their duties and to clarify compensation allowed. Engagement letters should be prepared prior to services being provided, cover all pertinent arrangements, and be signed by both parties.

Recommendation

The AGO ensure all outside legal counsel and expert witness services are supported by engagement letters.

Auditee's Response

Former Attorney General Hawley's written response, provided by his attorney, is included at Appendix A.

Current Attorney General Schmitt's administration stated that they were not providing a response to the finding.

7. Payroll

Payroll procedures over final paychecks were not adequate and 2 terminated employees were overpaid.

We reviewed the final payroll checks for the 20 terminated employees during the 7-week period ended February 1, 2019, and noted 2 (10 percent) received final payouts in excess of total hours worked. One employee received payment for 43 hours when time records indicated the employee only worked 32 hours and another received payment for 8 hours when the employee only worked 4 hours. These errors occurred because AGO personnel did not properly enter the final payout information from the time keeping system into the SAM II system and no one identified the errors during the payroll review and approval process.

Controls and procedures over final paychecks are necessary to ensure terminated employees are properly compensated. The AGO should ensure final paycheck information is properly entered into the SAM II system and reviewed for accuracy prior to approving the payouts.

Recommendation

The AGO establish procedures to ensure final paychecks to terminated employees are calculated properly.

Office of Attorney General
Management Advisory Report - State Auditor's Findings

Auditee's Response

Former Attorney General Hawley's written response, provided by his attorney, is included at Appendix A.

Current Attorney General Schmitt's administration stated that they were not providing a response to the finding.

Office of Attorney General

Organization and Statistical Information

The Office of Attorney General was created in 1806, when Missouri was still a territory. The Missouri Constitution of 1820 provided for an appointed attorney general. It remained an appointed position until 1865, when a new constitution provided for an attorney general elected by the people.

The Attorney General's Office is located in Jefferson City. There are branch offices in Kansas City, St. Louis, Springfield, and Cape Girardeau. The AGO is organized into eight sections: Consumer Protection, Criminal, Financial Services, Governmental Affairs, Labor, Litigation, Medicaid Fraud Control, and Public Safety. Each section is headed by a section leader who is responsible for the operations of the section.

Consumer Protection Section: This section handles fraud investigations and litigation. Attorneys in this section represent Missouri consumers as a group in cases of consumer fraud, securities fraud, and antitrust matters. Also, these attorneys are active in discovering businesses that commit merchandising practices fraud in connection with the sale and advertising of products or services. This section includes an investigative staff that assists attorneys in investigations involving violations of the state's Merchandising Practices Act. The No Call program, to reduce telemarketing calls, is also under this section.

Criminal Section: This section represents the state in every felony case appealed to the Supreme Court of Missouri and Missouri Court of Appeals. The attorneys in this section also defend the state in all habeas corpus actions filed by prison inmates in state and federal court and assist with extraditions to and from Missouri of those charged in criminal cases.

Financial Services Section: This section pursues recoveries of monies due the AGO and other state agencies/departments, including amounts due on defaults on student loans and economic development loans, delinquent audit and lottery commission fees, penalties owed the Missouri Ethics Commission, estate recovery cases, money owned by inmates to reimburse the state for the costs of their care, and collections in bankruptcy court. Also, the attorneys in this section provide legal assistance to the Department of Social Services by establishing and enforcing child support obligations.

Governmental Affairs Section: This section represents the governor and other statewide elected officials, the Office of Administration, various state departments, and more than 30 professional licensing boards. Section attorneys defend constitutional challenges to state laws and ballot issues and enforce compliance with state laws by trusts, foundations, and nonprofit corporations. The attorneys in this section are also responsible for enforcing the state ethics and campaign finance laws, enforcing state laws requiring tobacco manufacturers to establish escrow accounts, and addressing questions about the state's open meeting and records law, commonly known as the Sunshine Law.

Office of Attorney General
Organization and Statistical Information

In addition, this section protects Missouri's natural resources and agricultural productivity, and represents the Department of Natural Resources including its constituent boards and commissions that regulate the use of Missouri's air, land, and waters, as well as the Department of Agriculture. Attorneys take legal action to stop pollution of the state's air, water, and soil and penalize polluters through fines, penalties, and in the most serious cases, incarceration. This section also works to protect and enhance agriculture and the quality of life for rural Missourians by enforcing the law and advocating responsible public policy. Enforcement litigation is filed primarily in state courts to seek preliminary and permanent injunctions to assure compliance with state environment laws. This section also obtains civil penalties and recovers costs and damages for the state.

Labor Section: This section provides general counsel and litigation services for the Missouri Department of Labor and Industrial Relations and its officers and agencies. This section also represents the state in prevailing wage disputes, crime victims' claims, and workers' compensation cases of state employees, including claims involving the Second Injury Fund.

Litigation Section: This section is responsible for representing all state agencies, officers, and employees in civil litigation matters in state and federal courts. Cases include damage claims, contract cases, civil rights cases, personal injury lawsuits, employment issues, and constitutional law issues. This section also defends the state in lawsuits brought by inmates of Missouri's correctional facilities.

Medicaid Fraud Control Section: This section prosecutes cases involving fraud of the state Medicaid program by health professionals, or abuse or neglect of Medicaid recipients by caregivers. This section does not investigate allegations of fraud committed by Medicaid participants or fraud perpetrated against the Medicare program.

Public Safety Section: This section handles criminal prosecutions at the trial level. The Special Prosecution Unit assists local prosecuting attorneys in serious or difficult trials, including homicide cases and grand jury proceedings. The Methamphetamine Prosecuting Unit specializes in handling criminal cases involving the manufacture, sale, or possession of methamphetamine and other illegal drugs. The Workers' Compensation Fraud Unit prosecutes fraud or misconduct involving workers' compensation. The High Technology and Computer Crime Unit assists local law enforcement with investigations and prosecutions of computer and Internet crime cases, and the Sexually Violent Predator Unit enforces the sexual violent predator law. In addition, attorneys in the section also serve as legal counsel for the Department of Public Safety, Highway Patrol, and other state law enforcement agencies, and represent those agencies in all civil litigation in which they are a party.

Office of Attorney General
Organization and Statistical Information

On January 9, 2017, Josh Hawley was inaugurated as the forty-second Attorney General. His term ended on January 3, 2019, when he was sworn into the United States Senate. On that date, Eric Schmitt was sworn in as the state's forty-third Attorney General.

June 30, 2020

Deborah Whitis
Audit Manager
Missouri State Auditor's Office
Deborah.Whitis@auditor.mo.gov

Dear Ms. Whitis:

Every penny counts, which is why Josh Hawley did so much as Attorney General to save taxpayers millions of dollars a year. In 2015, before Mr. Hawley was elected Attorney General, the office's total budget was almost \$27.5M. By 2018, Attorney General Hawley's last year running the office, the total budget had declined to just over \$24.1M. Attorney General Hawley was able to achieve these savings while accomplishing more for the State, including achieving record levels of restitution, over \$33 million, for Missouri consumers; winning a record amount of money in Medicare fraud cases; securing over 100 criminal convictions; suing multiple opioids manufacturers; and launching investigations of Google and Facebook for antitrust and consumer privacy violations that now involve all 50 state Attorneys General.

The audit report's recommendations could have saved taxpayers at most about one half of one percent of the office's annual budget – a fraction of the sum Attorney General Hawley was able to save through responsible stewardship of the office's resources. Even that estimate of the potential savings from the report's recommendations requires indulging some unrealistic assumptions, including that more dogged collection efforts would have resulted in a 100% payment rate on several bad debts owned by the state. The audit uncovered no evidence of mismanagement or fraud or illegal activity, and the report's bottom line is that the office was responsibly managed during Attorney General Hawley's tenure. Although the Auditor has been inexcusably dilatory in concluding this report, 18 full months after Attorney General Hawley left the office, the result is proof yet again of a promise kept to Missouri's taxpayers.

Sincerely,

Brian W. Barnes
*Counsel for Former Missouri
Attorney General Josh Hawley*

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 1,494 political subdivisions required to file a financial report by June 30, 2020, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in June 2020, after their filing deadline. The filing status for these 7 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name and title.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

June 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 1,494 political subdivisions, other than cities, towns, and villages, with a fiscal year end of December 31, 2019. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 1,494 political subdivisions, 1,093 filed an annual financial report timely and 1 filed a financial report for a portion of their fiscal year.

This report also includes the filing status for 7 political subdivisions, other than cities, towns, and villages, that filed their financial report in June 2020, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by June 30, 2020, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 257 cities, 11 towns, and 131 villages is presented in summary on page 3 and by individual entity in Appendix A. The filing status for 5 counties is presented in summary on page 4 and by individual entity in Appendix B. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in June 2020, after their filing deadline. The filing status for these 2 cities is presented in summary on pages 4 and by individual entity in Appendixes C to D.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

June 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 257 cities, 11 towns, and 131 villages with a fiscal year end of December 31, 2019, whose financial report was due by June 30, 2020. Of the 399 municipalities required to file an annual financial report, 270 filed the report timely. Of the 221 municipalities required to file an addendum, 90 filed an addendum timely. Of the 112 municipalities required to file a certification, 56 filed a certification timely.

Monthly Report on Municipal Court and Revenue Filings
June 2020
Executive Summary

This report includes the filing status for the 5 counties, with a fiscal year end of December 31, 2019, whose addendum and certification was due by June 30, 2020. Of these entities, 4 filed their addendum timely, and 5 filed their certification timely.

This report includes the filing status for 2 cities that filed at least one of the items (financial report, addendum, or certification) in June 2020, after their filing deadline. Of these municipalities, 2 filed an annual financial report and 1 filed an addendum.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of June 2020 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March and April 2020, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program, MO HealthNet, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In June, the state spent \$267 million from federal COVID-19 assistance (Appendix A). Through the end of June, the state has received \$2.59 billion and spent \$1.09 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. The majority of the state's disbursements have been for MO HealthNet services (\$324 million) and funding passed through to counties and the City of St. Louis (\$521 million). In addition, the state is currently using \$250 million of COVID-19 relief funding for cash management needs.

Nicole R. Galloway, CPA
State Auditor

Director of Audits:	Jon Halwes, CPA, CGFM
Audit Manager:	Alex R. Prenger, M.S.Acct., CPA, CISA, CFE, CGAP
Senior Auditor:	Jeffrey Roberts, CISA, CFE
Staff Auditor:	Kristin A. Clink, MBA, CFE

Federal Funding for COVID-19 Response

June 2020

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March and April 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of June 30, 2020, approximately \$17.6 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program, MO HealthNet. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).
- Not charge premiums that exceed those that were in place as of January 1, 2020.

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
June 2020
Executive Summary

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of June 30, 2020, approximately \$36.2 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population. In early July, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

⁴ U.S. Department of the Treasury, *Coronavirus Relief Fund Guidance for State, Territorial, Local, and Tribal Governments*, April 22, 2020, <<https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Guidance-for-State-Territorial-Local-and-Tribal-Governments.pdf>>, accessed May 20, 2020.

Federal Funding for COVID-19 Response
June 2020
Executive Summary

- Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
- Costs of providing COVID-19 testing, including serological testing.
- Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
- Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:

- Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
- Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:

- Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
- Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.

Federal Funding for COVID-19 Response
June 2020
Executive Summary

- Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
- Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 30, 2020, as required by federal law, those funds must be returned to the federal government.

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to June 30, 2021. In May, the OA transferred \$250 million from the stimulus

⁵ U.S. Department of the Treasury, *Coronavirus Relief Fund Frequently Asked Questions*, p.8, May 28, 2020, < <https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Frequently-Asked-Questions.pdf>>, accessed May 29, 2020.

Federal Funding for COVID-19 Response
June 2020
Executive Summary

fund to the General Revenue Fund. No cash management transfers occurred in June.

Under the CARES Act, the state has also been awarded as of June 30, 2020, approximately \$2.67 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$165 million with some of this funding going directly to rural health departments from the federal government.

In June, the state spent \$267 million from federal COVID-19 assistance (Appendix A). Through the end of June, the state has received \$2.59 billion and spent \$1.09 billion from this assistance. The majority of the state's disbursements have been for MO HealthNet services (\$324 million) and funding passed through to counties and the City of St. Louis (\$521 million). The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendix C.

¹ For the fiscal year ending June 30, 2020, the Secretary of State is using this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. In addition, this fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The Secretary of State receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. However, beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund will be used to account for all COVID-19 receipts (including any remaining balance transferred from the Election Administration Improvements Fund) and related disbursements from July 2020 going forward.

² The General Assembly has authorized the Office of Administration to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund. As of the end of June, \$250 million has been transferred to the General Revenue Fund.

Missouri State Auditor

Department of Revenue

Sales and Use Tax

Report No. 2020-041

August 2020

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the Department of Revenue - Sales and Use Tax

Ongoing Sales and Use Tax Issues

Several previous audit reports have included concerns and recommendations relating to timely sales and use tax discounts and internet sales. State laws allowing retailers to retain a portion of sales and use taxes collected if they remit the taxes to the Department of Revenue timely result in the state and local governments forgoing significant revenues. Missouri's timely sales and use tax discount is the most generous such discount in the nation, and significantly benefits the state's largest retailers. In addition, Missouri is one of two states with statewide sales taxes that have not passed legislation to allow for the collection of sales tax on online purchases made from out-of-state sellers or to participate in the Streamlined Sales and Use Tax Agreement, costing the state millions in potential sales tax revenue.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Kenneth J. Zellers, Director
Department of Revenue
Jefferson City, Missouri

We have audited certain operations of the Department of Revenue, sales and use tax collections, as required by Section 32.087, RSMo, and in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.
2. Evaluate the department's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

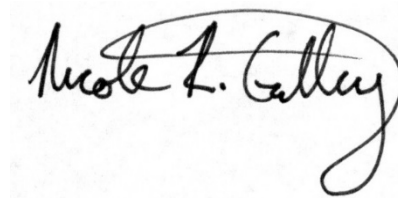

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; analysis of comparative data obtained from internal sources; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Due to the nature of this report, and due to the findings being legislative in nature, we were unable to obtain views of responsible officials for the findings, conclusions, and recommendations outlined in the Management Advisory Report. The views of responsible Department of Revenue officials were obtained and included herein.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our finding arising from our audit of the Department of Revenue, sales and use tax collections.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Department of Revenue

Sales and Use Tax

Introduction

Background

The state's sales tax is imposed on the purchase price of tangible personal property or taxable services sold at retail. Use tax is imposed on the storage, use, or consumption of tangible personal property in this state. Cities and counties may impose a local sales and use tax. Special taxing districts (such as transportation development districts) may also impose additional sales taxes. State and local sales and use taxes are collected by the Department of Revenue (DOR). The DOR then distributes the local sales and use taxes to the cities, counties, and districts.

Sales and use tax receipts collected from businesses and motor vehicle sales tax receipts collected from businesses and individuals are deposited into various state and local funds. Marine and ATV sales and use tax collections are deposited into the same funds as state sales and use tax. Motor vehicle leasing sales tax collections are deposited into the same funds as motor vehicle sales tax.

For operating purposes, the DOR has been charged with the responsibility of administering transactions in the following funds and accounts.

State Funds

The State Treasurer, as fund custodian, and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly for all state funds.

General Revenue Fund: This fund, authorized by Section 144.700, RSMo, receives collections from a general 3 percent state sales and use tax. State sales tax is collected pursuant to Section 144.020, RSMo, and state use tax is collected pursuant to Section 144.610, RSMo. Retail sales of food are not subject to the 3 percent tax as provided by Section 144.014, RSMo. This fund also receives payments from common carriers in interstate air transportation, as authorized by Section 144.807, RSMo. In addition, the General Revenue Fund pays all motor vehicle sales tax refunds and receives motor vehicle sales tax collections as reimbursement from other state funds for their applicable share of the refunds.

Aviation Trust Fund: This fund, authorized by Section 144.805, RSMo, receives collections from a sales and use tax on aviation jet fuel from common carriers. These taxes are paid as a result of exemptions to General Revenue sales tax. The exemptions are a result of direct-pay agreements between common carriers and the DOR.

Conservation Commission Fund: This fund, authorized by Section 254.020, RSMo, receives collections of the 0.125 percent state sales and use tax and motor vehicle sales tax provided for in Article IV, Section 43(a), Missouri Constitution.

Department of Revenue
Sales and Use Tax
Introduction

State Highways and Transportation Department Fund: This fund received 75 percent of the collections from the 4 percent highway use tax during fiscal years 2013 and 2012. Effective July 5, 2013, the highway use tax was repealed and all motor vehicle transactions are now assessed a sales tax as authorized by Section 144.020, RSMo, which goes into the State Road Fund and the State Road Bond Fund. This fund continues to receive some residual highway use tax collections.

Parks Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax and motor vehicle sales tax.

School District Trust Fund: This fund, authorized by Section 144.701, RSMo, receives collections from a 1 percent state sales and use tax pursuant to Section 144.701, RSMo. Retail sales of food are subject to a 1 percent tax to be deposited into this fund as provided by Section 144.014, RSMo. In addition, this fund receives 12.5 percent of collections from the 4 percent motor vehicle sales tax pursuant to Article IV, Section 30(b)2, Missouri Constitution.

Soil and Water Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax and motor vehicle sales tax.

State Road Bond Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution (Amendment 3), receives 37.5 percent of the collections from the 4 percent motor vehicle sales tax.

State Road Fund and State Transportation Fund: These funds, authorized by Article IV, Section 30(b), Missouri Constitution, receive 37.5 percent of the collections from the 4 percent motor vehicle sales tax, which is deposited 36.5 percent to the State Road Fund and 1 percent to the State Transportation Fund.

Local Funds

Sales and use tax collections for local funds are deposited into interest-bearing bank accounts until distributed. Subsequently 99 percent of the collections and earned interest are distributed to the various political subdivisions with the remaining 1 percent going to the General Revenue Fund for a collection fee, except for the Local Fuel Tax and Bond Trust Fund, which has no collection fee withheld from distributions to the fund. The DOR has sole responsibility for maintaining and disbursing fund resources for all local funds.

Local Fuel Tax and Bond Trust Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution, receives 12.5 percent of the collections from the 4 percent motor vehicle sales tax. In addition, this fund receives collections from the motor fuel tax authorized by Section 142.803, RSMo.

Department of Revenue
Sales and Use Tax
Introduction

Local Sales and Use Tax Trust Fund: This fund receives collections generated from local sales taxes imposed by local political subdivisions, as authorized by Chapters 66, 67, 70, 92, 94, 162, 190, 238, 321, and 644, RSMo. In addition, this fund receives collections generated by a use tax, authorized by Section 144.757, RSMo, based on the local sales tax in effect, upon all transactions subject to taxes imposed under Sections 144.600 to 144.745, RSMo, except as otherwise provided. Net taxes and interest are subsequently distributed to the cities and counties.

Custodial Accounts

The DOR has been charged with the responsibility of administering transactions in the custodial accounts. Except for the Sales Tax Bond Account held by the State Treasurer, actual custody of the resources in the accounts rests with the DOR. Collections for the custodial accounts held by the DOR are deposited in interest-bearing bank accounts.

Compliance Clearing Account: This account receives tax payments from taxpayer audits. The DOR holds these payments in this account pending final audit review. Depending on the results of the audit review, the DOR transfers the tax payment to the appropriate state and local funds or issues a refund to the taxpayer.

Motor Vehicle Clearing Account: This account receives collections from motor vehicle agent offices and the central office for various taxes and fees. These receipts are subsequently transferred to various state and local funds.

Sales Tax Bond Account: The DOR receives cash bonds posted by taxpayers as authorized by Section 144.087, RSMo. All bond collections are deposited in the General Revenue Fund and reported by the DOR in this account. Cash bonds and related interest are to be refunded to the taxpayer after 1 year if the taxpayer is determined to have satisfactory tax compliance and if the bond was posted before January 1, 1984. If the bond was posted on or after January 1, 1984, the Attorney General has determined that no interest should be refunded. In the event of uncollectible sales tax liabilities, the bonds and related interest, if any, are forfeited to the DOR. The department subsequently distributes the monies to the state and the appropriate political subdivisions. Effective August 28, 2018, a bond is no longer required to obtain a retail sales license, but may be required of licensees in default of filing a return and paying taxes when due.

Protested Sales Tax General Revenue Account: This account is not separately presented in Appendix D for fiscal year 2019. These payments, consisting of the 4.225 percent state portion of sales taxes paid under protest, are deposited in the General Revenue Fund.

Department of Revenue Sales and Use Tax Introduction

Historical sales and use tax trends and information

As shown in Figure 1, when adjusted for inflation, state and local sales and use tax collections have increased for most years between fiscal year 2010 and fiscal year 2019. Adjusted state sales and use tax collections increased from \$3.45 billion to \$3.79 billion (10 percent), while adjusted local sales and use tax collections increased from \$2.69 billion to \$3.71 billion (38 percent) during this time period.

Figure 1: State and local sales and use tax collections, 2010-2019, by fiscal year, adjusted for inflation

Source: DOR annual reports, SAO analysis of Consumer Price Index data from <https://fred.stlouisfed.org/series/CPIAUCSL>, and Appendix G.

The state sales and use tax rate has remained at 4.225 percent during these 10 years. In comparison, local sales and use tax rates imposed by local political subdivisions are continuously changing as local taxing jurisdictions impose new tax rates and others expire. In addition, the increasing number of districts has contributed to the total increase in local sales tax collections. The total number of districts increased from approximately 320 in fiscal year 2010 to approximately 640 in fiscal year 2019 (100 percent).

Department of Revenue Sales and Use Tax Introduction

Local sales and use tax collections are distributed by the DOR to cities, counties, and districts. As shown in Figure 1, and as further illustrated in Figure 2, local sales and use tax collections and subsequent distributions have increased for most years between fiscal year 2010 and fiscal year 2019.¹

Figure 2: Local sales and use tax distributions by political subdivision type, 2010-2019, by fiscal year

Source: DOR Records, see Appendix H

Sales and use tax exemptions

As noted in several previous audit reports,² the DOR does not adequately capture and track information regarding some sales and use tax exemptions. As a result, the fiscal impact of each exemption and the cumulative fiscal impact of all exemptions on state and local revenues cannot be determined. According to DOR records, as of June 30, 2019, state law provided for 211 sales and use tax exemptions.

DOR officials have stated that reporting exemptions would substantially increase the burden on businesses and based on prior attempts to track limited exemptions, the data collected is likely to be highly inaccurate due to reporting errors by businesses. However, by not requiring businesses to track these adjustments, the DOR is unable to determine the cost of the various sales tax exemptions. Without this information the legislature cannot make informed decisions regarding the effectiveness and cost of the various exemptions. Although not repeated in this report, our recommendation remains as previously stated.

¹ For more detail on local sales and use tax distribution amounts, see Appendix H.

² Report No. 2019-067, *Sales and Use Tax*, issued in August 2019; Report No. 2017-113, *Cost of Tax Incentives and Exemptions*, issued in October 2017; Report No. 2015-080, *Sales and Use Tax*, issued in September 2015; and Report No. 2013-015, *Sales and Use Tax*, issued in February 2013.

Department of Revenue

Sales and Use Tax

Management Advisory Report - State Auditor's Findings

1. Ongoing Sales and Use Tax Issues

Several previous audit reports² have included concerns and recommendations relating to timely sales and use tax discounts and internet sales. These sales and use tax issues continue to be ongoing concerns.

1.1 Timely sales and use tax discounts

State laws allowing retailers to retain a portion of sales and use taxes collected if they remit the taxes to the Department of Revenue (DOR) timely result in the state and local governments forgoing significant revenues. Missouri's timely sales and use tax discount is the most generous such discount in the nation, and significantly benefits the state's largest retailers. In addition, the DOR does not routinely report to the General Assembly (GA) the amount of timely sales and use tax discounts retained by businesses.

Missouri's discount is the most generous in the nation

Missouri's timely sales and use tax discount is the most generous discount in the nation.³ Sections 144.140 and 144.710, RSMo, allow businesses remitting sales and use taxes to retain 2 percent of taxes payable to the DOR if the business remits payments timely.⁴ The amount of the discount is not capped.

As shown in Figure 3, the amount of sales and use tax revenues foregone as a result of the timely discount retained has increased for most years between fiscal year 2010 and fiscal year 2019. State and local sales tax revenues of approximately \$124 million and \$121 million were collected from purchasers, but retained as discounts by businesses remitting sales and use taxes in fiscal years 2018 and 2019, respectively.

Figure 3: Timely discount totals, 2010-2019, by fiscal year

Source: DOR records

³ Effective January 2020, Colorado's discount is now capped at \$1,000 per filing period, making Missouri's discount the most generous.

⁴ Per Section 144.080, RSMo, if filing annually applicable taxes are due by January 31 of the following year, if filing quarterly applicable taxes are due the last day of the month following the completed quarter, and if filing monthly applicable taxes are due the 20th of the following month. Per Section 144.081, RSMo, if filing quarter-monthly applicable taxes are due within 3 business days following the completed quarter-monthly period.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

In fiscal year 2019, sales and use taxes comprised approximately 21 percent of the state's general revenue. With sales and use tax revenues being used to fund significant portions of state and local government budgets, such large discounts are significant.

According to the Federation of Tax Administrators,⁵ 26 other states offer similar vendor discounts; however, 17⁶ of those states have established ceilings to limit the amount of discount and/or compensation retained by businesses. In addition, the other 9 states either have a lower discount rate than Missouri or only apply the highest discount rate to a limited dollar amount of sales tax collected (e.g., the first \$3,000, then a lower rate applies).

Cap on discount would result in increased revenue

Changing state law to include a monthly cap on the amount of timely discount eligible to be retained would significantly increase state and local revenues. For example, as reported in our audit of state tax incentives and exemptions,⁷ applying a cap of \$2,500 per month (formerly⁸ the largest cap of contiguous states) to Missouri would result in approximately \$52 million in additional state and local sales tax revenue.⁹

Cap on discount would only impact the state's largest retailers

As further discussed in the audit of state tax incentives and exemptions, a monthly timely discount cap of \$2,500 would not affect the majority of sales tax filers. Based on the state's average sales tax rate of 7.86 percent,¹⁰ only businesses with monthly taxable sales of approximately \$1.6 million would have their timely discount capped. Retailers with less than \$1.6 million in monthly taxable sales would continue to receive the full 2 percent timely discount. In fiscal year 2016, the 50 largest sales tax collecting businesses retained approximately 72 percent of timely discounts exceeding \$2,500, with the top 5 largest sales tax collecting businesses receiving a total of \$17 million in discounts.

The state established the timely sales tax discount so businesses could recover a portion of their costs for compliance with state sales tax laws and to encourage timely remittance of sales and use taxes. With increased use of electronic systems to calculate and remit sales tax collections, it is not clear if the continued use of such a discount is necessary to achieve these

⁵ "State Sales Tax Rates and Vendor Discounts (January 1, 2020),"

<<https://www.taxadmin.org/assets/docs/Research/Rates/vendors.pdf>>, accessed on February 27, 2020.

⁶ The number of states with established ceilings has been updated to include Colorado which established a cap, effective January 2020.

⁷ Report No. 2017-113, Cost of Tax Incentives and Exemptions, issued in October 2017.

⁸ As of July 2019, Oklahoma no longer offers a timely discount to sales tax filers.

⁹ Based on fiscal year 2016 data.

¹⁰ Scott Drenkard and Nicole Kaeding, "State and Local Sales Tax Rates in 2016,"

<<https://taxfoundation.org/state-and-local-sales-tax-rates-2016/>>, (March 2016), accessed on June 7, 2017. Calculation regarding the estimated monthly taxable sales was based on this estimated average sales tax rate.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

objectives.¹¹ The current law allowing uncapped timely discounts results in the state and local governments providing a sizable subsidy to the largest retailers in the state, and is more generous than any other state. Implementing a cap on timely discounts would result in additional revenues to the state and local governments without increasing taxes on consumers.

Other states have taken action to change timely discount laws

Some states are reviewing their timely discount structure and making changes to reduce the amount of sales and use tax revenues retained by businesses. For example, Oklahoma had a discount of 1 percent with a cap of \$2,500 per month. However, as of July 2019, Oklahoma no longer offers a timely discount to sales tax filers. In addition, Colorado did not have a cap on the timely discount amount until January 2020, when a cap of \$1,000 per filing period was established.

Amounts of timely discounts are not routinely reported

The DOR is not required to report, and does not routinely report the amount of timely discounts retained by businesses to the GA, local governments impacted, or the general public. DOR officials have stated this data is provided upon request. However, this information could be useful to the GA when making various budget decisions and ensuring the state and local policymakers and the general public are informed of the continuous cost of these discounts.

1.2 Internet sales

Missouri is one of two states with statewide sales taxes that have not passed legislation to allow for the collection of sales tax on online purchases made from out-of-state sellers or to participate in the Streamlined Sales and Use Tax Agreement (SSUTA), costing the state millions in potential sales tax revenue. While legislation was proposed during the 2020 legislative session to address this issue, it failed to become law.

Other states have taken action to update sales tax laws related to online sales

State law currently requires Missouri businesses to collect use tax on online sales only if the business has a physical presence in the state. On June 21, 2018, the United States Supreme Court ruled in *South Dakota v. Wayfair, Inc.*, 585 U.S. (2018), that states may charge tax on purchases made from out-of-state sellers, even if the seller does not have a physical presence in the taxing state. This decision overturned *Quill Corp. v. North Dakota*, 504 U.S. 298 (1992), which restricted state taxation of interstate commerce. Following the *South Dakota v. Wayfair, Inc.* ruling, 43 of 45¹² states with statewide sales taxes have adopted collection and remittance obligations for remote sellers, with Missouri and Florida being the only 2 states that still require a physical presence in the state.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

Online sales increasing

With the increasing popularity and usage of online shopping, e-commerce sales have grown significantly in recent years. Estimates from the U.S. Census Bureau¹³ show e-commerce sales for the fourth quarter 2019 now account for approximately \$158 billion of \$1.39 trillion in total retail sales (approximately 11 percent), up from approximately \$44 billion in the fourth quarter 2010. As reported in our audit of state tax incentives and exemptions, several studies have estimated the state is forgoing sales tax revenues in the hundreds of millions of dollars by not consistently collecting sales tax revenue on out of state internet sales. These studies also noted local vendors face a competitive disadvantage because consumers who make purchases online avoid paying sales/use taxes. In addition, the recent COVID-19 pandemic has resulted in increased online shopping. The acceleration of this trend may impact the state's sales and use tax revenues.

Streamlined Sales and Use
Tax Agreement

The SSUTA, adopted in November 2002, is a cooperative effort among states, local governments, and businesses to simplify and make more uniform the sales and use tax collection and administration for retailers and states. The SSUTA aims to minimize costs and administrative burdens on retailers that collect sales tax, while also encouraging out-of-state sellers to collect tax on sales to customers in member states. Forty-four states, including Missouri, participated in the Streamline Sales Tax project. However, only 24 of these states (member states) have enacted legislation to conform to at least part of the SSUTA, which allows them to collect sales taxes from vendors in other states.

Recommendations

The General Assembly:

- 1.1 Evaluate the necessity of a timely sales tax discount. If such a discount is deemed necessary, consider the implementation of a monthly cap on the amount of discount retained, and also consider changes to current state laws to require the DOR annually report the reduction of state revenue related to the timely discount to the General Assembly, applicable political subdivisions, and to the general public.
- 1.2 Continue to pursue legislation to collect sales taxes from out-of-state sellers.

Auditee's Response

Due to these recommendations being legislative in nature, no management response can be obtained. While the recommendations are not addressed to the DOR, department officials provided a written response. That response is included at Appendix A.

¹³ U.S. Department of Commerce, "Quarterly Retail E-Commerce Sales 4th Quarter 2019," <https://www.census.gov/retail/mrts/www/data/pdf/ec_current.pdf>, accessed on March 19, 2020.

Department of Revenue

Sales and Use Tax

Organization and Statistical Information

The Department of Revenue (DOR) was created by Article IV, Section 12, Missouri Constitution as the central collection agency for state revenues. The Director of Revenue is appointed by the Governor, with the advice and consent of the Senate, and is responsible for all operations and policies. DOR responsibilities include:

1. Administering and collecting state taxes and fees, including sales and use tax and motor vehicle sales tax.
2. Collecting certain taxes and fees for local governments, including local sales and use tax.
3. Titling and licensing motor vehicles, trailers, and boats.
4. Licensing motor vehicle operators.

The DOR consists of 3 divisions, the General Counsel's office, and the Director's office.

Motor Vehicle and Driver Licensing Division: This division collects motor vehicle sales and use taxes and consists of 3 bureaus. (1) The Motor Vehicle Bureau issues titles and registers motor vehicles, trailers, all-terrain vehicles, manufactured homes, and marine craft. The bureau also issues registration certificates to motor vehicle and salvage dealers and leasing companies. (2) The Driver License Bureau issues, renews, suspends, revokes, and reinstates driver and nondriver licenses and driving permits. The bureau processes and maintains records relating to license issuance, traffic violation point assessments, failure to appear in court for traffic violations, and administers the alcohol and abuse laws for alcohol/drug offenders. (3) The License Offices Bureau manages the operations of the contract license offices throughout the state. These local offices provide driver licensing and motor vehicle services and are operated by individuals or businesses approved through the state of Missouri bid process.

Taxation Division: This division consists of 5 bureaus that collect taxes and administer state tax law. (1) The Processing Bureau processes returns and payments for individual income, corporate income, property tax credit, sales, use, employer withholding, insurance, financial institution tax, and tire and lead-acid battery fees. This bureau also processes business tax registration applications, business tax account updates, MyTax portal communications, and handles tax-related cashing functions. (2) The Income Tax Bureau administers individual, corporate, property tax credit, fiduciary, and partnership taxes. This bureau's functions include manually reviewing exceptions, processing incoming correspondence, returned refunds and returned mail, answering correspondence, responding to protests, and identification of non-filers and under-reporters for income tax. The bureau is also responsible for the administration of several tax credit programs and the redemption of tax credits claimed by individual and corporate taxpayers. This bureau also identifies and works to prevent individual income tax fraud. (3)

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

The Business Tax Bureau administers motor fuel, cigarette and other tobacco products, financial institutions, sales and use, and employer withholding taxes, along with multiple county, and tire and battery fees. Administrative functions include answering correspondence, processing sales and use tax exemptions, responding to protests, and distribution of funds to both state and local jurisdictions. (4) The Collections and Taxpayer Assistance Bureau provides tax assistance to individuals and businesses and follows procedures for unpaid tax liabilities. This bureau is comprised of 3 main areas of focus: call center, taxpayer assistance, and collections enforcement. The overall focus is account resolution and customer assistance. (5) The Field Compliance Bureau conducts audits to help educate Missouri businesses on their sales, consumer use, vendor use, employer withholding, and corporate income taxes, in addition to tire and battery fee obligations. The bureau also conducts audits of certain large sales and use tax refund claims. The Nexus section identifies taxpayers who have not complied with the business tax laws of Missouri and works with those taxpayers to become compliant. The Electronic Services section maintains the electronic interfaces between Missouri taxpayers, taxpayer representatives, and software developers. This section also handles the system administration functions for several internal and contracted applications.

Administration Division: This division provides administrative support to all other areas of the DOR and consists of 2 bureaus. (1) The Human Resources and Total Rewards Bureau is responsible for the DOR's personnel matters, process improvements, and training. (2) The Financial and General Services Bureau is responsible for all accounting, procurement, banking, and general service matters. This bureau also coordinates space and location needs, telecommunications, safety issues, maintenance, and improvement of the work environment within the DOR.

General Counsel's Office: This office ensures the DOR's compliance with law and internal policies, advises the director and divisions on legal matters relative to the DOR, and represents the DOR in courts and administrative tribunals. This office also consists of 2 investigation bureaus. (1) The Criminal Tax Investigation Bureau investigates and develops information leading to local prosecution of individuals and businesses suspected of violating state statutes related to sales, withholding, and income tax. (2) The Compliance and Investigation Bureau conducts investigations involving allegations of fraud relating to motor vehicle sales tax, titling and registration, odometer, and motor fuel sales tax as well as cigarette tax fraud, driver's license fraud and license plate fraud. The bureau also ensures the compliance of motor vehicle dealers, salvage businesses, and marine dealers with statutes and licensure regulations. In addition to external investigations, the bureau conducts internal audits and investigations of the DOR and contract license offices.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

Director's Office: This office includes the Director, Chief Operating Officer, and key administrative staff responsible for the overall guidance and direction of the DOR. This office includes the Public Information Office, the Legislative Office, and the Communications Office. The Public Information Office develops and maintains positive media and public relations for the DOR. The Legislative Office serves as the DOR's liaison to the General Assembly. The office provides technical assistance, develops fiscal and revenue estimates on proposed legislation, and monitors the progress of bills through the Legislature. The Communications Office develops and maintains department forms, policies, and procedures. The office also maintains the public and internal website, as well as manages the DOR's social media accounts.

Joel W. Walters served as Director of Revenue from April 2017 through March 22, 2019. Kenneth J. Zellers was appointed Acting Director of Revenue on March 22, 2019, and appointed Director of Revenue on October 2, 2019.

Nicole Galloway, CPA
Missouri State Auditor
Missouri State Auditor's Office
PO Box 869
Jefferson City, MO 65102

Dear Ms. Galloway:

The Department of Revenue acknowledges the recommendations of the Missouri State Auditor's report on Sales and Use Tax.

Recommendation 1.1 — The General Assembly evaluate the necessity of a timely sales tax discount. If such a discount is deemed necessary, consider the implementation of a monthly cap on the amount of discount retained, and also consider changes to current state laws to require the DOR annually report the reduction of state revenue related to the timely discount to the General Assembly, applicable political subdivisions, and to the general public.

Recommendation 1.2 — The General Assembly continue to pursue legislation to collect sales taxes from out-of-state sellers.

DOR Response — If the General Assembly passes legislation that requires action, the Department of Revenue will incorporate those provisions into our processes and comply with any state laws regarding these recommendations.

If you have any questions, please contact me at 751-1115, or Joshua.Shope@dor.mo.gov.

Sincerely,

Ken Zellers

KZ/jks

¹ Local sales and use tax distributions by political subdivision are available in the Department of Revenue's annual Financial and Statistical Report. However, the Department of Revenue does not report distributions for political subdivisions with less than 6 taxpayers. For this schedule, all local sales and use tax distributions have been included in the amounts reported. The Department of Revenue's annual Financial and Statistical Report is accessible through the Department of Revenue's website at <http://www.dor.mo.gov>.

Nicole Galloway, CPA

Missouri State Auditor

Valley R-VI School District Attendance Procedures

Report No. 2020-040

July 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Valley R-VI School District Attendance Procedures

Low Attendance	Student attendance decreased significantly after the Superintendent's April 2019 letter that discouraged attendance. Although the Department of Elementary and Secondary Education disallowed the student attendance data for the date included in the Superintendent's letter, the district continued to experience low attendance during the remainder of the school year. As a result, the district met the goal noted in the letter of a lower Average Daily Attendance and was eligible for additional funding.
Attendance procedures and controls	The district's attendance system does not limit the time period when changes can be made and there is no review by district officials to ensure changes made to current school year attendance records are appropriate. The Superintendent has more access in the attendance system than required for his job duties.

Due to the nature of this report, no rating is provided.

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Board of Education
Valley R-VI School District

The State Auditor conducted an audit of the Valley R-VI School District Attendance Procedures under authority granted in Section 29.205, RSMo. Due to concerns regarding attendance rates raised by the Department of Elementary and Secondary Education, the State Auditor initiated the audit. We have audited certain operations of the district in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019, and the period of July 1, 2019, to October 31, 2019. The objectives of our audit were to:

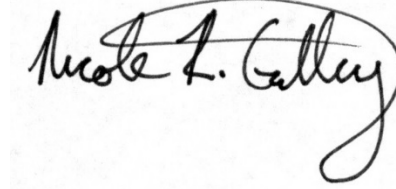

1. Evaluate the district's internal controls over significant management and financial functions related to enrollment and attendance recording and reporting.
2. Evaluate the district's compliance with certain legal provisions related to enrollment and attendance recording and reporting.
3. Evaluate the economy and efficiency of certain management practices and procedures related to enrollment and attendance recording and reporting.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and testing enrollment and attendance data. We obtained an understanding of internal controls that are significant to the audit objectives and assessed the design and implementation of such internal controls to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Valley R-VI School District Attendance Procedures.

Valley R-VI School District Attendance Procedures

Introduction

Background

In July 2019, Department of Elementary and Secondary Education (DESE) officials contacted and met with the State Auditor's Office (SAO) and requested an audit based on concerns over the attendance rates reported by the Valley R-VI School District. The SAO conducted an initial review of these concerns under Section 29.221, RSMo, and determined further investigation was warranted.

The Superintendent sent a letter to parents in the district encouraging students not to attend school on April 19, 2019, and added there may be additional similar days later in the school year, if necessary. See Appendix A for a copy of this letter. In the letter, the Superintendent stated the school district needed to have an Average Daily Attendance (ADA) of 350 or less to maintain small school status, allowing the district to receive additional state funding. DESE officials also indicated they were contacted by parents concerned that district personnel were requesting parents keep students home on other school days.

After learning about this letter, DESE officials sent a letter to the school district disallowing the day to be counted in the attendance for the 2018-2019 school year, and requiring the district make up the day on August 15, 2019. The DESE letter stated this action could impact the district's accreditation classification, because "Manipulation of data for District gain is a violation of state law." See Appendix B for a copy of this letter.

Attendance reporting

The DESE requires all school districts to track attendance accurately by attendance hour. The DESE uses attendance data reported by districts in the Missouri Student Information System (MOSIS) to determine the district's ADA and the appropriate amount of state funding for each school district and charter school through the state funding formula. The ADA is calculated by dividing the actual attendance hours for the school year by the potential attendance hours to determine the attendance rate. The attendance rate is multiplied by the enrollment¹ amount to determine the ADA. In addition, a fraction of the number of students eligible for (1) free and reduced lunches, (2) special education, and (3) limited English proficiency are added to the school's ADA to determine its weighted average daily attendance (WADA).

Information about the enrollment of a district, the courses the schools in the district will offer, and the hours in a regular school day is reported to the DESE through the MOSIS several times a year. District attendance data is submitted in June each year. For the Valley R-VI School District, the Superintendent is responsible for completing and certifying the final submissions of the school district's attendance data to the DESE.

¹ Head count taken the last Wednesday in September of all resident and non-resident students in the attendance center and reported to the DESE for the October reporting cycle.

Valley R-VI School District Attendance Procedures Introduction

Small school funding

State law provides additional state funding to small schools defined as those with an enrollment under 350 students. Section 163.031.2, RSMo, includes a hold harmless provision for school districts with an ADA less than or equal to 350, which states no district shall receive less state aid under the current funding formula than it did in the greater of the 2004-2005 or 2005-2006 school years. The Valley R-VI School District was authorized to receive a basic formula payment that included hold harmless funding totaling \$2,350,457 during the year ended June 30, 2020, based on the ADA from the 2018-2019 school year of 349. If the ADA had been over 350 during the 2018-2019 school year, the district basic formula payment would have been reduced by approximately \$585,000 based on the funding formula calculations.

In addition, Section 163.044, RSMo, authorizes payments to small schools, defined as districts with an ADA (including summer school) of 350 or less. The allocation of the \$15 million annually appropriated under the statute requires distribution of (1) \$10 million to the eligible districts on an equal amount based on the prior year ADA and (2) \$5 million to the eligible districts with an operating levy that meets the requirements of the statute. The Valley R-VI School District was eligible to receive an allocation from both funding portions of the appropriation. The district was authorized to receive small school funding from the annual appropriations totaling \$150,106 during the year ended June 30, 2020, based on the ADA from the 2018-2019 school year.

The following table shows enrollment and ADA for the Valley R-VI School District in the past 5 years:

School Year	Enrollment	ADA
2014-2015	398	348
2015-2016	405	356
2016-2017	411	366
2017-2018	395	349
2018-2019	395	349

Valley R-VI School District Attendance Procedures

Management Advisory Report

State Auditor's Findings

1. Low Attendance

Student attendance decreased significantly after the Superintendent's April 2019 letter that discouraged attendance. Although the Department of Elementary and Secondary Education (DESE) disallowed the student attendance data for the date included in the Superintendent's letter (April 19, 2019), the district continued to experience low attendance during the remainder of the school year. As a result, the district met the goal noted in the letter of a lower Average Daily Attendance (ADA) and was eligible for additional funding.

From April 22 to May 24, 2019 (the last date of school), the attendance rate was 85.48 percent, including 7 school days with attendance less than 85 percent. Prior to this period, the attendance rate was 93.78 percent. The low attendance during this period decreased the attendance rate for the entire year to 92.69 percent. If the attendance rate had not decreased for this period, the district's ADA would have exceeded the 350 ADA small school threshold. DESE officials estimated this change would have reduced the district's state funding for the 2019-2020 school year by approximately \$735,000, which is 15 percent of the district's total revenue and 29 percent of the district's state funding for that year.

School officials indicated some lower attendance can be expected at the end of the year due to policy and parent choice. However, we compared a sample of 2018-2019 school year attendance to a similar period for the 2017-2018 school year and determined the 2018-2019 attendance was lower, indicating the 2018-2019 school year attendance may not reflect normal end of the year reductions. Building secretaries indicated parents do not consistently send students to school after the Missouri Assessment Program (MAP) testing is completed, which was before May 10, 2019. Our comparison of attendance for the week after MAP testing in May 2019 to the comparable week in May 2018 determined the May 2019 attendance was 5 percent lower.

Of the 7 low attendance days noted above, 5 were from the last week of school, when final exams were administered. The official junior high and high school student handbook allows students to be exempt from final exams who maintain a grade of 84 percent or higher in each of their classes and have an attendance percentage that is at least 94 percent. Students that are exempt from final exams do not have to attend school during this time period. While this policy may explain the low attendance for the junior high and high school students, there is no corresponding explanation for the lower attendance of the elementary school students.

Section 167.031, RSMo, states that any parent or guardian must ensure that the child is enrolled in and regularly attends school for the full term of the school year. Section 167.111, RSMo, requires superintendents and school boards to enforce the compulsory school attendance. Manipulating the attendance data of the district in the manner suggested in the Superintendent's

Valley R-VI School District Attendance Procedures Management Advisory Report - State Auditor's Findings

letter discourages attendance and decreases the instructional time received by the students.

Recommendation

The Board of Education refrain from practices that encourage absenteeism and ensure all laws relating to compulsory school attendance are enforced as required by statute.

Auditee's Response

The Valley R-VI Board of Education and the Superintendent of Schools agree to refrain from practices that encourage absenteeism and ensure all laws relating to compulsory school attendance are enforced as required by statute.

Addressing the letter sent by the superintendent: The letter sent out to students' parents and the contents therein were an error in judgement. As a first year superintendent, I was faced with the situation of a fraction of a student's attendance (less than one student) causing the district to lose a large portion of funds. According to the Department of Elementary and Secondary Education (DESE) officials' explanation in this report, the sum would equal a loss of \$735,000, which is 15 percent of the district's total revenue and 29 percent of the district's state funding for the 2019-20 school year. That money is used each year to pay for educational student programs provided at our school, used to hire and retain quality staff to serve district students, and used for a multitude of other educational and social services for district students. After spending time my first year as superintendent speaking with DESE officials at "new superintendent" meetings, personally meeting with DESE financial officials in DESE's offices, and traveling to meet with legislators in Jefferson City, sending that letter was a desperate act to try to do something to help our situation. I did not understand to the fullest degree what I was doing by sending that letter, and as stated above, I was wrong to do this.

Shortly after sending out the letter and having low attendance on the half day of school before Spring Break, 2019, I received a phone call from an official from the DESE asking if I had sent out a letter to parents and explaining why I could not do that, ordering me to cease any further plans related to this letter. My responses during and after this call were as follows:

- 1. I was immediately forthcoming, answering all questions truthfully, and admitted to sending the letter. (I sent the letter publicly to all parents because no matter how dire our situation, I did not want to do anything deceitful. I mistakenly felt that this was an open and acceptable plan to help our situation.)*
- 2. I agreed immediately to stop any further plans.*
 - a. Although not ordered by the DESE, I immediately made personal phone calls to each Board member describing the conversation with*

Valley R-VI School District Attendance Procedures
Management Advisory Report - State Auditor's Findings

the DESE, and explaining that we were ordered to stop any future plans, and stated that I intended to follow those orders.

- b. Also not ordered by the DESE, I called a meeting with the district faculty and explained the same thing, and explained that moving forward, no one was to do anything resembling what was explained in the letter.*
- 3. Part of my guidance from the DESE official on the phone call was to begin to work with the Board over the next three to five years to manage our school budget to match our finances as if we had ADA above 350, and if we had a year we fell under, to put those moneys in reserves.*
 - a. In a Board meeting soon after that phone call, I began to discuss these matters with the Board, explaining what was suggested to do, and have continued to make that part of financial discussions, as well as incorporated those ideas in my budgeting.*
 - b. I have had meetings with district administration explaining these ideas and working towards finding ways to implement these ideas.*
- 4. Our district later received the official ruling from the DESE on the letter.*
 - a. We were not to count attendance from that half day before Spring Break mentioned in the letter. We removed that day from our attendance calendar in our student records system to comply.*
 - b. We were to make that day up by counting the attendance of the first day students physically attended school for their 2019-2020 school year on the 2018-2019 school year attendance. We did just that, and by the end of that day, I had run the reports and submitted them to the DESE.*

I now understand better the error I made in judgement, and all actions since that phone call from the DESE have been made to comply and to rectify the actions of sending the letter.

Addressing the exemption of finals for students in grades 7-12: This report mentions that our school allows students, grades 7-12, to be exempt from end of semester finals if that student meets certain academic and attendance requirements for a class for the semester. If a student is exempt, they do not have to attend school the day/hour that class gives the final test. This was a practice put in place by the prior superintendent while working with the DESE on a District Improvement Plan and a Building Accountability Plan. The purpose was to encourage students to work towards higher academic performance and to increase student attendance throughout the semester.

Valley R-VI School District Attendance Procedures
Management Advisory Report - State Auditor's Findings

This was approved by the DESE within the plans, and the superintendent even presented this idea on behalf of the DESE for their Regional Professional Development Centers on two separate occasions. The main guidance given by the DESE was that the school could not count the students' ADA (average daily attendance) if they were not physically present for classes. We do not count their attendance if they are exempt and are not in attendance.

When I took over as superintendent my first year, this procedure had been in place for years, so we continued this practice; I had no reason to change it. Having explained all of this, if the DESE gave us new guidance to stop this practice, we would immediately comply. And more immediately, due to the potential outbreaks of COVID-19 schools may be facing during the 2020-2021 school year, the district has decided to remove the exemption from finals for at least that school year, leaning on the guidance from the DESE to schools to do away with any rewarding and honoring of students for perfect or good attendance.

Addressing the final ADA (Average Daily Attendance) numbers: Part of the struggle of creating a budget for the next year or making a three-year or five-year plan is our recent fluctuation in our ADA year to year. A large portion of our student population has been very transient for the past several years, and our total enrollment has hovered around that 350 number, producing an ADA finishing either a little above 350 or a little below 350. According to DESE records and the chart shared in this report, our enrollment numbers for the 2018-2019 school year, the year in question for this audit, were identical to the 2017-2018 school year, 395. The final ADA numbers, over the course of both years, also came out to be the same, 349 ADA. These were the very same two years the audit report compared. If you look at the two years prior, we had a slight increase in enrollment which brought about higher ADA numbers, 366 and 356. Those two years we went over the small school cut off. The year before that, 2014-2015 school year, an ADA of 348, an ADA under 350. Looking again at school year 2018-2019 compared to 2017-2018, the total attendance percentage for both of these years had a difference of less than one percent, very close to each other. Our school has experienced different ebbs and flows of attendance at various times through the years and during various years, but our end of the year attendance percentages have run very close each year for several years now, including the year in question.

Our enrollment at our school and the transient movement of a large population of our students are such that we could potentially hover around this 350 cut off for years to come. In fact, at the writing of this response, the 2019-2020 school year ended with an ADA of 348.66, a school year that ended abruptly and without too much warning on March 17, 2020, due to the global pandemic of the COVID-19 virus. We continued educating students through May 14, 2020, but attendance stopped on March 17, 2020. We had

Valley R-VI School District Attendance Procedures Management Advisory Report - State Auditor's Findings

no way of knowing this would happen, and our ADA number was just slightly under 350 again.

Conclusion: It is important to state that during the audit process, it was verbally stated to the superintendent by the auditors conducting the investigation that throughout the audit, nothing the State Auditor's Office found led them to believe there was any type of fraud or manipulating of numbers. Both the Board and the superintendent understand this letter should never have been sent out. We regret this action and agree to refrain from practices that encourage absenteeism moving forward.

Auditor's Comment

Auditors performed a comparison of the district's attendance data to that reported to the DESE to identify if data may have been manipulated to decrease the average daily attendance; auditors did not identify any manipulation of attendance data reported.

2. Attendance Procedures and Controls

2.1 Attendance procedures

The district does not have procedures to limit when changes can be made to the attendance system and no one reviews changes made. In addition, some user access rights in the attendance system are in excess of that required for their job duties.

The district's attendance system does not limit the time period when changes can be made and there is no review by district officials to ensure changes made to current school year attendance records are appropriate. The risk of erroneous changes significantly affecting attendance reports submitted to the DESE is increased due to the extended time period allowed for changes and the lack of review procedures.

District procedures require recording of daily student attendance in the attendance system by each teacher or by a school secretary when a teacher is absent. Each day the secretary at each school building ensures all attendance has been entered into the attendance system. Any changes after that day have to be made by the school secretary. Changes to the attendance records can be made by the secretary anytime during the current school year. Currently the attendance system cannot generate a detailed summary report documenting all changes made, further limiting the district's ability to monitor this information.

Correcting attendance data is necessary to ensure accuracy in the reporting process and any changes must be made before attendance can be certified to the DESE. However, review and approval of all changes is necessary to ensure reliability of the data.

2.2 User access

The Superintendent has more access in the attendance system than required for his job duties. He has access to both view and change data in system. The Superintendent reports the attendance data to the DESE, but he does not need

Valley R-VI School District Attendance Procedures Management Advisory Report - State Auditor's Findings

access to change attendance data in the system to perform this duty. Without limiting this access, the district cannot ensure proper segregation of duties is in place over the functions of entering and reporting the data.

Good internal controls require that users be allocated the minimum access rights necessary to perform their assigned job functions, and that access to security functions be explicitly assigned. Allowing users access to the system in excess of what is required for their job responsibilities increases the risk of improper activity occurring.

Recommendations

The Board of Education:

- 2.1 Implement additional controls and procedures to ensure student attendance data is accurately recorded and reported, including restricting the time period when changes can be made without authorization. The Board should also ensure the attendance system is programmed to generate an audit trail report or report of changes, and that this report is reviewed for accuracy.
- 2.2 Limit users access rights in the attendance system to only what is necessary to perform their job duties and responsibilities.

Auditee's Response

- 2.1 *The Valley R-VI Board of Education and the Superintendent of Schools agree to (1) ensure student attendance data is accurately recorded and reported, including restricting the time period when changes can be made without authorization; and (2) ensure the attendance system is programmed to generate an audit trail report or report of changes, and that this report is reviewed for accuracy.*

Addressing restricting time periods that changes can be made: During the 2018-19 school year, the district was using INOW, also named Chalkable, student records system. The district is changing systems to Tyler SIS starting the 2020-21 school year. The district's program manager from Tyler Technologies explained to the district that once a teacher enters the attendance, he or she will be locked out of changing attendance. The teacher will then have to submit the changes to the attendance administrators to fix any errors. Attendance administrators will be the building offices' administrative assistances.

The superintendent as well, if finding an error in district attendance numbers, will submit these changes to the proper building attendance administrator to make changes. (This was already the procedure practiced by the superintendent. See Auditee's Response 2.2 below.)

Valley R-VI School District Attendance Procedures Management Advisory Report - State Auditor's Findings

Addressing an audit trail report: The district's program manager from Tyler Technologies explained the district will have access to run a report that will show a tally of attendance history codes changed or deleted per individual student. The district can then review the student's attendance history to see details.

Building principals will share these reports and explanations of changes with the Board during the regular monthly Board meetings during the principal reports to the Board. This will start the first regular Board meeting after the district starts recording student ADA, presumably starting the 2020-21 school year.

- 2.2 *The Valley R-VI Board of Education and the Superintendent of Schools agree to limit user access rights in the attendance system to only what is necessary to perform job duties and responsibilities.*

When the superintendent took over for the 2018-19 school year, the district was using INOW, also named Chalkable, student records system. This was the system that stores student attendance and is used to pull data to report to the DESE. The district had already purchased the system and user accesses for the superintendent's roll was already set. We did not think to change these settings because it was already set as default. However, we did have a procedure in place and used this procedure. The procedure was, if a mistake was found by the superintendent, or if something needed to be corrected or changed for accuracy purposes, notes were given to the building offices' administrative assistances, and they made the proper changes to attendance.

As stated before, during the audit process, it was verbally stated to the superintendent by the auditors conducting the investigation that throughout the audit, nothing the State Auditor's Office found led them to believe there was any type of fraud or manipulating of numbers. Although the default settings in the system were not set correctly, the district was using the procedure explained above to issue needed changes made to attendance for accuracy purposes.

At the time of writing this response, the superintendent's user access rights have been changed to "read only" in the INOW system to finish out the 2019-20 school year. The district is changing systems to Tyler SIS and has started the process of setting up the system. The superintendent's access will be set to "read only" moving forward with the new system.

Valley R-VI School District Attendance Procedures

Organization and Statistical Information

The Valley R-VI School District is located in the eastern part of Missouri, covering parts of Washington and Iron counties.

The district operates one elementary school (grades K-6), and one junior high/high school (grades 7-12). Enrollment was 395 for the 2018-2019 school year. The district employed approximately 80 full- and part-time employees, at June 30, 2019.

The Valley R-VI School District has been classified under the Missouri School Improvement Program as "Accredited" by the Missouri Department of Elementary and Secondary Education.

School Board

An elected board acts as the policy-making body for the district's operations. The board's seven members serve 3-year terms without compensation. Members of the board at June 30, 2019, were

Blake Yount, President
Mitch Tedder, Vice-President
Trina Kirby, Secretary
Steven Jones, Treasurer
Pat Masson, Member
Brent McClain, Member
Pat Yount, Member

Superintendent

The district's Superintendent at June 30, 2019, was Dr. Michael Silvy and his annual compensation was \$95,605. The Superintendent's compensation is established by the school board.

Financial Activity

A summary of the district's financial activity for the year ended June 30, 2019, is shown in Appendix C. We obtained this information from the district's audited financial statement report.

RE: Snow Make-up Days and School Finances

Dear Valley Viking Parents:

What I am about to explain may sound crazy and even be hard to understand or believe, but I feel you should be informed so you understand why we are doing what we are doing. Your child may not have to attend school Friday, April 19.

The state formula is used to calculate the amount of funding our school receives based on the number of students we have attending our school throughout the year. It is designed to help smaller schools like ours with funding by considering us "small school" as long as our *average daily attendance* (ADA) is 350 students or less. Along with the formula dollars, the state gives an *additional* small school allocation if you are 350 students or less. Over the past several years, our enrollment has fluctuated and caused us to go over that 350 mark two out of the last three years (2015-16 and 2016-17).

Here's the important part: We have our budget built around the "small school" revenue from the state formula. On those two years our attendance went over 350, including the small school allocation, we received nearly 24% less funding of the state money based on our attendance. Higher attendance in 2015-16 and 2016-17 literally cost our school district over a million dollars of state funding. That is money we use to hire staff to work with your children, put technology in classrooms, keep the facilities operational and looking nice, run academic and after-school programs for your kids, and many other things.

What this means: Our current ADA is currently over 350, but not by much. We have to make up some snow days this year, and to prevent from going to school on a Saturday or messing with Memorial Day weekend, we are going for a half-day on Friday, April 19, originally a day off. To help lower ADA for the year, we are having school that day, but **you do not have to send your child to school that day. If your child is absent on April 19, it will not count against their attendance nor against them in any of their classes. If your child is a part of the high school A+ Program, he/she will need to speak with Counselor Mrs. Strange before choosing to miss school.** School will be in session (we will run buses, serve breakfast/lunch, etc.), but we will not cover any new material that day. We are just using that day for make-up work and practicing academic skills.

We could potentially look to do this again at the very end of the school year with some additional weather make-up days. I know being told your child does not have to come to school on these days may sound strange, but the amount of funding we could lose is a large portion of our budget. It is not anything the district has done; the state formula was created with this anomaly. If you have ANY questions about this, you may call the school and speak to our administrators, our teachers, or even discuss this with a board member. I hope you understand the situation and why we are doing what we are doing.

Sincerely,

Dr. Michael Silvy
Valley Superintendent of Schools

May 9, 2019

Mr. Blake Yount
School Board President
Valley R-VI School District
1 Viking Drive
Caledonia, MO 63631

Dear Mr. Yount:

The Missouri Department of Elementary and Secondary Education (Department) has reviewed documentation associated with Valley R-VI School District's (District) school calendar and attendance with a focus on April 19, 2019.

In an April 11, 2019, letter to District parents, Superintendent Dr. Michael Silvy outlined his plans to manipulate the District's attendance data to gain a financial advantage for the District. Specifically, an attendance make-up day was added to the District's calendar and then student attendance was discouraged for the purpose of maintaining aggregate Average Daily Attendance (ADA) below 350 in order to retain the small school hold harmless benefit under the Foundation Formula. Manipulation of data for District gain is a violation of state law. The Department has determined that the following corrective actions must take place.

Superintendent: Dr. Michael Silvy violated § 167.111, RSMo, by failing to enforce the compulsory attendance law when he wrote and distributed the letter regarding the April 19 make-up day. In that letter Dr. Silvy stated, "to help lower ADA for the year, we are having school that day, but you do not have to send your child to school that day. If your child is absent on April 19, it will not count against their attendance nor against them in any of their classes." Dr. Silvy also indicated the possibility of an additional low attendance day, if necessary. The Department hereby notifies Dr. Silvy that his failure to adhere to the mandates of the Revised Statutes of Missouri as well as the intentional manipulation of student attendance numbers in order to increase state funds sent to Valley R-VI School District must not be repeated. Any similar actions could be grounds for discipline of Dr. Silvy's certifications under § 168.071, RSMo.

Board and District: The MSIP 5 rule, 5 CSR 20-100.105(5)(E), provides that a district's accreditation classification can be changed if a district has "[f]ailed to comply with a statutory requirement." The Board and District are hereby notified that any repeat of this type of

manipulation of finance data or other breach of statute will result in consideration of a reduced accreditation level.

Further, the Department hereby notifies the Board and the District that April 19, 2019, is not allowed as a calendar day for the District. The District must remove the attendance data associated with that day before the submission to the Department in the June Core Data Cycle. Because the District will have failed to satisfy the minimum calendar requirements for the 2018-2019 school year, the District will make this day up as part of the 2019-2020 school year.

Finally, the District's Foundation Formula is subject to any and all prior year corrections needed as a result of the exclusion of April 19, 2019.

We trust that in the future the Board and Superintendent Silvy will recognize their professional responsibility in protecting the instructional time provided to each of their students and will not repeat this offense.

If you have questions, please contact Roger Dorson at (573) 751-4446.

Sincerely,

Margie Vandeven
Commissioner of Education

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - St. Louis Agency on Training and Employment (SLATE)

Contractor Payroll Documentation	SLATE personnel reimbursed contractors for employee wages without ensuring time and payroll documentation submitted to the agency was complete or complied with policy.
Expenditures	The SLATE fiscal department did not prepare disbursement vouchers timely and did not always stamp supporting documentation for expenses as received by the fiscal department.
Capital Asset Inventory	SLATE personnel did not perform an annual physical inventory of capital assets as required by policy.
Annual Report	SLATE personnel misstated the number of clients placed for employment in its annual report and the report was not corrected after the error was identified.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Executive Director of the St. Louis Agency on Training and Employment
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis - St. Louis Agency on Training and Employment (SLATE) in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city has engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2019. To minimize duplication of effort, we reviewed the CPA firm's report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

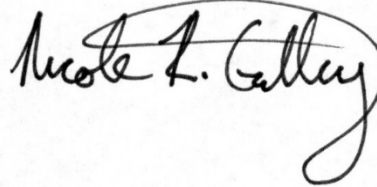

1. Evaluate the agency's internal controls over significant management and financial functions.
2. Evaluate the agency's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the agency, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis - St. Louis Agency on Training and Employment (SLATE).

Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Audit Manager:	Chris Vetter, CPA, CGAP
In-Charge Auditor:	Shelbi M. Becker
Audit Staff:	Ethan D. Evans

City of St. Louis

St. Louis Agency on Training and Employment (SLATE)

Introduction

Background

The City of St. Louis - St. Louis Agency on Training and Employment (SLATE) is responsible for offering job seekers and businesses a variety of no-cost services related to employment, job training, and career advancement.

Programs

The SLATE, in coordination with the Missouri Department of Economic Development - Division of Workforce Development, the City of St. Louis Mayor's office, and various partners, operates the SLATE Missouri Career Center, which connects employers to a skilled workforce and provides training and placement services to the city's adult workforce. No-cost services offered for jobseekers include career advice, one-on-one career/job search counseling, job placement assistance, career-readiness workshops, career training and financial assistance, recruitment events, career services for veterans, career services for individuals with disabilities, a welfare transition program, and Supplemental Nutrition Assistance Program services. The SLATE also hosts hiring events for businesses in the St. Louis area to attend at no cost to the employers.

Funding

The SLATE is primarily funded through grants from federal and state sources, privately owned businesses, and not-for-profit organizations. The SLATE also receives 10 percent of the city's 1/2-cent Economic Development Sales Tax revenues. The total annual budget for fiscal year 2019 was \$9,773,884.

Personnel

The SLATE employs city personnel and contracts for additional staff. During fiscal year 2019, the SLATE employed 12 full-time and 423 part-time city employees and contracted with 3 organizations for an additional 88 employees. Both city and contracted staff work on the various services, programs, and workshops that the SLATE offers, and work in the fiscal and accounting sections of the SLATE.

In September 2017, Dr. Alice Prince was appointed Executive Director of the SLATE. She resigned from this position in April 2019. Dr. Prince signed an agreement in April 2019 with the city for a settlement that included \$5,695.50 for three months of Consolidated Omnibus Budget Reconciliation Act (COBRA) medical coverage, \$13,565.88 for accrued vacation pay, an additional sum of \$18,044, and a letter of reference from the Mayor. As part of the agreement, Dr. Prince waived any rights for reinstatement of her position and released, waived, and gave up any claim she may have had against the city relating to her employment.

From May 2019 to July 2019, Stephen Conway, Chief of Staff to the Mayor, was appointed Acting Executive Director of the SLATE. In August 2019, Howard Hayes was appointed Executive Director.

Workforce Development Board

The City of St. Louis Workforce Development Board (WDB) provides strategic leadership and oversight of the workforce development programs implemented by the SLATE. The WDB currently consists of 25 volunteer

City of St. Louis
St. Louis Agency on Training and Employment (SLATE)
Management Advisory Report - State Auditor's Findings

members, appointed by the Mayor, that represent local businesses, public and community-based agencies, and labor organizations.

City of St. Louis
St. Louis Agency on Training and Employment (SLATE)
State Auditor's Findings

**1. Contractor Payroll
Documentation**

SLATE personnel reimbursed contractors for employee wages without ensuring time and payroll documentation submitted to the agency was complete or complied with policy.

Contracted employee salaries and benefits are initially paid by the contractor. The contractor then submits documentation, such as timesheets and/or detailed payroll reports, to the SLATE to receive reimbursement for these expenses. The payroll documentation is to be signed by the employee and approved by the employee's supervisor to indicate the time reported is accurate. SLATE employees review the documentation prior to submitting a disbursement voucher to authorize the Comptroller's office to reimburse the contractor.

We performed a review of the timesheets, payroll reports, disbursement vouchers, and other supporting documentation for 25 contracted employees from fiscal year 2019 and found that SLATE personnel accepted timesheets that were not signed by the employee or his/her supervisor. Timesheets for 5 of the 25 (20 percent) employees did not have the employee's electronic signature or other approval. All 5 employees were employed by the same contractor.

Based on our initial review and concerns received, we expanded our test work and reviewed timesheets for 39 additional employees for the period of July 2017 to February 2018 from another contractor. We noted that SLATE personnel accepted timesheets from 6 employees (15 percent) that either had no employee signature or no supervisory approval signature. There were also several timesheets in which the supervisor signed the employee's name or the employee's signature appeared significantly different between timesheets indicating the timesheets may not have been signed by the employee. Employee gross wages for the pay periods associated with these timesheets totaled approximately \$6,300. There was no documentation indicating that the SLATE notified either contractor the submitted documentation was insufficient, and all payroll was reimbursed.

Adequate and complete payroll documentation is necessary to ensure contract reimbursements are accurate and appropriate. Local Workforce Development Board policy states that the completeness and accuracy of contract reimbursement requests must be verified prior to preparing a disbursement voucher. Failure to adequately review payroll documentation increases the risk errors or misstatements will not be detected or corrected timely.

Recommendation

The SLATE ensure all contracted employee payroll documentation is complete and accurate prior to reimbursing contractors.

Auditee's Response

The SLATE has made significant changes since the time of the State Auditor's audit that has remedied the above concerns in several ways. The SLATE now

City of St. Louis
St. Louis Agency on Training and Employment (SLATE)
Management Advisory Report - State Auditor's Findings

has an accounting manager to oversee and ensure that the SLATE fiscal employees are properly reviewing time slips and that all time slips contain the proper signatures. Additionally, the city hired a new Executive Director for SLATE and the city has also contracted with a new service provider/subrecipient for the SLATE--Educational Data Systems Inc. (EDSI). The new subrecipient, like the SLATE, has very specific policies concerning timesheets and is required by its contract to submit properly signed timesheets in order to be reimbursed. Accordingly, with these changes in place, the SLATE has remedied this concern.

2. Expenditures

The SLATE fiscal department did not prepare disbursement vouchers timely and did not always stamp supporting documentation for expenses as received by the fiscal department.

As invoices, receipts, and other related supporting documentation for an expenditure are received, the documents are to be stamped as received by the individual in the fiscal department that is preparing the disbursement voucher. After the fiscal department has reviewed all documents related to the expenditure, a disbursement voucher is created and the expenditure is recorded in the SLATE's general ledger. Completed disbursement vouchers are sent to the Comptroller's office for recording in the city's general ledger and for payment. Payments for expenditures are not made until the expenditures have gone through both the SLATE fiscal department and the Comptroller's office.

During our review of expenditures and contract monitoring procedures, we reviewed invoices, receipts, disbursement vouchers, and other supporting documentation. For 8 of the 25 expenditures reviewed (32 percent), disbursement vouchers were not prepared in a timely manner. For example, SLATE personnel did not prepare the disbursement voucher for a July 2018 invoice for a health and safety services grant expenditure until November 2018. Additionally, the disbursement voucher for a November 2018 printer invoice was not prepared until April 2019. Delayed disbursement vouchers caused payments to be delayed and our review also noted a \$50 late fee was assessed because an expenditure was not paid timely.

In addition, of the 25 expenditures reviewed, we noted the documentation for 3 expenditures (12 percent) was not stamped as received by the fiscal department. As a result, there is no assurance the documentation was reviewed prior to submission for approval or that all documentation was viewed and accounted for by the fiscal department.

When disbursement vouchers are not prepared timely the SLATE cannot adequately monitor contracts or grants to ensure there is no overspending, the general ledger is not updated timely, and payments are not made timely. In addition, the summary of duties for the fiscal department outlined in the

City of St. Louis
St. Louis Agency on Training and Employment (SLATE)
Management Advisory Report - State Auditor's Findings

financial section of the Local Workforce Development Board policies indicates all contract reimbursement requests should be processed and a disbursement voucher prepared on a monthly basis. Further, to ensure all expenditure documentation is adequately reviewed prior to payment, documentation should be stamped as received by the fiscal department.

Recommendation

The SLATE prepare disbursement vouchers for expenditures timely and ensure all expenditures are accounted for by the fiscal department and stamped as received.

Auditee's Response

As stated above, the SLATE has made several changes since the state's 2019 audit. Not only does it have an Accounting Manager and new Executive Director, but it has a new policy that requires that vouchers be submitted and prepared within a timely manner and processed pursuant to the policy. Included in this policy is the stamping of all invoices upon the date they are received and entering them into the computer system. The new policy also requires, among other things, that the Accounting Manager utilize the following steps when processing invoices:

- 1. Checking the mathematical accuracy of the vendor invoice;*
- 2. Comparing the nature, quantity, and prices of all items ordered per the vendor invoice to the purchase order;*
- 3. Obtaining the review and approval of the Executive Director or designated individual with such approval documented by signatures;*
- 4. Documenting the general ledger distribution, using the organization's current chart of accounts and cost allocation plan.*

The SLATE's management changes and new policy will ensure that going forward all vouchers are properly stamped and timely and accurately processed.

3. Capital Asset Inventory

SLATE personnel did not perform an annual physical inventory of capital assets as required by policy. Additionally, a physical inventory was not performed in 2018 until prompted by a financial monitoring review performed by the Missouri Department of Economic Development - Division of Workforce Development (DWD). SLATE's response to the DWD report indicated a physical inventory was completed on August 3, 2018. However, the SLATE was unable to provide documentation of the inventory. SLATE personnel could only provide an undated inventory listing that included items marked as missing.

Section 8 of the inventory and capital asset policy of the Local Workforce Development Board policies requires a physical inventory of capital assets be conducted by September 30 each year. In addition, the policy requires the

City of St. Louis
St. Louis Agency on Training and Employment (SLATE)
Management Advisory Report - State Auditor's Findings

SLATE to maintain complete and accurate records of all assets. Additions, transfers, and disposal of assets must be promptly recorded. Also, the city's Fixed Asset Management System Policy and Procedures manual requires an annual physical inventory of assets. Loss, theft, or misuse of assets may go undetected if inventory records and counts are not sufficient and updated timely.

Recommendation

The SLATE ensure an annual inventory of capital assets is conducted and documented.

Auditee's Response

Following the recent exit conference call with the State Auditor's Office, SLATE determined that it only had two pieces of equipment that qualified as a capital asset based on the definition below:

2 Code of Federal Regulations (CFR) Section 200.12 Capital assets.

Capital assets means tangible or intangible assets used in operations having a useful life of more than one year which are capitalized in accordance with GAAP. Capital assets include:

(a) Land, buildings (facilities), equipment, and intellectual property (including software) whether acquired by purchase, construction, manufacture, lease-purchase, exchange, or through capital leases; and

(b) Additions, improvements, modifications, replacements, rearrangements, reinstallations, renovations or alterations to capital assets that materially increase their value or useful life (not ordinary repairs and maintenance).

Additionally, all other concerns referenced will be corrected.

Auditor's Comment

In addition to any federal guidelines, the SLATE is required to follow the city's capital asset policy, which requires annual physical inventories of all capital assets and property control items. As a result, the SLATE should ensure an annual inventory of all capital assets is conducted and documented.

4. Annual Report

SLATE personnel misstated the number of clients placed for employment in its annual report and the report was not corrected after the error was identified.

The annual report for the program year ended June 30, 2018, published March 8, 2019, reported that 9,581 clients were placed into jobs during the year. SLATE personnel later determined that this number was calculated incorrectly, and a total of only 8,329 clients were placed into jobs during the program year. This is 1,252, or approximately 13 percent, less clients than originally reported. A corrected report was not issued. SLATE personnel indicated that annual report calculations were not independently reviewed for accuracy prior to issuance of the annual report.

City of St. Louis
St. Louis Agency on Training and Employment (SLATE)
Management Advisory Report - State Auditor's Findings

An adequate review of publicly available data is necessary to ensure the public and grantor agencies have an accurate representation of the agency's achievements.

Recommendation

The SLATE ensure data presented is adequately reviewed prior to publication. If data is found to be inaccurate, the SLATE should ensure the corrected information is made public.

Auditee's Response

The SLATE will be certain to ensure that all data is adequately reviewed prior to publication. The SLATE will do this by verifying the numbers in the state's database before the publication of those numbers.

Missouri State Auditor

City of Parma

Report No. 2020-038

July 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Parma

Background

In late 2018, the State Auditor's Office (SAO) Whistleblower Hotline received various complaints and information about the operations and finances of the City of Parma. The SAO sent a letter dated January 11, 2019, to the Mayor notifying her that our office was conducting an initial review of the allegations to determine if the complaints were credible and requested records be provided to our office. The Mayor provided a response and some of the requested records in February 2019; however, not all records requested were received and additional efforts were being made to obtain the remaining records. A new Mayor and 2 new Board members were elected on April 10, 2019, and were sworn into office on April 16, 2019. The SAO was notified on April 17, 2019, of fires that occurred on the evening of April 16, 2019, that destroyed most of city hall and the city's computers, some city records, and the Mayor's home. Ongoing investigations into the fires are being conducted by the New Madrid County Sheriff's office. On April 18, 2019, the SAO sent investigators to the City of Parma to further investigate the initial allegations and gather records. On April 18, 2019, the Board requested/authorized the SAO to conduct an audit, and the SAO agreed to conduct the audit.

The SAO issued subpoenas to AT&T, Verizon Wireless, Verizon, Green Dot Bank, and Ameren to produce records related to disbursements made from city bank accounts. Representatives of the SAO took the testimony of Mayor Tyus Byrd, City Clerk Helen Frye, and Alderman Simon Wofford (the Mayor's father) and issued subpoenas to the Mayor, City Clerk, and Alderman Wofford to compel them to produce records and documents related to their testimonies. The SAO attempted to take the testimony of Water Supervisor David Thatch (a relative of the Mayor) on various occasions. However, he failed to show up at scheduled meetings or cooperate. In addition, SAO auditors recorded interviews with current and former Board members and former employees and requested copies of any city records they had. A letter was also sent to former Alderwoman Dr. Moneen Jones requesting that she provide proof of payment for all utility services relating to her account during the period of April 2017 through April 2019, the time period she served on the Board.

Misappropriated Monies

From April 14, 2015, through April 16, 2019, monies totaling at least \$115,582 were misappropriated from the city. Payroll overpayments of \$24,960 were made to the Mayor, \$17,685 to the City Clerk, and \$975 to the Water Supervisor. An improper withdrawal and payments of \$22,321 were made by/to the Mayor, and improper payments of \$10,720 were made to the City Clerk, \$5,265 to the Water Supervisor, and \$932 to Alderman Wofford's business. Improper purchases of \$11,249 were made by the Mayor, \$9,220 by the City Clerk, and \$538 by the Water Supervisor, and the purchaser of some items totaling \$4,673 was unknown. Improperly recorded utility payments and utility adjustments of \$2,286 were applied to the account of the Mayor, \$2,414 to the account of the Water Supervisor, \$742 to the account of Alderman Wofford, \$332 to the account of Alderwoman Jones, and \$1,270 to the account of a church. Board meeting minutes, disbursement listings, and financial reports were falsified to conceal improper payments and declining cash balances.

Oversight, Annual Audits, and City Code and Ordinances	The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the Mayor and City Clerk. The city does not obtain annual audits as required, and city officials do not know when the last audit of city finances occurred. The Board has not complied with city code and has not established or updated city code or ordinances as appropriate.
Disbursements and Bond Requirements	The City Clerk did not provide bank statements, a complete and accurate list of bills, complete and accurate financial information, or monthly utility reports to the Board for review at monthly meetings. The Mayor and City Clerk did not fund and maintain account balances in accordance with bond requirements. The Mayor and/or City Clerk made excessive and unauthorized transfers between various bank accounts, allowing improper disbursements to occur and not be detected. The Board does not adequately monitor city activities for conflicts of interest, and paid \$6,600 to businesses owned by the City Clerk's husband, \$2,100 to the City Clerk's husband, and over \$5,000 to Alderman Wofford's business. Numerous questionable, unreasonable, and/or unnecessary purchases were made totaling \$6,221. The Board did not ensure some bills were paid timely resulting in late fees and finance charges. The city did not maintain mileage and fuel logs, and the amount of fuel purchased at local gas stations appeared excessive.
Payroll and Related Matters	The City Clerk did not timely file and remit various payroll taxes, and as a result, the city was assessed over \$114,000 in past due taxes, interest, and penalties. The Mayor and City Clerk issued payroll advances/loans to employees totaling \$5,400 in violation of the Missouri Constitution. Timesheets/cards were not prepared by some city employees and timesheets/cards prepared by other employees were not retained or located at city hall. The city does not have personnel policies to address timesheets/cards, leave records, hours of work, and how overtime and compensatory time is to be calculated. Questionable payroll payments were made to the City Clerk for vacation leave and compensatory time/overtime, and to the Water Supervisor for overtime. The City Clerk failed to garnish wages and remit child support garnishments withheld to the Missouri Department of Social Services Family Support Payment Center as required.
Utility System Controls and Procedures	Improper adjustments were made or were likely made to the utility accounts of the Mayor, Water Supervisor, Alderman Wofford, Alderwoman Jones, and a church without obtaining independent approval or maintaining adequate documentation to support the reason for the adjustments. City personnel do not prepare proper reconciliations related to utility services. Refundable utility deposits held in the Water and Sewer Deposit Escrow bank account are not accounted for properly. The City Clerk did not file returns with the Department of Revenue or remit sales taxes collected related to water services provided.
Budgets and Financial Reporting	The city does not prepare annual budgets, file annual financial reports timely, or publish semiannual financial statements in compliance with state law. As a result of not timely submitting a financial report to the State Auditor's Office as required by law, \$47,500 in fines were imposed by the Department of Revenue.

Electronic Data Security

The Mayor, City Clerk, and former City Collector shared the user identification and password for the city's utility software application. The city had not developed a formal, written contingency plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situations.

In the areas audited, the overall performance of this entity was Poor .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Parma, Missouri

We have audited certain operations of the City of Parma as they relate to the city's finances in fulfillment of our duties under Chapter 29, RSMo. Due to concerns regarding missing monies and improper payments, the State Auditor initiated the audit with the approval of the City of Parma Board of Aldermen. The scope of our audit included, but was not necessarily limited to, the period from April 14, 2015, through April 16, 2019. The objectives of our audit were to:

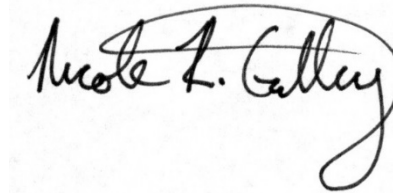

1. Evaluate the city's internal controls over certain management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine the extent of monies misappropriated from the city.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) misappropriated monies totaling at least \$115,582. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Parma.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

City of Parma

Introduction

Background

The former Mayor, Tyus Byrd, was elected on April 14, 2015, and served one term of office through April 16, 2019. The former City Clerk, Helen Frye, began employment on June 9, 2015, and served until April 12, 2019.¹ The former Mayor and former City Clerk were primarily responsible for the financial accounting functions and records of the city and are referred to as the Mayor and City Clerk throughout the remainder of this report. Other city employees assisted with some of the financial functions and records of the city from April 2015 through April 2019.

- Receipts - The former City Collector collected, receipted, and posted utility payments in the electronic utility system and prepared utility deposits. The Mayor and City Clerk also collected, receipted, and posted utility payments in the electronic utility system, and the City Clerk primarily made deposits.
- Disbursements - The City Clerk prepared a listing of bills to be paid each month for the Board's approval; maintained supporting documentation; prepared, signed, and distributed checks; posted payments to the accounting records; and transferred monies between bank accounts. The Mayor also signed checks and transferred monies between bank accounts.
- Payroll - Some city employees initially prepared manual timesheets then they started using electronic time cards. These time records were submitted to the City Clerk. The City Clerk calculated and posted hours worked into the electronic accounting system and prepared, signed, and distributed payroll checks. The Mayor also signed payroll checks.
- Bank accounts - The City Clerk received and reconciled monthly bank statements to accounting records. The Mayor indicated she reviewed the bank statements and reconciliations. However, her review was not documented.
- Reporting - The City Clerk prepared meeting minutes and financial reports for the Board of Aldermen. Meeting minutes and financial reports were typically signed by the Mayor and City Clerk to note their review and approval.

Helen Frye also served as the Court Clerk of the municipal division. She was paid \$1,325 for being the Court Clerk from June 2015 through June 2018

¹ Personnel files documenting the start date and termination date of the City Clerk could not be located. The City Clerk indicated in sworn testimony that she began employment on May 26, 2015; however, her first paycheck was issued for the pay period June 9, 2015, through June 15, 2015. Therefore, we determined she began employment on June 9, 2015. Our review of city records indicate that April 12, 2019, was the last date the City Clerk signed city checks.

City of Parma Introduction

from the General, Payroll, and municipal division bank accounts, including \$75 in March 2017, June 2017, March 2018, and May 2018, \$150 in September 2016, December 2016, and June 2018, \$275 in December 2015, and \$300 in June 2015. Our audit did not include municipal division operations (Thirty-Fourth Judicial Circuit - City of Parma Municipal Division).

The Mayor hired a relative, David Thatch, as a Water/Sewer Operator in December 2015 and promoted him to Water Supervisor sometime during 2016. He terminated employment in April 2019. We could not determine the specific date when David Thatch started serving as the Water Supervisor. However, he was listed as the Water Supervisor in the Board meeting minutes on September 20, 2016. David Thatch also sometimes served as a bailiff for the municipal division and was paid \$50 per court date. He was paid \$200 from municipal division bank accounts for court dates in March 2016, December 2016, March 2017, and June 2017.

Simon Wofford was elected to the Board of Aldermen in April 2016 and served on the Board until June 2020. Alderman Wofford is the Mayor's father.

In late 2018, the State Auditor's Office (SAO) Whistleblower Hotline received various complaints and information about the operations and finances of the City of Parma. Under Section 29.221, RSMo, the SAO sent a letter dated January 11, 2019, (see Appendix A) to the Mayor notifying her that our office was conducting an initial review of the allegations to determine if the complaints were credible and requested records be provided to our office. The Mayor provided a response and some of the requested records in February 2019, including some Board meeting minutes. However, not all records requested were received and additional efforts were being made to obtain the remaining records. A new Mayor and 2 new Board members were elected on April 10, 2019, and were sworn into office on April 16, 2019. The SAO was notified on April 17, 2019, of fires that occurred on the evening of April 16, 2019, that destroyed most of city hall and the city's computers, some city records, and the Mayor's home. Ongoing investigations into the fires are being conducted by the New Madrid County Sheriff's office. On April 18, 2019, the SAO sent investigators to the City of Parma to further investigate the initial allegations and gather records. The Board passed an ordinance formally requesting and authorizing an audit by the SAO on April 18, 2019, and the SAO subsequently agreed to conduct the audit under Chapter 29, RSMo.

The SAO issued subpoenas to AT&T, Verizon Wireless, Verizon, Green Dot Bank, and Ameren (see Appendixes G, H, I, J, and K) to produce records related to disbursements made from city bank accounts. Representatives of the SAO took the testimony of the City Clerk on September 16, 2019, and the

City of Parma Introduction

testimony of the Mayor and Alderman Wofford on September 23, 2019.² The SAO also issued subpoenas to the Mayor, City Clerk, and Alderman Wofford (see Appendixes L, M, and N) to compel them to produce records and documents related to their testimonies. The SAO attempted to take the testimony of the Water Supervisor on various occasions. However, he failed to show up at scheduled meetings or cooperate. In addition, SAO auditors recorded interviews with current and former Board members and former employees and requested copies of any city records they had. A letter was also sent to former Alderwoman Dr. Moneen Jones requesting that she provide proof of payment (canceled checks, copies of money orders, city receipt slips, payment stubs, etc.) for all utility services relating to her account during the period of April 2017 through April 2019, the time period she served on the Board. Appendixes F through N include redactions. These redactions are of information of a personal, privileged, or sensitive nature, and/or of information that is not directly related to the information requested in the subpoena.

The city's fiscal year is July 1 through June 30. The scope of our audit included, but was not necessarily limited to the period April 14, 2015, through April 16, 2019, the time period during which the Mayor served. We applied procedures to city receipt and disbursement records (including payroll), to determine the amount of misappropriated monies, and the methods used to perpetrate and conceal the theft.

² Testimonies were given under oath and were recorded by a court reporter.

City of Parma

Management Advisory Report

State Auditor's Findings

1. Misappropriated Monies

From April 14, 2015, through April 16, 2019, monies totaling at least \$115,582³ were misappropriated from the city. Payroll overpayments totaling \$43,620 were made to the Mayor, City Clerk, and Water Supervisor, and improper withdrawal and payments totaling \$39,238 were made by/to the Mayor, City Clerk, Water Supervisor, and Alderman Wofford's business. Improper purchases totaling \$25,680 were made by the Mayor, City Clerk, and Water Supervisor, and the purchaser of some items was unknown. Improperly recorded utility payments totaling \$533 and utility adjustments totaling \$4,625 were applied to the accounts of the Mayor, the Water Supervisor, Alderman Wofford, Alderwoman Jones, and a church, and we estimated \$1,886 of additional improper utility adjustments were made to their accounts during periods that records were not available. Board meeting minutes, disbursement listings, and financial reports were falsified to conceal improper payments and declining cash balances.

The following table provides a summary of the amounts misappropriated and identifies the appendixes where specific details are reported.

Type of Improper Transaction	Mayor	City Clerk	Water Supervisor	Alderman Wofford	Alderwoman Jones	Church	Unknown (1)	Total
Payroll overpayments (Appendix B)	\$ 24,960	17,685	975	0	0	0	0	43,620
Improper withdrawal and payments (Appendix C)	22,321	10,720	5,265	932	0	0	0	39,238
Improper purchases (Appendix D)	11,249	9,220	538	0	0	0	4,673	25,680
Improperly recorded utility payments (Appendix E)	224	0	0	71	187	51	0	533
Improper utility adjustments (Appendix E)	1,364	0	1,938	404	145	774	0	4,625
Estimated improper utility adjustments (Appendix E)	698	0	476	267	0	445	0	1,886
Total	\$ 60,816	37,625	9,192	1,674	332	1,270	4,673	115,582

(1) Improper purchases were made using the city's Walmart credit card. However, the related invoices were not signed and we could not determine who was responsible for the purchases. In addition, one check was issued to a cellular phone store, but we could not determine who made the purchase.

³ Amounts presented in the report findings are rounded to the nearest dollar, whereas amounts presented in the report appendixes are not rounded.

City of Parma
Management Advisory Report - State Auditor's Findings

Questionable disbursements and payroll payments (see MAR finding numbers 3.5 and 4.5) were also identified that may represent additional improper purchases or overpayments. Payments that violated state law regarding conflicts of interest (see MAR finding number 3.4) were also identified. In addition, Board meeting minutes initially provided to us by the Mayor and City Clerk were falsified (see Appendix F).

Payroll overpayments

Payroll overpayments totaling \$43,620 were made to the Mayor, City Clerk, and Water Supervisor from April 14, 2015, through April 16, 2019.⁴ Missouri Constitution, Article VII, Section 13 states, "The compensation of state, county and municipal officers shall not be increased during the term of office" In addition, City Code, Section 115.060 states, "The salary of an officer shall not be changed during the time for which he/she was elected or appointed."

Mayor

Payroll overpayments totaling \$24,960 were made to the Mayor. The Mayor's salary at the beginning of her term was \$400 a month, and as a result, the Mayor should have only been paid \$400 per month during her term of office from April 2015 through April 2019.

Appendix B shows all payroll checks written to the Mayor during her term of office compared to what her appropriate monthly salary amount should have been. City payroll ledgers, payroll check stubs, and canceled checks were used to document the payment details at Appendix B. For instances in which payroll ledgers and payroll check stubs were not available, we determined gross pay based on the historical gross and net pay amounts. Both gross and net pay amounts are reported at Appendix B.

- The Mayor was issued 89 checks during her 4-year term of office, when only 49 checks should have been issued. In addition, the Mayor and City Clerk signed 80 of the 89 checks issued to the Mayor. Alderman Wofford and the City Clerk signed 6 checks, the former City Treasurer signed 2 checks, and a former Alderwoman and the City Clerk signed 1 check. The Mayor endorsed all 89 checks. Alderman Wofford endorsed 5 of the checks written to the Mayor, following the endorsement of the Mayor.
- The Mayor was appropriately paid \$400 per month during the monthly pay periods of May 2015 through January 2016 and for March and April 2016. However, the Mayor was improperly issued 2 monthly payroll checks of \$400 for February 2016. The timing of monthly payments during the pay periods of May 2015 through April 2016 was not

⁴ Payroll checks were issued from the city's General bank account from May 1, 2015, through October 30, 2015, and from the city's Payroll bank account from November 5, 2015, through April 16, 2019.

City of Parma Management Advisory Report - State Auditor's Findings

consistent. Payments were sometimes made at the first of the month and sometimes at the end of the month. The inconsistent timing of payments allowed these 2 payments in February 2016 to go undetected.

- From May 2016 until January 2019, the Mayor was improperly issued checks for \$500 instead of the appropriate \$400 amount. In some months only one \$500 check was improperly issued, and in other months 2 to 3 \$500 checks were improperly issued. In March 2019, the Mayor was improperly issued 2 checks for \$500 and one check for \$1,000. However, the Mayor was not paid during February 2019, thus a portion of these March payments may have represented a payment for February. The timing of payments from May 2016 until March 2019 was also inconsistent. Payments were sometimes made at the first of the month, middle of the month, and end of the month, allowing for the payroll overpayments to go undetected.

The Mayor was not issued a payment for her service from April 14 to April 30, 2015, or from April 1 to April 16, 2019, the portion of months in which her term started and ended. However, we made adjustments to the amount of the appropriate pay for these time periods on Appendix B.

Payment for posting cash bond

On February 15, 2017, the Mayor was improperly issued a check for \$1,000 from the Payroll bank account, with no taxes withheld. The Mayor and City Clerk signed the check, and the Mayor and Alderman Wofford endorsed the check. In a December 31, 2019, recorded interview with Alderman Wofford, he indicated this check was cashed at his personal bank and used to post a cash bond for a former city employee. The cash bond was subsequently applied to amounts due in the related court cases. Alderman Wofford indicated the \$1,000 was a loan from the city to the former employee, was authorized only by the Mayor and himself, and was to be paid back in monthly payments. However, the remainder of the Board did not approve this payment or the loan, the loan was not recorded in the city's records, and no repayment was made. Because the check was issued to the Mayor and signed and endorsed by the Mayor, the payment is shown as an overpayment to the Mayor.

Payments for vacation leave

The Mayor was improperly paid \$3,000 in lieu of taking vacation leave. The Mayor was issued 6 separate checks for \$500 for vacation leave on July 21, 2016, May 25, 2017, June 7, 2017, July 18, 2017, February 27, 2018, and April 5, 2018. The memo line of the check issued in July 2016 indicated it was for vacation for the period of April 2015 through April 2016, and the remaining 5 checks only indicated they were issued for vacation. As noted above, the Mayor's salary was only \$400 per month and she received compensation for each month of her term of office. In addition, city records, sworn testimony, and recorded interviews of city officials and employees

City of Parma
Management Advisory Report - State Auditor's Findings

indicate the Mayor was absent from the city at various times during her term of office.

While City Code, Section 120.180 states, "Full-time elected officials shall have one (1) week vacation per year;" it also states, "In certain essential positions, e.g., Police, Clerk, etc., the employee may elect to receive a comparable paycheck in lieu of vacation." However, because the mayor position is not considered an essential position or a city employee, the Mayor was not entitled to receive payment in lieu of vacation leave.

City Clerk

Payroll overpayments totaling \$17,685 were made to the City Clerk. Appendix B shows all payroll checks written to the City Clerk during the audit period compared to what the appropriate payments for the position should have been. City payroll ledgers, payroll check stubs, and canceled checks were used to document the payment details on Appendix B. For instances in which payroll ledgers and payroll check stubs were not available, we determined gross pay and hours worked based on the historical gross and net pay amounts. Any overtime/compensatory time paid was calculated by auditors at time and a half. Overtime/compensatory time calculated, gross pay amounts, and net pay amounts are reported at Appendix B.

From June 2015 through August 2015, city records indicate the City Clerk was paid a salary of \$263 per month and a salary of \$300 for September 2015. The City Clerk also received a percentage of utility collections in July, August, and September 2015, when she assisted with those duties. However, city records and testimony indicate the City Clerk did not typically collect these utility monies.

Another city employee served as the City Treasurer until June 30, 2015, and was paid a salary of \$400 per month for those duties. According to city records and testimony, the City Clerk served in the position of City Treasurer from September 1, 2015, to April 16, 2019. The City Clerk received 2 salary payments of \$400 for this position (in September 2015 and December 2015).

On September 10, 2015, city records indicated the city discontinued paying the City Clerk for "duties performed" and started paying her weekly based on the number of hours worked. Based on payroll records maintained, the City Clerk was paid \$8 per hour from September 10, 2015, through April 28, 2016, and then was paid \$10 per hour for the rest of her employment with the city. Payroll records indicate the City Clerk typically worked 40 hours a week from September 10, 2015, through June 28, 2017, 20 to 40 hours per week from June 29, 2017, through July 31, 2018, and 40 hours per week from August 1, 2018, through December 31, 2018, and sporadically from January 1, 2019, through April 12, 2019.

City of Parma
Management Advisory Report - State Auditor's Findings

Duplicate payments

The City Clerk was paid a monthly salary for duties performed in September 2015 and December 2015, and was also paid an hourly rate for those same duties, resulting in \$1,296 of payroll overpayments. Duplicate payments for 6 pay periods were made to the City Clerk, resulting in \$2,800 of additional payroll overpayments. Some of the duplicate payments occurred because the timing of weekly payments was not consistent, allowing for the payroll overpayments to go undetected. Duplicate payments were made as follows:

- The City Clerk was improperly paid \$8 per hour from September 10, 2015, through September 30, 2015, after being paid a monthly salary totaling \$1,259 for the same duties performed in September 2015.

The City Clerk was issued 3 checks for her September 2015 monthly salary. A \$300 check was issued on August 28, 2015, for "City Clerk Salary for the Month of Sept;" a \$400 check was issued on September 4, 2015, for "Pd for City Treasure;" and a \$559 check was issued on September 11, 2015, for "Collector on Collection for Sept."

However, the City Clerk was also paid \$8 per hour worked from September 10, 2015, through September 30, 2015, for the same duties performed. As a result, the City Clerk was overpaid \$896 for 112 hours worked. The City Clerk was issued 3 checks for \$320 each (40 hours worked at \$8 per hour for 3 weeks). One check was issued on September 18, 2015, another check was issued on September 25, 2015, and another check was issued on October 1, 2015, for hours worked from September 10, 2015, through October 1, 2015. The \$320 check issued on October 1, 2015, included \$256 (4 days in September) of improper payments and \$64 (1 day in October) of proper payments. Because the City Clerk had already been paid a monthly salary for September 2015, she was not entitled to receive payment for hours worked each week from September 10, 2015, through September 30, 2015.

- On December 22, 2015, the City Clerk was improperly issued a \$400 check for treasurer duties. As noted above the city discontinued paying the City Clerk for "duties performed" and started paying the City Clerk for hours worked each week. From October 2015 through March 2019, the City Clerk was paid for hours worked each week instead of a monthly salary for duties performed. The City Clerk was properly paid for 40 hours of work each week in December 2015. As a result, this \$400 check for treasurer duties was a payroll overpayment.
- On March 17, 2016, the City Clerk was improperly issued check number 5177 for \$500 for the pay period of March 11, 2016, through March 17, 2016. However, the City Clerk also received check number 5168 on March 17, 2016, for that pay period.

City of Parma
Management Advisory Report - State Auditor's Findings

- On September 14, 2016, the City Clerk was improperly issued check number 5445 for \$400 with no pay period indicated. However, the City Clerk had already received check number 5442 on September 8, 2016, for the pay period September 8, 2016, through September 14, 2016, and was subsequently issued check number 5458 on September 21, 2016, for the pay period of September 15, 2016, through September 20, 2016. Therefore, this check represented an extra payroll check.
- On October 19, 2016, the City Clerk was improperly issued check number 5501 for \$400 with no pay period indicated. However, the City Clerk had already received check number 5490 on October 11, 2016, for the pay period October 13, 2016, through October 19, 2016, and was subsequently issued check number 5510 on October 26, 2016, for the pay period of October 20, 2016, through October 26, 2016. Therefore, this check represented an extra payroll check.
- On December 22, 2016, the City Clerk was improperly issued check number 5602 for \$400 with no pay period indicated. However, the City Clerk had already received check number 5593 on December 21, 2016, for the pay period December 15, 2016, through December 21, 2016, and was subsequently issued check number 5607 on December 27, 2016, for the pay period of December 22, 2016, through December 28, 2016. Therefore, this check represented an extra payroll check.
- On January 4, 2017, the City Clerk was improperly issued check number 5623 for \$400 with no pay period indicated. However, the City Clerk had already received check number 5612 on January 3, 2017, for the pay period December 29, 2016, through January 4, 2017, and was subsequently issued check number 5626 on January 11, 2017, for the pay period of January 5, 2017, through January 11, 2017. Therefore, this check represented an extra payroll check.
- On January 27, 2017, the City Clerk was improperly issued check number 5652 for \$400 for the pay period of January 26, 2017, through February 1, 2017. However, the City Clerk also received check number 5650 on January 27, 2017, for the pay period of "26/19/2017 thru 2/1/2017". This was considered to be the same pay period because both checks were written the same day, the timing of other checks, and the apparent typographical error.
- On June 13, 2018, the City Clerk was issued check number 6362 for \$300 for the pay period of June 7, 2018, through June 13, 2018. However, the City Clerk had already received check number 6353 on June 9, 2018, for that pay period.

City of Parma
Management Advisory Report - State Auditor's Findings

Raise during term of office The City Clerk was overpaid \$10,164 from April 29, 2016, through April 12, 2019, as a result of improper raises during her term of office, in violation of the Missouri Constitution and City Code, Section 115.060 (noted above).

The City Clerk received an improper raise from \$8 per hour to \$10 per hour on April 29, 2016. As a result, the City Clerk was overpaid \$2,400 in 2016, \$3,657 in 2017, \$3,640 in 2018, and \$467 in 2019. Board meeting minutes did not document the Board's approval of the increase in the City Clerk's hourly rate of pay to \$10 in April 2016, and city ordinances were not revised for this change in compensation. In addition, Board meeting minutes did not document the Board's approval of the change in compensation from a monthly salary to an hourly rate of pay of \$8 per hour, and ordinances were not revised for these changes as noted in MAR finding number 2.3. Due to the lack of documentation, we could not determine the City Clerk's base salary and whether \$8 per hour was appropriate. As a result, there may be additional overpayments that we could not calculate.

**Payroll advances/
loans**

The City Clerk was also issued 5 payroll advances/loans totaling \$4,250. However, weekly payroll checks continued to be issued, and only \$825 of the payroll advances/loans were repaid, leaving an outstanding balance of \$3,425. As a result, the outstanding balance is shown as an overpayment. The City Clerk received payroll advances/loans on April 28, 2016, for \$250, on August 26, 2016, for \$500, on January 20, 2017, for \$1,000, on February 14, 2017, for \$1,000, and on February 8, 2018, for \$1,500.

Water Supervisor

Payroll overpayments totaling \$975 were made to the Water Supervisor. Appendix B shows all payroll checks written to the Water Supervisor during the audit period compared to what the appropriate payments for the position should have been. City payroll ledgers, payroll check stubs, and canceled checks were used to document the payment details on Appendix B. In instances in which payroll ledgers and payroll check stubs were not available, we determined gross pay and hours worked based on the historical gross and net pay amounts. Both gross and net pay amounts are reported at Appendix B.

Based on payroll records maintained, the Water Supervisor was typically paid \$7.56 or \$8.00 per hour from December 18, 2015, to February 11, 2016, \$8 per hour from February 12, 2016, through June 8, 2016, \$9.30 per hour from June 9, 2016, through December 28, 2016, and \$9.50 per hour from December 29, 2016, through April 10, 2019.

- The Water Supervisor was issued a \$500 payroll advance on September 30, 2016. However, weekly payroll checks continued to be issued and the advance was not repaid. As a result, the payroll advance is shown as an overpayment.

City of Parma
Management Advisory Report - State Auditor's Findings

- Discrepancies were noted between the hours worked that were recorded on payroll ledgers and check stubs and hours worked based on the calculation of gross pay of actual checks written, and as a result, the Water Supervisor was overpaid an additional \$475. For example, payroll records for check number 5986 dated September 20, 2017, indicated 40 hours were worked. However, based on the gross pay of the check and his hourly rate of \$9.50 per hour, the Water Supervisor was paid for 56 hours. During 2017, the Water Supervisor was paid \$152 (16 hours at \$9.50 per hour) more than payroll records indicated. During 2018, he was paid \$57 (6 hours at \$9.50 per hour) more than payroll records indicated. From January 1, 2019, through April 10, 2019, he was paid \$266 (28 hours at \$9.50 per hour) more than payroll records indicated.

Additional questionable overtime payments were made to the Water Supervisor (see MAR finding number 4.5). In addition, the city failed to pay the Water Supervisor overtime at time and a half in compliance with Fair Labor Standards Act (FLSA) requirements (see MAR finding number 4.4). As a result of the significant amount of questionable overtime payments, we did not determine the amount of overtime due to the Water Supervisor for the city's failure to comply with the FLSA.

Improper withdrawal and payments

Improper withdrawal and payments totaling \$39,238 were made by/to the Mayor; the City Clerk, her husband, and his business; the Water Supervisor; and Alderman Wofford's business from April 14, 2015, through April 16, 2019 (see Appendix C). These improper payments were not made from the city's Payroll bank account or recorded on payroll records; therefore, they are not reported as payroll overpayments in the section above.

Mayor

Supporting documentation was not available for \$22,321 of (1) checks improperly issued to the Mayor, (2) checks issued to cash for the purchase of prepaid debit cards and subsequently negotiated by the Mayor, and (3) a cash withdrawal made by the Mayor and City Clerk. The memo line of some of the checks indicated the purpose of the check was for the purchase of a prepaid debit card, additional compensation, and the reimbursement of travel, training, and miscellaneous expenses.

No documented purpose and additional pay

The purpose of 9 checks improperly issued to the Mayor totaling \$7,150 from November 16, 2016, to August 9, 2017, was not documented in the memo line of each check.

In addition, on August 10, 2016, check number 22961 for \$750 was improperly issued to the Mayor from the General bank account for "Mayor of Parma Perk Building set up Computer Lab and other activities for the youth and citizen of Parma Monitoring the Facility and Supplying with all needs and Youth funded by Fundraisers/Donations." In sworn testimony, the Mayor indicated she did not know the meaning of "monitoring the facility and

City of Parma
Management Advisory Report - State Auditor's Findings

supplying with all needs, youth funded by fundraiser," did not purchase computers, and could not explain the purpose of this check. As noted above, the Mayor's salary was \$400 per month, and as a result, this additional payment was improper.

These 10 checks were signed in the scripted handwriting of the Mayor and City Clerk, and endorsed in the scripted handwriting of the Mayor. All of these checks were written for whole dollar amounts (no cents), were not subject to payroll withholdings, and were not reported on the Mayor's W-2 form.

Reimbursement of travel,
training, and
miscellaneous expenses

The Mayor was improperly issued 12 checks totaling \$5,792 from August 26, 2015, to May 17, 2018, for reimbursement of travel, training, and miscellaneous expenses; however, no supporting documentation of the expenses incurred was retained. In addition, while meeting minutes indicate the Mayor informed the Board of some travel, meeting minutes do not document the Board's approval of these travel, training, and miscellaneous expenses. Eleven of the 12 checks were signed in the scripted handwriting of the Mayor and City Clerk, and the remaining check was signed only in the scripted handwriting of the City Clerk. Eleven of the 12 checks were endorsed in the scripted handwriting of the Mayor and the remaining check was endorsed in the scripted handwriting of the Mayor and the Water Supervisor. Ten of the 12 checks were issued for whole dollar amounts, including those issued for the reimbursement of specific expenses.

Two of the checks totaling \$1,646 were for the reimbursement of out-of-state travel to Atlanta and Chicago. The memo line of the check for the trip to Chicago indicated that Alderman Wofford attended the event. However, in sworn testimony Alderman Wofford indicated that he did not travel to Chicago on city business.

Some of the memo lines of the checks indicated checks were for reimbursement of travel expenses related to attending Missouri Municipal League (MML) conferences. However, representatives of the MML confirmed no attendance of the Mayor at any meetings held. Additionally, in sworn testimony, the Mayor indicated she did not attend a legislative conference held in Jefferson City related to reimbursement check number 23214 of \$797, but cashed the check and gave the cash back to the city. However, we found no evidence of cash deposited into city bank accounts around the date the check was cashed. In addition, this check cleared the bank on February 12, 2018, and referenced a 3-day training event in February in the memo line of the check, but the check was actually dated August 9, 2017. This check is reflected as being issued on February 12, 2018, on Appendix C.

The Mayor was issued a \$350 check for the purchase of Christmas decorations on December 11, 2017. However, the Mayor then used the city's

City of Parma
Management Advisory Report - State Auditor's Findings

Walmart credit card to purchase \$342 of Christmas decorations on December 12 and 13, 2017, (see MAR finding number 3.5). The city subsequently paid Walmart for the charges made on the city's credit card. As a result, the Mayor was improperly reimbursed \$350 for Christmas decorations. The Mayor was also improperly issued a \$275 check to "Purchase a cell phone and minutes, (broke phone)" on December 23, 2016. No documentation was located to support this purchase of a cellular phone. The Mayor also improperly purchased at least 5 other cellular phones and several cellular phone cards during 2015, 2017, and 2018 using the city's Walmart credit card (see Appendix D and the Improper Purchases section below).

Prepaid card purchases

Fifteen checks from December 30, 2015, to December 16, 2016, were improperly issued for the purpose of purchasing prepaid debit cards totaling \$16,950. The payee on these checks indicated "Cash for City Prepaid Business Card," "CASH PREPAID CARD BUSINESS CARD," "Cash on Prepaid Card," "TYUS BYRD CASH PREPAID CARD BUSINESS CARD," and "TYUS BYRD." All of these checks were signed in the scripted handwriting of the Mayor and City Clerk. Fourteen of the 15 checks were endorsed in the scripted handwriting of the Mayor, with 3 of the 14 checks also being endorsed in the scripted handwriting of the City Clerk. The remaining check was not endorsed, but was cashed at the city's bank. Because the checks issued for prepaid cards were typically issued to the Mayor or negotiated by the Mayor, these payments are shown as improper payments to the Mayor.

Supporting documentation was obtained for \$8,721 of a prepaid card purchased, loaded and re-loaded, and registered to "Mayor Tyus Byrd." We determined improper purchases were made using this prepaid card and these purchases are included in Appendix D. Supporting documentation was not available for the remaining \$8,229 of checks cashed for prepaid card purchases. A subpoena was issued to the Mayor on September 23, 2019, requesting copies of all records related to these checks issued for the purpose of prepaid card purchases. However, the Mayor did not provide any records. As a result, we have no assurance the remaining cashed checks totaling \$8,229 were actually used to purchase other prepaid cards.

Cash withdrawal

The Mayor and City Clerk improperly withdrew \$400 cash on December 30, 2015, from the Municipal Court bank account, and no documentation was available to support the withdrawal. Our review of city and municipal division bank accounts around this date showed no evidence the cash withdrawn was redeposited. Because the Mayor signed this withdrawal slip and was the City Clerk's supervisor, it was shown as an improper withdrawal by the Mayor. A copy of the withdrawal ticket is shown below:

City Clerk

Supporting documentation was not available for 10 checks improperly issued to the City Clerk totaling \$2,620, and 2 checks improperly issued for janitorial services to the City Clerk's husband or his business totaling \$8,100.

- The purpose of 2 checks issued to the City Clerk totaling \$345 was not documented in the memo line of each check.
- The City Clerk was issued 7 checks totaling \$2,025 for additional duties, such as reading meters, cleaning trophy cases, and preparing inventory reports, when she was also being paid hourly for hours worked as the City Clerk. In sworn testimony, the Mayor indicated the City Clerk was not paid to perform certain tasks, the City Clerk performed work during regular working hours (8 a.m. to 4 p.m.), and the City Clerk was paid only by her hourly rate. However, in sworn testimony the City Clerk indicated the Mayor gave her money for performing additional duties.
- The City Clerk was issued a \$250 check and the memo line indicated "Made out in the City Clerk name for Prepaid Card-Pay for Desk for New Office National Office Supply." However, no documentation existed to support the loading of a prepaid card or any purchases made using prepaid cards from this vendor.

All of these checks were signed in the scripted handwriting of the Mayor and City Clerk, and endorsed in the scripted handwriting of the City Clerk. All of these checks were written for whole dollar amounts, and the payments for duties performed were not subject to payroll withholdings, and were not reported on the City Clerk's W-2 form.

City of Parma
Management Advisory Report - State Auditor's Findings

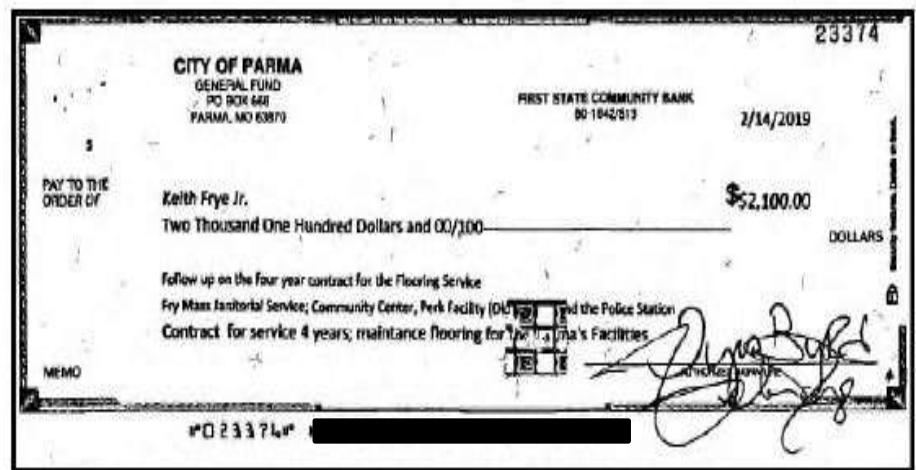

Janitorial services

Two checks totaling \$8,100 were improperly issued to the City Clerk's husband and his business for floor cleaning services as follows:

Check: 22946 Amount: \$6,000.00 Date: 8/1/2016

In sworn testimony, the City Clerk indicated this \$6,000 payment was issued to her husband's business and they cleaned the floors once each quarter for the 4 years the Mayor was in office [April 2015 through April 2019]. The check was signed in the scripted handwriting of the Mayor and City Clerk and endorsed in the scripted handwriting of the City Clerk's husband and City Clerk.

Check: 23374 Amount: \$2,100.00 Date: 2/20/2019

The memo line of this check indicates the payment was for a follow up on the previous 4-year contract for floor cleaning service. In sworn testimony, the City Clerk indicated no janitorial services were provided by herself or her husband in relation to this check. This check was signed in the scripted handwriting of the Mayor and City Clerk and was endorsed in the scripted handwriting of the City Clerk's husband.

City of Parma
Management Advisory Report - State Auditor's Findings

In sworn testimony, the Mayor indicated she was not aware of these 2 checks, was not aware of a janitorial service cleaning the floors, and any cleaning of city buildings or buffing of city floors was performed by the city employees or herself. Former Board members indicated in recorded interviews that they did not solicit bids for floor cleaning services, did not approve the hiring or payment of a floor cleaning service, and were not aware of floor cleaning services being provided. In addition, a contract for these floor cleaning services was not located at city hall.

Water Supervisor

Supporting documentation was not available for 16 checks improperly issued to the Water Supervisor totaling \$5,265.

- The Water Supervisor was issued 15 checks totaling \$5,165 for additional duties, such as digging graves, renovations, and cleaning out the city dog pound and storage when he was also being paid hourly and for a significant number of hours worked each week as the Water/Sewer Operator or Water Supervisor.
- The Water Supervisor was also issued a \$100 check for a petty cash fund. However, during a recorded interview of the former City Collector, she indicated the petty cash fund consisted of only 2-\$5 bills, a couple of \$1 bills, and some change. In addition, the memo line of the check indicated the check was for "Petty Cash - David Thatch Water Clerk Draw for Change for service."

All of these checks were signed in the scripted handwriting of the Mayor and City Clerk, and endorsed in the scripted handwriting of the Water Supervisor. All of these checks were written for whole dollar amounts, and the payments for duties performed were not subject to payroll withholdings, and were not reported on the Water Supervisor's W-2 form.

Alderman Wofford's business Supporting documentation was not available for 3 checks improperly issued to Alderman Wofford's business totaling \$932. The memo lines of the checks indicated the checks were issued for repairs made to city vehicles. A subpoena was issued to Alderman Wofford on September 23, 2019, requesting copies of all invoices relating to city payments made to Alderman Wofford's business. While invoices were provided to support several payments to Alderman Wofford's business, invoices were not provided to support these 3 payments. All of these checks were signed in the scripted handwriting of the Mayor and City Clerk and were endorsed "Wofford Body Shop Simon Wofford" in Alderman Wofford's scripted handwriting.

Improper purchases

From April 14, 2015, through April 16, 2019, improper purchases totaling \$21,007 were made by the Mayor, City Clerk, and Water Supervisor; and we could not determine who made another \$4,673 of improper purchases because

City of Parma
Management Advisory Report - State Auditor's Findings

the related credit card invoices were not signed or we could not determine who used a city check to make a purchase (see Appendix D).

Mayor

The Mayor made improper purchases totaling \$11,249 using the city's prepaid debit card, that was loaded using city funds, and the city's Walmart credit card.

- Improper purchases totaling \$8,721 were made using a prepaid debit card registered to "Mayor Tyus Byrd." The prepaid card was loaded using city checks cashed by the Mayor (see Appendix C). The Mayor made improper cash withdrawals and incurred related maintenance and ATM fees totaling \$6,830 using the prepaid debit card. The Mayor also used the prepaid debit card to make \$1,891 of other purchases, which are summarized by category below:

Category	Amount
Retail stores	\$ 591
Restaurants	290
Personal utility bill	245
Telephone service	195
Gas stations and automotive repair	164
Title loan and other bill payments	163
Airline travel costs	100
Cable television service	96
Wig and beauty supply store	47
Total	\$ 1,891

- The Mayor used the city's Walmart credit card (and signed the related invoices) to make \$2,528 of improper purchases. The Mayor spent \$1,347 on gift cards and related fees, \$670 on cellular phone cards and related fees, and \$511 on other improper purchases, including the purchase of 5 cellular phones.

City Clerk

The City Clerk used the city's Walmart credit card (and signed the related invoices) to make \$9,220 of improper purchases. The City Clerk spent \$5,151 on gift cards and related fees and \$563 on cellular phone cards and related fees. The City Clerk also made other purchases totaling \$3,506.

Some of the other items improperly purchased included: a blender, pots and pans, glass dishes, silverware, a slow cooker, a deep fryer, an electric burner, a cellular phone, multiple cellular phone chargers and kits, a cassette adapter, tablets, tablet cases, speakers, magazines, needles, handbags, backpacks, a TV stand, a sofa bed, clothes, baby wipes, formula, and diapers. The

City of Parma
Management Advisory Report - State Auditor's Findings

following pictures from Walmart's website, based on the barcode notated on the invoice, include the TV stand and sofa bed purchased.

The City Clerk also improperly purchased a significant amount of grocery items using the city's Walmart credit card including: brisket, ribs, sausage, ground beef, salad mix and dressing, milk, vegetables, oil, instant noodles, bread, chips, jelly, snack cakes, single serve candy, soda, cheese, yogurt, bagels, cookies, whipped topping, and dog, bird, and fish food.

Water Supervisor

The Water Supervisor used the city's Walmart credit card (and signed the related invoices) to make \$230 of improper purchases and charged \$308 of personal expenses to the city's charge account at a local tire shop. Improper items purchased at Walmart included cellular phone cards and related fees totaling \$150, a cell phone charger for \$12, and \$68 in groceries and umbrellas. The Water Supervisor also charged the purchase of tires totaling \$272 and an oil change totaling \$36 for his personal vehicle to the city's charge account at a local tire shop that the city subsequently paid. The invoices for the tire and oil change were obtained from the local tire shop vendor and included the make, model, and vehicle identification number of the Water Supervisor's personal vehicle that received the service. We verified this vehicle was owned by the Water Supervisor with the New Madrid County Assessor's office.

Unknown purchaser

Improper purchases totaling \$4,673 were made, but the purchaser was unknown.

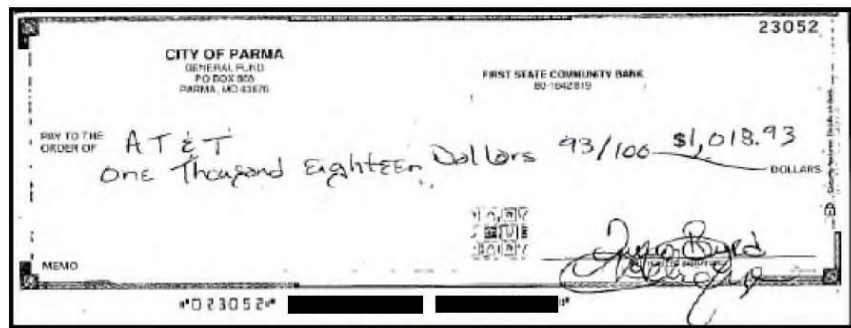

- Improper purchases were made using the city's Walmart credit card totaling \$3,654, and the related invoices were not signed. As a result, we could not determine who purchased the improper items. The improper items purchased included \$1,891 of gift cards and related fees, \$1,087 of cellular phone cards and related fees, and \$676 of other purchases. Other purchases included groceries, 3 cellular phones and cellular phone accessories, a toy drone, canning supplies, socks, a night stand, and other miscellaneous items. Given the time frame in which these purchases

City of Parma
Management Advisory Report - State Auditor's Findings

occurred and other improper purchases made, it is likely these purchases were made by the Mayor, City Clerk, and/or Water Supervisor.

- The city also issued a \$1,019 check improperly to a cellular phone company store as follows:

Check: 23052 Amount: \$1,018.93 Date: 2/7/2017

The check was not dated, but cleared the bank on February 7, 2017. The check was signed in the scripted handwriting of the Mayor and City Clerk and the check appeared to be written in the scripted handwriting of the Mayor. Most other city checks were computer generated (typed). No other supporting documentation of the purchase was located.

Improperly recorded
utility payments and
improper adjustments

From April 14, 2015, through April 16, 2019, improperly recorded utility payments totaling \$533 and improper adjustments totaling \$4,625 were applied to the utility accounts of the Mayor, the Water Supervisor, Alderman Wofford, Alderwoman Jones, and a church. We also estimated additional improper utility adjustments totaling \$1,886 were made to their utility accounts (see Appendix E). In sworn testimony, the Mayor indicated only the City Clerk, City Collector, and herself could have made adjustments to the utility system.

The electronic utility system was destroyed in the city hall fire. However, some paper utility billing and payment reports were obtained from city hall and local law enforcement,⁵ and bank statements and contents of deposits were obtained from the city's bank. For the periods in which monthly billing and payment reports were not available, an estimate of monthly billing amounts was determined based on the average of billing amounts for each utility account during periods prior to or following the periods in which utility records were not available. We compared activity reported on monthly utility billing and payment reports and monthly billing estimates to utility bank deposits to determine if improperly recorded utility payments or improper

⁵ An account history for the Mayor's utility account was provided from local law enforcement for the period of January 1, 2015, through March 31, 2016.

City of Parma
Management Advisory Report - State Auditor's Findings

adjustments were recorded/applied in the electronic utility system. Due to the utility system and records being destroyed in the fire in April 2019, the city billed each customer that had not paid their utility bill from January 2019 to April 2019 a flat amount of \$59.79 these months, with seniors being billed \$57.79 these months. Various city officials indicated the city discontinued receiving cash payments for utility services sometime in early 2016, and only accepted checks and money orders after that time.

In addition, our review of billing reports showed inconsistencies in how previous utility balances and utility payments were reported in the utility accounts of the Mayor, Water Supervisor, Alderman Wofford, Alderwoman Jones, and a church in comparison to utility accounts of other utility customers. The billing reports for a typical utility customer account reported a previous balance, a payment, and a new balance. However, several of the billing reports for the Mayor, Water Supervisor, Alderman Wofford, Alderwoman Jones, and a church reported a zero previous balance or a previous balance of a lesser amount than the previous month's ending balance, no payment, and a new balance. The city's utility system software provider indicated the likely reason for reporting the previous zero balance or a lesser previous balance than the previous month's ending balance for these select utility accounts was due to a credit adjustment made to reduce the previous month's balance; therefore, no payment was actually made. However, credit adjustment reports were not prepared or retained by the city, and the electronic utility system was destroyed in the fire. As a result of the inconsistencies and explanation of the utility system software provider, we determined the amount of improper utility adjustments for each of these utility accounts based on monthly billing amounts when subsequent billing reports showed a zero previous balance or a lesser previous balance than the previous month's ending balance and no payments made, and bank records showed no related receipts were deposited.

Mayor

From May 2015 through June 2018,⁶ an improperly recorded utility payment totaling \$224 and improper adjustments netting \$177 were recorded to the utility account of the Mayor. In addition, improper adjustments totaling \$1,187 were likely recorded to this account. Also, we estimated an additional \$698 of improper adjustments were made to the account, during periods that records were not available. A subpoena was issued to the Mayor on September 23, 2019, requesting copies of all payments made for utility services. However, no records were received from the Mayor.

- Utility records show a \$224 payment was posted to the Mayor's utility account on September 1, 2015. However, bank deposits for the month of

⁶ According to city utility records, the Mayor's utility account had no activity after June 2018.

City of Parma
Management Advisory Report - State Auditor's Findings

September 2015 did not show any evidence this payment was deposited. As a result, we determined this was an improperly recorded utility payment.

- On February 22, 2016, 63 improper adjustments netting \$177 were recorded to the Mayor's utility account. The majority of the adjustments appeared to be for the monthly billing amounts of January and February 2016. No documentation was available to explain the reason for the adjustments.
- Improper adjustments totaling \$1,187 were likely recorded to the Mayor's utility account for activity in February 2017, March 2017, May 2017, December 2017, May 2018, and June 2018. Previous balances of zero or a previous balance of a lesser amount than the previous month's ending balance, and no payments were reported for these months, indicating a utility adjustment credit was likely made to the account.
- We estimated \$698 of improper adjustments were made to the Mayor's utility account from May 2016 through December 2016. Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balances based on the average billing amounts in 2015 and 2016, when utility records were available.

Water Supervisor

From May 2016 through April 2019, improper adjustments totaling \$1,938 were likely recorded to the utility account of the Water Supervisor. We also estimated an additional \$476 of improper adjustments were made to this account during periods that records were not available. We could not confirm the date the Water Supervisor started receiving utility services because related city records were not available.

- Improper adjustments totaling \$1,938 were likely recorded to the Water Supervisor's utility account for activity in March 2017, May 2017, November 2017, December 2017, January 2018, August 2018, and December 2018. Previous balances of zero or a previous balance of a lesser amount than the previous month's ending balance, and no payments were reported for these months, indicating a utility adjustment credit was likely made to the account.
- We estimated \$476 of improper adjustments were made to the Water Supervisor's utility account from June 2016 through December 2016. Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balances based on the average billing amounts in 2017, when utility records were available.

City of Parma
Management Advisory Report - State Auditor's Findings

Alderman Wofford

From April 2016 through April 2019, two payments totaling \$71 were improperly recorded to Alderman Wofford's utility account. In addition, improper adjustments totaling \$404 were likely recorded to this account. Also, we estimated an additional \$267 of improper adjustments were made to the account during periods for which records were not available. A subpoena was issued to Alderman Wofford on September 23, 2019, requesting copies of all payments made for utility services from April 2015 through April 2019. While Alderman Wofford provided some utility payment information, no evidence of the following payments were received from Alderman Wofford.

- Utility records showed a \$66 payment was posted to the Alderman's utility account for the September 2018 billing amount on November 1, 2018. However, bank deposits for the month of November 2018 did not show any evidence this payment was deposited. As a result, we determined this was an improperly recorded utility payment. In addition, a \$66 payment was posted to the Alderman's utility account for the June 2018 billing amount on July 19, 2018; however, bank deposits for the month of July 2018 only show a payment of \$61 deposited. As a result, we determined this \$5 difference was an improperly recorded utility payment.
- Improper adjustments totaling \$404 were likely recorded to the Alderman's utility account for activity in January 2017, February 2017, March 2017, May 2017, June 2017, and October 2018. Previous balances of zero and no payments were reported for these months, indicating a utility adjustment credit was likely made to the account.
- We estimated \$267 of improper adjustments were made to the Alderman's utility account from June 2016 through September 2016. Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balances based on the average billing amounts in the other 8 months of 2016, when utility records were available.

Alderwoman Jones

From April 2017 through April 2019, improperly recorded payments totaling \$187 were recorded to Alderwoman Jones's utility account. In addition, improper adjustments totaling \$145 were likely recorded to this account. A letter was issued to Alderwoman Jones on March 5, 2020, requesting copies of all payments made for utility services from April 2017 through April 2019 (including canceled checks, city receipt slips, payment stubs, etc.). While Alderwoman Jones provided some utility payment information, no evidence of the following improperly recorded payments were received from Alderwoman Jones.

- Improperly recorded payments were posted to Alderwoman Jones utility account totaling \$187.

City of Parma
Management Advisory Report - State Auditor's Findings

Utility records show a \$152 payment was posted to the Alderwoman's utility account for the July and August 2017 billing amounts on September 12, 2017. However, bank deposits for the month of September 2017 only show a payment of \$76 deposited. As a result, we determined the remaining \$76 was an improperly recorded payment.

Utility records show a \$121 payment was posted to the Alderwoman's utility account for the January and February 2018 billing amounts on March 8, 2018. However, bank deposits for the month of March 2018 only show a payment of \$60 deposited. As a result, we determined the remaining \$61 was an improperly recorded payment.

Utility records show a \$120 payment was posted to the Alderwoman's utility account for the March and April 2018 billing amounts on May 7, 2018. However bank deposits for the month of May only show a payment of \$70 deposited. In addition, the April 25, 2018, billing had a handwritten note of the \$70 payment and balance due of \$50. As a result, we determined \$50 of the \$120 was an improperly recorded utility payment.

- Improper adjustments totaling \$145 were likely recorded to the Alderwoman's utility account.

Utility records show Alderwoman Jones was billed \$62 for November 2017 activity (due in December) and \$60 for December 2017 activity (due in January). However, bank deposits for the month of December 2017 and January 2018 only show a payment of \$62 in January 2018. While the December 2017 billing showed a balance due of \$122, the January 2018 billing showed a previous balance of only \$62 instead of \$122. The January 2018 billing also indicated no payments were reported. As a result, a utility adjustment credit of \$60 was likely made to the account.

Utility records show Alderwoman Jones was billed \$84 for May 2018 activity (due in June) and \$85 for June 2018 activity (due in July). However, bank deposits for the month of June 2018 and July 2018 only show a payment of \$84 in July 2018. In addition, the June 2018 billing had a handwritten note of the \$84 payment and balance due of \$85. The billing statement for July activity was not located. However, the August 2018 billing statement showed a balance due of \$69 that is the billing amount for July activity. As a result, a utility adjustment credit of \$85 was likely made to the account.

Church

A \$51 payment was improperly recorded to a church's utility account on April 29, 2016, for the March 2016 billing. In addition, improper utility adjustments totaling \$774 were likely recorded to this account. Also, we estimated an additional \$445 of improper utility adjustments were made to the account

City of Parma Management Advisory Report - State Auditor's Findings

during periods for which records were not available. Church checks issued to the city for payment of utilities were sometimes signed by Mayor Byrd and/or Alderman Wofford.

- Improper adjustments totaling \$774 were likely recorded to the church's utility account for activity in April 2016, March 2017, May 2017, June 2017, May 2018, and October 2018. No evidence of a payment for the April 2016 billing was found in bank deposits. Therefore, the amount billed and not paid was shown as an improper utility adjustment. Previous balances of zero or a previous balance of a lesser amount than the previous month's ending balance and no payments were reported for these months, indicating a utility adjustment credit was likely made to the account.
- We estimated \$445 of improper adjustments were made to the church's utility account from May 2016 through December 2016 and in March 2019. Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balances for May 2016 through December 2016 based on the average billing amounts in 2017, when utility records were available. We estimated the billing, adjustment, and ending balances for March 2019 based upon the billing amounts in 2018.

Falsified records

The Mayor and City Clerk falsified Board meeting minutes and financial reports, and the list of bills prepared for Board meetings by the City Clerk were incomplete and inaccurate. Most of these inaccurate financial reports prepared for Board meetings were reviewed and signed by the Mayor.

Meeting minutes

Significant discrepancies were identified between Board meeting minutes provided to the State Auditor's Office (SAO) by the Mayor and City Clerk in February 2019 and those found at city hall by SAO investigators on April 18, 2019, immediately following the fire to city hall (see Appendix F). Board meeting minutes provided by the Mayor and City Clerk were in response to an investigative letter (see Appendix A) issued by the SAO regarding complaints received concerning the Mayor's compensation.

For example, the July 14, 2015, Board meeting minutes obtained from the Mayor and City Clerk indicate only Alderman Branom and the Mayor were present for the meeting and regular business was not presented. However, these same Board meeting minutes included a closed session indicating Alderwoman Richards (who was not present per the regular meeting minutes), Alderman Branom, and the Mayor conducted a lengthy discussion regarding a salary increase for the Mayor and a different pay period and pay structure for the City Clerk. In contrast, Board meeting minutes found at city hall shortly after the fire for the same meeting date indicate Alderwomen Donaldson and Richards, Alderman Branom, and the Mayor were present,

City of Parma
Management Advisory Report - State Auditor's Findings

regular business was conducted, and the meeting adjourned after regular business was discussed. No closed session was held, and no discussion of the Mayor's salary was documented. Former Alderwoman Donaldson and Alderman Branom indicated in recorded interviews that no pay increase for the Mayor was ever approved by the Board. Several additional discrepancies were identified between the 2 sets of meeting minutes on this date.

The August 11, 2015, Board meeting minutes obtained from the Mayor and City Clerk did not include a discussion of stray dogs, pot holes, water department issues, bills to be paid, or the Collector and Treasurer positions that were included in the Board meeting minutes found at city hall shortly after the fire. Only one page of the Board meeting minutes for this date were found at city hall.

The November 10, 2015, Board meeting minutes obtained from the Mayor and City Clerk did not discuss the need for a city credit card for online purchases and travel, credit card and prepaid card options, and for any decisions regarding credit cards or prepaid cards to be tabled until the next meeting. However, the Board meeting minutes found at city hall shortly after the fire included this discussion.

Financial reports

The City Clerk falsified the cash balances of some bank accounts on financial reports prepared for monthly Board meetings. For example, the City Clerk prepared a report for the Board showing cash balances for each account as of July 17, 2018, that reported inaccurate bank balances as follows:

Bank Account	Cash Balances per Financial Report	Actual Bank Balances
General	\$ 2,279	2,279
Payroll	2,514	2,514
Special Street	455	455
Water/Sewer/Garbage	5,639	5,639
Municipal Court	155	155
Municipal Court Bond	2,034	2,034
Savings	27,801	335
Replacement and Extension	28,797	339
Fire Department	N/A	1,076
Bond Reserve (1)	22,800	0
Total	\$ 92,474	14,826

N/A Bank account not reported on the City Clerk's financial report.

(1) The Bond Reserve bank account was closed on June 12, 2017.

In addition, the cash balances on this monthly report totaled \$90,439 instead of the \$92,474 total indicated in the table above. This cash balances report was signed by both the Mayor and City Clerk.

City of Parma
Management Advisory Report - State Auditor's Findings

Also, during the 26 months from July 19, 2016, through August 21, 2018, the City Clerk inaccurately reported cash balances of the Savings account and Replacement and Extension account on 13 of 14 financial reports prepared for the Board and inaccurately reported cash balances of the Bond Reserve account on 9 of these 14 financial reports. Most of these financial reports were signed by both the Mayor and City Clerk. Financial reports were not prepared or not retained for the remaining 12 months.

The misreporting of these cash balances concealed the depletion of the Savings, Replacement and Extension, and Bond Reserve accounts by the Mayor and City Clerk. These accounts were required to be funded by the city's water and sewer loan (see MAR finding number 3.2). The misreporting of these cash balances also concealed the transferring of monies from the Savings account and Replacement and Extension account to the General and Payroll accounts, where overpayments and improper disbursements were paid, and concealed the closing of the Bond Reserve account.

During 2016 and 2017, transfers totaling \$18,490 were made from the Savings account to the General account. During 2017, transfers totaling \$27,288 were made from the Replacement and Extension account to the Payroll account (\$16,988) and the General account (\$10,300). The \$20,673 balance of the Bond Reserve account was used to make payments on water/sewer loans and the water plant generator loan, and this account was closed by the Mayor and City Clerk on June 12, 2017.

List of bills

The City Clerk prepared inaccurate and incomplete lists of bills to be paid for monthly Board meetings. For example, the list of bills to be paid for February 2018 was inaccurate and incomplete as follows:

City of Parma
Management Advisory Report - State Auditor's Findings

Payee/Type of Payment	Amount on List of Bills	Actual Amount Paid
USDA - Rural	\$ 4,190	4,190
Environmental Analysis South, Inc.	224	0
Powell Supply, Inc.	144	0
Bennette's Pool and Spa	276	556
Best Sanitation (resident pickup)	2,400	2,476
Best Sanitation (garbage bin)	32	32
Ameren	5,814	5,654
BPS Telephone	408	371
Focus - monthly loan payment	250	250
Payroll	0	10,847
Helen Frye (payroll advance)	0	1,500
Expense reimbursements	0	1,012
Casey's	0	1,005
AT&T	0	315
Walmart	0	1,348
Focus (fire truck)	0	9,550
Staples	0	37
Deluxe Business Systems	0	221
Family Support	0	400
Tweedy Law Firm	0	2,023
Missouri Department of Natural Resources	0	1,804
Novacopy	0	90
Personal Concepts	0	511
Wofford's Body Shop	0	375
Southern FS	0	1,797
Totals	\$ 13,738	46,364

In addition, the total bills to be paid on this report was shown as \$13,514 instead of the \$13,738 total indicated in the table above. This list of bills indicated "Prepared by City Clerk-Helen Frye". Our review of the 18 lists of bills to be paid that were retained and prepared for the Board's review showed that typical monthly payments including payroll disbursements; employee advances and reimbursements; and payments to Casey's, AT&T, and Verizon were not included. In addition, disbursements to Walmart were only included on 4 of the 18 lists of bills to be paid. Transfers were also only listed on 3 of 16 monthly lists of bills to be paid.

Additional falsified financial reports and lists of bills to be paid may have been prepared for other months during the term of the City Clerk. However, additional financial reports and lists of bills could not be located or were destroyed during the fire.

City of Parma
Management Advisory Report - State Auditor's Findings

Overall conclusion

The lack of segregation of duties and adequate controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in payroll overpayments, improper withdrawal and payments, improper purchases, improperly recorded utility payments and adjustments, and falsified records going undetected for a significant period of time. The unusual nature and lack of supporting documentation of checks written, prepaid debit card use, the cash withdrawal, and utility payments and adjustments should have caused suspicion and alerted the Board to the misappropriation. It is apparent city financial activity was not monitored by the Board. The inaccurate financial activity reported to the Board helped conceal payroll overpayments, improper payments, improper purchases, improperly recorded utility payments and improper adjustments, shortages in bank accounts, and the city's declining financial condition.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of the payroll overpayments, improper withdrawal and payments, improper purchases, improperly recorded utility payments and improper adjustments, and falsified records; and take the necessary actions to obtain restitution.

Auditee's Response

We will continue to work with law enforcement officials regarding criminal prosecution of the payroll overpayments, improper withdrawal and payments, improper purchases, improperly recorded utility payments and improper adjustments, and falsified records; and take the necessary actions to obtain restitution.

2. Oversight, Annual Audits, and City Code and Ordinances

The Board did not establish adequate oversight or obtain annual audits as required by state law. City code and ordinances also need improvement.

2.1 Oversight and segregation of duties

The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the Mayor and City Clerk. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation and proper oversight by the Board that led to the misappropriations noted in MAR finding number 1.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board.

City of Parma
Management Advisory Report - State Auditor's Findings

2.2 Annual audits

The city does not obtain annual audits as required, and city officials do not know when the last audit of city finances occurred.

Section 250.150, RSMo, requires the city to obtain annual audits of the combined waterworks and sewerage system, and the cost of the audit is to be paid from the revenues received from the system.

2.3 City code and ordinances

The Board has not complied with city code and has not established or updated city code or ordinances as appropriate.

- City Code, Section 110.200 states, "The Board may, by motion, dispense with any regular meeting, but at least one (1) meeting, regular or special, must be held in each calendar month." Monthly Board meetings were frequently canceled by the Mayor or not held, and Board meeting minutes were not located for several monthly Board meetings. In instances in which no Board meeting minutes were located, it is not clear whether a Board meeting was held or if Board meeting minutes were destroyed in the fire. As a result, city disbursements may have frequently only been reviewed and approved by the Mayor and City Clerk.
- The city does not have ordinances establishing the compensation of city officials and employees. City Code, Section 115.060 states, "The Board of Aldermen shall fix the compensation of all the officers and employees of the City by ordinance."
- The city did not establish or update city codes/ordinances for changes in various city procedures. Changes in procedures include when cash was no longer accepted for payment of utility services, when employee pay periods changed from monthly to weekly, or when calculation of employee pay changed to an hourly calculation. For example, City Code, Section 115.110 states, "The salary of the City Clerk shall be such as from time to time the Board of Aldermen shall fix by ordinance as a certain amount per month, payable bi-weekly by warrant. . ." The City Clerk began being compensated on an hourly basis on September 10, 2015, without any change to the ordinance setting her salary at a fixed monthly rate.
- In July 2015, the Mayor appointed Alderwoman Richards to serve on the Board. However, she was not a resident of the city for one year preceding her appointment according to the New Madrid County Clerk's office voter records. City Code, Section 110.010 states, "No person shall be an Alderman unless he/she be. . . an inhabitant and resident of the City for one (1) year next preceding his/her election, and a resident, at the time he/she files and during the time he/she serves, of the ward from which he/she is elected."

City of Parma
Management Advisory Report - State Auditor's Findings

Because codes and ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important they are current, complete, and followed. In addition, ordinances documenting approved salary amounts help ensure equitable treatment and prevent misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of city officials and employees by ordinance.

Recommendations

The Board of Aldermen:

- 2.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
- 2.2 Obtain annual audits of the waterworks and sewerage system as required by state law.
- 2.3 Update city code as procedures change, establish the compensation of city officials and employees by ordinance, and ensure compliance with city code.

Auditee's Response

- 2.1 *We will segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.*
- 2.2 *We will obtain annual audits of the waterworks and sewerage system as required by law.*
- 2.3 *We will update city code as procedures change, establish the compensation of city officials and employees by ordinance, and ensure compliance with city code.*

3. Disbursements and Bond Requirements

Controls and procedures over disbursements need improvement, and the city did not fund and maintain account balances in accordance with bond requirements.

3.1 Board review and approval process

The City Clerk did not provide bank statements, a complete and accurate list of bills, complete and accurate financial information, or monthly utility reports to the Board for review at monthly meetings. Board members indicated they did not review bank statements. The list of bills provided to the Board for review and approval were not compared to invoices and actual checks written. Board members did not review invoices, several payments were made with no supporting documentation, checks were often issued out of numerical sequence, and documentation of the receipt of goods or services on the invoices was not required. In addition, as noted in MAR finding number 2.3, monthly Board meetings were frequently canceled by the Mayor. As a result of these deficiencies, the Board was not aware of the payroll overpayments, improper withdrawal and payments, improper purchases, improperly recorded utility payments and improper adjustments, and inaccurate financial records.

City of Parma
Management Advisory Report - State Auditor's Findings

The Board and City Clerk also failed to monitor the city's cash balances. As a result, the city incurred \$2,134 in overdraft fees in the General, Payroll, Special Street, Water/Sewer/Garbage, and the Municipal Court bank accounts from September 1, 2015, through January 3, 2019. Had the Board reviewed the bank statements, the improper payments and the declining cash balances could have been questioned.

To safeguard against possible loss or misuse of funds, the Board should approve all disbursements and review supporting documentation, bank information, and canceled checks; ensure the numerical sequence of checks is accounted for; and require the receipt of goods and services prior to payment. Board approval of disbursements should be documented by signing or initialing the monthly list of bills. To prevent bank account overdraft charges, the city should more closely monitor bank account balances.

3.2 Bond requirements

The Mayor and City Clerk did not fund and maintain account balances in accordance with bond requirements.

- The 2009 bond agreement required the city to fund a Debt Service Reserve (Savings) account with \$229 each month until it was fully funded with a balance of \$27,480. This Savings account had a balance of \$16,300 at April 14, 2015, when Mayor Byrd was elected to office. Some deposits were made to this account through May 18, 2016, when the balance was \$18,823. However, the Mayor and City Clerk stopped making deposits to this account and transferred the majority of the balance to other checking accounts. The balance of this account was only \$12,824 at July 17, 2016, \$1,834 at November 1, 2016, and \$335 from November 30, 2017, through April 16, 2019 (the date Mayor Byrd's term of office ended). As a result, the city did not fund the Savings account from July 2016 through April 2019, in compliance with the 2009 bond requirements.
- The 1982 bond agreement required the city to maintain \$22,800 in a Debt Service Reserve (Bond Reserve) account until the bond was paid off. The balance of the Bond Reserve account (certificate of deposit) was \$22,800 on May 25, 2015, just after Mayor Byrd was elected to office. No additional deposits were made to this account, and the Mayor and City Clerk closed the account on June 12, 2017. The Mayor and City Clerk used the balance of the account at that time to make payments on other water/sewer loans and a water plant generator loan. The city did not pay off the 1982 bond until August 2018. As a result, the city did not fund the Bond Reserve account from June 2017 through August 2018, in compliance with the 1982 bond requirements.
- The 1982 bond agreement also required the city to maintain \$22,800 in a Repair and Extension Reserve (Replacement and Extension) account until the bond was paid off. The balance of the Replacement and

City of Parma Management Advisory Report - State Auditor's Findings

Extension account was \$23,436 at April 14, 2015, when Mayor Byrd was elected to office. Some deposits were made to this account through May 18, 2016, when the balance was \$27,621. However, the Mayor and City Clerk stopped making deposits to this account and transferred the majority of the balance to other checking accounts. The balance of this account was only \$13,638 at March 31, 2017, \$3,638 at June 30, 2017, and \$339 at January 2, 2018. As noted above this bond was not paid off until August 2018. As a result, the city did not fund the Replacement and Extension account from March 31, 2017, through August 2018 in compliance with the 1982 bond requirements.

Failure to comply with bond agreements could jeopardize future grant and/or financing opportunities for the city.

3.3 Excessive and unauthorized transfers

The Mayor and/or City Clerk made excessive and unauthorized transfers between various bank accounts. These transfers from restricted monies to other accounts allowed improper disbursements to occur and not be detected.

A review of the city's bank statements indicated 423 transfers totaling \$769,006 were made between bank accounts from September 18, 2015, through April 16, 2019. Eighty-eight of these transfers were for amounts less than \$1,000. The majority of these transfers were not approved by the Board and inappropriately made from various restricted accounts. Over \$458,000 was transferred out of the Water/Sewer/Garbage bank account to the Payroll and General bank accounts.

To ensure monies are used for the intended purpose, transfers of restricted funds should be approved by the Board and reasons and support for transfer amounts should be adequately documented. In addition, Section 250.150.1, RSMo, restricts the use of water and sewer monies for operating the systems, payment of bonds, establishment of a reserve, fulfillment of any agreements contained in ordinances, and payment of costs of improvements of such systems. Section 250.150.2, RSMo, prohibits the transfer of water and sewer monies except by action of the city governing body and only after all system operation and maintenance expenses and debt payments have been paid.

3.4 Conflicts of interest

The Board does not adequately monitor city activities for conflicts of interest.

- As noted in MAR finding number 1, the city paid \$6,000 to Fry Maxx Janitorial Service, a business owned by the City Clerk's husband, on July 28, 2016, and paid \$2,100 to the City Clerk's husband on February 14, 2019, without properly soliciting bids as required by state law.

The city also paid Frye's Chillin and Grillin Barbeque, another business owned by the City Clerk's husband, \$600 from November 2016 through

City of Parma Management Advisory Report - State Auditor's Findings

February 2017 to provide catering services without soliciting bids. While these catering transactions did not violate state law related to conflicts of interest, the payments to the City Clerk's husband's business were not typically included on the list of bills report provided to the Board to review and approve.

- The city paid \$558 to Alderman Wofford's auto body shop on November 9, 2018, and \$1,092 on January 8, 2019, without properly soliciting bids as required by state law. The Mayor and the City Clerk signed both of these checks in their scripted handwriting.

The city also paid Alderman Wofford's auto body shop \$3,411 from April 2016 through April 2019, without soliciting bids. In addition, the city paid the Mayor's mother (who is also Alderman Wofford's wife), \$150 on June 9, 2017, for decorations for main street and city hall without soliciting bids. While these transactions did not violate state law related to conflicts of interest, these payments were not included on the list of bills report provided to the Board to review and approve.

Board members serve in a fiduciary capacity and have an obligation to the public to avoid the appearance of impropriety. Personal interests in business matters of the city could create actual or the appearance of conflicts of interest, and a lack of independence could harm public confidence in the Board and reduce its effectiveness. Section 105.454, RSMo, prohibits financial transactions that involve more than \$500 per transaction or \$5,000 per annum between the city and its officials or employees serving in an executive or administrative capacity, unless there has been public notice to solicit proposals and competitive bidding, provided the bid or offer accepted is the lowest received. Section 105.458, RSMo, prohibits such financial transactions without competitive bidding between the city and any member of its board of aldermen.

3.5 Questionable and unnecessary purchases

Numerous questionable, unreasonable, and/or unnecessary purchases were made totaling \$6,221. Some of these purchases were made using the city's Walmart credit card and some of the disbursements were made by city check. Invoices for credit card purchases were obtained from Walmart. We determined who made the purchases using the Walmart credit card by who signed the related invoice. However, some of the invoices were not signed; therefore, we could not determine who made the purchase. Canceled checks were obtained from the city's bank, and supporting documentation was not located for any of the questionable or unnecessary purchases made by check identified in the Unnecessary purchases section below. Thus, the memo line of the check was used to determine the purpose of the purchase.

Questionable purchases

The following questionable purchases were made using the city's Walmart credit card:

City of Parma
Management Advisory Report - State Auditor's Findings

Date	Purchaser	Item Description as Indicated on Related Invoices	Amount
07/05/2016	City Clerk	2 window air conditioners and service plans	\$ 382
09/23/2016	City Clerk	Microwave and service plan	69
10/11/2016	City Clerk	Microwave and service plan	71
12/12/2016	City Clerk	Microwave and service plan	75
02/01/2017	City Clerk	32 inch television and service plan	216
06/30/2017	City Clerk	2 laptop computer cases	80
07/03/2017	City Clerk	2 laptop computer cases	80
04/19/2018	Water Supervisor	32 inch television	148
05/17/2018	Unknown	Microwave	70
06/14/2018	Unknown	2 portable air conditioners	607
06/27/2018	Unknown	Window air conditioner	159
07/08/2018	Unknown	Window air conditioner	116
Total			\$ 2,073

While microwaves, air conditioners, and computer cases could be purchased for city business, the number of similar items purchased and timing of the purchases is questionable. Because we could not determine with certainty these items were personal purchases, we did not include them in Appendix D. In addition, a former employee indicated in a recorded interview televisions were purchased with the city's credit card and the former employee never saw a new television at the city's offices, but did see a new television at the City Clerk's home. The former employee also indicated that the Mayor and City Clerk took home Christmas decorations that were purchased with city monies. Thus, these purchases may have been personal purchases. We could not determine which purchases of Christmas decorations were personal purchases so we have included them in the unnecessary city purchases below.

Unnecessary purchases

The following unnecessary purchases were made:

City of Parma
Management Advisory Report - State Auditor's Findings

Date	Purchaser	Vendor as Shown on City Check, if Applicable	Item Description as Indicated on Related Invoices/Check Memo Line	Purchase Method Used	Amount
11/25/2015	(1)	DAVE'S BEST WAY	Thanksgiving incentives for - full time employees	Check	\$ 133

12/14/2017	City Clerk	Walmart	Pegs for Christmas decorations	Credit card	10
12/20/2017	City Clerk	Walmart	Christmas decorations	Credit card	69
Total				\$	4,148

(1) The Mayor and City Clerk signed this check.

(2) The Mayor signed this check.

(3) This business is owned by the City Clerk's husband.

(4) Ella Mae Wofford is the Mayor's mother and Alderman Wofford's wife.

(5) This is an acquaintance of the Mayor.

City of Parma Management Advisory Report - State Auditor's Findings

Article VI, Sections 23 and 25 of the Missouri Constitution prohibit the use of public money or property to benefit any private individual, associations, or corporations except as provided in the constitution. Public funds should be spent only on items necessary and beneficial to the city. Citizens have placed a fiduciary trust in their public officials to spend city monies in a prudent and necessary manner.

3.6 Untimely payments

The Board did not ensure some bills were paid timely resulting in late fees and finance charges. As of April 16, 2019, 72 invoices totaling \$54,220 were outstanding over 30 days, including \$1,536 of late fees and finance charges due. For example, the city purchased 2 lawn mower tires on April 12, 2018, for \$35, and as of September 7, 2018, the city owed \$610 on this purchase, including multiple late fees totaling \$275, repossession fees of \$200, and failure to return tire fees of \$100. Based on records maintained by the current City Clerk, as of March 1, 2020, the city still owed \$5,956 of the \$54,220 due, including the \$610 due on the lawn mower tires. To prevent unnecessary fees and other charges, procedures should be in place to ensure bills are paid timely.

3.7 Fuel use

The city did not maintain mileage and fuel logs. As a result, fuel use was not reconciled to fuel purchases. The city owns 5 vehicles, 1 backhoe, and 6 pieces of small engine equipment that use city fuel. The city maintains 2 bulk fuel tanks for the city maintenance department and the police department and purchased bulk fuel from May 2015 through August 2018. The city started purchasing fuel at local gas stations in March 2017 and continued purchasing fuel at local stations throughout 2018 and early 2019, then started purchasing bulk fuel again in January 2019. Fuel purchases during the 4-year term of the Mayor are shown below:

	Year Ended April 30,			
	2016	2017	2018	2019
Bulk fuel	\$10,854	11,778	1,948	3,285
Local gas station fuel	0	60	13,245	9,650
Total	\$10,854	11,838	15,193	12,935

The amount of fuel purchased at local gas stations appears excessive. The city issued 498 checks to local gas stations typically in whole dollar amounts ranging from \$10 to \$80 totaling \$22,955 from March 2017 through March 2019. From June 2017 through December 2018, the city issued an average of 26 checks a month to the local gas stations.

Further, a former Board member indicated in a recorded interview that the Board member observed the Water Supervisor driving a city vehicle outside the city with his children in the vehicle on a weekend, that the Mayor frequently drove a city vehicle outside the city for personal purposes, and that the Board did not approve the use of city vehicles for personal purposes.

City of Parma
Management Advisory Report - State Auditor's Findings

Mileage and fuel logs are necessary to document the appropriate use of vehicles and equipment and to support fuel purchases. Without sufficient information, city officials cannot evaluate the propriety and reasonableness of fuel pumped/used or reconcile amounts used to fuel billings. Failure to account for fuel purchases and fuel used could result in loss, theft, or misuse going undetected.

Recommendations

The Board of Aldermen:

- 3.1 Review bank statements monthly and properly monitor bank account balances to avoid bank fees. The Board should also ensure an accurate and complete monthly list of bills is prepared and compared to invoices and checks written. In addition, the Board should ensure invoices are adequately reviewed and checks are issued in numerical sequence, and require documentation of receipt of goods and/or services prior to payment of invoices.
- 3.2 Ensure compliance with funding requirements of bond agreements.
- 3.3 Monitor and reduce the number of transfers made between bank accounts, and ensure transfers are not prohibited by state law.
- 3.4 Refrain from entering into business transactions with related parties unless such services or transactions are properly bid in accordance with state law.
- 3.5 Continue to work with law enforcement officials regarding criminal prosecution of personal, unsupported, and excessive purchases and take the necessary actions to obtain restitution. The Board should also ensure all disbursements are necessary and prudent uses of public funds.
- 3.6 Ensure all invoices are paid timely.
- 3.7 Ensure a documented periodic reconciliation of fuel purchased to fuel used is performed with any significant differences investigated.

Auditee's Response

- 3.1 *We will review bank statements monthly and properly monitor bank account balances to avoid bank fees. We will also ensure an accurate and complete monthly list of bills is prepared and compared to invoices and checks written. In addition, we will ensure invoices are adequately reviewed and checks are issued in numerical sequence, and require documentation of receipt of goods and/or services prior to payment of invoices.*
- 3.2 *We will ensure compliance with funding requirements of bond agreements.*

- 3.7 *We will ensure a documented periodic reconciliation of fuel purchased to fuel used is performed with any significant differences investigated.*

4. Payroll and Related Matters

Significant improvement over payroll controls and procedures is needed.

4.1 Payroll taxes and unreported compensation

The City Clerk did not timely file and remit various payroll taxes, and as a result, the city was assessed over \$114,000 in past due taxes, interest, and penalties.

- The City Clerk did not timely file 941 forms and remit applicable payroll taxes to the Internal Revenue Service (IRS) for the 15 quarters from July 1, 2015, through March 31, 2019. The current Administrative Assistant filed the 941 forms for these quarters in July 2019. As a result, the city owes the IRS \$105,606 in unpaid past due taxes (\$76,909) and penalties and interest (\$28,697), with the amount of penalties and interest increasing as these amounts remain unpaid. Some payments on these amounts due have been made by the city. Based on records maintained by the current City Clerk, as of March 3, 2020, the IRS is still owed \$48,210 for taxes (\$43,790) and interest and penalties (\$4,420).
- The City Clerk did not timely file and remit applicable payroll taxes, totaling \$4,014, to the Missouri Department of Revenue (DOR) from July 1, 2015, through March 31, 2018, and also July 1, 2018, through March 31, 2019. Based on records maintained by the current City Clerk, as of March 3, 2020, the DOR is still owed \$1,804 for taxes (\$1,608) and interest and penalties (\$196).

City of Parma
Management Advisory Report - State Auditor's Findings

- The City Clerk did not timely file quarterly contribution and wage reports and remit unemployment taxes totaling \$4,557 to the Missouri Department of Labor and Industrial Relations, Division of Employment Security, for the third quarter of 2016, second through fourth quarters of 2017, all 4 quarters of 2018, and the first quarter of 2019, resulting in an assessment of interest and penalties totaling \$1,197. Based on records maintained by the current City Clerk, as of March 3, 2020, the Division of Employment Security is still owed \$2,980 for taxes (\$2,287) and interest and penalties (\$693).

Also, some of the payroll overpayments, and most of the improper payments identified in MAR finding number 1 were not subject to payroll tax withholdings and were not included on the employees' W-2 forms.

The Internal Revenue Code requires employers to file a 941 form by the last day of the month following the end of the quarter, along with payment of Social Security and Medicare taxes withheld from employees and the employer's share, as well as federal income taxes withheld.⁷ Similarly, Chapter 143, RSMo, includes requirements for reporting wages and withholding state income taxes. Missouri Employment Security Law, Section 288.160.2, RSMo, provides a monthly penalty on any employer that neglects or refuses to file its quarterly contribution and wage report by the last day of the month following the due date. The penalty shall not exceed the greater of \$200 dollars or 20 percent of the contributions in the aggregate. Additionally, IRS Publication 15 indicates that employers must report all employee compensation on the IRS W-2 forms.

4.2 Payroll advances/loans

The Mayor and City Clerk issued payroll advances/loans to employees totaling \$5,400 in violation of the Missouri Constitution. The city made payroll advances/loans to the City Clerk (\$4,250), Water Supervisor (\$500), and a former employee (\$650) from March 2016 through February 2018. Payroll deductions totaling \$1,225 were withheld from subsequent checks leaving an outstanding balance of \$4,175. As noted in MAR finding number 1, the City Clerk has an outstanding balance of \$3,425 and the Water Supervisor has an outstanding balance of \$500, and these amounts were reported as overpayments. The former employee has an outstanding balance of \$250.

Advance payments of employee compensation are loans of city funds. The city has no statutory authority to make loans and Article VI, Sections 23 and 25 of the Missouri Constitution, specifically prohibit counties, cities, or other political subdivisions of the state from granting public money or things of value to any corporation, association, or individual.

⁷ 26 CFR Section 31.6011(a)-1, 26 CFR Section 31.6071(a)-1, 26 CFR Section 31.6151-1(a)

City of Parma
Management Advisory Report - State Auditor's Findings

4.3 Timesheets/cards and leave records

Timesheets/cards were not prepared by some city employees and timesheets/cards prepared by other employees were not retained or located at city hall. In addition, compensatory time/overtime hours worked were not consistently documented on payroll records for some employees (see section 4.5). Leave records were also not maintained for city employees.

Without adequate timesheets/cards or a record of leave taken, the city cannot ensure hours worked and leave earned and taken by employees are properly documented. To ensure the accuracy of the hours worked and leave taken, timesheets/cards should be signed by the employees and reviewed and approved by the supervisors. Leave records also aid in determining final compensation for employees leaving city employment. In addition, Section 29 CFR Section 516.2(a) of the FLSA requires employers to maintain accurate records of actual time worked by employees.

4.4 Personnel policies and files

The city does not have personnel policies to address timesheets/cards, leave records, hours of work, and how overtime and compensatory time is to be calculated. In addition, the city did not compensate employees for overtime in compliance with FLSA requirements. Personnel files for most employees were also not located at city hall, and documentation of salary amounts and/or rates of hourly pay were not available.

The City Clerk and Water Supervisor were typically paid compensatory time/overtime at their normal hourly rate instead of at time and a half in compliance with FLSA requirements; however, as noted below some of the overtime hours recorded and paid were questionable. Payroll overpayments to the City Clerk, in MAR finding number 1, were adjusted for compensatory time at time and a half. However, as a result of the significant amount of questionable overtime payments made to the Water Supervisor noted below, we did not determine the amount of overtime possibly due to the Water Supervisor for the city's failure to comply with FLSA.

Written personnel policies are necessary to ensure equitable treatment of employees and prevent misunderstandings. The FLSA requires any time worked over 40 hours in a week (for non-emergency personnel) to be paid at time and a half. Personnel files should at a minimum contain documentation of the Board's authorization for hiring the employee, the employee's authorized pay rate, and any subsequent changes in pay rate. In addition the IRS requires employers to ensure a W-4 form is completed by each employee to support payroll withholding and taxes. Also, according to the Immigration Reform and Control Act of 1986, an individual may not begin employment unless an I-9 form is completed. Employers are subject to civil or criminal penalties if they do not comply.

City of Parma
Management Advisory Report - State Auditor's Findings

4.5 Questionable payroll payments

Questionable payroll payments were made to the City Clerk for vacation leave and compensatory time/overtime, and to the Water Supervisor for overtime.

- On May 17, 2018, the City Clerk was paid \$400 for one week (40 hours) of vacation, and on May 23, 2018, the City Clerk was paid \$400 for another week (40 hours) of vacation. During the year ended June 9, 2018,⁸ the City Clerk only worked 20 to 30 hours per week for 35 of the 52 weeks of that year. As a result, she may have only been entitled to payment of 20 hours of vacation or \$200 of the \$800 she was paid in May 2018. City Code, Section 120.180 states, "all part-time employees (twenty (20) to thirty-two (32) hours per week) are entitled to twenty (20) hours paid vacation per calendar year."
- The City Clerk was paid \$2,881 for compensatory time/overtime that may have been improper. On August 1, 2016, the City Clerk was issued a \$1,200 check for 120 hours of compensatory time worked for the first 6 months of 2016. On August 10, 2016, another check was issued for \$1,200 for an additional 120 hours of compensatory time worked the first 6 months of 2016. The compensatory time recorded for the City Clerk in the payroll records was inconsistent with how compensatory time was recorded for other city employees. Payroll records for other employees included a column for compensatory time for recording hours worked each week. Payroll records for the City Clerk included "(10hrs)" next to the description of each weekly pay period and showed 40 in the hours worked column for the first 6 months of 2016. In addition, no timesheets were maintained to support when these hours were worked. These hours were recorded differently in the City Clerk's payroll records than other employees, and the City Clerk worked 10 hours of compensatory time every week during this time period, without taking any vacation or sick leave.

In addition, on May 5, 2017, the City Clerk was issued a check for \$481 for 64 hours worked according to payroll records and the memo line of the check indicated these hours were worked from January 2, 2017, through April 30, 2017. Payroll records showed the 64 hours in the "Hrs" column on May 5, 2017, and indicated these hours were paid at \$7.52 per hour, which was less than the City Clerk's \$10 hourly rate. However, no timesheets were maintained to support when these hours were worked. The City Clerk was previously paid for 40 hours each week during this time period.

⁸ The City Clerk was employed on June 9, 2015, and this represents the anniversary date of her employment.

City of Parma
Management Advisory Report - State Auditor's Findings

- Overtime hours worked by the Water Supervisor were questionable. For example, during the 44 weeks from May 31, 2018, through April 11, 2019, the Water Supervisor was paid for 56 hours of work each week. According to these records, the Water Supervisor worked 16 hours of overtime for 44 weeks in a row or 85 percent of the year and never took any time off. The Water Supervisor was paid \$6,688 in overtime during these 44 weeks.

The Water Supervisor was paid \$17,416 of overtime from March 2016 through April 2019, including \$3,690 during 2016, \$5,691 during 2017, \$5,755 during 2018, and \$2,280 from January 1, 2019, through April 10, 2019.

Board meeting minutes did not document the approval of these payments of vacation leave and compensatory time/overtime to the City Clerk and Water Supervisor. Also, in a recorded interview of a former Alderman, the Alderman remembered voting to pay compensatory time to a police officer, but did not recall approving the payment of compensatory time to any other city employee. Also, the Mayor indicated in sworn testimony that she did not have any knowledge of 240 hours of compensatory time being paid to the City Clerk and did not know that the Water Supervisor was paid overtime. However, the Mayor signed the 3 checks issued to the City Clerk and most of the checks issued to the Water Supervisor for compensatory time/overtime.

4.6 Garnishments

The City Clerk failed to garnish wages and remit child support garnishments withheld to the Missouri Department of Social Services (DSS) Family Support Payment Center as required.

- The City Clerk failed to garnish a former employee's wages from January 2017 through August 2017, in compliance with a court order. As a result, the city paid \$2,034 on January 30, 2018, to a law firm of the plaintiff to settle the garnishment order.
- The City Clerk failed to pay more than \$5,300 of child support withheld from another employee's wages from December 2016 through April 2019 to the DSS Family Support Payment Center.

Court ordered garnishment of state and municipal employees is required of a public employer under Section 525.310.1, RSMo. If a garnishee fails to respond to the garnishment, the court may then enter judgment against it. Additionally, for child support garnishments issued by the Family Support Division, Section 454.505.8, RSMo, requires that an employer or other payer who fails or refuses to withhold or pay the amounts as ordered shall be liable to the party holding the support rights in an amount equal to the amount which became due to the parent during the relevant period and which, pursuant to the order, should have been withheld and paid over.

City of Parma
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Aldermen:

- 4.1 Establish procedures to ensure all compensation is properly reported and payroll taxes are properly withheld and remitted to the appropriate taxing entities timely. In addition, the Mayor's, City Clerk's, and Water Supervisor's W-2 forms should be amended as appropriate.
- 4.2 Discontinue the practice of providing payroll advances to employees. The Board should continue to work with law enforcement officials regarding criminal prosecution of the unpaid payroll advances and take the necessary actions to obtain restitution.
- 4.3 Ensure timesheets/cards are prepared, retained, and properly signed and approved, and leave records are maintained.
- 4.4 Adopt detailed personnel policies, ensure compliance with the FLSA, and maintain personnel files for all city employees.
- 4.5 Ensure reviews of payroll records are performed to ensure the propriety of payroll payments, and review the questionable payroll payments and consider working with law enforcement officials regarding criminal prosecution of the questionable payments.
- 4.6 Ensure compliance with court orders by withholding garnishments from wages when required and paying monies withheld to the applicable party.

Auditee's Response

- 4.1 *We will establish procedures to ensure all compensation is properly reported and payroll taxes are properly withheld and remitted to the appropriate taxing entities timely. In addition, the Mayor's, City Clerk's, and Water Supervisor's W-2 forms will be amended as appropriate.*
- 4.2 *We will discontinue the practice of providing payroll advances to employees. We will continue to work with law enforcement officials regarding criminal prosecution of the unpaid payroll advances and take the necessary actions to obtain restitution.*
- 4.3 *We will ensure timesheets/cards are prepared, retained, and properly signed and approved, and leave records are maintained.*
- 4.4 *We will adopt detailed personnel policies, ensure compliance with the FLSA, and maintain personnel files for all city employees.*

City of Parma
Management Advisory Report - State Auditor's Findings

- 4.5 *We will ensure reviews of payroll records are performed to ensure the propriety of payroll payments, review the questionable payroll payments, and consider working with law enforcement officials regarding criminal prosecution of the questionable payments.*
- 4.6 *We will ensure compliance with court orders by withholding garnishments from wages when required and paying monies withheld to the applicable party.*

5. Utility System Controls and Procedures

5.1 Adjustments

Utility system controls and procedures need improvement. According to the city's accounting records, the city collected approximately \$193,000 for water, sewer, and trash services and utility deposits during the year ended June 30, 2018.

As previously mentioned in MAR finding number 1, improper adjustments were made or were likely made to the utility accounts of the Mayor, Water Supervisor, Alderman Wofford, Alderwoman Jones, and a church. The adjustments were made without obtaining independent approval or maintaining adequate documentation to support the reason for the adjustments. Because the Mayor, City Clerk, and City Collector all had unrestricted access to the utility system as noted in MAR finding number 7.1, the ability to make adjustments without independent approval represented a significant control weakness.

Requiring someone independent of receipting and recording functions to review and approve adjustments, and requiring proper supporting documentation for such adjustments would help ensure adjustments are valid.

5.2 Utility reconciliations

City personnel do not prepare proper reconciliations related to utility services.

- The City Clerk and former City Collector did not perform monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services. Monthly reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected timely. Had this reconciliation been performed and provided to the Board for review, the improperly recorded utility payments and improper adjustments could have been detected.
- The Water Supervisor did not perform monthly reconciliations of total gallons of water billed to gallons of water pumped. Monthly reconciliations of gallons of water billed to gallons of water pumped are necessary to help detect significant water loss or other problems and ensure all water usage is properly billed.

City of Parma
Management Advisory Report - State Auditor's Findings

5.3 Utility deposits

Refundable utility deposits held in the Water and Sewer Deposit Escrow bank account⁹ are not accounted for properly. The City Clerk and former City Collector did not keep a listing of deposits held and were not tracking deposits.

City records indicated that water meter deposits were \$150 for rental properties and \$100 for homeowner properties. On October 4, 2019, the current City Clerk prepared a list of 139 known customer water meter deposits totaling \$11,910 based on utility deposit records found. No records could be found for the remaining 108 utility customers. We estimated an additional \$10,800 (108 customers at \$100 each) of water meter deposits should be on hand, for a total estimated liability of \$22,710. As of October 4, 2019, the Water and Sewer Deposit Escrow bank account had a balance of \$2,525 and the Water/Sewer/Garbage bank account had a balance of \$1,662, resulting in an estimated shortage of \$18,523.

Refundable utility deposits are restricted funds held for customers. The Board should review utility deposit records to ensure all customer deposits are accounted for properly. In addition, the City Clerk should maintain an accurate list of utility deposits held and reconcile the list monthly to monies held in the Water and Sewer Deposit Escrow bank account.

5.4 Sales tax

The City Clerk did not file returns with the DOR or remit sales taxes collected related to water services provided, which totaled \$9,650 from April 1, 2016, through March 31, 2019. The current City Clerk filed these sales tax returns in September 2019. Based on records maintained by the current City Clerk, as of March 3, 2020, the DOR is still owed \$8,600 from taxes (\$6,566) and interest and penalties (\$2,034).

Section 144.080, RSMo, requires sales tax collections be reported and remitted to the DOR on a monthly or quarterly basis, depending on the amounts collected. Additionally, penalties may be assessed under Section 144.250, RSMo, because of the city's failure to remit these sales taxes.

Recommendations

The Board of Aldermen:

- 5.1 Ensure all adjustments are independently approved and supporting documentation is retained.
- 5.2 Ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and of gallons of water billed to gallons pumped, and investigate significant differences.

⁹ The Water and Sewer Deposit Escrow bank account was opened on September 6, 2019.

City of Parma
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 5.3 Ensure a list of utility deposits is prepared and reconciled to the balance of deposits held monthly and promptly investigate any differences.
- 5.4 Ensure sales taxes collected are reported and remitted timely.
- 5.1 *We will ensure all adjustments are independently approved and supporting documentation is retained.*
- 5.2 *We will ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and gallons of water billed to gallons pumped, and investigate any differences.*
- 5.3 *We will ensure a list of utility deposits is prepared and reconciled to the balance of deposits held monthly and promptly investigate any differences.*
- 5.4 *We will ensure sales taxes collected are reported and remitted timely.*

6. Budgets and Financial Reporting

6.1 Budgets

The city does not prepare annual budgets, file annual financial reports timely, or publish semiannual financial statements in compliance with state law.

Neither the Board nor the City Clerk prepared budgets for the 2 years ended June 30, 2019. There is no evidence in Board meeting minutes indicating a budget was adopted and approved for these 2 years.

City Code, Section 130.020 and Section 67.010, RSMo, require the budget to present a complete and accurate financial plan for the ensuing budget year, and outline the various information the budget must include. An accurate, complete, and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations.

6.2 Financial reporting

Neither the Board nor the City Clerk submitted a financial report to the SAO as required by state law for the year ended June 30, 2018. As a result, fines totaling \$47,500 were imposed as outlined in Section 105.145, RSMo. The DOR reduced the city's sales and use tax distribution by \$2,030 as payment, leaving a balance due of \$45,470 as of May 31, 2019. The DOR continued to reduce the city's sales and use tax distributions and the city owed \$44,199 to the DOR as of January 31, 2020.

Section 105.145, RSMo, requires each political subdivision to file an annual report of its financial transactions with the SAO. In addition, 15 Code of State Regulations (CSR) 40-3.030, requires each political subdivision to file annual

City of Parma
Management Advisory Report - State Auditor's Findings

financial reports within 6 months of the end of the subdivision's fiscal year. Effective August 28, 2017, under Section 105.145, RSMo, the SAO must notify the Missouri Department of Revenue if a political subdivision fails to file a timely financial statement. Failure to timely file a financial statement may subject the political subdivision to a fine of \$500 per day.

6.3 Published financial statements

The City Clerk did not prepare and publish financial statements for the 4 years ended June 30, 2018, as required by city code and state law. The current City Clerk prepared and posted a semiannual financial statement in December 2019. The Administrative Assistant prepared and posted an annual financial statement for the year ended June 30, 2019, when a semiannual financial statement was required.

Section 79.160, RSMo, and City Code, Section 110.100 require the Board to prepare and publish semiannual financial statements that include a full and detailed account of the receipts, disbursements, and indebtedness of the city. To ensure compliance with city code and state law, the Board should require timely preparation of financial statements and review the statements prior to publication.

Recommendations

The Board of Aldermen:

- 6.1 Prepare budgets that contain all information required by city code and state law.
- 6.2 Submit annual financial reports to the State Auditor's Office as required by state law.
- 6.3 Ensure publication of the city's semiannual financial statements as required by city code and state law.

Auditee's Response

- 6.1 *We will prepare budgets that contain all information required by city code and state law.*
- 6.2 *We will submit annual financial reports to the State Auditor's Office as required by state law.*
- 6.3 *We will ensure publication of the city's semiannual financial statements as required by city code and state law.*

7. Electronic Data Security

Controls over some city computerized applications were not sufficient to prevent unauthorized access, and sufficient plans and processes were not in place for recovering systems and data. As a result, city records were not adequately protected and were susceptible to unauthorized access, and the city could not resume normal business operations timely after the fire at city hall.

City of Parma
Management Advisory Report - State Auditor's Findings

7.1 User identifications and passwords

The Mayor, City Clerk, and former City Collector shared the user identification and password for the city's utility software application. This allowed them to access all utility functions.

The security of passwords is dependent upon keeping them confidential and requiring users to enter their password when switching users. Allowing certain users to share logon credentials increases the risk of unauthorized access and/or changes to the system and records and does not provide assurance access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique to each person and passwords should be confidential and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

7.2 Contingency plan and backup data

The city had not developed a formal, written contingency plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situations. As previously mentioned, a fire destroyed most of city hall, some records, and computers. While city personnel indicated they backed up electronic data periodically, the backup data was stored on-site at city hall. As a result, both the computers and backup data were destroyed during the fire.

A formal, written contingency plan should be prepared, and periodically tested and updated as needed to address actions for restoring computer systems should a disaster or other extraordinary situation occur. Storing backup data in a secure off-site location provides increased assurance city electronic records could be restored if necessary.

Recommendations

The Board of Aldermen:

- 7.1 Require unique user identifications for each software application and require passwords remain confidential and be changed periodically.
- 7.2 Develop a formal, written contingency plan that is periodically tested, evaluated, and updated as needed. The Board should also store backup data in a secure off-site location.

Auditee's Response

- 7.1 *We will require unique user identifications for each software application and require passwords remain confidential and be changed periodically.*
- 7.2 *We will develop a formal, written contingency plan that is periodically tested, evaluated, and updated as needed. We will also store backup data in a secure off-site location.*

City of Parma

Organization and Statistical Information

The City of Parma is located in New Madrid County. The city was incorporated in 1903 and is currently a fourth-class city. The city employed 4 full-time employees and 2 part-time employees on June 30, 2018.

City operations include utility services (water and sewer), police, maintenance of streets, and parks and recreation.

Mayor and Board of Aldermen

The city government consists of a mayor and a 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 4-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at June 30, 2018, are identified below. The Mayor is paid \$400 per month and the Board of Aldermen members receive no compensation for their service.

Tyus Byrd, Mayor (1)
Allen Hampton, Alderman
Simon Wofford, Alderman (2)
Jerry Shaw, Alderman (3)
Moneen Jones, Alderwoman (4)

(1) Rufus Williamson replaced Mayor Byrd in April 2019.

(2) Lydia Cackowski replaced Alderman Wofford in June 2020.

(3) Lynda Husted replaced Alderman Shaw in June 2020.

(4) Carolyn Powers replaced Alderwoman Jones in April 2019.

Financial Activity

A summary of the city's financial activity, prepared using the city's bank statements, for the year ended June 30, 2018, is as follows:

Supporting Documentation of Misappropriated Monies

The following appendixes provide supporting documentation for the misappropriated monies and subpoenas issued as discussed in MAR finding number 1 and are summarized in the following table.

Appendix	Type of Supporting Documentation
A	State Auditor's Office Investigative Letter Sent to the Mayor
B	Payroll Overpayments
C	Improper Withdrawal and Payments
D	Improper Purchases
E	Improperly Recorded Utility Payments and Improper Adjustments
F	Falsified Meeting Minutes
G	State Auditor Subpoena - AT&T
H	State Auditor Subpoena - Verizon Wireless
I	State Auditor Subpoena - Verizon
J	State Auditor Subpoena - Green Dot Bank
K	State Auditor Subpoena - Ameren
L	State Auditor Subpoena - Tyus Byrd
M	State Auditor Subpoena - Helen Frye
N	State Auditor Subpoena - Simon Wofford

NICOLE GALLOWAY, CPA
Missouri State Auditor

January 11, 2019

Tyus Byrd, Mayor
103 East Main Street
Parma, MO 63870

Dear Mayor Byrd:

The Missouri State Auditor's Office Whistleblower Hotline recently received complaints from constituents who are concerned about the operations and finances of the City of Parma. The individuals have asked that their identity remain protected as allowed under Section 29.221.1, RSMo.

The complainants are alleging you gave yourself a pay raise from \$400.00 per month to \$800.00 per month within a few months of being elected, and then an increase to \$1,200.00 per month currently. In addition, the complainants stated they believe you have written city checks to "Cash," without the approval of the board of alderman. It is alleged these checks to "Cash," were used to purchase pre-paid credit cards which were used for purchases at Walmart. It is also alleged there are no receipts for these purchases retained in City Hall.

Next, the complainants are concerned with a donation of at least \$1,200.00 that was given to you for the purpose of establishing a bank account to support the Parma Fire Department, but there has never been documentation provided to the board of alderman to indicate this bank account was established. In addition, the complainants state the Parma Fire Department is not functioning and Parma residents have seen their home insurance costs rise sharply due to the lack of a fire department.

Next, the complainants stated the City of Parma recently received notice from the U.S. Treasury stating that the city has failed to pay payroll taxes for city employees from July of 2015 to the present which has accrued to approximately \$60,000 in taxes owed to the Treasury.

Under Section 29.221, RSMo, this office is conducting an initial review to investigate the complaints to determine if the complaints are credible. To assist with that investigation, we ask that you provide this office with the following:

1. a. Salary structure for the Mayor's position when you took office through the current salary
- b. Meeting minutes indicating board of alderman approval of all increases, including how each board member voted
2. Copies of all city checks written to "Cash" for the last 3 years and documentation for how these funds were used

Appendix A

City of Parma

State Auditor's Office Investigative Letter Sent to the Mayor

3. Receipts for any city purchases made with pre-paid credit cards for the last 3 years
4. Receipts for any donations made to the city and bank statements for the accounts in which the donations were deposited
5. Any notification from the Federal government related to a balance owed for unpaid payroll taxes
6. A statement from the board of alderman on the operational status of the city fire department

Please provide this documentation to our office no later than February 1, 2019.

If you have any questions or would like to discuss this matter, I can be reached at 573-751-4213 or brent.bayer@auditor.mo.gov.

Sincerely,

Brent Bayer
Director of Operations

- (1) Checks written to the Mayor from May 1, 2015, through October 30, 2015, were issued from the city's General bank account. Checks written from November 25, 2015, through March 29, 2019, were issued from the city's Payroll bank account.
- (2) Pay period/payment details were obtained from check memo lines for the period of May 1, 2015, through December 13, 2016, and payroll ledgers for the period of December 22, 2016, through January 31, 2019; with the exception of check numbers 6123, 6287, and 6653, for which the details came from paycheck stubs. These details are presented exactly as they are listed in the source documents, unless otherwise indicated.
- (3) Kimberly Hampton was the prior City Treasurer. Nelvia Donaldson was a former Alderwoman.
- (4) The payroll log indicates the net pay for this check was \$369.40; however, the actual check was written for \$366.40.
- (5) Payroll records supporting this payment could not be located. Gross pay was determined based on historical gross and net pay amounts.
- (6) The payroll ledger indicated the check was issued for a gross pay amount of \$500; however, the actual check was issued for \$1,000.
- (7) The payroll ledger shows check number 6065 was issued twice, once on November 15, 2017, and again on December 14, 2017; however, the actual check date was November 21, 2017.
- (8) The pay period/payment details shown based on city records was inaccurate.
- (9) This total includes a \$400 monthly payment for 8 months (May through December). It also includes \$226.67 for April 14 to April 30, which is the portion of the month the Mayor served.
- (10) This total includes a \$400 monthly payment for 12 months.
- (11) This total includes a \$400 monthly payment for 3 months (January through March). It also includes \$213.33 for April 1 to April 16, which is the portion of the month the Mayor served.

- (1) Checks written from June 19, 2015, through October 30, 2015, were issued from the city's General bank account. Checks written from November 5, 2015, through March 29, 2019, were issued from the city's Payroll bank account.
- (2) Pay period/payment details were obtained from check memo lines for the period of June 19, 2015, through January 27, 2017 (check number 5650), with the exception of check numbers 22611, 22622, 5244, and 5425 for which the details came from payroll ledgers; payroll ledgers for the period of January 27, 2017 (check number 5652), through December 27, 2017, with the exception of check numbers 5676 and 5770 for which the details came from check memo lines; paycheck stubs for the period of January 11, 2018, through March 29, 2019, with the exception of check numbers 6239, 6396, 6507, 6686, 6719, and 6718 for which the details came from check memo lines. These details are presented exactly as they are listed in the source documents, unless otherwise indicated.
- (3) Kimberly Hampton was the prior City Treasurer. Nelvia Donaldson was a former Alderwoman.
- (4) Payroll records supporting this payment could not be located. However, city records indicate the payment was divided between the City Collector and City Clerk during July. Gross pay was determined based on the City Collector's payroll ledger.
- (5) The pay period/payment details shown based on city records are inaccurate.
- (6) No date was recorded on the actual check. However, based on the check number sequence and date the check cleared the city's bank account, it was likely written on December 24, 2015.
- (7) Payroll records supporting this payment could not be located. Gross pay was determined based on historical gross and net pay amounts.

Appendix B
City of Parma
Payroll Overpayments

Overpayments to City Clerk Helen Frye								
Check Date	Actual	Check	Check	Pay Period/Payment Details as Shown in City Records, if Available (2)	Hours Worked Per Payroll Ledgers or Check	Gross Pay Amount	Net Pay Amount	Check Signers
Per Canceled Check	Check Date, if Different	Number Per Canceled Check (1)	Number Per City Records, if Different		Stubs, if Available			
(8) Check was issued out of order.								
(9) Gross pay and net pay are the same. No payroll withholdings were withheld from these checks.								
(10) We determined this check was a payroll advance/loan.								
(11) V-Check represents the payment of 2 weeks of vacation per calendar year.								
(12) The payroll check stub also indicated a \$225 payroll deduction would be made on February 14 and March 14, 2018, a \$277 payroll deduction would be made on February 23, February 28, and March 7, 2018, and a final \$219 payroll deduction would be made on March 22, 2018, for a total of \$1,500.								
(13) Payroll deductions totaling \$825 were made for the repayment of the \$1,500 payroll advance made on February 8, 2018. These deductions were \$175 on check number 6198, \$200 on check number 6204, \$200 on check number 6217, and \$250 on check number 6225.								
(14) Gross pay was determined based on historical information of withholding 7.65 percent from the previous paycheck.								
(15) Includes \$3,105.94 from June 9 through September 30, 2015, and \$4,224 for the remaining 13 weeks and 1 day of the year. The City Clerk was paid \$8 per hour and worked 40 hours per week or 8 hours per work day from October 1, 2015, through the end of the year.								
(16) Includes \$16,640 for 52 weeks during the year, \$320 for 1 week of vacation per calendar year, and \$2,880 for 240 hours of compensatory time. The City Clerk was paid \$8 per hour for 40 hours per week January 1, 2016, through April 28, 2016, and should have been paid at \$8 per hour the remainder of the year. Compensatory time was calculated at time and a half or \$12 per hour.								
(17) Includes \$11,840 for 37 weeks from January 1 through June 28, 2017 (26 weeks), and August 11 through October 26, 2017 (11 weeks), \$768 for 4 weeks from June 29 through July 26, 2017, \$1,440 for 6 weeks from July 27 through August 10, 2017 (2 weeks), and December 8 through January 3, 2018 (4 weeks), \$800 for 5 weeks from October 27 through November 21, 2017 (4 weeks), and the week of December 1 through December 7, 2017, \$288 for the week November 22 through November 30, 2017, \$640 for 2 weeks of vacation per calendar year, and \$768 of compensatory time worked January 2 through April 30, 2017. The City Clerk should have been paid \$8 per hour during 2017, and compensatory time was calculated at time and a half or \$12 per hour.								
(18) Includes \$6,720 for 21 weeks from August 1 through December 26, 2018, \$7,200 for 30 weeks from January 1 through July 31, 2018, and \$640 for 2 weeks of vacation per calendar year. The City Clerk should have been paid \$8 per hour during 2018.								
(19) Includes \$1,280 for 160 hours worked and paid on January 15, 2019 (40 hours), January 31, 2019 (40 hours), March 1, 2019 (40 hours), and March 29, 2019 (40 hours), and \$587.16 for 73.4 hours worked and paid on March 27, 2019. The City Clerk should have been paid \$8 per hour during 2019. The City Clerk indicated in sworn testimony that she did not consistently work 40 hours per week during 2019.

N/A Not applicable

- (1) Pay period/payment details were obtained from check memo lines for the period of December 23, 2015, through February 8, 2017, with the exception of check number 5475 for which the details came from payroll ledgers; payroll ledgers for the period of February 13, 2017, through December 28, 2017; and pay check stubs for the period of January 4, 2018, through April 11, 2019. These details are presented exactly as they are listed in the source documents, unless otherwise indicated.
- (2) Hours worked is shown only when hours worked based on gross pay differed from hours worked per city records.
- (3) Payroll records supporting this payment could not be located. Gross pay was determined based on historical gross and net pay amounts.
- (4) The pay period/payment details shown based on city records was inaccurate.
- (5) Nelvia Donaldson was a former Alderwoman.
- (6) Check was issued out of order.
- (7) The payroll check stub also indicated "Per Mayor, hours are 40 until further noticed."
- (8) The payroll check stub also indicated "David worked 55 hrs and was paid 46 (these 9 hours) is his difference."
- (9) Includes \$423.36 for the period of January 29 through February 11, 2016, \$5,440 for January 4 and 5, 2016, and the period of February 12 through June 8, 2016, and \$14,349.90 for the period of June 9 through December 28, 2016. During the period January 29, 2016, through February 11, 2016, David Thatch was paid \$7.56 per hour for 56 hours of work; \$8 per hour for 680 hours of work on January 4 and 5, 2016, and the period of February 12 through June 8, 2016; and \$9.30 per hour for 1,543 hours of work during the period of June 9, 2016, through December 28, 2016.
- (10) Includes \$25,298.50 for 2663 hours worked during the period of December 29, 2016, through December 28, 2017, and \$380 for 1 week of vacation. David Thatch was paid \$9.50 per hour during 2017.
- (11) Includes \$24,992.60 for 2630.8 hours worked during the period December 29, 2017, through December 26, 2018 (including 5 sick days), and \$760 for 2 weeks of vacation. David Thatch was paid \$9.50 per hour during 2018.
- (12) Includes \$7,714 for 812 hours worked during the period December 27, 2018, through April 10, 2019, and \$760 for 2 weeks of vacation. David Thatch was paid \$9.50 per hour during 2019.

Total Unsupported Payments \$			<u>22,320.79</u>				

N/A Not applicable

(1) These details are presented exactly as they are listed in the source documents, unless otherwise indicated.

(2) Cash withdrawal ticket was signed by Tyus Byrd and Helen Frye.

(3) Endorsement appears to indicate "Mayor" that is clearly followed by "Tyus Byrd."

(4) The date recorded on the check was April 26, 206. However, this appears to be an error, with the year intended to be 2016.

(5) Check was issued out of order.

(6) The date recorded on the check was December 28, 2017. However, based on the check number sequence and date the check cleared the city's bank account, it was likely written on December 28, 2016.

(7) The date recorded on the check was August 9, 2017. However, the check cleared the city's bank account on February 12, 2018, and the memo line indicates expenses relate to a February event.

(8) Various check details above indicate the purpose of obtaining cash was to purchase/load a prepaid debit card. Due to lack of store receipt slips showing the purchase/load of the prepaid debit card we could not definitively tie these transactions to the related purchases. However, we did identify \$8,721 of purchases/loads of a prepaid debit card and obtained documentation of use. Thus, the total unsupported payments is reduced by \$8,721, and the improper purchases made with this card are included on Appendix D.

Total Unsupported Payments \$			10,720.00				

(1) These details are presented exactly as they are listed in the source documents, unless otherwise indicated.

(2) According to the Missouri Secretary of State's online business filing website, Fry Maxx Janitorial Service (fictitious name registration) is owned by Keith Frye Jr, Helen Frye's husband. However, the registration for the fictitious name expired on April 30, 2017.

(3) In sworn testimony, Helen Frye confirmed the endorsement on these checks was her husband's signature.

(4) Portions of the memo line of the check, notated by a ~ symbol, were obstructed by a sticker placed on the canceled check. Thus, the wording is not known.

Improper Purchases Using Walmart Credit Card by City Clerk Helen Frye

Transaction Date	Purchase Description	Gift Card	Cellular	Other Purchases	Total
		Purchase and Fee Amount	Phone Card Purchase and Fee Amount		Improper Purchase Amount

(1) Purchases totaled \$182.23. However, a personal Electronic Benefit Transfer card was used to pay for \$140.00 of the purchases, with the remaining \$42.23 paid using the city's credit card. Only \$33.26 of legitimate city purchases were made, leaving \$8.97 of improper purchases.

City of Parma
Improperly Recorded Utility Payments and Improper Adjustments

- (1) Utility records show a payment was made on September 1, 2015. However, bank deposits and the related city records for the month of September show no evidence of a payment deposited.
- (2) A \$175 third party check was received as payment on Mayor Tyus Byrd's account. However, only \$158.41 was recorded to the utility account.
- (3) While complete payment reports were not available for this time period, a portion of a payment report was located showing that a payment of \$217.90 was posted to Mayor Tyus Byrd's account on April 29, 2016, for the March billing. A deposit with cash totaling \$269.52 was made on May 2, 2016. Therefore, we are showing \$217.90 of this cash as the amount paid on Mayor Tyus Byrd's account for the March billing. City officials indicated the city discontinued receiving cash payments sometime in early 2016.
- (4) Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balances based on the average billing amounts in 2015 and 2016.
- (5) The billing report for the following month shows a previous account balance of zero or a lesser amount than the previous month's ending balance and no payments made. The city's utility system software provider indicated the likely reason was a credit adjustment made to reduce the previous month's billing amount. No credit adjustment reports were prepared or retained by the city. Therefore, the amount billed and not paid is shown as an improper utility adjustment.
- (6) The billing report was not available. However, we calculated the billing amount based on the difference between the beginning and ending balances of the previous and following months.
- (7) The Mayor's utility account was closed and no further utility activity occurred in 2018 and 2019. No payments were made on the balance of the account of \$238.68. Therefore, the amount billed and not paid is shown as an improper utility adjustment.

Appendix E
City of Parma
Improperly Recorded Utility Payments and Improper Adjustments

- (1) David Thatch started employment with the city on December 18, 2015. However, because city records are not available, we could not determine that he received city water and sewer services prior to April 2016.
- (2) Billing reports were not available during this time period. The monthly payment amount was used to determine the billing amount.
- (3) Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balances based on the average billing amounts in 2017.
- (4) The billing report for March 2017 showed a balance due of \$203.69 and no payments made. However, the previous balance for the April 2017 billing was only \$52.36. The city's utility system software provider indicated the likely reason was a credit adjustment made to reduce the previous month's billing amount. No credit adjustment reports were prepared or retained by the city. Therefore, the amount billed and not paid is shown as an improper utility adjustment.
- (5) The billing report for the following month shows a previous account balance of zero and no payments made. The city's utility system software provider indicated the likely reason was a credit adjustment made to reduce the previous month's billing amount to zero. No credit adjustment reports were prepared or retained by the city. Therefore, the amount billed and not paid is shown as an improper utility adjustment.
- (6) The billing report was not available. However, we calculated the billing amount based on the difference between the beginning and ending balances of the previous and following months.
- (7) No payments were made on the balance of the account of \$246.72. Therefore, the amount billed and not paid is shown as an improper utility adjustment.
- (8) Due to records being destroyed by fire in April 2019, the city billed customers that had not already paid their utility bills for these months a flat amount of \$59.79. Seniors were billed \$57.79 these months.
- (9) A \$300 payment was made on this account on June 10, 2019, for January through May 2019 service.

City of Parma
Improperly Recorded Utility Payments and Improper Adjustments

- (1) Billing reports were not available during this time period. The monthly payment amount was used to determine the billing amount.
- (2) Simon Wofford started serving as Alderman in April 2016.
- (3) Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balance amounts based on the average payment amount for the 8 months of 2016 available.
- (4) The billing report for the following month shows a previous account balance of zero and no payments made. The city's utility system software provider indicated the likely reason was a credit adjustment made to reduce the previous month's billing amount to zero. No credit adjustment reports were prepared or retained by the city. Therefore, the amount billed and not paid is shown as an improper utility adjustment.
- (5) The billing report showed a payment of \$66.12 was made; however, bank records only showed a payment of \$60.93 was deposited and Alderman Wofford did not provide proof of payment of the remaining \$5.19 of the billing amount.
- (6) The billing report was not available. However, we calculated the billing amount based on the difference between the beginning and ending balances of the previous and following months.
- (7) The billing report showed a payment was made; however, bank records showed no evidence of a payment deposited and Alderman Wofford did not provide proof of payment.
- (8) Due to records being destroyed by fire in April 2019, the city billed customers that had not already paid their utility bills for these months a flat amount of \$59.79. Seniors were billed \$57.79 these months.
- (9) A \$57.79 payment was made to this account on May 13, 2019, for March 2019 service and another payment was made on June 10, 2019, for April 2019 service.

(1) Alderwoman Jones was elected to the Board in April 2017.

(2) The billing reports indicated a full payment of the previous balance was made. However, bank records indicate only a partial payment of the balance due was made. Therefore, the amount billed and not paid is shown as an improperly recorded utility payment.

(3) The ending balance for December 2017 was \$121.66. However, the previous balance for January 2018 was only \$61.60 and no payment was made. The city's utility system software provider indicated the likely reason was a credit adjustment made to reduce the previous month's billing amount. No credit adjustment reports were prepared or retained by the city. Therefore, the amount billed and not paid is shown as an improper utility adjustment.

(4) The billing report was not available. However, we determined the billing amount based on the previous balance reported on the following month's billing report.

(5) The ending balance for June 2018 was \$168.67. However, the previous balance for August 2018 was only \$68.83. A payment of \$84.03 of the \$168.67 due was made and deposited. Because the billing report for July could not be located, we could not determine whether the remaining \$84.64 due was posted as an improperly recorded utility payment or improper utility adjustment to the account. Therefore, the amount billed and not paid is shown as an improper utility adjustment.

Appendix E
City of Parma
Improperly Recorded Utility Payments and Improper Adjustments

- (6) A \$150 check was written on November 22, 2018; however, it did not clear the bank until December 2018. Therefore, the payment is shown in December 2018.
- (7) Due to records being destroyed by fire in April 2019, the city billed customers that had not already paid their utility bills for these months a flat amount of \$59.79. Seniors were billed \$57.79 these months.
- (8) A \$119.58 payment was made on this account on June 10, 2019, for April 2019 and May 2019 (\$59.79) service.

Appendix E
City of Parma
Improperly Recorded Utility Payments and Improper Adjustments

- (1) The first utility billing located in city records for this church was in April 2016, but the April billing showed a previous balance due for March 2016. However, because city records are not available, we could not determine if the church received city water and sewer services prior to March 2016.
- (2) The billing report showed a payment was made; however, bank records showed no evidence of a payment deposited. Therefore, the payment is shown as an improperly recorded utility payment.
- (3) There is no evidence a payment was made. Therefore, the amount billed and not paid is shown as an improper utility adjustment.
- (4) Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balance amounts based on the average billing amounts in 2017.
- (5) The billing report for the following month shows a previous account balance of zero and no payments made. The city's utility system software provider indicated the likely reason was a credit adjustment made to reduce the previous month's billing amount to zero. No credit adjustment reports were prepared or retained by the city. Therefore, the amount billed and not paid is shown as an improper utility adjustment.
- (6) The billing report was not available. However, we calculated the billing amount based on the difference between the beginning and ending balances of the previous and following months.
- (7) Due to the lack of city billing and payment records and no evidence of payments made, we estimated the billing, adjustment, and ending balance amounts based on the billing amounts in 2018.
- (8) Due to records being destroyed by fire in April 2019, the city billed customers that had not already paid their utility bills for this month a flat amount of \$59.79. Seniors were billed \$57.79 this month.
- (9) A \$59.79 payment was made on this account in May 2019 for April 2019 service.

Minutes located by SAO investigators at City Hall.

City of Parma
City Council Meeting
Regular Session
July 14, 2015
5:00 p.m.

Mayor Tyus Byrd called the meeting to order. Those present were: Mayor Tyus Byrd, Alderman Nelvia Donaldson, Alderman Rob Branom, and Alderwoman Faith Richards, Court Clerk-Arica George, and City Clerk Helen Frye. The opening prayer was given by Alderwoman Nelvia Donaldson.

Mayor Byrd asked City Clerk- Helen Frye to call roll: Alderwoman Nelvia Donaldson, Alderman Rob Branom

Mayor Byrd asked City Clerk to swear in Alderwoman Faith Richards who was appointed for Ward I. Mayor Byrd announced that after posting Ward I open for Alderman for Ward I and there was no respond she carry on with the City Affairs. After the swearing in of office for Alderwoman Richards. Mayor Byrd informed the City that the last regular meeting was in April and there was no findings on any other meeting by the previous administration. Mayor Byrd stated she has met several times discussing the City Affairs with all the available Alderman prior to the regular session.

Mayor Byrd continued with the Agenda for this meeting. She informed the City Council that she still have one open for Alderman in Ward I and she will post the information up for the public.

Water Department

Mayor Byrd informed the City of the Water Plant there was a broken vacuum pump. The City workers worked around the clock to keep the water system working properly and also informed them that a boiled water procedure was placed in order until further released from DNR (Department of Natural Resource) in which water samples was taken by our local agency in Poplar Bluff.

Mayor Byrd also, discussed with the Alderman that she evaluated the water/sewer bill incoming income, she notice we have a lot of late payers after the 10th, therefore, she discussed in her meeting that the 10th was changed to the 15th for the cut off date, which will probably work better for the residents who are paid by or on the 15th of the month. She also stated that this will cut down on the cut off and the non-collection in the month.

Last Monday in the month for the

Bills to be paid

Mayor Byrd asked for a motion to pay bills next month and have a report by the next meeting. 1st motion Alderwoman Nelvia Donaldson and 2nd Alderwoman Richards to motion to pay bills next month and have a report by the next meeting. All Ayes, motion stands.

Mayor asked for a motion to table the treasure report to the next board meeting. 1st motion Alderwoman Richards and 2nd Alderwoman Donaldson. All Ayes, motion stands.

Redactions were made of information of a personal, privileged, or sensitive nature.

Minutes provided to auditors by the Mayor and City Clerk.

City of Parma
City Council Meeting
Regular Session
July 14, 2015
5:00 p.m.

Mayor Tyus Byrd called the meeting to order, approximately 5:08pm. Those present were: Mayor Tyus Byrd, Alderman Rob Branom, other staff; Officer Jannel Winters, Water Utility Clerk-Arica George, and City Clerk Helen Frye. The opening prayer was given by City Clerk- Helen Frye.

Mayor Byrd asked City Clerk- Helen Frye to call roll: Alderman Rob Branom-present Alderwoman Nelvia Donaldson-absent and Alderwoman Faith Richards-absent

Mayor Byrd informed that only one City Council is present therefore, the regular agenda will not be addressed tonight.

Water Department

Mayor Byrd informed the City; Rick is here to address the water department. Mr. Dave Seuell discussed the water is up and operating properly and if situations come up, He handles it the best of his knowledge and DNR when they came down a few months ago. They watch him work and Mr. Seuell has the water operational system in the capacity that it should be.

Bills to be paid

Mayor Byrd informed the City Council that this will not be discussed due to not a quorum for a regular business meeting.

Police Report: Mayor has no report from police department at this time.

Court Report: Mayor has no report at this time, due to court has not been in session.

Collector's Report/ Treasurers Report:

Mayor informed the City Council that this will not be discussed due to not a quorum for a regular business meeting.

City of Parma
City Council Meeting
Regular Session
July 14, 2015
5:00 p.m.

Closed Session: The Mayor Tyus Byrd executive board meeting.

Mayor Byrd informed the two-present board of Alderman/Alderwoman who was present at this meeting the moving forward of the City Affairs. She indicated that there is one open alderman position. She informed the Board present she can not get a full quorum. There is always just two either or but hardly three. Mayor indicated she has several discussions; especially with Alderwoman Nelvia Donaldson. She more on hand then:

She indicated she wanted to meet closed because she wanted to discuss personnel issues: Mrs. Frye and I works closely together; she works efficiently and a hard worker, well trained, and know City Business Affairs. Therefore, with her position, I will also be crossed trained with the City Clerk tasks in her absence. She informed the Board both clerks water clerk and city clerk will also cross train in the other position (police clerk, collection, and water clerk) in case one is out.

Mayor stated as of now there is not enough revenue generated in the city; until we wait as documentations and revenue comes in; to open up another position. The police department is slow and collection is mostly 1st thru the 15th and throughout the month citizens comes and go; in which a least one clerk has to be there if not all day.

Mayor Byrd mention in the regular board meeting on the agenda she mentions the changeover in mayor ship and City Clerk and herself has been working precisely and persistently; this is what she discussed with the board about her office administration; this administration will have to wait as time proceed and work with what we have for now.

Mayor Byrd discussed with the board the setup of the previous personnel office for collection and city clerk was once a month and a small amount. Collector \$300.00 to 5% of all collector of revenue in the operational month; City Clerk \$262.50 a month and \$270.00 and \$275.00 for Court Clerk a month.

The City Clerk came in on experience and Mayor would like for the office clerks pay to change to weekly and since both clerks will do each other jobs she mention the city treasure and collector will be divided between the two clerks, along with the police department pay. Alderman Branon mention so someone will be here at all times; because he can't pay his water bill until late in the evening. Mayor Byrd stated yes, the regular open hours will be the same unless the City have other financial concerns.

Mayor Byrd mention her pay of \$400.00 month and this was set under the last administrative office; as funds increase in the City she will bring back to the table being paying on the 1st and 15th; \$800.00 a month this will take effect one employee at a time, as revenue generates. Mayor Byrd had mention this to Alderwoman Faith Richard. Miss Alderwoman Richard stated you

a family and do you have any other income besides the City income. Mayor Byrd replied this her only income; and she will check the procedure and bring her research back to the board.

Alderman Faith asked what was the previous Mayor receiving besides the \$400.00 the ordinance; she further stated it should be \$1,000.00 a month with all the meetings and traveling to seek funds to help the City. Alderman Rob Branom stated yes it has to be a lot to operate when you do not know where things are.

Mayor Byrd the increase will occur over time; due to how the City Revenue will generate.

City Clerk stated she could not find any records on the previous Mayor pay or his traveling and mayor business expense; she only knows from experience how traveling pay and business expense was part of the mayorship packet to seek funding and revenue for the city. Mayor Byrd

Mayor Byrd indicated the city clerk and she will be traveling to learn what revenue or grants at top level and get agencies in to help with revenue and other betterment for the City.

Mayor Byrd asked was there anything else.

Closed meeting adjourned. No one closed the meeting everyone was talking.

City Council Meeting
Regular Session
Aug 11, 2015
5:00 p.m.

Mayor Tyus Byrd called the meeting to order approximately 5:05 pm. Those present were: Mayor Tyus Byrd, Alderman Rob Branom, and Alderwoman Faith Richards, and City Clerk Helen Frye. The opening prayer was given by Alderwoman Faith Richards.

Mayor Byrd asked City Clerk- Helen Frye to call roll: Alderwoman Faith Richards and Alderman Rob Branom; Alderwoman Nelvia Donaldson absent.

Other staff presented; Court Clerk-Arica George, Officer Jannel Winters, and Dave Seuell (Rick) from Water and Street Department

Mayor Byrd and City Council reviewed and read over the July 14th, meeting minutes. Mayor Byrd asked motion for approval of the July 14th, meeting. She asked a motion for the July 14th, board meeting; 1st motion by Alderwoman Richards and 2nd by Alderman Branom. All Ayes and motion stand for approval.

Mayor Byrd stated she has been discussing the City Affairs with all the available Alderman prior to the regular session.

Mayor Byrd informed City Council for the records that she and the City Clerk had called and written different vendors and other agencies to update City Records. The updating consist of these administrative office; position changes, name changes on documents, bank accounts signature change, and other city business, and also the incoming income from other agencies.

Mayor Bryd informed; Mayor Byrd, Alderwoman Nelvia Donaldson, along with City Clerk- Helen Frye are on the three on the signature card at First State Community Bank in Malden, MO.

Mayor Byrd made contact with Focus Bank in Sikeston, MO concerning a few loans that the City has taken out.

Mayor Bryd informed the City Council that the turnover in Mayor-ship and New Office Staff were transitioned great.
Mayor Byrd continued with the Agenda for this meeting.

Mayor Bryd reported to the City Council there is one position open Alderman in Ward I and she will post the information up for the public. She also indicated she would call to speak with the County Clerk – Mr. Clément Craven in New Madrid regarding this open Alderman position.

Mayor Byrd informed the City Council for the city records, this year Down Home was on and she had not verbally heard from their board about the success of it. From her knowledge, it was a good turnout.

Appendix F
City of Parma
Falsified Meeting Minutes

Underlined text represents information that is the same in each set of meeting minutes.

Minutes located by SAO investigators at City Hall.

Mayor Byrd informed the City Council for the city records, this year Down Home was on
and she had not verbally heard from their board about the success of it. From her
knowledge, it was a good turnout.

Stray Dogs

Mayor Byrd and Officer Winters will make contact with New Madrid County on the stray dogs and cats.

Pot Holes

Mayor Byrd was informed by City Water and Street, Rick (Dave) Seuell that he has been preparing and filling in pot holes, she has been informed about the wear and tear on the residents' vehicles. A citizen was present and reported there is a large pot hole located near a manhole.

Water Department

Mayor Byrd informed the citizens that 2014 Annual Water Quality Report (CCR) has been signed and sent back in. It and was reported to the residents on their water bill If a copy is needed it can be provided inside the city hall.

Mayor Byrd informed that Rick (Dave) Seuell works around the clock to keep the water system working properly. Mr. Tommy Williams works on the water sample and other samples. These monthly documentations are faxed or mailed in to DNR (Department of Natural Resource).

Mayor Byrd informed the City Council that she has three men who are experienced about the city water system, city pumps and about city water

Bills to be paid

Mayor Byrd presented to the City Council the bills to be paid for the month of August. She stated as indicated in the last minutes there are bills that are bank drafts at the beginning of the month and other first of the month bills that were unchangeable. She stated the bulk of the bills as indicated in the July 2015 minutes will be paid by the 15th of the month.

Mayor Byrd presented the Treasure Report for July and Aug for all incoming revenue.

Police Report: Mayor Byrd informed the City Council that Officer Jannel Winters and Police Clerk Arica George met with Judge Santie concerning how to properly handle old cases. Mayor Byrd indicated Officer Brian Johnson resigned from the police department on July 7, 2015.

Court Report: Mayor met with Judge Santie and he reviewed the previous cases under the previous administration

Collector's Position/ Treasurers Position:

Mayor has not met with City Council on the collector and treasure position. She will discuss with the board how she would like to handle these position: 1st motion Alderman Rob Brandom and 2nd Alderwoman Faith Richards to table the Collector's and Treasurers' position: All Ayes, motion stands.

Minutes provided to auditors by the Mayor and City Clerk.

**City Council Meeting
Regular Session
Aug 11, 2015
5:00 p.m.**

Mayor Byrd presented the Treasure Report for July and Aug for all incoming revenue.

Collector's Position/ Treasurers Position:

Motion to Adjourn: Alderman Rob Brandom made a motion to adjourn the meeting approximately 6:15 pm Alderwoman Faith Richards seconded the motion. 3 Ayes motion stands.

Mayor Tyus Byrd

City Clerk Helen Frye

Minutes located by SAO investigators at City Hall.

City of Parma
City Council Meeting
Regular Session
Nov 10th, 2015
5:00 p.m.

To place in City records Mayor Byrd briefly met with Alderman Rob Branom and Alderwoman Nelvia Donaldson about some concerns.

1. Bills to be paid – Mayor Byrd informed the City Council the bills are being paid in a timely matter, some invoices are unknown to be paid and are coming in late. All accurate and current bills are paid.
2. Discussing about how much information or how accurate do a Financial Report should be presented to the Board. Alderman Branom stated quarterly reports on the finance would be implemented, which will be your detailed of all records.
3. Meeting with the Alderman before the Board Meeting on the 1st Tuesday before the meeting would also be in place, so City Council will be aware what is on the Agenda.
4. Mayor Byrd informed the City Alderman the City needs credit cards for online business, police department and other city expenses. Some City Business required credit card transactions, or business trips to Jefferson City, or far off; even on some on line transaction. The City Clerk applied numerous and different companies; result was denial or a card already in use; and we can not discuss or give out information unless you have the pass code or your social security number.
5. Alderwoman Nelvia Donaldson stated Walmart offers different types of prepaid services. Alderwoman Nelvia Donaldson state to get all necessary information and will table and discussed at the next meeting.

Mayor Byrd called each present members by name was there anything else.

Mayor Tyus Byrd

City Clerk Helen Frye

RE: Subpoena from Missouri State Auditor

To whom it may concern:

Enclosed is a subpoena from the Missouri State Auditor's office. It is requesting records for an account for which the number is unknown. As instructed, we have listed the routing and account number of the bank account that was used and the dates of the payments. If those details are insufficient, we would appreciate it if you would let us know so that we may determine if we have any other details that might be helpful.

Production of the records themselves will satisfy the subpoena. If the date set forth in the subpoena is problematic, please let me know as soon as possible.

I may be contacted by mail at the address shown at the bottom, as well as by phone. I am also happy to communicate by e-mail at joel.Anderson@auditor.mo.gov.

A handwritten signature in blue ink, appearing to read "Joel E. Anderson", with a long horizontal flourish extending to the right.

Missouri State Auditor Subpoena Exhibit A attachment

NICOLE GALLOWAY, CPA
Missouri State Auditor

October 22, 2019

Verizon
Attn: Verizon Security Assistance Team
1080 Washington Valley Rd
Bedminster, NJ 07921

RE: Subpoena from Missouri State Auditor

To whom it may concern:

Enclosed is a subpoena from the Missouri State Auditor's office. It is requesting records for an account for which the number is unknown. As instructed, we have enclosed a redacted copy of the bank account that was used showing the payments. These payments were processed through JPMorgan. If those details are insufficient, we would appreciate it if you would let us know so that we may determine if we have any other details that might be helpful.

Production of the records themselves will satisfy the subpoena. If the date set forth in the subpoena is problematic, please let me know as soon as possible.

I may be contacted by mail at the address shown at the bottom, as well as by phone. I am also happy to communicate by e-mail at
Sincerely

Joel.Anderson@audtior.mo.gov.

Joel E. Anderson
Chief Litigation Counsel

OFFICE OF MISSOURI STATE AUDITOR

SUBPOENA

To: Verizon
Attn: Verizon Security Assistant Team
1080 Washington Valley Rd
Bedminster, NJ 07921

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative, Joel Anderson, Chief Litigation Counsel, at the Truman State Office Building, 301 West High Street Room 880, Jefferson City, Missouri 65101, at 9:00 a.m. on November 1, 2019 for purposes of providing testimony and producing for examination, copying, and interrogation the following records and documents listed on Exhibit A attached to this Subpoena.

In lieu of appearance, you may ship the records listed in Exhibit A to the Missouri State Auditor to the attention of Pam Allison at 301 W. High St., Room 880, Jefferson City, MO 65102.

ISSUED this October 22, 2019, pursuant to Section 29.235.4(1), RSMo.

Nicole Galloway
Missouri State Auditor

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A

Please produce all records (billing statement including account numbers, name on the account, and address of the account) relating to the following phone payments made from the City of Parma's bank account No. [REDACTED]:

05/16/2016 ACHIVR VISB TEL \$698.51
08/29/2016 ACHIVR VISB TEL \$286.23

This amount should have been \$698.92.

Service name on the account for these payments are suspected to be related to one or more of the following names and social security numbers, which may aid you in producing these records:

Tyus Byrd
Helen Frye
David Thatch
Jannel Winters

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

Nicole Galloway, CPA

Missouri State Auditor

Stone County

Report No. 2020-037

July 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Stone County

Public Administrator's Controls and Procedures	The Public Administrator does not always file annual settlements and/or status reports timely. The Public Administrator does not assess and collect fees from the accounts of most wards and estates. The Public Administrator lacked adequate documentation for several gift cards purchased for a ward during the year ended December 31, 2019.
Sheriff's Controls and Procedures	Sheriff's office personnel do not deposit receipts timely and restrictively endorse checks upon receipt. The office also (1) does not have proper controls and procedures in place to ensure all unpaid costs for boarding prisoners are adequately identified and pursued, (2) has not established procedures to routinely follow up on outstanding checks in the Inmate bank account, and (3) charges a \$15 flat fee for mileage when serving civil papers, which is not in accordance with state law.
County Collector's Controls and Procedures	The County Collector does not monitor and/or subsequently reduce the percentage used to calculate amounts withheld from tax collections for the Assessment Fund, and as a result during the year ended December 31, 2019, she withheld approximately \$77,700 more from tax collections for the Assessment Fund than allowed by state law. The County Collector does not adequately monitor taxpayer balances in the partial payment account. The County Collector's Deputy does not account for the numerical sequence of manual receipt slips issued for partial payments.
Payroll Controls and Procedures	Timesheets are not prepared for salaried employees and their vacation, sick leave, or compensatory time earned and taken is not tracked. Salaried employees are paid in advance of time worked, which may lead to errors and the potential for employees to be over/under paid.
Prosecuting Attorney's Depositing Procedures	The Prosecuting Attorney's office does not deposit receipts timely.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	16
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Stone County

We have audited certain operations of Stone County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

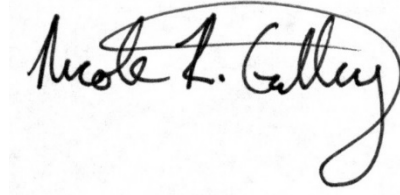

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Stone County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

Stone County Management Advisory Report State Auditor's Findings

1. Public Administrator's Controls and Procedures

Controls and procedures in the Public Administrator's office need significant improvement. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 52 wards and estates as of December 31, 2019.

1.1 Filing

The Public Administrator does not always file annual settlements and/or status reports timely. During our review of 42 cases, we found 37 cases did not have annual settlements or status reports filed timely. Settlements filed (or still due) for these cases ranged from 103 days to more than 7 years after the due date. For 8 cases, the settlement or report was overdue by more than 5 years.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement and/or status report with the court for each ward or estate. Timely filing of annual settlements and/or status reports is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

We noted a similar condition in our prior audit report. In addition, Report No. 2016-142, *Follow-Up Report on Audit Findings - Stone County*, issued in December 2016, reported the status, at that time, as partially implemented.

1.2 Fees

The Public Administrator does not assess and collect fees from the accounts of most wards and estates. During the year ended December 31, 2019, fees totaling \$2,781 were assessed and paid to the county treasury for only 2 of the wards and/or estates. Section 473.742.4, RSMo, provides all fees collected by the Public Administrator who elects to be salaried are to be deposited into the county treasury.

To ensure fees are consistently assessed against the accounts of the wards and estates and remitted to the county treasury, the Public Administrator should work with the court to establish a policy for fees to be assessed.

1.3 Gift cards

The Public Administrator lacked adequate documentation for several gift cards purchased for a ward during the year ended December 31, 2019. One ward receives gift cards on a regular basis for shopping trips. The Public Administrator provided receipts totaling \$2,355 for the purchase of the gift cards and the ward submitted receipts totaling \$1,723 to the Public Administrator to support the purchases made with these cards.

Using the receipts from both the Public Administrator and the ward and the beginning balances of the gift cards (when available) as indicated on the receipts provided by the ward, we determined the ward did not submit receipts for purchases totaling at least \$632.

Stone County
Management Advisory Report - State Auditor's Findings

To ensure payments are valid and proper and to reduce the risk of loss, theft, or misuse of ward assets, adequate supporting documentation should be maintained for all disbursements, including monies or other items of value provided to a ward.

Recommendations

The Public Administrator:

- 1.1 File annual settlements and/or status reports timely.
- 1.2 Work with the court to establish a policy outlining the fees to assess wards and estates and ensure these fees are assessed and paid to the county for all applicable wards and estates.
- 1.3 Obtain and retain documentation for monies or other items of value provided to wards.

Auditee's Response

- 1.1 *Many of the same reasons the annual settlements and/or status reports that were noted in your last audit report (Report No. 2016-142) as not being filed in a timely manner remained the same through December 2019. My office operates with no staff other than myself, and trying to carry a heavy and complicated caseload does not always leave time for "timely filings" to the court. I predict that this will improve greatly as the county has now provided my office with a part-time employee. This employee was hired the middle of October 2019 and with only working 20 hours a week and moving to a new office, did not leave enough time to "catch-up" on filings to the court prior to your audit. I did not receive a list of the 37 cases that you refer to in your report, but I do know that of the files that you specifically requested that some of those estates have had filings in them since the first of the year (2020) and some of the files that have been opened for several years that you noted in your audit have since been resolved and closed since your team left the county and since the first of this year also. In summary, with the new employee and hopefully a new "estate management computer program" that was approved in my 2020 budget, the controls and procedures in my office will have significant improvement moving forward. I would like to note however, that the purchase of the computer program is now on hold due to the hit that Covid-19 has caused on tax revenues and the affect that the virus has had on available funds coming into the county. If these issues are resolved and allow for the program to be purchased, this computer program will be a "game-changer" for this office and the ability to get the settlements and reports filed in a timely manner.*
- 1.2 *I would concur that fees being assessed and collected from the accounts of wards and estates have a direct impact on our county's*

Stone County
Management Advisory Report - State Auditor's Findings

budget and I totally agree with the importance of collecting those fees for the county when the funds are available. During the year 2019 that you note in your audit, it is true that only \$2,781 was collected in fees. For the year 2019, I had budgeted for anticipated fees in the amount of \$15,000, which is far short of the \$2,781 collected. Two decedent estates that we had anticipated closing in 2019 did not close, due to issues beyond the control of my office. Therefore, the amount of fee revenues not collected in 2019 were budgeted for collection in 2020 and increased by the \$10,000 that was not received in 2019. We know these cases will be resolved and closed in 2020. The 2020 budget for anticipated fees is \$25,000, most of which I would anticipate collecting as many of my indigent wards have received stimulus checks due to Covid-19 relief. Therefore, after taking care of some of their personal pressing needs and burial plans, I hope to have some of those stimulus funds remaining to turn over to the county for fees. I would note that in some of those estates that have been closed since you left the county (as mentioned in 1.1 of my response above), \$10,089 has already been paid over to the county in 2020 from these closed estates since January 1. This amount reflects the fees from the estates that we weren't able to get closed in 2019 and therefore would have made the amount of \$2,781 look much different. It is very important to note that only one of my ward's during 2019 was not considered "indigent" and without funds to pay fees. The largest majority of my caseload is always overwhelmingly indigent and without funds to pay fees. The term, "you can't get blood from a turnip" truly applies here. The policy with the court will remain the same. As funds for fees are available to be petitioned for, an application will be submitted to the Probate Court for approval of fees, and after the court's approval will be deposited to the county treasury, as has always been policy.

- 1.3 *I concur that there needs to be improvement in collecting the supporting documents that need to be turned in to my office by the ward that you point out in your findings. We continue to work with and educate this ward and there has been some improvement since the first of the year. The other two wards that I routinely purchase monthly shopping cards for, always turn their receipts in to my office. However, I do agree that this ward in your findings does struggle to remember to keep receipts and tends to lose them often. Due to him being homeless most of the time and moving from place to place, it is difficult for him to keep up with all the receipts, but for these same reasons it would be very difficult for me to personally take him shopping.*

It is my understanding that there is a process whereby, I can obtain directly from Walmart the copies of any or all missing receipts that

Stone County
Management Advisory Report - State Auditor's Findings

my ward failed to turn in. For this purpose, and as I have explained in the past, shopping cards are so much better than giving wards cash. Shopping cards can be used to protect the funds and assure that there is no risk of loss or theft, as the cards can be canceled and reissued and duplicate receipts can be recovered from Walmart. Concerning our discussions about the purchase of shopping cards for my wards, I have also implemented your suggestion and procedure of having my wards sign the receipts that reflect the purchase of the shopping cards that are purchased for them, in order to verify their receipt of the cards.

2. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected approximately \$290,000 for civil paper service, bonds, concealed carry weapon permits, commissary commissions, and other miscellaneous receipts during the year ended December 31, 2019.

2.1 Receipts and deposits

Sheriff's office personnel do not (1) deposit receipts timely and (2) restrictively endorse checks upon receipt. Receipts are typically deposited once a week. During a cash count performed on December 17, 2019, we identified 11 checks, totaling \$668, that were not restrictively endorsed. Checks are endorsed when the deposit is prepared.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of monies will occur and go undetected.

2.2 Board bills

The Sheriff's office does not have proper controls and procedures in place to ensure all unpaid costs for boarding prisoners are adequately identified and pursued. During 2019, the office personnel did not track all board bill payments on the log maintained. As a result, they could not monitor amounts billed to ensure payments were received and properly disbursed. County budgets indicate the county received board bill payments totaling approximately \$251,000 in 2019.

Procedures such as independent reconciliations of billing records to jail records and payments received should be established to ensure all prisoner housing is properly billed and payments are received, recorded, and appropriately transmitted. Proper records and follow-up procedures are also necessary to safeguard against possible loss, theft, or misuse of funds going undetected.

2.3 Outstanding checks

The Sheriff's office has not established procedures to routinely follow up on outstanding checks in the Inmate bank account. As of November 30, 2019, 79 checks totaling \$389 had been outstanding for more than a year, with some checks dating back to December 2016.

Stone County Management Advisory Report - State Auditor's Findings

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

2.4 Paper service fees

The Sheriff's office charges a \$15 flat fee for mileage when serving civil papers, which is not in accordance with state law. The Sheriff collected approximately \$25,000 for civil paper service fees, including mileage, during the year ended December 31, 2019.

Section 57.280, RSMo, provides that the Sheriff be reimbursed for each mile actually traveled to serve any summons, writ, subpoena, or other order of the court. Charging a per-mile reimbursement for service will bring the Sheriff into compliance with state law.

Recommendations

The Sheriff:

- 2.1 Deposit monies timely and restrictively endorse checks at the time of receipt.
- 2.2 Develop procedures to ensure all prisoner housing is properly billed and payments are received, recorded, and appropriately transmitted.
- 2.3 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.
- 2.4 Ensure civil paper service fees are charged in accordance with state law.

Auditee's Response

- 2.1 *All checks are now double checked to make sure they were not missed being endorsed when receipted. Per the December 2016 audit, the Sheriff's office was told a weekly receipt deposit was considered timely. Effective immediately the Sheriff's office will deposit receipts timely.*
- 2.2 *The previous Jail Administrator stopped tracking the board bill payments in late 2019. That Jail Administrator has since been relieved of his duty. This problem has since been rectified. The Sheriff's office now has a full-time employee along with the new Jail Administrator to track all board bills and payments daily.*
- 2.3 *Checks are issued for inmates that are transferred to another facility, including the Missouri Department of Corrections. The checks are sent to the facility with the inmate's personal belongings and held in*

Stone County
Management Advisory Report - State Auditor's Findings

the inmate's property until the inmate is released. We are looking at other ways to rectify this.

- 2.4 *Effective, February 28, 2020, after the Auditor's recommendation the Sheriff's office changed the fees for civil paper services to \$30, plus a fee for actual mileage.*

Auditor's Comment

- 2.1 The timeliness of deposits is dependent on the amount of monies on hand. Based on our review of receipts in the Sheriff's office during the year ended December 31, 2019, depositing once a week is not sufficient and increases the risk that loss, theft, or misuse of monies will occur and go undetected.

3. County Collector's Controls and Procedures

Controls and procedures in the County Collector's office need improvement. The County Collector collected approximately \$32 million in property taxes and other monies during the year ended February 29, 2020.

3.1 Assessment withholdings

The County Collector does not monitor and/or subsequently reduce the percentage used to calculate amounts withheld from tax collections for the Assessment Fund, and as a result during the year ended December 31, 2019, she withheld approximately \$77,700 more from tax collections for the Assessment Fund than allowed by state law.

Section 137.720.1, RSMo, requires a one percent commission on ad valorem property tax collections allocable to each taxing authority be deducted from the collections of taxes each year and deposited into the assessment fund of the county. Section 137.720.3, RSMo, requires an additional one-half percent commission. However, Section 137.720.3, RSMo, limits the one-half percent deduction to \$75,000. After this limit is reached, the total percentage used should be reduced. Adequate monitoring and proper calculation of Assessment Fund withholdings is necessary to ensure compliance with statutory provisions.

3.2 Partial payments balances

The County Collector does not adequately monitor taxpayer balances in the partial payment account. As a result, the County Collector held monies that should have been refunded or applied to tax bills. As of January 2020, approximately 31 taxpayers had balances in the account.

Partial payment records included activity for 8 taxpayers with balances totaling \$2,317 that should be refunded. These taxpayers have not made a partial payment since at least January 2019 and do not owe any taxes to the county.

In addition, 2 taxpayers had balances sufficient to pay some or all of their taxes due, but since the taxes remained unpaid, these taxpayers continued to

Stone County Management Advisory Report - State Auditor's Findings

accrue interest and penalties on their delinquent tax bills. One of these taxpayers owed 2019 taxes totaling \$1,178 but had an account balance of \$1,200. However, since the balance had not been applied to taxes due, interest and penalties totaling \$157 have accrued as of February 2020. The County Collector indicated taxpayers are responsible for notifying the office if they want to use their partial payment balance to make a tax payment.

Without regular identification of taxpayer balances and comparison to taxes due, there is less likelihood payments will be promptly applied and refunds will be issued when necessary.

3.3 Manual receipts

The County Collector's Deputy does not account for the numerical sequence of manual receipt slips issued for partial payments. As a result, there is no assurance that all partial payments received have been properly recorded and deposited.

Failure to implement adequate receipting procedures increases the risk of loss, theft, or misuse of monies will occur and go undetected.

Recommendations

The County Collector:

- 3.1 Review Assessment Fund withholdings for past years, determine the excess amount distributed to the Assessment Fund, and disburse that amount to the taxing authorities. The County Collector should also ensure the percentage to be deducted from property taxes for the Assessment Fund is properly reduced in future years once the \$75,000 limit is reached.
- 3.2 Monitor partial payment account balances to determine if taxpayer balances are sufficient to apply to taxes due. Also, the County Collector should timely process refunds when necessary.
- 3.3 Account for the numerical sequence of manual receipt slips.

Auditee's Response

- 3.1 *This error was due to an interpretation of the law by both the County Collector and the previous County Assessor in the calculation of additional assessment deductions as per Section 137.720, RSMo, and the corresponding limits as to how the assessment limits were to be calculated. After recommendation by State Auditor's Office, this has been resolved and refunds issued for 2019. The County Collector's office is currently gathering data for prior years to be reviewed by the County Commission and the County Assessor, who will have to determine if, when and how any refunds are to be made (since previous years withholdings have already been disbursed to the Assessment Fund). As a direct result of this audit, the formula to calculate future assessment deductions and corresponding limits has*

Stone County
Management Advisory Report - State Auditor's Findings

been amended, and the County Commission and County Assessor have been advised to adjust future budgets due to Assessment Fund withholding refunds to be made to taxing entities by the County Collector in February of each year.

3.2 *Partial payments are a time consuming part of the job, and offered as a service primarily to the taxpayer who is delinquent and in jeopardy of forfeiting their property in the county's tax certificate sale. Taxpayers are told up front that interest and penalties will continue to accrue on their account until their account can be posted paid (enough monies received to do so). Taxpayers are also told to check with this office regularly as to their balance in their partial payment account and the balance due to be able to post payment. This office tells partial payment customers they need to tell us when to apply payment, either verbally or on their final check memo. Contrary to the audit findings, this office does check the balance in the partial payment account regularly (monthly), and applies them if we see funds are available, but we believe that ultimately the taxpayer should be telling us when to apply their funds. Refunds are made annually on stagnant partial payment accounts if no delinquent taxes can be identified for the taxpayer.*

3.3 *Multiple receipt slips books on different employee's desks make numerical sequencing of receipts difficult, so the County Collector will now make only one receipt slip book available for all staff to share and sign. This single receipt slip book will be used for manual receipts of all partial payments received by any employee within the County Collector's office.*

Auditor's Comment

3.2 The County Collector's response states that her office checks the balances in the partial payment accounts monthly. However, during the exit conference, the County Collector indicated during the busy season from October through January, partial payment balances are only reviewed if time allows. In addition, audit staff saw no documentation to indicate monthly reviews occurred. Also, as noted in the finding, partial payments made by a taxpayer exceeded the amount of taxes due, but the payments were not applied to the taxes and continued to accrue interest and penalties.

4. Payroll Controls and Procedures

Controls and procedures over payroll need improvement. Payroll expenses totaled approximately \$5,476,000 for the year ended December 31, 2019.

4.1 Timesheets and leave records

Timesheets are not prepared for salaried employees and their vacation, sick leave, or compensatory time earned and taken is not tracked. In addition, the county's personnel policies only requires salaried employees to report and use

Stone County Management Advisory Report - State Auditor's Findings

leave if a full day is taken. However, only estimated hours worked are entered into the payroll system for salaried employees.

Without accurate timesheets or a record of leave taken, the county cannot ensure hours worked and leave earned and taken by salaried employees are properly documented. Leave records also aid in determining final compensation for employees leaving county employment. In addition, the Fair Labor Standards Act (FLSA) requires employers maintain accurate records of actual time worked by employees.

4.2 Advanced payments

Salaried employees are paid in advance of time worked, which may lead to errors and the potential for employees to be over/under paid. The County Clerk's office distributes payroll for all salaried employees on the 15th of each month for the period ending the last day of the month. In addition, as indicated in section 4.1, salaried employees do not prepare timesheets or report actual hours worked; therefore, actual hours worked cannot be compared to estimated hours for these employees.

To ensure payroll disbursements are appropriate and to reduce the risk of errors and the potential for employees to be over/under paid, the County Commission should require adequate documentation to support all payroll transactions.

Similar conditions previously reported

We noted similar conditions to section 4.1 in our prior 5 audit reports. In addition, Report No. 2016-142, *Follow-Up Report on Audit Findings - Stone County*, issued in December 2016, reported the status, at that time, as partially implemented. We also noted a similar condition to section 4.2 in our 2 prior audit reports. Report No. 2016-142, *Follow-Up Report on Audit Findings - Stone County*, issued in December 2016, reported the status, at that time, as partially implemented.

Recommendations

The County Commission:

- 4.1 Require salaried employees to prepare timesheets and ensure leave records are maintained for all employees.
- 4.2 Discontinue compensating salaried employees in advance of receiving services, or establish adequate procedures to compare actual time worked to time previously reported for all employees and ensure adjustments to the payroll records are made when necessary.

Auditee's Response

- 4.1 *The Auditor's recommendation is appropriate for counties that have salaried employees who are not exempt from FLSA overtime. However, all of Stone County's salaried employees earn more than \$679 per week (annualized \$35,308 per year), which is the standard salary level for FLSA overtime exemption, and are not ordinarily eligible to accrue overtime or compensatory time. If an employee*

Stone County
Management Advisory Report - State Auditor's Findings

earns less than that amount, the employee is reclassified as hourly, will keep time records, and is eligible to accrue overtime or compensatory time.

Only a few of the county's employees are salaried/exempt, and are considered supervisory or professional. The County Commission and the elected officeholder or department head review the status of each salaried employee at least annually at budget time. The department head or elected official continually monitors each salaried/exempt employee's attendance, hours worked, classification status, and performance to ensure that the employee is satisfactorily performing his or her tasks, that they are satisfactorily in attendance at work, are adequately performing their tasks, and that the county is receiving the best value for its salary expenditures.

The County Commission proposes to adopt a new policy:

ACCOUNTING FOR LEAVE BENEFITS FOR SALARIED EMPLOYEES.

The County does not require salaried employees to maintain time cards or time records. However, as a management tool to monitor salaried employee's attendance:

- 1. A non-law enforcement salaried employee shall notify his or her supervisor if he or she has worked more than 40 hours in a week.*
 - 2. A law enforcement salaried employee shall notify his supervisor if he or she has worked more than 85.5 hours in a 14-day period.*
 - 3. A salaried employee shall notify his or her supervisor of all leave time used, including sick leave, vacation leave, holiday leave, and bereavement leave.*
- 4.2 *The County Commission considered and addressed this recommendation in past audits. The recommendation of the State Auditor's Office to discontinue paying officeholders and salaried employees in advance is well founded. However, in the last 25 years, there has only been one instance where reimbursement of wages was required for a salaried employee, and the county successfully received reimbursement. The County Commission needs to be conscious of the financial obligations of our salaried officeholders and employees. Because officeholders and salaried employees have adjusted their monthly expenses to the county's longstanding pay schedule, the County Commission believes that changing*

Stone County
Management Advisory Report - State Auditor's Findings

officeholders' and salaried employees' pay dates will cause financial hardship to officeholders and salaried employees.

Auditor's Comment

- 4.1 The County Commission's response indicates the department head or elected official continually monitors each salaried/exempt employee's attendance, hours worked, classification status, and performance to ensure that the employee is satisfactorily performing his or her tasks. The most efficient method for the department head or elected official to perform these functions is by requiring each employee to prepare a timesheet that is then approved by the department head or elected official.
- 4.2 The County Commission's response does not address the second part of the recommendation that the County Commission establish adequate procedures to compare actual time worked to time previously reported for all employees and ensure adjustments to the payroll records are made when necessary. These procedures would be an adequate alternative to discontinuing compensating salaried employees in advance of receiving services.

5. Prosecuting Attorney's Depositing Procedures

The Prosecuting Attorney's office does not deposit receipts timely. The office collected approximately \$85,000 in bad check and court-ordered restitution, delinquent taxes, and related fees during the year ended December 31, 2019.

An office deposit on November 15, 2019, totaling \$930 included \$655 receipted the previous week from November 4 through November 6, 2019. Another deposit on November 27, 2019, totaling \$1,324 included \$788 receipted the previous week from November 19 through November 22, 2019.

Failure to implement adequate depositing procedures increases the risk that loss, theft, or misuse of monies could occur and go undetected.

We noted a similar condition in our prior audit report. In addition, Report No. 2016-142, *Follow-Up Report on Audit Findings - Stone County*, issued in December 2016, reported the status, at that time, as partially implemented.

Recommendation

The Prosecuting Attorney ensure monies received are deposited timely.

Auditee's Response

The Prosecuting Attorney had a general policy that deposits should be made weekly at a minimum and that cash payments should be deposited more frequently. The Prosecuting Attorney had noticed in reviewing bank statements that in a few instances the office had not made deposits as frequently as they should. With that in mind, the Prosecuting Attorney made a specific policy for the office, beginning in February 2020, as follows:

Stone County
Management Advisory Report - State Auditor's Findings

Deposits shall be made weekly subject to the following: 1. In no case shall payments, whether money orders, cash or other, be held for more than two nights or kept in the office over the weekend. 2 At no time shall more than \$100 cash be kept in the office overnight.

The Prosecuting Attorney has monitored the bank statements more closely since February 2020 and has seen no violations of this policy. In addition, all payments made to the office have always been and still are kept locked in a safe in a secure location.

Stone County

Organization and Statistical Information

Stone County is a county-organized, third-class county. The county seat is Galena.

Stone County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 157 full-time employees and 12 part-time employees on December 31, 2019.

In addition, county operations include a Planning and Zoning Board, Senior Citizens' Services Board, Disability Board, a Law Enforcement Restitution Board, and neighborhood improvement districts.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2020	2019
Mark W. Maples, Presiding Commissioner	\$	41,210
Wayne Blades, Associate Commissioner		37,125
Harold Smythe, Associate Commissioner		37,125
Amy Jo Larson, Recorder of Deeds		58,500
Cindy Elmore, County Clerk		58,500
Matt Selby, Prosecuting Attorney		141,640
Doug Rader, Sheriff		62,500
Kristi Stephens, County Treasurer		58,500
John Cunnyham, County Coroner		20,000
Glenda Wendy Metcalf, Public Administrator		56,250
Vicki May, County Collector, year ended February 29,	58,500	
Matt Daugherty, County Assessor (1), year ended August 31,		37,500
Brad Hudson, County Assessor (1), year ended August 31,		18,750
Rick Kemp, County Surveyor (2)		

- (1) Brad Hudson served as County Assessor until he resigned effective December 31, 2018. Matt Daugherty was appointed and took office on January 2, 2019.
- (2) Compensation on a fee basis.

Stone County
Organization and Statistical Information

Justice Center Expansion

The county issued Refunding and Improvement Certificates of Participation (COPS) totaling \$5,760,000 in June 2018, for the purpose of refunding a 2009 Refunding COPS and paying the costs of construction and equipping new additions to the county's Stone County Justice Center. Construction remained in progress as of March 19, 2020. The payments are made from the General Revenue Fund and the Black Oak Neighborhood Improvement District Fund. The COPS are scheduled to be paid off in December 2038. The remaining principal and interest due at December 31, 2019, was \$5,195,000 and \$1,821,807, respectively.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of May 2020 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March and April 2020, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program, MO HealthNet, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In May, the state spent \$581 million from federal COVID-19 assistance (Appendix A). Through the end of May, the state has received \$2.43 billion and spent \$824 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. The majority of the state's disbursements have been for MO HealthNet services (\$216 million) and funding passed through to counties and the City of St. Louis (\$521 million). In addition, the state is currently using \$250 million of COVID-19 relief funding for cash management needs.

Federal Funding for COVID-19 Response

May 2020

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March and April 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of May 31, 2020, approximately \$17.6 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program, MO HealthNet. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).
- Not charge premiums that exceed those that were in place as of January 1, 2020.

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
May 2020
Executive Summary

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of May 31, 2020, approximately \$31.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

⁴ U.S. Department of the Treasury, *Coronavirus Relief Fund Guidance for State, Territorial, Local, and Tribal Governments*, April 22, 2020, <<https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Guidance-for-State-Territorial-Local-and-Tribal-Governments.pdf>>, accessed May 20, 2020.

Federal Funding for COVID-19 Response
May 2020
Executive Summary

- Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
- Costs of providing COVID-19 testing, including serological testing.
- Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
- Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:

- Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
- Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:

- Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
- Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.

Federal Funding for COVID-19 Response
May 2020
Executive Summary

- Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
- Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 30, 2020, as required by federal law, those funds must be returned to the federal government.

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to

⁵ U.S. Department of the Treasury, *Coronavirus Relief Fund Frequently Asked Questions*, p.8, May 28, 2020, < <https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Frequently-Asked-Questions.pdf>>, accessed May 29, 2020.

Federal Funding for COVID-19 Response
May 2020
Executive Summary

June 30, 2021. In May, the OA transferred \$250 million from the stimulus fund to the General Revenue Fund.

Under the CARES Act, the state has also been awarded as of May 31, 2020, approximately \$2.24 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$165 million with some of this funding going directly to rural health departments from the federal government.

In May, the state spent \$581 million from federal COVID-19 assistance (Appendix A). Through the end of May, the state has received \$2.43 billion and spent \$824 million from this assistance. The majority of the state's disbursements have been for MO HealthNet services (\$216 million) and funding passed through to counties and the City of St. Louis (\$521 million). The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendix C.

¹ For the fiscal year ending June 30, 2020, the Secretary of State is using this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. In addition, this fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The Secretary of State receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. However, beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund will be used to account for all COVID-19 receipts (including any remaining balance transferred from the Election Administration Improvements Fund) and related disbursements from July 2020 going forward.

² The General Assembly has authorized the Office of Administration to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund. As of the end of May, \$250 million has been transferred to the General Revenue Fund.

CITIZENS SUMMARY

Conclusions in the review of Article X, Sections 16 through 24

Background

The Constitution of Missouri was amended in 1980 to add Article X, Sections 16 through 24, commonly referred to as the Hancock Amendment. This tax limitation amendment places restrictions on the amount of personal income used to fund state government, and the amount by which fees and taxes can be increased. Mathematical formulas are used by the Office of Administration, Division of Budget and Planning (OA-BP) to determine the relevant threshold amounts each year.

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people.

Section 18(e) requires voter approval before taxes or fees can be increased by the General Assembly beyond a certain annual limit. Based upon the calculation provided by the OA-BP, the relevant annual revenue limit for fiscal year 2019 was \$105 million.

Fiscal Year 2019 Conclusions

For the year ended June 30, 2019, total state revenue was approximately \$4.5 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2019. This revenue limit has not been exceeded since the year ended June 30, 1999.

In addition, the OA-BP determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of \$61.2 million. The projected net decrease does not include 4 bills for which the Section 18(e) fiscal impact could not be projected. Actual compliance with the Section 18(e) revenue limit can be determined after each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Because of the nature of this review, no rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Sarah H. Steelman, Commissioner
Office of Administration
Jefferson City, Missouri

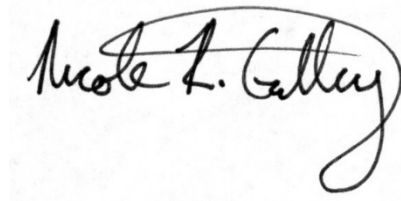

We have conducted a review of revenues of the state of Missouri for the year ended June 30, 2019, and the application to those revenues of Article X, Sections 16 through 24, Missouri Constitution, more commonly referred to as the Hancock Amendment (included as an Appendix). We previously reported on revenues of the state for the years ended June 30, 1982 through 2018. The amendment, which was adopted by the voters of Missouri on November 4, 1980, limits the growth of state revenues collected in any fiscal year. The objectives of this review were to:

1. Evaluate the formulas to calculate the state's revenue limits.
2. Determine the specific items included in total state revenue.
3. Verify the accuracy of the revenue limit computations and compare the limits to total state revenue and projected tax and fee increases from legislative actions.
4. Review the state's overall compliance with the provisions of the amendment.

Our review included only the application of the revenue limit to state revenues and, accordingly, did not include a review of the effects of the amendment on any local governmental unit.

Our methodology to accomplish these objectives included discussions with personnel of the Office of Administration, Division of Budget and Planning, inspecting relevant records and reports compiled by that office, and reviewing data and reports from the statewide accounting system.

The Executive Summary and the Background, Methodology, and Conclusions present our comments and conclusions concerning the state's overall compliance with the provisions of Article X, Sections 16 through 24, Missouri Constitution.

Review of Article X, Sections 16 Through 24, Constitution of Missouri

Executive Summary

Executive Summary

The amendment, commonly referred to as the Hancock Amendment, limits annual state revenues, and tax and fee increases.

Total State Revenue (TSR) Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

For the year ended June 30, 2019, total state revenue (TSR) was approximately \$4.5 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2019. This revenue limit has not been exceeded since the year ended June 30, 1999. Over the last 5 years, the amount of TSR under the refund threshold has ranged from \$3.9 billion to \$4.5 billion.

Tax and fee increases Section 18(e)

Section 18(e) of the Hancock Amendment states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less.

For the year ended June 30, 2019, the Office of Administration, Division of Budget and Planning (OA-BP) determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of \$61.2 million. The projected net decrease does not include 4 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit is determined by measuring the aggregate actual new annual revenues produced in the first fiscal year each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

A bar graph of TSR compared to the refund threshold follows:

Review of Article X, Sections 16 through 24,
Constitution of Missouri
Graph of Total State Revenue Versus Refund Threshold

Review of Article X, Sections 16 Through 24, Constitution of Missouri Background, Methodology, and Conclusions

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

This review addresses the components of the amendment that relate to state revenues, primarily the requirements outlined in Section 18(a-d) which limit annual state revenues and Section 18(e) which limits tax and fee increases.

Total State Revenue Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

The Office of Administration, Division of Budget and Planning (OA-BP) calculates annual total state revenue (TSR), revenue limits, refund thresholds, and refund amounts.

Calculation

The following table summarizes the calculated TSR, revenue limits, refund thresholds, and refund calculations for the 5 years ended June 30, 2019.

	Year Ended June 30,				
	2015	2016	2017	2018	2019

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

The calculation shows for the year ended June 30, 2019, TSR was approximately \$4.5 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2019. This revenue limit has not been exceeded since the year ended June 30, 1999.

Revenue limit formula

The OA-BP calculated the 1981 base year ratio of personal income to TSR as 5.6 percent, and uses this ratio to calculate the annual revenue limit.

Section 18(a) establishes the revenue limit formula as follows:

$$\begin{array}{lcl} \text{Revenue limit} & \text{Total state revenue (TSR)} & \text{The greater of MPI in the} \\ \text{for fiscal year} & \text{in FY 1981} & \text{calendar year (CY) prior} \\ \text{(FY) 20XX} = & \frac{\text{CY 1979 Missouri}}{\text{personal income (MPI)}} & \text{to the CY in which} \\ & & \text{appropriations are made} \\ & & \text{for FY 20XX or Average} \\ & & \text{MPI for 3 CYs preceding} \\ & & \text{FY 20XX.} \end{array} \times$$

The formula is composed of two principal parts. The first part of the formula, the base year ratio (BYR), is as follows:

$$\frac{\text{TSR in FY 1981}}{\text{CY 1979 MPI}}$$

The application of this ratio to the second part of the formula (future years' MPI) sets the revenue limit to ensure no greater portion of a future year's personal income will be used to fund state government than was the case at the time of passage of the amendment.

The MPI amounts used in the formula for the base year and subsequent years are reported by the U.S. Department of Commerce (DOC). The OA-BP uses the MPI first officially published by the DOC after the close of the calendar year to calculate the revenue limit for the applicable fiscal year. The OA-BP does not adjust the MPI used in the BYR or the second part of the formula for subsequent adjustments to the MPI by the DOC. Section 17(2) refers to "... total income . . . as defined and officially reported by" the DOC. Even though the amendment does not specifically refer to such adjustments, this wording suggests the revenue limit should be recalculated each time the MPI is adjusted by the DOC. For example, the BYR would be adjusted whenever the CY 1979 MPI is adjusted by the DOC. The use of the initial reporting of MPI provides at least two benefits. First, by having a consistent and unchanging BYR, the state can more easily plan and make appropriate adjustments to stay under the revenue limit. Second, if the initial MPI is subsequently adjusted, retroactive refunds are a possibility. That is, an adjustment to MPI for any prior year (including the base year) could reduce the revenue limit for a prior year below that year's TSR, providing a refund where one previously was not due. Therefore, we find this approach reasonable if it is followed consistently.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

The BYR was calculated by the OA-BP as follows (dollar amounts are in millions):

$$\frac{\$ 2,232.204096}{\$ 39,581.0} = .05639584891$$

In its calculations of the revenue limit, the OA-BP rounded the BYR to .056395. To determine the revenue limit for the fiscal year, this amount is multiplied by the MPI in the calendar year preceding the calendar year in which appropriations were made for the fiscal year or the average MPI for the 3 calendar years preceding the fiscal year. For the fiscal year 2019 revenue limit calculation, the OA-BP used the CY 2017 MPI which was greater than the average MPI for the preceding 3 calendar years.

Adjustments

Section 18(d) provides the revenue limit may be adjusted, "[i]f responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, . . . provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such a change."

The OA-BP has adjusted the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll under Section 483.245, RSMo, effective on July 1, 1981. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that this adjustment to the revenue limit is appropriate.

Refund threshold

Section 18(b) allows the state to exceed the revenue limit by less than 1 percent before a refund is due. Therefore, to determine the point at which the refund provision takes effect (the refund threshold) the revenue limit is adjusted upward by 1 percent. However, should TSR exceed the refund threshold, all revenues in excess of the revenue limit are subject to refund.

TSR

An integral part in applying the provisions of the amendment to state revenues is to determine what constitutes TSR. The amendment does not specify the methodology to be used to determine TSR. Consequently, procedures to calculate TSR have been established and certain decisions as to items that would be either included or excluded have been made, except for items ruled on by the Attorney General or the Missouri courts.

TSR includes all revenues recorded in the Statewide Accounting System for Missouri (SAM II) and receipted by the state treasurer, which may only be withdrawn pursuant to an appropriation or which stand appropriated by the Constitution of Missouri. Various funds not in the state treasury are not included in TSR. These funds include university local funds; Department of

Review of Article X, Sections 16 Through 24, Constitution of Missouri Background, Methodology, and Conclusions

Revenue local sales and use tax fund collections; various funds held in trust for inmates, patients, etc.; and funds of various quasi-governmental agencies such as the Board of Public Buildings, the Housing Development Commission, the Higher Education Loan Authority, the Health and Educational Facilities Authority, and the state's retirement systems. The Hancock Amendment states the composition of TSR is, "defined in the budget message of the governor for fiscal year 1980-81." The funds described above were not addressed in the governor's budget message for that year since the funds were not in the state treasury and not appropriated. Thus, it is reasonable to conclude these funds should not be included in TSR.

From the revenue amounts obtained from SAM II, 8 funds are entirely excluded and 26 types of revenues are excluded to arrive at TSR, as defined in Section 17(1). These excluded funds and revenue types, and other exclusions and limits considered to arrive at TSR are described at Appendix C. A detailed schedule of SAM II revenue, adjustments for excluded funds and revenue types and other exclusions and limits, and resulting TSR for the 5 years ended June 30, 2019, is shown at Appendix A.

Tax and Fee Increases Section 18(e)

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases.

Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less. Sections 18(e) and 23 provide any taxpayer can bring suit in a court of law to enforce the provisions of the Hancock Amendment.

The OA-BP calculates the limits and monitors new legislation for tax and fee increases and decreases for each legislative session.

Calculation

The following table summarizes the OA-BP's annual projected net increases/decreases from legislative actions based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, calculated revenue limits, and projected amounts over/under revenue limits for the 5 years ended June 30, 2019.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

		Year Ended June 30,				
		2015	2016	2017	2018	2019

Revenue limit (lesser amount)	\$	94,623,204	94,283,895	101,495,508	102,879,357	105,028,851
DIFFERENCE						
Over (under) limit	\$	N/A	Up to 33,428,358	(99,223,418)	N/A	N/A

* Legislative action amounts do not include bills for which Section 18(e) fiscal impact could not be projected.

N/A For fiscal years 2015, 2018, and 2019, the projections showed a net decrease in taxes and fees.

For the year ended June 30, 2019, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of \$61.2 million. As noted in the Legislative actions section, the projected net decrease does not include 4 bills for which the Section 18(e) fiscal impact could not be projected. As noted in the Compliance section, actual compliance can be determined after each bill is fully effective. The 2016 legislative session was the only year the limit has been projected to be exceeded.

Revenue limit formula

Section 18(e) establishes the revenue limit as the lesser of (1) \$50 million adjusted annually by the percentage change in MPI for the second previous year, or (2) 1 percent of TSR for the second fiscal year prior to the legislative session.

For fiscal year 2019, the OA-BP calculated the MPI growth limit at \$128.1 million by multiplying the fiscal year 2018 MPI growth limit (\$123.5 million) by the percentage change in the MPI for fiscal year 2017 (3.77 percent). The OA-BP calculated the TSR limit at \$105 million by multiplying the fiscal year 2017 TSR (\$10.5 billion) by 1 percent. The revenue limit was established at the lessor of these amounts, or the TSR limit of \$105 million.

Legislative actions

After each legislative session, OA-BP personnel prepare a spreadsheet to quantify the potential fiscal impact of tax and fee increases and decreases from legislation enacted during the session. In accordance with Section 18(e), the OA-BP includes each House Bill and Senate Bill truly agreed and finally passed during the session, except bills vetoed by the governor and not overridden by the general assembly, and the estimated fiscal impact amount.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

The OA-BP determines estimated Section 18(e) fiscal impact amounts by compiling information and amounts in fiscal notes for each bill. The fiscal notes are prepared by the Oversight Division with input from state agencies and local political subdivisions. In accordance with Section 18(e), the OA-BP compiles an amount for the first fiscal year the bill is fully effective. For most bills with Section 18(e) fiscal impact, the OA-BP determines an increase or decrease amount based on information in the fiscal note. For some bills, the fiscal note indicates the fiscal impact is "unknown." Accordingly, the OA-BP lists "unknown," rather than a dollar amount, in the legislative actions spreadsheet for these bills. OA-BP personnel indicated they did not attempt to develop a more precise estimate for this calculation because in some cases, it is not possible to quantify the potential impact of the legislation. The legislative actions spreadsheet contains a net total tax and fee increase/decrease for all bills combined. That information is compared to the calculated revenue limit to determine potential Section 18(e) compliance. The netting of the tax and fee increases and decreases is reasonable and in compliance with the amendment language.

The OA-BP legislative actions spreadsheet for the fiscal year 2019 legislative session included 71 bills, 22 of which the OA-BP determined had potential Section 18(e) fiscal impact. For 4 of these bills the Section 18(e) fiscal impact could not be projected.

Compliance

Section 18(e)(4) provides compliance with Section 18(e) shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year each individual tax or fee change is fully effective. For the fiscal year 2019 legislative session, actual compliance can be measured after each 2019 legislative session bill is fully effective.

Section 18(e)(5) provides any taxpayer or statewide elected official may bring action under Section 23 of the Hancock Amendment to enforce compliance with the provisions of Section 18(e). For actions brought by any statewide elected official, the Missouri Supreme Court has original jurisdiction. In such enforcement actions, the court will invalidate the taxes and fees that should have received a public vote. The court will order remedies in the amount of excess revenues collected, such as refunds or reductions in future taxes and/or fees.

Conclusions

TSR

For the year ended June 30, 2019, TSR was approximately \$4.5 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2019. This revenue limit has not been exceeded since the year ended June 30, 1999.

Tax and Fee Increases

For the year ended June 30, 2019, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

assembly legislative actions, net taxes and fees could decrease by a total of \$61.2 million. The projected net decrease does not include 4 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit can be determined after each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Review of Article X, Sections 16 Through 24, Constitution of Missouri

Appendix C

TSR Exclusions

Various revenue amounts are excluded from Statewide Accounting System for Missouri (SAM II) revenue amounts to arrive at Total State Revenue (TSR), as shown on Appendix A. These exclusions, which include certain funds, certain revenue types, and other exclusions and limits, are discussed below.

Excluded Funds

From the revenue amounts obtained from SAM II, certain funds are entirely excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

(A) Lottery Funds

In November 1984, the voters approved Article III, Section 39(b), Missouri Constitution, which authorized the creation of the Missouri State Lottery. This provision states that revenues produced from the conduct of a state lottery shall not be a part of TSR. Since the voters approved the state lottery, all revenue and expenditure refunds related to the state lottery are excluded. Beginning in fiscal year 2017, lottery proceeds are deposited in the State Lottery Fund. In prior fiscal years, they were deposited in the Lottery Enterprise Fund.

(B) Alternative Care Trust Fund

The Alternative Care Trust Fund was established in 1989 under Section 210.560, RSMo. The Department of Social Services uses this fund to account for funds held in trust for the benefit of children who have been placed in the legal custody of the state. The Department of Corrections, Department of Mental Health, and the Missouri Veterans Commission hold funds in trust for inmates and patients. Funds held in trust are not state funds since the funds remain the property of the individual. Since the Alternative Care Trust Fund does not account for state funds, it is excluded.

(C) Student Loan Funds

Federal legislation passed in 1997 made changes in the accounting required for federal education loans. Starting in federal fiscal year 1998, the federal government considers all monies in these funds as property of the federal government or guaranty agency. As a result, the state excludes the two student loan funds held in trust.

(D) Pansy Johnson-Travis Memorial State Gardens Trust Fund

The state received an endowment in 1987 for the purpose of establishing a memorial state garden. The state is to invest the endowment for 100 years before using the funds to establish the memorial garden. Since the funds cannot be appropriated until 2087, the revenue is excluded from TSR.

(E) Division of Youth Services Child Benefits Fund

The Division of Youth Services (DYS) Child Benefits Fund was administratively created to account for payments from the Social Security Administration held in trust for the benefit of youth in the DYS custody. Funds held in trust are not deemed to be state funds, and are therefore excluded. This fund was added as an excluded fund in fiscal year 2016. In prior years, most of the fund revenues were excluded as federal funds.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

(F) Veterans' Health and Care
Fund

In November 2018, the voters approved Article XIV, Section 1.4, Missouri Constitution, which authorized the creation of the Missouri Veterans' Health and Care Fund. The fund is used to account for various taxes and fees also authorized by that section for the regulation of medical marijuana licensing and distribution. Since voters directly approved these taxes and fees, the fund is excluded from TSR.

Excluded Revenues

From the revenue amounts obtained from SAM II, certain types of revenues are excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

(1) Federal Funds

Article X, Section 17, Missouri Constitution, specifically excludes federal funds.

(2) Proposition C Sales and Use
Tax/Interest

In November 1982, the voters approved Proposition C, which increased the state sales and use tax by 1 percent. Since Proposition C received direct voter approval as provided in Article X, Section 16, Missouri Constitution, the proceeds from the additional 1 percent sales and use tax, including any interest earned on the investment of such taxes, are excluded.

(3) Proposition A Gas Tax and
License Fee Increases

In April 1987, the voters approved Proposition A, which increased the motor fuel tax by 4 cents per gallon and increased the annual registration fee for certain motor vehicles, effective July 1, 1987. Since the increase in tax and fees received direct voter approval, these revenues are excluded. Also, see item (24).

(4) Bond Sales

Attorney General Opinion 22-1982 concluded that proceeds of the state's general obligation bonds were not to be included in TSR.

(5) Refunds

Refunds received due to the overpayment of obligations by the state, as identified by certain revenue source codes, are excluded. Refunds also include cost recoveries and prescription drug rebates received through the Medicaid and Children's Health Insurance programs.

(6) Interagency Sales and
Receipts

Since interagency transactions do not generate additional revenue for the state as a whole, interagency sales and receipts, as identified by certain revenue source codes, are excluded.

(7) Soil and Water Sales and Use
Tax/Interest
and

(8) Parks Sales and Use
Tax/Interest

In August 1984, the voters approved a one-tenth of 1 percent sales tax for soil and water conservation and state parks. Article IV, Section 47(c), Missouri Constitution, states that the additional revenue provided by the tax shall not be part of TSR. Since the voters approved the sales tax, the sales tax and any interest earned on the investment of the balance in these funds are excluded.

(9) Redeposit of Investment
Principal

The redeposit of investment principal is excluded.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

(10) Outlawed Checks	Outlawed checks (issued checks not cashed by the payee within the time allowed) are redeposited in the state treasury and are excluded.
(11) Redeposit of Loan Principal	Redeposits of loan principal are excluded.
(12) Bingo Tax	<p>The August 1992 amendment to Article III, Section 39(d), Missouri Constitution, related to gaming activities also applies to bingo games, in that all state revenues derived from the conduct of gaming activities shall be appropriated beginning July 1, 1993, solely for public education and shall not be included in TSR. Section 313.007, RSMo, requires the bingo tax to be deposited in the Bingo Proceeds for Education Fund. The bingo tax, certain fees, and the interest earned on the investment of the fund are excluded from TSR.</p>
(13) Riverboat Gambling and Other Gaming Proceeds	<p>In August 1992, voters approved an amendment to Article III, Section 39(d), Missouri Constitution, that requires all state gaming revenues be appropriated for public education and excludes these revenues from TSR.</p> <p>In 1993, the Missouri General Assembly enacted Senate Bills 10 and 11. This comprehensive gaming legislation established riverboat gaming in the state. This law repealed House Bill 149 related to riverboat gaming, which had been enacted by voters as Proposition A in November 1992.</p> <p>Under Senate Bills 10 and 11, the legislature imposed a 20 percent tax on adjusted gross receipts from gambling games. In November 2008, the voters approved increasing the tax to 21 percent. The state treats 90 percent of this revenue as state gaming revenues under Article III, Section 39(d), Missouri Constitution, and earmarks the revenues to the Gaming Proceeds for Education Fund. The remaining 10 percent of this revenue is allocated to the home dock city or county. Under Article III, Section 39(d), Missouri Constitution, the 90 percent portion of the adjusted gross receipts tax is exempted from TSR. The remaining 10 percent portion of the adjusted gross receipts tax is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.</p> <p>Under Senate Bills 10 and 11, the legislature also established a Gaming Commission Fund in the state treasury and authorized gaming commission license fees, penalties, administrative fees, reimbursements, and admission fees to be deposited in this fund and expended pursuant to state appropriation for various purposes.</p> <p>On November 24, 1998, the Missouri Court of Appeals, Western District, entered its final decision in <i>Kelly v. Hanson</i>, 984 S.W. 2d 540 (Mo. App. W.D. 1998). The Missouri Court of Appeals, Western District, held that revenue from the \$1 portion of the state-imposed \$2 admission fee payable to</p>

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

the state is excluded from TSR, while the revenue from the payments to the state to recoup public safety and regulatory enforcement costs is included in TSR. The remaining \$1 portion of the \$2 admission fee is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

In 2016, the general assembly passed HB 1941 that requires licensed fantasy sports contest operators to pay an annual operation fee equal to 11.5 percent of the operator's net revenue from the previous calendar year. These revenues are deposited in the Gaming Proceeds for Education Fund. Section 313.822, RSMo, provides all monies deposited in the Gaming Proceeds for Education Fund are to be treated as proceeds of river boat gambling. Under Article III, Section 39(d), Missouri Constitution, these annual operation fees are excluded from TSR.

(14) Redeposit of State Funds

The redeposit of state funds for which a state expenditure was originally incurred, such as from closing a petty cash fund and returning the funds to the state treasury, is excluded.

(15) Loan Proceeds

The state receives loans or advancements from the federal government, local governments, or private sources, to finance the acceleration of state projects. Since the loans must be repaid in the future, they are excluded.

(16) Conservation Sales and Use
Tax/Interest

In *Conservation Federation of Missouri v. Richard Hanson*, 994 S.W. 2d 27 (Mo. Banc. 1999), the Supreme Court held that the revenue derived from the one-eighth of 1 percent conservation sales tax, and any interest earned on the investment of these funds, are excluded.

(17) State Employee Expense
Reimbursement

The state receives reimbursement from private individuals, firms, partnerships, corporations, etc., for state employee expenses incurred in providing testimony in a court of law, for which the employee has already been reimbursed by a state expense account. These reimbursements are excluded.

(18) Recovery Costs

Monies received from others for costs incurred by the state or to be incurred by the state are excluded. Monies received from tobacco companies under the Tobacco Master Settlement Agreement are included in the recovery costs exclusion. See Tobacco Master Settlement Agreement Proceeds section. Also, see item (19).

(19) Cost Reimbursements

Monies received from other governments for reimbursements of costs incurred by the state are excluded.

Regarding items (18) and (19), the state has excluded from TSR receipts for cost reimbursements since fiscal year 1982 and receipts for recovery costs since fiscal year 1988. Although the constitution does not specifically

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

mention cost reimbursements and recovery costs and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(20) Canceled Checks

Receipts derived from the redeposit of state checks that have been canceled are excluded.

(21) Local Match

Local governments provided funds to the state to use as a local match to qualify for federal or state funding. Since these funds are not state funds, they are excluded.

(22) Proceeds of Surplus Property
Sales

The proceeds from some sales of surplus property are excluded. Although the constitution does not specifically mention proceeds of surplus property sales and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(23) DHSS Program Rebates

The Department of Health and Senior Services (DHSS) receives rebates through various federal programs, including the Special Supplemental Nutrition Program for Women, Infants, and Children and the HIV Care Formula Grants. These rebates are related to purchases made with federal funds and are therefore excluded.

(24) Amendment 3 Revenue
Derived From Highway
Users

In November 2004, the voters approved an amendment to Article IV, Sections 29 and 30(a) through 30(c) and added Section 30(d), Missouri Constitution, effective July 1, 2005.

Section 30(a)(4) provides for the apportionment and distribution of net proceeds of motor fuel tax. This section further provides that, "The net proceeds of fuel taxes apportioned, distributed and deposited under this section to the state road fund, counties, cities, towns and villages shall not be included within the definition of 'total state revenues'. . . ."

Section 30(b) provides for the use and distribution of revenue derived from highway users as an incident to their use or right to use the highways of the state (including all state license fees and taxes on motor vehicles, trailers and motor vehicle fuels and excepting sales tax on motor vehicles and trailers which are not distributed to the state road fund). This section further provides that, "The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of 'total state revenues'. . . ."

As a result, motor vehicle sales tax and special fuel non-gas tax, and fees from motor vehicle licenses or permits, interstate transportation licenses or permits, driver's licenses or permits, overdimension/overweight permits, other

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

licenses and permits, and non-motor fuel decals credited to the State Road Fund, State Road Bond Fund, and/or State Transportation Fund are excluded from TSR.

The increase in interstate transportation license or permits for certain motor vehicles excluded under this section were previously excluded and, as a result, have no impact on TSR. (See item (3))

Sections 29, 30(c), and 30(d) have no Hancock implications.

(25) Interest - Federal

Interest assessed and received on advances made to the state by the federal government. Since the interest is due to the federal government, it is excluded from TSR.

(26) Suspense Holding

The collection of unidentified funds for both state and non-state entities. Since these monies have not been identified, they are excluded from TSR.

Other Exclusions and
Limits

Other exclusions and limits have been considered to arrive at TSR, as follows:

Cash Management Improvement
Act (CMIA)

The state has to enter into an agreement with the federal government that governs the timing of when the state can obtain federal grant monies. If the state holds federal funds longer than needed, the state has to reimburse the federal government for interest earnings. Since the interest was earned on federal funds and has to be returned to the federal government, it is excluded from TSR.

Agency Remitted Sales Tax

Some state agencies sell goods or services to the public and collect sales tax. To avoid counting the same receipts in TSR twice, the sales tax remitted by state agencies to the Department of Revenue is excluded from TSR.

Abandoned Funds Claim
Payments

Under Section 447.543, RSMo, the state receives abandoned funds from various sources (banks, businesses, insurance companies, etc.). These funds are placed in the state Abandoned Fund Account. The rightful owner may receive these funds if properly claimed. The state includes the receipts in TSR. Starting in fiscal year 1998, the state excludes from TSR amounts paid to the rightful owner.

Circuit Courts Escrow and Debt
Offset Escrow

Under Section 488.5028, RSMo, the Department of Revenue and State Lottery Commission make setoffs of income tax refunds and lottery prize payouts, respectively, for amounts owed to circuit courts. Similarly, under Section 143.784, RSMo, the Department of Revenue makes setoffs of income tax refunds for amounts due to state agencies. Amounts setoff under both provisions are placed in escrow accounts until any review hearings are held and the matter is resolved. As a result, this revenue is not included in TSR.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

Expenditure Refunds

Under Article X, Section 17(1), Missouri Constitution, TSR shall exclude the amount of any credits based on actual tax liabilities. Refunds disbursed due to the excess collection by the state of liabilities owed the state, largely tax refunds, as identified by certain expenditure object codes are excluded. The method used to determine expenditure refunds is not specified in the amendment. Although the OA-BP initially used the appropriation basis to determine expenditures refunds, during fiscal year 1984, the OA-BP changed to the cash basis. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that a cash basis of accounting should be used to determine compliance with the Hancock Amendment. A schedule of expenditure refunds is included at Appendix B.

Tobacco Master Settlement
Agreement Proceeds

The OA-BP excluded \$134,225,943 received from tobacco companies during fiscal year 2019. The Master Settlement Agreement was entered into effective November 23, 1998, between the major cigarette manufacturers and the states' Attorneys General. Missouri received its first payments under the settlement agreement during fiscal year 2001 and future payments from tobacco companies extend in perpetuity. The payment received in 2001 included amounts under the settlement agreement for 1998, 2000, and 2001. The settlement agreement did not require a payment for 1999. Payments for fiscal years 2001 through 2019 were as follows:

Fiscal Year	Amount
2001	\$ 338,230,653
2002	172,679,543
2003	166,895,179
2004	142,829,966
2005	144,964,644
2006	133,078,222
2007	139,292,616
2008	153,277,453
2009	168,066,958
2010	140,318,927
2011	132,631,552
2012	135,246,224
2013	135,166,246
2014	66,085,418
2015	132,261,643
2016	123,645,603
2017	191,261,135
2018	138,311,530
2019	134,225,943

The amounts received were coded in the state's accounting system to revenue source code 1806 - recovery costs, which is excluded from TSR. Recovery costs are defined under revenue source code 1806 as, "all money recovered

from others for costs incurred by the state or to be incurred by the state." The OA-BP believes these receipts should be excluded from TSR because the amounts represent a recovery of health care costs previously incurred or to be incurred by the state attributable to smoking.

Public information was not readily available to determine if the amounts recovered from the tobacco companies under the master settlement agreement were more or less than the health care costs incurred. For our fiscal year 2001 report, we reviewed three extensive research projects conducted by experts. We limited our analysis to Medicaid costs incurred in fiscal years 1998 through 2001. We did not consider Medicaid costs prior to fiscal year 1998. In addition, we did not consider other costs incurred by the state, such as employee health care costs attributable to smoking. These research projects showed that Medicaid costs attributable to smoking were higher than the amount the state received from the tobacco companies under the settlement agreement. As a result, in our 2001 report we concluded it was proper for the OA-BP to exclude the amounts received from the tobacco companies as a recovery cost.

A study, "Tobacco Damages to the State of Missouri" by Glenn W. Harrison, was commissioned by the Missouri Attorney General's Office for use in a lawsuit against tobacco companies filed May 12, 1997. This lawsuit was dropped because Missouri joined a consortium of states in December 1998, in the Master Settlement Agreement with the tobacco companies. As a result, the Harrison study was not fully completed. However, the draft report provided an estimate of Medicaid costs attributable to smoking for 1970 through 2007 and an estimate of state employee health care costs attributable to smoking for 1970 through 1997. This study estimates that state costs attributable to smoking were higher than the amount the state received. OA officials could not locate any current studies, but they believe continued exclusion is reasonable.

Federal Reimbursement
Allowance and Nursing Facility
Reimbursement Allowance

The Federal Reimbursement Allowance and the Nursing Facility Reimbursement Allowance tax imposed by the state to pay the state's share of the costs of the Medicaid program when collected by an offset against Medicaid claims, is not directly deposited in the state treasury. As a result, this revenue is not included in TSR.

Review of Article X, Sections 16 Through 24, Constitution of Missouri Appendix E

Article X, Sections 16 through 24, Constitution of Missouri (Adopted November 4, 1980, Amended April 2, 1996*)

TAXATION

Section 16. Taxes and state spending to be limited--state to support certain local activities--emergency spending and bond payments to be authorized. Property taxes and other local taxes and state taxation and spending may not be increased above the limitations specified herein without direct voter approval as provided by this constitution. The state is prohibited from requiring any new or expanded activities by counties and other political subdivisions without full state financing, or from shifting the tax burden to counties and other political subdivisions. A provision for emergency conditions is established and the repayment of voter approved bonded indebtedness is guaranteed. Implementation of this section is specified in sections 17 through 24, inclusive of this article.

Section 17. Definitions. As used in sections 16 through 24 of Article X:

- (1) **"Total state revenues"** includes all general and special revenues, license and fees, excluding federal funds, as defined in the budget message of the governor for fiscal year 1980-1981. Total state revenues shall exclude the amount of any credits based on actual tax liabilities or the imputed tax components of rental payments, but shall include the amount of any credits not related to actual tax liabilities.
- (2) **"Personal income of Missouri"** is the total income received by persons in Missouri from all sources, as defined and officially reported by the United States Department of Commerce or its successor agency.
- (3) **"General price level"** means the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency.

Section 18. Limitation on taxes which may be imposed by general assembly--exclusions--refund of excess revenue--adjustments authorized.

- (a) There is hereby established a limit on the total amount of taxes which may be imposed by the general assembly in any fiscal year on the taxpayers of this state. Effective with fiscal year 1981-1982, and for each fiscal year thereafter, the general assembly shall not impose taxes of any kind which, together with all other revenues of the state, federal funds excluded, exceed the revenue limit established in this section. The revenue limit shall be calculated for each fiscal year and shall be equal to the product of the ratio of total state revenues in fiscal year 1980-1981 divided by the personal income of Missouri in calendar year 1979 multiplied by the personal income of Missouri in either the calendar year prior to the calendar year in which appropriations for the

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix E

fiscal year for which the calculation is being made, or the average of personal income of Missouri in the previous three calendar years, whichever is greater.

(b) For any fiscal year in the event that total state revenues exceed the revenue limit established in this section by one percent or more, the excess revenues shall be refunded pro rata based on the liability reported on the Missouri state income tax (or its successor tax or taxes) annual returns filed following the close of such fiscal year. If the excess is less than one percent, this excess shall be transferred to the general revenue fund.

(c) The revenue limitation established in this section shall not apply to taxes imposed for the payment of principal and interest on bonds, approved by the voters and authorized under the provisions of this constitution.

(d) If responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, the state revenue and spending limits may be adjusted to accommodate such change, provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such change.

(e). Voter approval required for taxes or fees, when, exceptions--definitions--compliance procedure, remedies.

1. In addition to the revenue limit imposed by section 18 of this article, the general assembly in any fiscal year shall not increase taxes or fees without voter approval that in total produce new annual revenues greater than either fifty million dollars adjusted annually by the percentage change in the personal income of Missouri for the second previous fiscal year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. In the event that an individual or series of tax or fee increases exceed the ceiling established in this subsection, the taxes or fees shall be submitted by the general assembly to a public vote starting with the largest increase in the given year, and including all increases in descending order, until the aggregate of the remaining increases and decreases is less than the ceiling provided in this subsection.

2. The term "new annual revenues" means the net increase in annual revenues produced by the total of all tax or fee increases enacted by the general assembly in a fiscal year, less applicable refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year, and shall not include interest earnings on the proceeds of the tax or fee increase. For purposes of this calculation, "enacted by the general assembly" shall include any and all bills that are truly agreed to and finally passed within that fiscal year, except bills vetoed by the governor and not overridden by the general assembly. Each individual tax or fee increase shall be measured by

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix E

the estimated new annual revenues collected during the first fiscal year that it is fully effective. The term "increase taxes or fees" means any law or laws passed by the general assembly after May 2, 1996, that increase the rate of an existing tax or fee, impose a new tax or fee, or broaden the scope of a tax or fee to include additional class of property, activity, or income, but shall not include the extension of an existing tax or fee which was set to expire.

3. In the event of an emergency, the general assembly may increase taxes, licenses or fees for one year beyond the limit in this subsection under the same procedure specified in section 19 of this article.

4. Compliance with the limit in this section shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year that each individual tax or fee change is fully effective.

5. Any taxpayer or statewide elected official may bring an action under the provisions of section 23 of this article to enforce compliance with the provisions of this section. The Missouri supreme court shall have original jurisdiction to hear any challenge brought by any statewide elected official to enforce this section. In such enforcement actions, the court shall invalidate the taxes and fees which should have received a public vote as defined in subsection 1 of this section. The court shall order remedies of the amount of revenue collected in excess of the limit in this subsection as the court finds appropriate in order to allow such excess amounts to be refunded or to reduce taxes and/or fees in the future to offset the excess monies collected.

Section 19. Limits may be exceeded, when, how. The revenue limit of section 18 of this article may be exceeded only if all of the following conditions are met: (1) The governor requests the general assembly to declare an emergency; (2) the request is specific as to the nature of the emergency, the dollar amount of the emergency, and the method by which the emergency will be funded; and (3) the general assembly thereafter declares an emergency in accordance with the specifics of the governor's request by a majority vote for fiscal year 1981-1982, thereafter a two-thirds vote of the members elected to and serving in each house. The emergency must be declared in accordance with this section prior to incurring any of the expenses which constitute the emergency request. The revenue limit may be exceeded only during the fiscal year for which the emergency is declared. In no event shall any part of the amount representing a refund under section 18 of this article be the subject of an emergency request.

Section 20. Limitation on state expenses. No expenses of state government shall be incurred in any fiscal year which exceed the sum of the revenue limit established in sections 18 and 19 of this article plus federal funds and any surplus from a previous fiscal year.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix E

Section 21. State support to local governments not to be reduced, additional activities and services not to be imposed without full state funding. The state is hereby prohibited from reducing the state financed proportion of the costs of any existing activity or service required of counties and other political subdivisions. A new activity or service or an increase in the level of any activity or service beyond that required by existing law shall not be required by the general assembly or any state agency of counties or other political subdivision, unless a state appropriation is made and disbursed to pay the county or other political subdivision for any increased costs.

Section 22. Political subdivisions to receive voter approval for increases in taxes and fees--rollbacks may be required--limitation not applicable to taxes for bonds.

(a) Counties and other political subdivisions are hereby prohibited from levying any tax, license or fees, not authorized by law, charter or self-enforcing provisions of the constitution when this section is adopted or from increasing the current levy of an existing tax, license or fees, above that current levy authorized by law or charter when this section is adopted without the approval of the required majority of the qualified voters of that county or other political subdivision voting thereon. If the definition of the base of an existing tax, license or fees, is broadened, the maximum authorized current levy of taxation on the new base in each county or other political subdivision shall be reduced to yield the same estimated gross revenue as on the prior base. If the assessed valuation of property as finally equalized, excluding the value of new construction and improvements, increases by a larger percentage than the increase in the general price level from the previous year, the maximum authorized current levy applied thereto in each county or other political subdivision shall be reduced to yield the same gross revenue from existing property, adjusted for changes in the general price level, as could have been collected at the existing authorized levy on the prior assessed value.

(b) The limitations of this section shall not apply to taxes imposed for the payment of principal and interest on bonds or other evidence of indebtedness or for the payment of assessments on contract obligations in anticipation of which bonds are issued which were authorized prior to the effective date of this section.

Section 23. Taxpayers may bring actions for interpretations of limitations. Notwithstanding other provisions of this constitution or other law, any taxpayer of the state, county or other political subdivision shall have standing to bring suit in a circuit court of proper venue and additionally, when the state is involved, in the Missouri supreme court, to enforce the provisions of sections 16 through 22, inclusive, of this article and, if the suit is sustained, shall receive from the applicable unit of government his costs, including reasonable attorneys' fees incurred in maintaining such suit.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix E

Section 24. Voter approval requirements not exclusive--self-enforceability.

(a) The provisions for voter approval contained in sections 16 through 23, inclusive, of this article do not abrogate and are in addition to other provisions of the constitution requiring voter approval to incur bonded indebtedness and to authorize certain taxes.

(b) The provisions contained in sections 16 through 23, inclusive, of this article are self-enforcing; provided, however, that the general assembly may enact laws implementing such provisions which are not inconsistent with the purposes of said sections.

* The 1996 amendment added Section 18(e).

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by May 31, 2020, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in May 2020, after their filing deadline. The filing status for these 9 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name and title.

Monthly Report on Political Subdivision Filings

May 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of November 30, 2019. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 5 filed an annual financial report timely.

This report also includes the filing status for 9 political subdivisions, other than cities, towns, and villages, that filed their financial report in May 2020, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by May 31, 2020, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 3 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in May 2020, after their filing deadline. The filing status for these 19 cities is presented in summary on pages 4 and by individual entity in Appendixes B to D.

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 3 cities with a fiscal year end of November 30, 2019, whose financial report was due by May 31, 2020. Of the 3 municipalities required to file an annual financial report, 2 filed the report timely. Of the 3 municipalities required to file an addendum, 1 filed an addendum timely. Of the 2 municipalities required to file a certification, 1 filed a certification timely.

CITIZENS SUMMARY

Findings in the audit of Clay County - Public Administrator

Cash Disbursements

The Public Administrator's office did not maintain sufficient documentation to support some cash disbursements.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Public Administrator
Clay County, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit Clay County. We have audited certain operations of the Clay County Public Administrator in fulfillment of our duties. The county engaged RSM US LLP to audit the county's financial statements for the year ended December 31, 2018. To minimize duplication of effort, we reviewed the firm's audit report for the year ended December 31, 2017, since the report for the year ended December 31, 2018, had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the Public Administrator's internal controls over certain management and financial functions.
2. Evaluate the Public Administrator's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

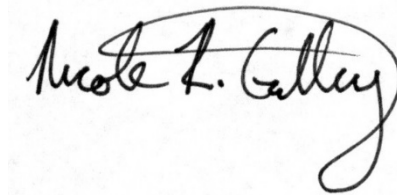

Our methodology included reviewing policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Public Administrator and was not subjected to the procedures applied in our audit of the Public Administrator.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Clay County Public Administrator.

Additional audit reports of various elected officials and Clay County as a whole are still in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The initials "R." are written between the first and last names.

Clay County Public Administrator Management Advisory Report - State Auditor's Finding

Cash Disbursements

The Public Administrator's office did not maintain sufficient documentation to support some cash disbursements.

Public Administrator's office personnel withdraw cash from ward bank accounts. The cash is provided to the ward or one of the Public Administrator's deputy case managers to purchase items for the ward. To initiate this, the ward's case manager sends an email requesting the Deputy Financial Officer write a check from the ward's bank account that is then cashed by the Deputy Financial Auditor. The cash is placed in an envelope in a locked box in the office safe until it is picked up by the ward or case manager.

The recipient of the cash (case manager or ward) is noted by the recipient's signature on a cash receipt form that also indicates the date, amount, and intended purchase. When the case manager is the recipient, the case manager is required to obtain vendor receipt slips that are maintained in the ward case file. In addition, the case manager is required to return any unspent cash to the Deputy Financial Officer for redeposit into the ward's bank account, or obtain a signed cash receipt form if the remaining cash is given to the ward for spending money. During the year ended December 31, 2018, Public Administrator's office personnel made 159 cash disbursements, totaling approximately \$31,000, from 78 ward bank accounts.

We reviewed 31 cash disbursements made from July 2017 to January 2020 from 15 ward bank accounts totaling \$11,860 and identified the following disbursements that did not have the necessary documentation to support the payments made:

- The case manager did not prepare a cash receipt form for \$117 cash provided to a ward. Notations on the original cash receipt form for \$450, signed only by the case manager, indicated \$117 cash was given to the ward, after the case manager used \$333 to purchase a television and wall mount for the ward. The Public Administrator provided the vendor receipt slip for the television and wall mount, but the case manager did not prepare a cash receipt form to be signed by the ward for the remaining \$117.
- Neither the case manager nor the ward signed the cash receipt form for \$50 cash provided to a ward. According to the Public Administrator, the case manager provided the cash to the Director of Nursing at the nursing facility where the ward resided. The Director of Nursing signed the form and provided the cash to the ward, but the case manager did not obtain a receipt slip from the nursing facility to support this.
- The case manager did not obtain the ward's signature on a cash receipt form for \$50 provided as a personal spending allowance. Instead the form

Clay County
Public Administrator
Management Advisory Report - State Auditor's Findings

was only signed by the case manager and the case manager's email to request the funds indicated the disbursement was a reimbursement for \$50 in spending money he provided the ward.

- The recipient section was blank on one cash receipt form for \$400. The email prepared by the case manager requesting the cash indicated she intended to shop for the ward. The Public Administrator provided vendor receipt slips for groceries totaling \$284 and a deposit receipt slip showing the remaining \$116 was redeposited in the ward's bank account.
- A cash receipt form was not maintained for a \$40 cash disbursement. The Public Administrator indicated the case manager received the cash. The Public Administrator provided a vendor receipt slip for \$33 and deposit receipt slip showing the remaining \$7 was redeposited in the ward's bank account.

Without obtaining, reviewing, and maintaining adequate documentation, the Public Administrator cannot ensure the validity and propriety of all cash disbursements. To ensure payments are valid and proper and to reduce the risk of loss, theft, or misuse of ward assets, adequate supporting documentation should be maintained for all cash disbursements.

Recommendation

The Public Administrator ensure proper documentation is maintained for cash disbursed from ward bank accounts.

Auditee's Response

The Public Administrator's office thanks the State Auditor's Office for their work investigating the concerns of Clay County's citizens. We appreciate their recommendation for increased improvement, and will continue, as always, to find ways to improve the Public Administrator's office and better serve our wards. From July 1, 2017, to December 31, 2019, the Public Administrator's office made over \$16.3 million in financial disbursements on behalf of our wards and estates. The overwhelming majority of disbursements are conducted via check to ensure the highest-level of financial security possible for our wards and estates.

Before 2017, the Public Administrator's office was operating under the auditing and documentation guidelines of the Social Security Administration (SSA), from which almost all of our wards receive income. The Public Administrator's staff was trained by SSA that SSA policies require a signature on a cash receipt form or receipt slips from the purchases, not both. Since the Public Administrator took office in January 2017, improvements have been made gradually, including the tightening of cash-handling procedures to increase accountability. The Public Administrator's office has instituted a regular training that all staff members handling cash or working with finances must attend to reduce the chance of employee error. The Public Administrator's office has also developed new cash-handling receipt slips to

Clay County
Public Administrator
Management Advisory Report - State Auditor's Findings

reduce the chance of employee error and ensure all necessary signatures and receipt slips are documented. The Public Administrator has worked with the court to allow the office to utilize more electronic transactions to further reduce instances of cash transactions.

Concerning the staff reimbursement, the Public Administrator's office works with real people with serious mental health diagnoses such that we often work in extraordinary or unusual circumstances. The Public Administrator's office also must comply with the various policies and regulations of several state and federal agencies, including, but not limited to, the 7th Judicial Circuit of Clay County, Missouri, the SSA, the Veteran's Administration, and the Missouri Department of Social Services. Our work requires a flexibility that is not always apparent from an auditing perspective. This need for flexibility is most apparent when we must timely act in response to the immediate and pressing needs of a ward, especially when health and safety is a concern.

In regards to the Director of Nursing signing a cash receipt form, our policy is that it is preferred for our wards to sign for cash, but there are allowances for attending facility or agency staff to sign. We have some wards that are unable to sign their name. Furthermore, we are required to have a high-level of trust in the facilities and agencies that care for our wards. That trust also extends to a ward's finances. Almost all the facilities and agencies do some sort of shopping for our wards, hold their personal spending money, or take our wards shopping and assist them. These homes must report to the Public Administrator's office, Missouri state agencies, and the SSA. Per the State Auditor's recommendation, in the future, we will ensure that we receive a receipt slip for any cash signed by a facility or agency employee.

As to the final point, in the past, a cash receipt form was only created if the cash is brought back to the office. Most likely, the same employee that withdrew the cash also did the shopping for which the cash was withdrawn. Although this complies with the previous practices of the office, it would now be handled differently under the new procedures of the Public Administrator's office.

Clay County

Public Administrator

Organization and Statistical Information

The Public Administrator serves as the court appointed personal representative for decedents' estates and as guardian and/or conservator for individuals who are unable to care for themselves or their property when there is no one else to serve. The Public Administrator is responsible for the financial activity of approximately 316 wards with assets totaling approximately \$5.8 million as of December 31, 2018. The Public Administrator is required to file annual settlements with the Circuit Court, Probate Division, for each appointed ward or estate reflecting the financial activity for the year.

Sarah Mills was elected Clay County Public Administrator in November 2016 and is serving a 4-year term. She received a salary of \$77,106 for the year ended December 31, 2018. The Public Administrator's office employed an Assistant Public Administrator, 9 deputies, and 1 part-time employee as of December 31, 2018.

The seal of the Missouri State Auditor is a circular emblem. It features a central shield with a balance scale and a plow. Above the shield is an eagle with spread wings. The text "SEAL OF THE STATE AUDITOR" is written in a circle around the top, and "MISSOURI 1820 1892" is written around the bottom. The phrase "UNDER THE STAND DIVIDED" is written across the middle of the seal.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Phelps County

Property Tax System	As noted in the prior audit report, neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector.
Prosecuting Attorney's Bank Reconciliations and Liabilities	Prosecuting Attorney's office personnel do not prepare adequate and timely bank reconciliations and do not maintain an adequate list of liabilities.
County Procedures	As similarly noted in the 2 prior audit reports, the County Commission does not maintain documentation supporting the annual transfer from the Unemployment Fund to the General Revenue Fund for administrative costs for maintaining the Unemployment Fund and processing unemployment claims. The County Commission has not established a comprehensive county personnel policy manual covering all county employees and vacation leave policies developed for the Road and Bridge department are not always followed.
County Commission Meeting Minutes	The County Clerk and the County Commission do not ensure minutes of all County Commission meetings are prepared and approved timely.
Senate Bill 40 Board Employee Bonuses	The Senate Bill 40 Board paid bonuses to employees in violation of the Missouri Constitution.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Phelps County

We have audited certain operations of Phelps County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

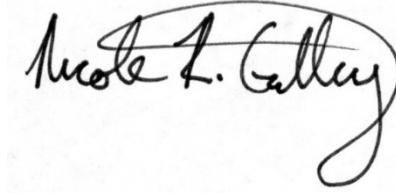

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Phelps County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly distinguishable. It is written over a faint, rectangular background that appears to be a stamp or a watermark.

Audit Staff:	Albert Borde-Koufie, MBA
	Logan J. Vogel

Phelps County Management Advisory Report State Auditor's Findings

1. Property Tax System

As noted in our prior audit report, neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector, who processed property tax collections of approximately \$29.3 million during the year ended February 29, 2020.

The County Clerk does not maintain an account book or other records summarizing property tax charges, transactions, and changes. In addition, the County Clerk and the County Commission do not perform adequate procedures to verify the accuracy and completeness of the County Collector's annual settlements. The County Collector filed the annual settlement for the year ended February 28, 2019, in March 2019. However, the County Clerk and the County Commission had not approved the settlement as of March 12, 2020. As a result, there is an increased risk of loss, theft, or misuse of property tax monies going undetected, and less assurance the annual settlements are complete and accurate.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and the County Commission to verify the County Collector's annual settlements. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector. Such procedures are intended to establish checks and balances related to the collection of property taxes.

Recommendation

The County Clerk maintain an account book with the County Collector. In addition, the County Clerk and the County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

Auditee's Response

We concur with the recommendation. The County Clerk will develop an account book and the County Commission and County Clerk will review the accuracy and completeness of the annual settlements.

2. Prosecuting Attorney's Bank Reconciliations and Liabilities

Prosecuting Attorney's office personnel do not prepare adequate and timely bank reconciliations and do not maintain an adequate list of liabilities. The office collected bad check and court-ordered restitution and fees totaling approximately \$116,000 during the year ended December 31, 2019.

Office personnel did not complete the monthly bank reconciliations for October and November 2019 until February 2020, and only partially completed the reconciliation for December 2019 as of March 11, 2020.

Phelps County
Management Advisory Report - State Auditor's Findings

In addition, office personnel do not use a consistent time frame when comparing bank activity to book activity, resulting in differences not being identified and resolved. For example, the September 2019 reconciled bank balance was calculated using activity through September 30, 2019, but was compared to a book balance calculated as of October 2, 2019. The reconciliation did not consider adjustments for timing differences, including deposits in transit or disbursements made after the September month end. After we adjusted for these differences, the reconciled bank balance totaled \$36, while the book balance totaled \$2,678, resulting in a shortage of \$2,642. Office personnel do not maintain a running book balance throughout the month; therefore, this difference may be due to errors in the book balance used in the reconciliation. Also, office personnel do not reconcile the available cash balance to a monthly list of liabilities, such as undistributed restitution and fees.

Adequate monthly bank reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected and resolved timely. Regular identification and comparison of liabilities to the available cash balance is also necessary to ensure records are in balance and monies are available to satisfy all liabilities.

Recommendation

The Prosecuting Attorney ensure an accurate book balance is maintained and accurate bank reconciliations are prepared monthly. In addition, prepare monthly lists of liabilities and reconcile the list to the available cash balance. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

Auditee's Response

*Bank reconciliations are now complete through April 2020. Moving forward, reconciliations will be completed within five days of the receipt of the bank statement. The reconciliations will subsequently be approved by both the Office Manager and the elected Prosecuting Attorney. To expedite receipt of the monthly bank statements, online banking has been set up for both the Office Manager and the elected Prosecuting Attorney. Online banking provides the ability to review transactions, verify cashed checks and bank balance, and download bank statements only. Online banking **DOES NOT** permit anyone to transfer funds or affect monies in the account in any way. These changes should resolve any previous timeliness issues with bank reconciliations. Lastly, in an effort to speed the process up further, the Restitution Clerk has been directed to block off time each month to perform her part of the reconciliation. That time is to be considered "do not disturb" time. In the past, trying to reconcile bank statements while also fielding phone calls, emails, or other general inquiries has contributed to delays. The office recognizes the importance of timely reconciliations and has prioritized them moving forward. All bank activity will be compared to book activity through the end of each*

Phelps County
Management Advisory Report - State Auditor's Findings

month, which should resolve any potential timing differences. Any balance remaining in the account will be reviewed and resolved.

Checks will be issued on or about the 1st and 18th of each month. Checks not cashed within 60 days of issuance will be followed up on to determine any issues. Checks returned as non-deliverable will receive additional attention and efforts to locate the payee. Unclaimed checks, and interest on the account, will be turned over to the state as required by law.

All payments received each day will be logged into a spreadsheet, with a total for the day printed at 4:00 p.m. daily. Payments after 4:00 p.m. will roll over to the following day. Daily totals will be compared to the weekly deposits made each Friday (or sooner if a larger payment is received).

3. County Procedures

The County Commission's procedures over the Unemployment Fund and personnel policies need improvement.

3.1 Unemployment Fund

As similarly noted in our 2 prior audit reports, the County Commission does not maintain documentation supporting the annual transfer from the Unemployment Fund to the General Revenue Fund for administrative costs for maintaining the Unemployment Fund and processing unemployment claims.

As allowed by state law, the county elects to not pay quarterly unemployment contributions to the Missouri Department of Labor and Industrial Relations (DLIR) and instead is responsible for the payment of unemployment claims as they occur. Although there are no statutory or regulatory requirements to establish such a fund, the county voluntarily elected to set money aside in the Unemployment Fund to pay claims.

The following table shows the activity of the Unemployment Fund for the years 2011 through 2019. Since 2017, the county set the annual transfer amount at 10 percent of the beginning balance of the Unemployment Fund.

	2011	2012	2013	2014	2015	2016	2017	2018	2019
Beginning balance,									
January 1	\$ 257,447	289,534	270,118	250,040	218,004	177,803	171,430	151,791	133,797
Transfers in ¹	67,392	1,209	0	0	0	0	0	0	0
Claims paid ²	(25,305)	(10,625)	(10,078)	(22,036)	(201)	(6,373)	(2,496)	(2,815)	(2,545)
Transfers out ³	(10,000)	(10,000)	(10,000)	(10,000)	(40,000)	0	(17,143)	(15,179)	(13,380)
Ending balance,									
December 31	\$ 289,534	270,118	250,040	218,004	177,803	171,430	151,791	133,797	117,872

¹ Transfers into the Unemployment Fund were made from all county funds from which employees are paid, including the restricted-use Special Road and Bridge, Assessment, Health Department, and Law Enforcement Sales Tax Funds.

² Claims paid through the Unemployment Fund consist of reimbursements to the DLIR for any unemployment benefits paid to eligible former county employees.

³ Transfers out from the Unemployment Fund consist of annual administrative transfers to the General Revenue Fund.

Phelps County Management Advisory Report - State Auditor's Findings

As noted in our prior audit report, the county still does not maintain documentation supporting the annual transfer from the Unemployment Fund to the General Revenue Fund and no documentation is available analyzing the impact of this transfer on the Unemployment Fund. In response to our prior audit recommendation, the County Commissioners indicated they would evaluate the Unemployment Fund, establish a target balance, and determine if a transfer was needed based on the target balance. They further indicated any transfers made would be based on a percentage of the fund and they would maintain documentation to support that determination and calculation. However, the county has not established a target balance, and although county officials now base the determination of the annual transfer amount on a percentage of the fund balance, no one could provide documentation or an explanation to support how the percentage was determined.

In addition, as demonstrated in the table, since at least 2017, the administrative transfers from the Unemployment Fund are disproportionate to the claims paid from the fund. The county changed the determination method and increased the annual transfer amount from the Unemployment Fund during the years 2017-2019, when unemployment claims totaled less than any previous year except 2015. Transferring higher amounts to the General Revenue Fund for administrative costs when actual unemployment claims are lower indicates it is unlikely the transfer amount reflects the administrative costs incurred for maintaining the Unemployment Fund.

To ensure transfers from the Unemployment Fund are appropriate, administrative transfers from the Unemployment Fund should approximate administrative costs incurred in the General Revenue Fund.

3.2 Personnel policies

The County Commission has not established a comprehensive county personnel policy manual covering all county employees. In addition, vacation leave policies developed for the Road and Bridge department are not always followed.

Comprehensive personnel policy manual

The County Commission has not established a comprehensive county personnel policy manual. Personnel policies typically address employment issues such as workplace conduct, personnel records, employee benefits, use of county property, etc. Some county departments have prepared their own personnel policies covering certain aspects of employment. For example, the County Commission has policies for the Road and Bridge department, and the Sheriff has policies for the Sheriff's office. However, these policies are not comprehensive.

A complete and comprehensive personnel policy manual benefits both county officials and employees by providing a basic understanding between the parties regarding rights and responsibilities, provides guidance should questions or disputes arise, and helps ensure county policies are fairly and consistently applied to all employees.

Phelps County
Management Advisory Report - State Auditor's Findings

Department policy
compliance

Leave balances for some Road and Bridge department employees are not in accordance with the department's leave policy. The department policy only allows employees to carry forward the vacation time earned in one year, and hours in excess of the allowed carryover amount will be forfeited if not used before December 31. An employee's carryover amount is based on his/her length of employment.

Our review of leave records for department employees identified 7 of the 17 employees (41 percent) with vacation hours exceeding their allowed carryover amount. For instance, one 15-year employee had a 394 hour vacation leave balance as of December 31, 2019, which exceeded his allowed one year accrual by 234 hours. These excess vacation leave hours were not forfeited after December 31 in accordance with the policy.

By not complying with personnel policies, the county may be paying more in accumulated vacation leave than required when an employee leaves employment, resulting in a greater financial burden to the county. In addition, compliance with personnel policies is necessary to ensure equitable treatment of employees.

Recommendations

The County Commission:

- 3.1 Prepare and maintain calculations of the costs associated with the administrative functions related to the Unemployment Fund to support the administrative transfers made from the Unemployment Fund to the General Revenue Fund.
- 3.2 Establish a complete and comprehensive employee personnel policy manual and ensure compliance with all policies.

Auditee's Response

- 3.1 *We will consider the methodology for making administrative transfers from the Unemployment Fund and ensure any transfers are adequately supported.*
- 3.2 *We concur with the recommendation. We are looking into developing a comprehensive employee personnel policy manual. We also agree it is important to follow policies and will take steps to remedy the situation by ensuring all Road and Bridge department employees and supervisors are aware of the leave policy and it is enforced.*

**4. County
Commission
Meeting Minutes**

The County Clerk and the County Commission do not ensure minutes of all County Commission meetings are prepared and approved timely. As of March 12, 2020, minutes were not available for the 20 open commission meetings held since January 1, 2020.

Phelps County
Management Advisory Report - State Auditor's Findings

Section 610.020.7, RSMo, requires minutes of open and closed meetings be maintained as a record of business conducted and to provide an official record of actions and decisions. Section 610.023.2, RSMo, requires the county make records available to the public for inspection and copying. Without timely preparation and approval of meeting minutes, the public records of open County Commission meetings cannot be made available to the public within a reasonable time period.

Recommendation

The County Commission ensure meeting minutes are prepared and approved timely, and maintained for all open and closed sessions.

Auditee's Response

We are pleased to report that our meeting minutes are now prepared and approved timely and we plan to continue this practice.

**5. Senate Bill 40
Board Employee
Bonuses**

The Senate Bill 40 Board paid bonuses to employees in violation of the Missouri Constitution. Sections 205.968 through 205.972, RSMo, allow counties to establish a Senate Bill 40 Board and related tax levy to establish or contract to provide a sheltered workshop, residence facility, or related services for the care and/or employment of persons with a disability. The Board for Phelps County is known as the Phelps County Board for the Developmentally Disabled (PCBDD).

In July 2018, the PCBDD paid \$500 bonuses to 16 salaried employees totaling \$8,000. In January 2020, the PCBDD paid bonuses to 14 salaried employees totaling \$16,146. The Board based the bonus amount paid to each employee in 2020 on a percentage of the employee's annual salary, with the percentage determined by the employee's performance appraisal rating.

These bonuses represent additional compensation for services previously rendered and, as such, are in violation of Article III, Section 39, the Missouri Constitution, and contrary to Attorney General's Opinion No. 72-1955 (June 14, 1955), which states, "... a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered."

Recommendation

The Phelps County Board for the Developmentally Disabled discontinue the practice of paying bonuses.

Auditee's Response

The Board has agreed and implemented the process that any/all pay raises will be given as a cost to continue and not as a bonus, as bonuses are prohibited.

Phelps County

Organization and Statistical Information

Phelps County is a county-organized, third-class county. The county seat is Rolla.

Phelps County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 156 full-time employees and 25 part-time employees on December 31, 2019.

In addition, county operations include a Senate Bill 40 Board (Phelps County Board for the Developmentally Disabled), Senior Companions Board, Law Enforcement Restitution Board, and the Phelps County Health Department.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2020	2019
Randy Verkamp, Presiding Commissioner	\$	39,161
Gary W. Hicks, Associate Commissioner		37,080
Larry J. Stratman, Associate Commissioner		37,080
Robin Kordes, Recorder of Deeds		56,182
Pamela K. Grow, County Clerk		56,182
Brendon Fox, Prosecuting Attorney		140,586
Richard Lisenbe, Sheriff		64,921
Carol Green, County Treasurer		56,182
Andy Davis, County Coroner		19,976
Kathleen S. Oliver, Public Administrator		56,182
Faith Ann Barnes, County Collector (1), year ended February 29,	66,319	
Bill Stoltz, County Assessor (2), year ended August 31,		68,182
Terris L. Cates, County Surveyor (3)		

(1) Includes \$9,904 of commissions earned for collecting city property taxes.

(2) Includes \$12,000 of annual compensation for Emergency 911 addressing services.

(3) Compensation on a fee basis.

Johnson County Collector and Property Tax System

Report No. 2020-030

June 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Johnson County Collector and Property Tax System

Background	The County Collector bills and collects property taxes for the county and most local governments. Ruthane Small served as County Collector until her resignation effective March 2, 2020. Laura Neth Smith was appointed the Johnson County Collector and sworn into office on March 3, 2020.
Findings	The audit identified no significant deficiencies in internal controls and no significant noncompliance with legal provisions. No findings resulted from our audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
County Collector
Johnson County, Missouri

We have audited the County Collector and Property Tax System of Johnson County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On March 2, 2020, a vacancy occurred in the office of the County Collector of Johnson County. A successor was appointed and sworn into office effective March 3, 2020. The scope of our audit included, but was not necessarily limited to, the period of March 1, 2020, to March 2, 2020, and the year ended February 29, 2020. The objectives of our audit were to:

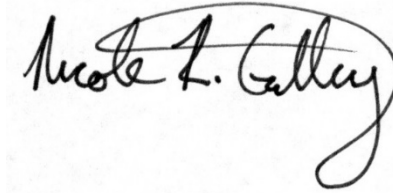

1. Evaluate the county's internal controls over significant property tax functions.
2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any monies owed to the county or the former County Collector. For the areas audited, we identified (1) no significant deficiencies in internal controls, and (2) no significant noncompliance with legal provisions. No findings resulted from our audit of the County Collector and Property Tax System of Johnson County.

Johnson County Collector and Property Tax System

Organization and Statistical Information

The County Collector bills and collects property taxes for the county and most local governments. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Ruthane Small served as County Collector until March 2, 2020. Laura Neth Smith was appointed the Johnson County Collector and sworn into office on March 3, 2020.

The County Collector received compensation of \$326 for the period March 1, 2020, to March 2, 2020. During the year ended February 29, 2020, the County Collector received compensation of \$57,756.

Nicole Galloway, CPA

Missouri State Auditor

City of Monroe City

Report No. 2020-029

June 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Monroe City

Water and Sewer Systems Contract	The city did not perform a cost-benefit analysis to determine if any cost savings would result prior to contracting with a private company in June 2018 to operate and maintain the water and sewer systems. City officials also did not solicit competitive proposals for these services. The cost for this 5-year contract will be at least \$3.2 million.
Restricted Assets	The city has not established adequate procedures to ensure restricted monies are expended only for intended purposes. City officials also used restricted utility money in the Electric and Gas Funds to make 2 loans totaling \$788,000 to the Industrial Development Fund.
Utilities	City personnel could not provide documentation that a formal review of electric, water, and sewer rates has ever been performed. In addition, the last formal review of natural gas rates occurred in 2000. Controls over non-monetary adjustments posted to customer utility accounts and utility billings need improvement. The City Administrator does not review and investigate significant utility losses identified in the monthly report on electric, gas, water, and sewer operating statistics. The city policies and procedures for utility customers with delinquent utility bills who have requested payment extensions and payment plans does not include procedures to determine how the payment amount is established and the approval process for these arrangements. The Board needs to determine proper disclosures in the city's financial statements regarding its relationship with the Missouri Joint Municipal Electric Utility Commission (MJMEUC), including the Missouri Public Energy Pool, a power pool managed by the MJMEUC.
Written Contracts	The city's contracts with some entities have not been updated in many years and do not adequately define each party's responsibilities. The city does not have written contracts with some service providers and certain outside parties.
Real Estate Transactions and Economic Incentives	The city does not have a long-range plan for the sale or development of its real estate holdings. City officials have not documented reasons for the purchase of real estate and have not generally obtained appraisals prior to purchasing or selling real estate. The city provides financial incentives to some businesses, but does not have an ordinance for offering or approving such incentives for new or existing businesses.
Accounting Controls and Procedures	The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work completed by city administrative office personnel are performed. City officials do not maintain records of all capital assets owned by the city.
Procurement Procedures	City personnel do not always solicit competitive bids or proposals for goods or services as required by the city code, and some professional services are obtained without benefit of a competitive selection process.

Fire Service Billing and Collection Procedures	The fee schedule used by the city for membership and service call billings has not been revised by the city and the Monroe City Area Fire Protection District's (FPD) Board in many years. The city and the FPD's Board do not have documentation supporting the basis for the fees charged. The city does not prepare or send bills for all billable calls.
Payroll Controls and Procedures	The Board approves year-end bonus payments to all full-time employees in violation of the Missouri Constitution. Employees are not required to sign timesheets.
Closed Meetings	The Board did not ensure compliance with the Sunshine Law for closed meetings.
Budgets and Ordinances	The city budgets prepared for the years ended September 30, 2017, 2018, and 2019, did not include all required elements. The city does not maintain an up-to-date official ordinance book.
Electronic Data Security	The Board has not established sufficient controls to reduce the risk of unauthorized access to computer systems and electronic data. Some employees share the user identification and password for 2 shared computers used for issuing receipt slips from the accounting system. Security controls are not in place to lock some computers after a certain period of inactivity.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
Monroe City, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Monroe City. We have audited certain operations of the city in fulfillment of our duties. The city engaged Luck, Humphreys and Associates, Certified Public Accountants (CPAs), PC, to audit the city's financial statements for the year ended September 30, 2018. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended September 30, 2018. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

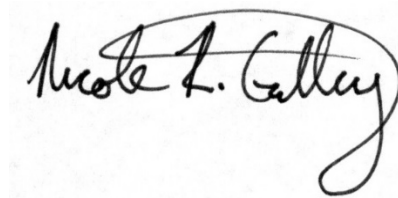

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Monroe City.

An additional report, No. 2019-051, *Tenth Judicial Circuit, City of Monroe City Municipal Division*, was issued in July 2019.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The signature is positioned above the printed name and title.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Audit Manager:	Julie A. Moulden, MBA, CPA
In-Charge Auditor:	Richard Stuck
Audit Staff:	Amanda G. Flanigan, MAcc Sacha Tejan, CFE

City of Monroe City Management Advisory Report State Auditor's Findings

1. Water and Sewer Systems Contract

The city did not perform a cost-benefit analysis to determine if any cost savings would result prior to contracting with a private company in June 2018 to operate and maintain the water and sewer systems, and as discussed in MAR finding number 7, competitive proposals were not solicited. The cost of this 5-year contract will be at least \$3.2 million.

Making the change eliminated some city paid utility employees for these systems and shifted the responsibility for operating and maintaining them to the private company. Per the contract, the company is responsible for the routine operation and maintenance expenses of the systems' facilities, including personnel services, one data/internet service connection, chemicals, materials, supplies, contracted services, insurance, and equipment maintenance and repair, except capital replacement costs (defined as nonrecurring expenditures greater than \$1,000), provided that noncapital expenditures do not exceed the amount specified in the contract. Capital improvements and major repairs to the systems continue to be the responsibility of the city.

City officials said the city has struggled to hire and retain an adequate number of employees to properly operate and maintain the systems since at least October 2014. The City Administrator indicated the proper number of employees is 5 certified plant operators, including a manager. In late May 2018, the systems' facilities were being operated by 2 plant operators with one of them not certified. As a result, city officials indicated they determined immediate action was required to ensure the continued operation and maintenance of the systems. Not performing a formal cost-benefit analysis before making a significant financial decision is not prudent.

Regular review of water and sewer operations, management, and costs is necessary to ensure the city is receiving these services at a reasonable cost and whether continuing with the current arrangement is beneficial to the city.

Recommendation

The Board of Aldermen ensure a cost-benefit analysis is prepared when making significant management decisions.

Auditee's Response

The Board felt that the decision made was the best one for the city at that time due to the major responsibility of being able to provide the citizens safe drinking water. There was a shortage of employees, but the city was limping by and thought that things were under control. Two personnel issues occurred that the city had no control over which put the city in a compromised position with only two operators for the plants. As a result, the city did not have a certified employee to operate the water plant.

Calls were made to the Department of Natural Resources for assistance and they were a great help. A call was made to a vendor, but they had no one available to assist that day. This vendor did not make an effort to put the city

City of Monroe City
Management Advisory Report - State Auditor's Findings

in contact with anyone as the individuals that the city needed to talk with were out of the office. A call was also made to another vendor, and the firm's service people were out of the office as well, but they put the city in contact with an individual and that person's vendor had someone on-site the next day; the city later entered into a contract with this vendor. Both of these vendors had the capabilities to assist with both the water and sewer plants as well as the distribution systems.

The city has been scrutinized for not contacting a local water commission. The commission was not able to provide the city with water and to our knowledge didn't provide on-site assistance for the sewer plant, sewer collection system or the water distribution system. In fact, a representative from the commission came to the Board this last summer and advised that they had completed the line to Highway 107; however, they still did not have a line to serve the city. Additionally, the commission has advised the city that there is an estimated one-year lead time from the time a contract is signed until the time that the city would have access to water from the commission. Had the city decided to go with them at the time of the issues, the city still may not have access to their water.

The city was left with the decision to contract with a vendor or not provide our citizens with drinking water for at least a year. Therefore, the Board felt that it would be in the best interest of the citizens and the city to contract with the vendor that was responsive to our needs for a 5-year term. This would allow time to get the facilities where they needed to be as well as continue providing our citizens with water and sewer service and to look at other water options. The personnel affected by this decision were given the opportunity to apply with the vendor and 2 did go to work for them. A cost-benefit study was not done due to the time constraints and needing to get certified and qualified personnel on-site to continue operations for the water and sewer facilities.

The Board understands the Auditor's concerns and will conduct a cost-benefit analysis prior to significant management decisions being made in the future. The city has recently passed a bond issue to construct a new sewer treatment facility. The city has also contracted with an engineering firm to evaluate the water treatment facility with regards to improvements that need to be made to maintain compliance. Once this study is completed, the city will be given an idea as to what type of funding will be needed to resolve the issues. This study will also provide the city with a cost-benefit analysis of the water plant. It is anticipated that the study will be completed in October 2020.

2. Restricted Assets

The city has not established adequate procedures to ensure restricted monies are expended only for intended purposes.

2.1 Utility transfers

The Board has no documentation of any discussions held or the basis for determining administrative fees and franchise taxes paid and transfers out

City of Monroe City
Management Advisory Report - State Auditor's Findings

made from the Electric, Gas, Water, and Sewer Funds to the General Fund. In addition, city personnel could not locate any documentation detailing how the administrative fees and franchise taxes are calculated. The city's audited financial statements for the year ended September 30, 2018, report the following transfers from the Electric, Gas, Water, and Sewer Funds to the General Fund:

	Electric	Gas	Water	Sewer	Total
Administrative fee	\$ 490,186	115,802	122,552	30,433	758,973
Franchise tax	132,240	38,304	15,840	8,856	195,240
Transfers out	150,000	150,000	0	0	300,000
Total	\$ 772,426	304,106	138,392	39,289	1,254,213

The administrative fee, franchise tax, and transfers out from the funds are significant and accounted for approximately 48 percent of the General Fund revenues during the year ended September 30, 2018. Because these transfers represent a significant revenue source for the General Fund, it is important for the city to periodically re-evaluate their impact, not only on the General Fund budget, but on utility rates.

The City Clerk indicated the administrative fee is based on 8 percent of utility user charges, and the franchise tax is based on 3 percent of the utility user charges. The City Administrator indicated the city would charge any utility provider the same 3 percent franchise tax. However, the city's franchise tax ordinance only authorizes the tax on a cable television provider and not city-owned utilities.

The actual administrative fees paid and franchise taxes paid by each fund differed significantly from our calculation of what should have been transferred. City personnel could not explain the differences. The utility user charges according to the city's audited financial statements and our calculation of the 8 percent administrative fee and 3 percent franchise fees for the year ended September 30, 2018, are as follows:

	Electric	Gas	Water	Sewer	Total
Utility user charges	\$ 4,730,325	1,149,269	623,879	548,287	7,051,760
8% administrative fee	378,426	91,942	49,910	43,863	564,141
Actual administrative fee	490,186	115,802	122,552	30,433	758,973
Difference	111,760	23,860	72,642	(13,430)	194,832
3% franchise tax	141,910	34,478	18,716	16,449	211,553
Actual franchise tax	132,240	38,304	15,840	8,856	195,240
Difference	\$ (9,670)	3,826	(2,876)	(7,593)	(16,313)

City of Monroe City
Management Advisory Report - State Auditor's Findings

In addition, the administrative fees paid by these utility funds exceeds the amount of expenses the city classifies as administrative in the General Fund by \$387,356. The city's audited financial statements for the year ended September 30, 2018, reported administrative expenses in the General Fund totaling \$371,617 while the administrative fees paid to the General Fund by these utility funds totaled \$758,973.

The city transferred \$150,000 from both the Electric Fund and the Gas Fund to the General Fund in 2018. The City Clerk indicated these transfers occurred to prevent the General Fund from having a deficit fund balance. These transfers were authorized by the Board in the 2018 budget. Without these funds, the General Fund would have had a deficit fund balance of \$70,651, instead of a \$229,349 balance on September 30, 2018.

The city has no documentation that the administrative fees, franchise taxes, and transfers out were system related expenses or a reimbursement of specific expenses or costs paid by the General Fund related to providing utility services. As a result, the city has violated bond covenants for its sewer system revenue bonds since at least 2016.

To ensure utility transfers are reasonable, it is important the city evaluate the value of government services the transfers are offsetting during the annual budget process and document the process for determining the percentage to be charged. In addition, Article VI, Section 602 (e) of the 2016 bond agreement prohibits the transfer of any surplus revenue for any purpose other than a system related expense and paying off the bond itself. Failure to follow the bond covenants could result in the bondholders taking action to call the bonds.

2.2 Industrial Development Fund loan

The city used restricted utility money in the Electric and Gas Funds to make 2 loans totaling \$788,000 to the Industrial Development Fund. At September 30, 2018, the Industrial Development Fund owed the Gas Fund \$644,000.

The Board amended a 2005 lease purchase agreement with a local company in 2011 and 2015. The amended lease provided the company an additional \$670,000 in 2011. The \$670,000 payment to this company came from the Industrial Development Fund. The city transferred \$200,000 from the Electric Fund and \$470,000 from the Gas Fund to the Industrial Development Fund to fund the payment. The company received another \$118,000 from the Industrial Development Fund in 2015 when the lease was amended again. The city transferred \$118,000 from the Gas Fund to the Industrial Development Fund to fund that payment. The Industrial Development Fund repaid the Electric Fund \$54,000 between 2012 and 2014 and the Gas Fund \$90,000 between 2012 and 2017. The city transferred \$146,000 from the Gas Fund to the Electric Fund in 2016 to resolve the remaining balance owed to that fund.

City of Monroe City
Management Advisory Report - State Auditor's Findings

Money in the Electric and Gas Funds is restricted for intended purposes and is not to be used for loans to other city funds. These proprietary funds are established to account for the user fees collected and costs associated with each utility separately. This separate accounting is intended to assist the city in monitoring each utility to ensure user fees are set at the level necessary to provide the service and for reasonable reserves. Although there is no defined level for reasonable reserves, it is not reasonable or prudent to set user fees at a level where excessive reserves are accumulated and then used to fund other activities unrelated to the specific utility.

Recommendations

The Board of Aldermen:

- 2.1 Ensure any future payments from the Electric, Gas, Water, and Sewer Funds to the General Fund represent reimbursement of actual costs of operations. In addition, determine the value of government services being offset by the utility transfers, maintain documentation to support the amounts transferred, and evaluate the effect on the General Fund.
- 2.2 Repay the amounts due to the Gas Fund from the Industrial Development Fund and ensure restricted electric, gas, water, and sewer funds are only used for their intended purposes.

Auditee's Response

- 2.1 *The city had done things the same way for many years. With the retirement of long-term employees, things continued "as they were" with new staff. This audit has brought to light several things that need to be evaluated and modified. Prior to making any reimbursement to the General Fund, the city will evaluate the costs and make sure that the transfers are based on actual costs and not based on an amount that is deemed feasible. The city will also make sure that any funds that are restricted due to bonds are only used for the purpose of the bonds.*
- 2.2 *The city will repay the amounts due to the utility funds from the Industrial Development Fund. In the future, the city will ensure that restricted utility funds are only used for their intended purpose.*

3. Utilities

There are significant weaknesses in the city's utility operations. The city provides electric, gas, water, sewer, and trash services, and accounts for the financial activity of each service in a separate fund. The city collected approximately \$7.2 million in utility revenues during the year ended September 30, 2018.

3.1 Utility rates

City officials could not provide documentation that a formal review of electric, water, and sewer rates has ever been performed. In addition, the last formal review of natural gas rates occurred in 2000. As a result, there is less

City of Monroe City
Management Advisory Report - State Auditor's Findings

assurance the utility rates are set at an appropriate level. Electric, water, and sewer rates last increased in 2016, and gas rates last increased in 2010.

Section 67.042, RSMo, provides that fees may be increased if supported by a statement of costs that shows the increase is necessary to cover costs of providing the service. To ensure utility rates are appropriately set, city officials should perform and document a detailed cost study of the city's utility costs, including depreciation, and set rates to cover the total cost of operations without generating excessive profits.

3.2 Non-monetary adjustments and utility billings

Controls over non-monetary adjustments posted to customer utility accounts and utility billings need improvement. The City Administrator made 205 non-monetary adjustments totaling \$8,575,924 (120 percent of utility revenues), during the year ended September 30, 2018, to reduce customer account balances.

Non-monetary adjustments are any transactions where payment is not received; however, the account balance is changed in the accounting records, such as for waiving customer late charges, adjusting usage for inaccurate meter readings, or reducing a balance due to water leaks. The City Administrator, who also has the ability to receipt utility payments to the financial accounting system, is responsible for posting non-monetary adjustments to customer utility accounts. We reviewed 11 non-monetary adjustments. The City Administrator made 2 of them (totaling \$7,290,475) to correct errors in monthly meter readings and 3 others (totaling \$269,809) because city personnel entered the wrong monthly meter reading in the billing system for a customer. These errors occurred because they were not caught by the City Administrator during her review of utility billings prior to mailing. Those reviews are not documented. City officials did not retain documentation to support the reasons for any of these 11 adjustments. The City Administrator indicated records of non-monetary adjustments are maintained in the customer's file for approximately 6 months and activity older than 6 months is not kept due to a lack of storage space.

In addition, these adjustments are not reviewed and approved by someone independent of the billing process before or after they are posted to the system. Because the City Administrator has the ability to receipt utility payments and is solely responsible for posting non-monetary adjustments to customer utility accounts, there is an increased risk that unsupported or unauthorized changes can be made in the utility system.

Non-monetary adjustments should be verified and approved by someone independent of the person responsible for these transactions to ensure they are necessary and properly handled. Considering the risks associated with non-monetary adjustments, the Board should consider monitoring all such

City of Monroe City
Management Advisory Report - State Auditor's Findings

transactions. In addition, utility billings should be reviewed for accuracy prior to mailing to identify and correct obvious billing errors.

3.3 Utility losses

The City Administrator does not review and investigate significant utility losses identified in the monthly report on electric, gas, water, and sewer operating statistics. During our review of the utility operating statistics report for the year ended September 30, 2018, water losses exceeded 10 percent for 8 months with 4 of those months exceeding 20 percent. In addition, electricity losses exceeded 10 percent for 6 months with one month at 19 percent, and gas losses exceeded 10 percent for 4 months with 3 of those months more than 24 percent.

Monthly reviews of utility losses are necessary to help detect significant system leaks or billing problems. Significant differences should be investigated.

3.4 Payment extensions and payment plans

The city policies and procedures for utility customers with delinquent utility bills who have requested payment extensions and payment plans does not include procedures to determine how the payment amount is established and the approval process for these arrangements. In addition, city personnel do not track these arrangements and do not retain copies of written payment plans once the delinquent utility bill has been paid.

The city's utility collection policy allows utility customers unable to pay their delinquent utility bill by the shut off date an extension until the second Friday of the following month to pay their bill. This extension must be requested by the customer and a \$10 fee is charged. In addition, the policy states a utility customer may request a payment plan if he/she cannot make a full payment after the extension expires. Service will be shut off if the customer does not make the payments agreed to in the extension and payment plan.

To ensure all customers are treated in a fair and equitable manner, the city's utility collection policy should be amended to document the process to determine when these arrangements are allowed, how the payment amount is to be established, and the approval process for these arrangements. In addition, retaining the signed written agreements is necessary to support all utility account transactions.

3.5 Missouri Power Energy Pool disclosures

The Board needs to evaluate its relationship with the Missouri Joint Municipal Electric Utility Commission (MJMEUC), including the Missouri Public Energy Pool (MoPEP), a power pool managed by the MJMEUC, to determine proper disclosures about the relationship in the city's financial statements.

The city contracts with the MJMEUC for the purchase of electrical power and energy. The city, along with other Missouri municipalities, is also a member

City of Monroe City
Management Advisory Report - State Auditor's Findings

of the MoPEP. In order to provide the MoPEP members a diversified portfolio of reliable energy resources on a long-term basis due to growing load requirements of the members and to replace power and energy currently purchased under short-term contracts, the MoPEP members directed the MJMEUC to participate in the development and construction of new generating facilities.

The obligations of the MoPEP members include maintaining adequate customer rates and maintenance of power facilities and contracts in order to meet the members' commitments to the pool. If a member city decides to leave the pool, it must give a 5-year notice. At the end of the 5-year period, the city would be responsible for a pro-rata share of the ongoing capital and operation costs of each pool project based on its share of energy. According to our calculations based on MJMEUC documents, Monroe City's pro-rata share was 1.6 percent and the city's obligation for the project bonds issued would be approximately \$7.3 million as of December 31, 2018. The city may also be obligated for any purchase power contracts.

The city does not include any disclosure about the MJMEUC and the MoPEP or details about the city's ownership interest in power generating facilities under construction and/or to be constructed and the potential ownership costs in the city's financial statements. However, based on the requirements of the Governmental Accounting Standards Board (GASB) for state and local governments, the relationship between the city and the MJMEUC/MoPEP may be a joint venture. Additionally, joint venture participants must disclose specific information including information regarding ongoing financial interests and/or financial responsibility and information to evaluate whether the joint venture is accumulating significant financial resources or causing financial burden on the participating government in the future. Such disclosures are necessary to comply with GASB financial reporting requirements and to fully disclose the financial arrangements, as well as potential, significant future debt, to citizens.

Recommendations

The Board of Aldermen:

- 3.1 Ensure a statement of costs is prepared to support changes in utility rates and document formal reviews of utility rates periodically to ensure revenues are sufficient to cover all costs of providing these services.
- 3.2 Ensure all non-monetary adjustments are properly approved and compared to actual changes posted to the utility system, and documentation of reasons for all non-monetary adjustments is retained. In addition, ensure utility billings are reviewed for accuracy prior to mailing.

City of Monroe City
Management Advisory Report - State Auditor's Findings

- 3.3 Review and investigate significant utility losses.
- 3.4 Amend the utility collection policy to include procedures and requirements for payment arrangements. In addition, signed written agreements should be retained to support all payment arrangements.
- 3.5 Consult with the city's independent auditor to evaluate the relationship with the MJMEUC/MoPEP and determine the proper and necessary disclosures for the financial statements.

Auditee's Response

3.1 *The city recently has had a water and sewer rate study completed. The city will budget to have an electric and gas rate study completed within the next budget cycle.*

3.2 *The meter readings are reviewed when they come in and re-reads are created for readings with obvious issues. The bills are also reviewed prior to them being mailed out; however, errors do happen. It is referenced that 205 non-monetary adjustments were made for the year ending September 30, 2018. Based on an average of 1,300 utility cards per month (based off 1,350 actual bills sent out on April 1, 2020) for the year ending September 20, 2018; it would total 15,600 utility cards. If 205 adjustments were made that reflects a 1.3 percent error rate. Considering all factors involved, that is not an excessive amount. The large corrected billings were due to water/sewer mis-reads, not putting the correct number of digits in the reader, not putting a reading in, etc.*

With regards to documentation, it is current practice to note on the re-read forms if a corrected billing was issued and why. There is a file for each location in town - residential, commercial and industrial. Any transactions regarding any location is kept in the respective file folder. Each folder has a cover sheet which shows all the transactions regarding the location (budgets, re-reads, particular issues/agreements, read in/read out, etc.). There is one file cabinet that is solely dedicated to this. As the file folders get full, items are purged from the file but they should be noted on the cover sheet. Usually, items are maintained in the files for 6 months to a year, and anything that has a major impact on the property is retained indefinitely. Depending on when the corrected billing was done, this could have impacted whether or not the actual documentation was in the file during the time of the audit.

Recently, a spreadsheet has been completed to document each corrected billing. The spreadsheet sets out the account number, address, name, service affected, increase/decrease in consumption, increase/decrease in cost, and reason for the correction. It is noted

City of Monroe City
Management Advisory Report - State Auditor's Findings

that the audit states that the items need to be approved other than by the person posting the transactions and that the Board should consider monitoring the transactions. Therefore, documentation will be signed off by the individual making the correction and another individual that is witness to the reason the billing is to be corrected. This information (less the names) will be provided to the Board on a monthly basis. A copy of the monthly report to the Board as well as copies of the back-up documentation will be filed in the City Administration's office separate from the utility files to ensure that the documentation is on file until the annual audit is completed. The city will continue to review the utility bills prior to them being mailed.

3.3 *This is another one of the areas that a long-time employee retired and this task was passed along to another individual. The audit brought this issue to light and the City Administrator is working with employees to ensure that the information entered is accurate and that a review is done on a monthly basis.*

3.4 *Recently, there have been several changes to this process. When utility bills become delinquent, a spreadsheet is developed that sets out all those individuals, when they pay, if they received a notice on their door, if they have a payment plan, if they are getting assistance, etc. This information is kept on file. Copies of all friendly reminders, cut-off notices, and payments arrangements are also kept on file.*

The city has also tightened up on this process as well. Individuals can obtain a promise to pay for \$10 to extend their bill to the second Friday of the following month. After that they will be disconnected if the bill is not paid. Three ordinances have been passed regarding delinquent accounts, time payment plans, and disputed utility accounts. A proposed utility policy has been sent to the Board for review as well. It addresses the issues in the audit as well as incorporating the recently approved ordinances. In addition, the city will attempt to obtain a signed payment agreement.

3.5 *The city will work with the accountant on this recommendation and determine what needs to be disclosed in the financial statements.*

4. Written Contracts

The city's contracts with some entities have not been updated in many years and do not adequately define each party's responsibilities. In addition, the city does not have written contracts with some service providers and certain outside parties.

Mosswood Golf and
Recreation Association

The city entered into a lease agreement with the Mosswood Golf and Recreation Association for the management and operation of the Mosswood Meadows Public Golf Course in 1984. The agreement has not been updated

City of Monroe City Management Advisory Report - State Auditor's Findings

since then and does not address the expenses the city pays on behalf of the association each year which totaled approximately \$48,000 during the year ended September 30, 2018.

The city also has not entered into written contracts with the association for loans to the association totaling \$15,000 in 2017, \$17,500 in 2018, and \$17,000 in 2019. The 2018 and 2019 loans remain outstanding.

Monroe City Area Fire Protection District

The city's mutual aid agreement with the Monroe City Area Fire Protection District (FPD) does not address the relationship between the city and the FPD. The FPD has a separate Board and is considered a separate political subdivision. However, the city provides all fire services to city and district residents. In addition, the city handles all of the FPD's accounting duties including billings and collecting revenues for annual FPD memberships and service calls made within the district; preparing disbursements; and financial reporting.

Monroe County Industrial Development Authority

The city does not have a written contract with Monroe County Industrial Development Authority for the \$40,000 paid annually for membership. The city does not require and has not received any type of report documenting how this money is used. It is unclear what benefits, if any, the city receives as a result of these payments.

Professional services and other service providers

The city does not have written contracts with some service providers. During the year ended September 30, 2018, the city paid for various services without a contract including \$30,280 in legal services and \$7,700 in brush and debris storage and removal.

Conclusion

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure city resources are used appropriately and effectively.

Recommendation

The Board of Aldermen enter into clearly written contracts defining services provided and benefits received that are updated periodically.

Auditee's Response

Mosswood Golf and Recreation Association - Recently, the city has met with the association's Board members and is monitoring their situation. The city will enter into a contract with the association to address the responsibilities of each party, benefits provided, loan situations and repayment, expenses the city will cover if the city's requisition/bid/purchase process is followed, etc.

City of Monroe City
Management Advisory Report - State Auditor's Findings

Monroe City Area Fire Protection District - The city will enter into a contract with the Monroe City Area Fire Protection District that sets out the expectations and benefits to each party.

Monroe County Industrial Development Authority - The city is no longer part of this group. Recently, the city has entered into an agreement with a vendor as the city's economic development consultant.

Professional services and other service providers:

- *Legal Services - The City Attorney provides legal services to the city for the flat amount of \$2,000 per month. The city will execute a contract for legal services.*
- *Brush/Debris Storage and Removal - To the best of the city's knowledge, - this was a "gentleman's agreement" years ago. The gentleman allowed the city to haul brush, construction spoils, etc., to his property to fill in a large area and the city is to pay for the "clean-up" of the area. The city was not aware that the individual was going to hire someone to clean up the site until we received a billing. The city is currently looking to address this situation.*

5. Real Estate Transactions and Economic Incentives

Policies and procedures for real estate transactions and economic incentives need improvement.

5.1 Real estate transactions

The city does not have a long-range plan for the sale or development of its real estate holdings. In addition, city officials do not document reasons for the purchase of real estate and do not generally obtain appraisals prior to purchasing or selling real estate. We noted the following concerns regarding real estate purchases and sales:

- City officials did not document the reason for purchasing 2 buildings from Monroe County in November 2017 for approximately \$7,000, the amount of the delinquent real estate taxes. The City Administrator indicated the buildings were purchased due to health and safety concerns. The city spent approximately \$6,000 on repairs and engineering services for one building and \$6,500 to demolish the other building. The repaired building was sold for \$20 (only 1 bid) in October 2019, however, the building had been appraised at \$6,500 in August of that year.
- City officials did not obtain an independent appraisal prior to selling 8 acres in the Monroe City Area Industrial Park in September 2017 for \$55,000. In addition, the city paid \$1,960 to repay a farmer who was

City of Monroe City Management Advisory Report - State Auditor's Findings

leasing the property when the property was sold to get the crops cleared before his lease had expired.

- City officials have no plans for the sale or development of the remaining 28 acres in the Monroe City Area Industrial Park. These acres are currently leased to a farmer for \$2,400 per year. The city purchased 36 acres from the Monroe City Development Board in November 2014 for \$157,500.
- The city also owns 4 additional properties that are unused and 2 other properties that are leased for farming. City officials have not performed a cost-benefit analysis on these leases and has no current plans for the sale or development of these properties.

To ensure efficient and effective use of city resources, the Board should have a documented plan, including a cost-benefit analysis, for the use of city-owned properties. Good business practice requires real estate purchases be formally and independently appraised to ensure a reasonable price is paid. While leasing properties to farmers may provide some benefit to the city, adequate planning and cost-benefit analysis is needed to ensure city resources are used effectively.

5.2 Economic incentives

The city does not have an ordinance for offering or approving financial incentives to new or existing businesses.

The Board granted a local business credits against its utility bills totaling \$10,200 between December 2014 and December 2017 for creating a total of 34 new jobs. The December 21, 2017, Board meeting minutes indicate that according to city policy this business will receive \$300 in credits for each job created as long as the jobs last at least 1 year. However, the City Administrator indicated the city does not have an ordinance or written policy for the utility incentive program.

The sale contract for the business that purchased 8 acres in the Monroe City Area Industrial Park gives the business the opportunity to receive a \$5,000 reimbursement for each job created up to a maximum of 11 jobs or \$55,000, as long as the job lasts at least 1 year. The contract gives the business 60 months to claim any reimbursements. As of April 2020, the business had not made any claims.

Section 79.110, RSMo, provides fourth-class cities with the power to enact ordinances for the benefit of trade and commerce. In addition, allowing industrial customers to receive free or preferential utility services reduces city revenues and could create higher utility rates for other paying customers. In addition, economic development financial incentives should be fair and transparent.

City of Monroe City
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Aldermen:

- 5.1 Develop plans, including a cost-benefit analysis, for the use of city-owned property, and ensure independent appraisals are obtained prior to the purchase or sale of real estate.
- 5.2 Adopt an ordinance detailing economic incentives offered to businesses located in or relocating to the city.

Auditee's Response

- 5.1 *Tax Sale 2017 - First Street & N. Main Street Properties - These properties were blighted properties and had been abandoned. The tax sale allowed the city to purchase the properties and abate the nuisance so that the properties could be sold to private individuals and put back on the tax rolls. The First Street property has been demolished but not yet sold. The N. Main Street property did have an appraisal done and it was sold for \$20; which alleviated the city from having to spend additional money to bring the property into compliance.*

Industrial Park Lot - The sale of this property was to allow an existing company to expand its operations. The city crews cleared the debris from the lot as it was felt that it would be less expensive than to hire an independent contractor to do the work.

Industrial Park 28 acres - The purpose of this purchase was to keep the land open for industry build, relocation, or expansion.

Additional City Properties - The properties in residential areas were purchased to alleviate a nuisance and it is anticipated that these properties will be sold. There has not been an expressed interest in purchasing the properties even when offered for sale; but the nuisances have been abated.

Recently, the city has developed an appraisal policy for the sale or purchase of property. The city has discussed developing covenants and restrictions for the land at the Industrial Park. The city is utilizing the land west of the Mosswood Meadows Public Golf Course for the land application of sludge as it is more cost efficient to do that than to have a company come in and pump out the lagoons. The city will look into developing a policy for city properties that will include a cost-benefit analysis and an appraisal.

- 5.2 *Utility Bill Incentive - This plan is active, but the city will adopt an ordinance to formally accept this plan.*

City of Monroe City
Management Advisory Report - State Auditor's Findings

8 Acres in the Industrial Park - No request for reimbursement has been made as of the writing of this response.

Recently, the city has entered into an agreement with a vendor as an economic development consultant. The vendor is working with the city to develop plans for the city's economic development program. Once this evaluation is completed, the city will approve an ordinance that will detail the incentives offered to all businesses.

6. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the year ended September 30, 2018, city receipts totaled approximately \$10.2 million for all funds. The city receives payments for utility services, taxes, and other miscellaneous revenues.

6.1 Segregation of duties

The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work completed by city administrative office personnel are performed. The Administrative Assistants, City Clerk, and City Administrator can receipt payments. The City Clerk is primarily responsible for preparing and making deposits, processing payroll, preparing disbursements, signing checks, and reconciling bank accounts. The City Administrator signs all checks but does not perform a review of the detailed accounting and bank records.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records should be performed.

6.2 Capital assets

City officials do not maintain records of all capital assets owned by the city. They maintain a listing of capital assets covered by property and liability insurance including buildings, vehicles, and equipment, but do not maintain records of land, utility system infrastructure, and other property. In addition, city personnel do not tag, number, or otherwise identify assets or perform annual physical inventories.

Adequate capital asset records and procedures are necessary to provide controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

Recommendations

The Board of Aldermen:

- 6.1 Segregate the accounting duties. If proper segregation cannot be achieved, ensure documented independent or supervisory reviews of detailed accounting and bank records are performed.

City of Monroe City
Management Advisory Report - State Auditor's Findings

- 6.2 Ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent disposition. The Board should also ensure city personnel properly tag, number, or otherwise identify all applicable city property and conduct an annual inventory.

Auditee's Response

- 6.1 *Due to the limited staff that wear many hats in their job duties, segregation of duties is a challenge. However, the following items have been implemented to address these concerns.*
- *Preparing/making deposits - There are 4 administration employees (including the City Clerk and City Administrator) that take the money and make deposits. When one individual closes out the drawer at the end of the day, it confirms that all was entered correctly and applied correctly, or the drawers won't balance - regardless of who took the money. The City Administrator does periodically check for voided transactions during the day and to see why they occurred. Voided transaction information is kept with the daily paperwork and designate why something was voided.*
 - *Payroll - Concern was expressed during the audit that there is not a review done on the payroll and a few other items. The following items have been implemented.*
 - *The City Administrator's timesheet is copied to the Mayor each pay period.*
 - *The City Administrator periodically reviews the payroll through a spreadsheet to confirm that what was on the timesheets was correctly entered into the computer. This information is printed out and maintained.*
 - *The City Administrator reviews all timesheets (as normal) but now ensures she signs off the timesheets for managers, as well as her employees.*
 - *The disbursements (bills payable) are put together by an Administrative Assistant, reviewed by the City Administrator, and approved by the Board. The checks are issued by the Administrative Assistant, reviewed and signed by the City Administrator as well as the City Clerk. Other disbursements throughout the month are reviewed by the City Administrator and City Clerk and sent out (health/life insurance, payroll deductions, end of month transactions, etc.).*

City of Monroe City
Management Advisory Report - State Auditor's Findings

- *Signing checks is done by the City Clerk and the City Administrator or the Mayor in the absence of the City Clerk or City Administrator. The Mayor Pro-Tem is also an authorized check signer.*
- *The City Administrator is developing a policy to ensure that detailed accounting and bank records are reviewed on a regular basis.*

6.2 *Recently, the City Administrator has had each department create a listing of the capital assets items that they have and is in the process of compiling the information. With this listing, the departments were also asked to list the condition of the items so that items that need repaired or replaced can be taken into consideration at budget time. Board members will determine what types of items they wish to be tagged as city property.*

7. Procurement Procedures

Bidding

City personnel do not always solicit competitive bids or proposals for goods or services as required by city code, and some professional services are obtained without benefit of a competitive selection process.

The city did not obtain bids in compliance with the city code for the following purchases during the year ended September 30, 2018.

Item	Cost
Seed, fertilizer, and weed control chemicals	\$ 24,294
Water and wastewater plant supplies	13,338
Uniforms and rugs	11,463
Dump site clean-up	7,700
Mower	6,000
Sprayer	4,000
Tire deflation device	1,710
Total	\$ 68,505

City personnel indicated the seed, fertilizer, weed control chemicals, mower, and sprayer were not bid because procurement was arranged by the Mosswood Golf and Recreation Association. These purchases were paid with city funds and as such, should have been bid in accordance with the city code.

In addition, city personnel could not locate some quotes solicited and received for purchases of water treatment plant chemicals totaling \$101,784 and aviation fuel totaling \$37,481 purchased during the year ended September 30, 2018.

City of Monroe City
Management Advisory Report - State Auditor's Findings

City Code Section 2-271, requires city officials to solicit three bids for purchases of goods and services (excluding professional services) costing between \$500 and \$1,500, and competitive (sealed) bids for purchases over \$1,500.¹ In addition to being required by the city code, the routine use of a competitive procurement process for major purchases ensures the city has made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in city business. Complete documentation should be maintained of all bids received and justification for awarding the bid.

Professional services

The city has not established policies for the selection of vendors providing professional services. The city code also exempts "services of individuals possessing a high degree of professional skill" from bidding requirements. Professional services obtained during the year ended September 30, 2018, without a competitive selection process included audit services totaling \$6,000 and the management services for the water and sewer systems. As discussed in MAR finding number 1, the cost of this 5-year contract will be at least \$3.2 million.

Soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the Board to make better informed decisions to ensure necessary services are obtained from the best qualified provider, taking expertise, experience, and/or cost into consideration.

Recommendation

The Board of Aldermen ensure city officials competitively procure major purchases in accordance with the city code and maintain documentation of decisions made and require the Mosswood Golf and Recreation Association to comply with the city's procurement rules for items the city will be reimbursing the association for. In addition, establish a policy to address the procurement of professional services.

Auditee's Response

Bidding:

- *Mosswood Golf and Recreation Association - The city will advise the Mosswood Golf and Recreation Association of the need for them to follow the city's procurement policy including soliciting bids.*
- *Treatment Plant Chemicals - The chemicals were not officially bid out and it is not known when they were last bid out. When the vendor took over the operations of the facilities, they would proceed with bidding out*

¹ As indicated in MAR finding number 11.3, ordinances were last codified in August 2009. Ordinance 1-2017, was amended by City Code Section 2-271 in January 2017. Prior to this ordinance, competitive bidding was not required unless the purchase exceeded \$1,000.

City of Monroe City
Management Advisory Report - State Auditor's Findings

chemicals once it was determined what chemicals would be utilized. Currently, there is an engineering company that is reviewing our processes and there may be process and chemical changes involved in that. Once it is determined how the city will proceed with those recommendations, there will be an opportunity to bid out the chemicals based on usages which will create better quantities for better pricing.

- *Quotes and sealed bids - The city has greatly improved its bidding processes to ensure that bids are being obtained when needed. Recently, the number of bids has been increased as well.*

Professional Services:

- *The city selects professional service vendors based on qualifications as we do engineers. For example, in selecting engineers for various projects, requests for qualifications are sent out and those that are interested in the job send in their qualifications. The qualifications are then reviewed and scored based on criteria related to the project. The vendor is selected based on their score and then price negotiations begin. If a reasonable price cannot be negotiated, then the negotiations end and the next highest vendor is approached to do business with.*
- *The city will go through a bidding process for audit services.*
- *Water and sewer management services were not bid out due to the concerns of being able to provide our citizens with water, maintain DNR compliance, etc. The selection was based on their prompt response to our situation.*

The city will review the existing procurement ordinance including professional services.

8. Fire Service Billing and Collection Procedures

The city's billing and collection procedures provided for the FPD need improvement. As discussed in MAR finding number 4, the city performs all accounting duties for the FPD. The city bills FPD property owners who live outside city limits a yearly membership fee of \$75 for most property owners. The city also bills for calls for services provided outside city limits if the citizen does not pay the annual membership fee or if the citizen does not reside in the FPD. The city charges \$250 for responding to a traffic incident; \$500 for responding to a traffic incident with a hazardous chemical spill, and \$1,500 for responding to a fire. The FPD had 196 calls for service during the year ended September 30, 2018.

8.1 Fire service fees and costs

The fee schedule used by the city for membership and service call billings has not been revised by the city and the FPD's Board in many years. In addition, the city and the FPD's Board do not have documentation supporting the basis

City of Monroe City Management Advisory Report - State Auditor's Findings

for the fees charged. To ensure the costs of providing service calls are fully recovered, city officials should work with the FPD to analyze the costs and revise the fee schedule if necessary. Such analysis and revisions should be periodically performed and documented.

8.2 Billing and collection

The city does not prepare or send bills for all billable calls. For 13 of 27 billable calls, the City Administrator could not explain why billings did not occur. The city lost an estimated \$5,750 in revenues on these calls. In addition, the city does not maintain records of outstanding billings or pursue collection of these accounts receivables. We determined the city only received payment for 5 of the 14 calls billed (\$3,750) and lost \$4,750 in revenues for the 9 unpaid calls.

Good business practices require establishment of adequate billing and collection procedures to ensure accounts are billed and collected timely and bad debts are kept to a minimum. In addition, a complete and accurate list of unpaid service call billings would allow city officials to more easily review the amounts due, take appropriate steps to ensure amounts due are collected, and determine if any amounts are uncollectible.

Recommendations

The Board of Aldermen:

- 8.1 Work with the Monroe City Area Fire Protection District Board to establish procedures to adequately track costs for providing fire services, monitor and analyze these costs on a periodic basis, and revise the fee schedule if necessary.
- 8.2 Prepare and send bills for all billable calls, and work with the Monroe City Area Fire Protection District Board to develop written policies and procedures outlining specific steps and criteria to be followed for billing and collection activities.

Auditee's Response

- 8.1 *These rates have not been modified for many years and the city realizes that a review should be done to ensure that the fees are justified, and a basis determined for the fee schedule.*
- 8.2 *The city billed based on what the FPD asked the city to bill. The city didn't determine who did or didn't get billed. Since the audit, the Fire Chief delivers paperwork after the service call to advise the City Clerk what to bill for and how much. This change should increase the fees collected and be a more accurate way of billing. When monthly paperwork is turned in, it will be reviewed to determine who was not billed and why.*

City of Monroe City
Management Advisory Report - State Auditor's Findings

9. Payroll Controls and Procedures

Payroll controls and procedures need significant improvement. The city disbursed approximately \$1.4 million in salaries and wages during the year ended September 30, 2018.

9.1 Bonuses

The Board approves year-end bonus payments to all full-time employees in violation of the Missouri Constitution. The city paid \$2,440 in year-end bonus payments in December 2018. The bonus schedule for 2018 indicates each full-time employee received \$20 for each year of service, with a \$50 minimum and a \$200 maximum. The city paid \$74,665 in year-end bonus payments between December 2000 and December 2018. These payments represent bonus compensation for services previously rendered.

Payments for services previously rendered are in violation of Article III, Section 39(3), Missouri Constitution and contrary to Attorney General's Opinion 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered."

9.2 Timesheets

Employees are not required to sign timesheets. We noted employees did not sign 6 of 16 timesheets tested during the year ended September 30, 2018. In addition, the timesheets of supervisors including the City Administrator and City Clerk are not independently reviewed or approved. Employee timesheets are signed by the employee's supervisor and supervisors sign their own timesheets to document approval of hours worked.

To ensure the accuracy of the hours worked, timesheets should be signed by the employees and reviewed and approved by the supervisor or a member of the Board. In addition, 29 CFR Section 516.2(a) of the Fair Labor Standards Act (FLSA) requires employers maintain accurate records of actual time worked by employees.

Recommendations

The Board of Aldermen:

- 9.1 Discontinue paying employee bonuses.
- 9.2 Ensure timesheets are properly signed and approved.

Auditee's Response

- 9.1 *The Board will consult with legal counsel to determine the best course of action.*
- 9.2 *The City Administrator reviews all timesheets to confirm hours, totals, etc., before the payroll is processed. The City Administrator now ensures she signs off on the timesheets for managers and administration staff including the City Clerk. The City*

City of Monroe City
Management Advisory Report - State Auditor's Findings

Administrator's timesheet is copied for the Mayor for each pay period.

10. Closed Meetings

The Board did not ensure compliance with the Sunshine Law for closed meetings. The Board held 29 closed meetings between October 5, 2017, and April 18, 2019.

The Board discussed some items in closed meetings that are not allowed by law. For example, the Board discussed giving employees a cost of living raise and approved year-end bonuses (see MAR finding number 9.1) in closed meetings; however, the closed meeting minutes do not document discussion of individually identifiable personnel records, performance ratings or records pertaining to employees or applicants for employment as allowed under Section 610.021 (3), RSMo, in these meetings. Other topics the Board discussed in closed sessions that are not allowed by law included a local business's delinquent utility bill, the Police Chief's request to purchase new service pistols, an upcoming increase in employee healthcare premiums, and other issues.

In addition, the Board sometimes discussed issues other than the topics cited in the open minutes for going into a closed meeting. For example, the Board discussed a proposed contract for management of the water and sewer systems in closed session; however, the minutes did not cite Section 610.021 (12), RSMo, which allows for the discussion of documents related to a negotiated contract until the contract is executed. In addition, the Board discussed the internal control letter from its auditor; however, the minutes did not cite Section 610.021 (17), RSMo, which allows for confidential and privileged communications between the city and its auditor, including all auditor work product. Instead, the open minutes for both of these closed meetings cited legal discussions and personnel issues per Sections 610.021 (1) and (3), RSMo.

Section 610.021, RSMo, lists the topics that may be discussed in closed meetings. Section 610.022.3, RSMo, mandates that the discussion topics and actions in closed meetings must be limited to only those specifically allowed by law as announced in the justification for closing the meeting.

Recommendation

The Board of Aldermen ensure only topics allowed by state law are discussed in closed Board meetings, the specific section of law allowing the closure is announced publicly and recorded in the minutes, and discussions in closed meetings are limited to only those specific reasons cited for closing the meeting.

Auditee's Response

Since the city was also reviewed for Sunshine Law violations, city officials have attended the required training. City officials now have a much better understanding of what can and cannot be discussed in a closed session. The

City of Monroe City
Management Advisory Report - State Auditor's Findings

city will set up Sunshine Law training as the new Mayor and Aldermen come on to the Board.

11. Budgets and Ordinances

The city has not complied with state laws regarding preparing complete annual budgets. In addition, ordinance tracking needs improvement.

11.1 Budgets

The city budgets prepared for the years ended September 30, 2017, 2018, and 2019, did not include all required elements. The budget documents did not include a budget message, budget summary, and the financial activity and balances of the city's indebtedness.

Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting tax levies, utility rates, and informing the public about city operations and current finances.

11.2 Ordinances

The city does not maintain an up-to-date official ordinance book. City officials last codified ordinances in August 2009.

Because ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important ordinances be current and complete.

Recommendations

The Board of Aldermen:

- 11.1 Prepare annual budgets that contain all information required by state law.
- 11.2 Ensure the city's official ordinance book is complete and updated timely.

Auditee's Response

- 11.1 *This had not been done in the past and the city did not realize this was a requirement. The city will ensure that the required information is included in budget documents.*
- 11.2 *The city realizes that the ordinance book is outdated and has included money in the current budget for updates. The City Administrator and the City Attorney are working to see that the existing ordinances are reviewed and updated as needed prior to updating the books.*

City of Monroe City
Management Advisory Report - State Auditor's Findings

12. Electronic Data Security

The Board has not established sufficient controls to reduce the risk of unauthorized access to computer systems and electronic data. As a result, city records are not adequately protected and are susceptible to unauthorized access or loss of data.

12.1 User identifications and passwords

The Administrative Assistants, City Clerk, and City Administrator share the same user identification and password for 2 shared computers used for issuing receipt slips from the accounting system. While each has access to the receipt function on assigned work computers, which have unique user identification and passwords, the City Clerk indicated receipting is done on the computers at the front counter. In addition, passwords for employees in the administrative office, police department, and fire department are not required to contain a minimum number of characters and employees in the fire department are not required to change passwords periodically.

While a user identification and password are required to authenticate access, the security of these logon credentials is dependent upon keeping them confidential and requiring users to enter their unique user identification and password when switching users. Allowing certain users to share logon credentials, not requiring passwords to contain a minimum number of characters in certain offices, and not requiring passwords to be periodically changed at the fire department, increases the risk of unauthorized access and/or changes to the system and records and does not provide assurance access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique to each person and passwords should be confidential, contain a minimum number of characters, and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

12.2 Security controls

Security controls are not in place to lock the City Administrator, City Clerk, Administrative Assistants, and Fire Chief's computers after a certain period of inactivity. In addition, the fire department does not have security controls in place to lock computers after a specified number of incorrect logon attempts.

Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Logon attempt controls lock the capability to access a computer after a specified number of consecutive unsuccessful logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

City of Monroe City
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Aldermen:

- 12.1 Require each employee to have his/her own user identification and password with a minimum number of characters, that is periodically changed. In addition, stop allowing employees to share access credentials on certain computers.
- 12.2 Require city computers have security controls in place to lock each computer after a certain period of inactivity and a specified number of incorrect logon attempts.

Auditee's Response

- 12.1 *The Administrative Assistants, City Clerk, and the City Administrator's computers do have unique passwords. The city will look into addressing this situation for the shared computers that are used for issuing receipt slips. This issue will also be addressed in the police department and the fire department.*
- 12.2 *The City Administration computers do not have controls in place to lock after a certain length of time, mainly because it causes issues with our Summit software. To correct this, City Administration employees can manually lock the screen so that no one can enter their computer. However, the Administrative Assistants, City Clerk, and City Administrator's computers do become locked after 3 incorrect logon attempts. The city will work with the Fire Chief to ensure that his computer locks out after 3 incorrect logon attempts.*

City of Monroe City

Organization and Statistical Information

The City of Monroe City is located in Monroe, Marion, and Ralls Counties. The city was incorporated in 1869 and is currently a fourth-class city. The city employed 25 full-time employees and 28 part-time employees on September 30, 2018.

City operations include utility services (natural gas, electricity, water, sewer, and sanitation), public safety (fire and police), street maintenance, a municipal library, a municipal cemetery, airport services, economic development, and recreational facilities (lakes, parks, pool, and a golf course).

Mayor and Board of Aldermen

The city government consists of a mayor and 6-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at September 30, 2018, are identified below. The Mayor is paid \$600 per month and the members of the Board of Aldermen are paid \$250 per month. The compensation of these officials is established by ordinance.

John Long, Mayor
Jason Osbourne, Alderman Ward I
Jeremy Moss, Alderman Ward I
Marvin Vilorio, Alderman Ward II
Dane Foster, Alderman Ward II
Connie Painter, Alderwoman Ward III
Melissa Hays, Alderwoman Ward III

City Marshal

The City Marshal at September 30, 2018, was Tyler Wheeler and his annual compensation was \$48,000. The City Marshal is elected to a 4-year term. The City Marshal's compensation is established by ordinance.

Other Principal Officials

The City Administrator and City Clerk are appointed positions. The city's principal officials at September 30, 2018, are identified below:

Jackie Pangborn, City Administrator
Christine Ellison, City Clerk
Patrick R. Enochs, Fire Chief
Michael Williams, City Attorney

Financial Activity

Appendixes A and B present a summary of the city's financial activity for the year ended September 30, 2018. We obtained this information from the city's audited financial statement report.

Nicole Galloway, CPA

Missouri State Auditor

Charter School Oversight

Report No. 2020-028

June 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Charter School Oversight

Charter School Boards	State law does not require members of the board of directors for charter schools to obtain a specific amount of training or meet certain qualifications. As a result, it is unclear whether board members are adequately prepared to oversee charter schools.
Inconsistent Oversight	Charter school sponsor oversight of schools is not consistent and sponsor representatives indicated additional information or guidance would be useful regarding their duties. No standards have been established for the frequency of charter school reviews, contents of the annual oversight report, or what sponsors monitor at charter schools.
Charter School Sponsor Funding Comparison and Use	Charter school sponsor funding methods and use of sponsor funding should be periodically evaluated. A comparison of Missouri's funding methodology to methods used by 44 states and the District of Columbia that operate charter school programs found various funding methods used by these entities. Some Missouri sponsors use part or all of their funding to provide additional programs and services to their charter schools rather than for administrative costs related to oversight duties.

Due to the nature of this report, no rating is provided.

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Missouri State Auditor

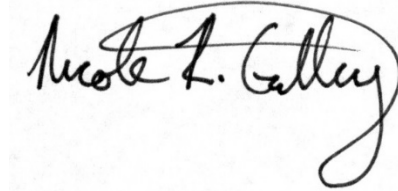

Honorable Michael L. Parson, Governor
and
Members of the General Assembly,
and
Charles Shields, State Board of Education President
and
Dr. Margie Vandeven, Commissioner
Department of Elementary and Secondary Education
Jefferson City, Missouri

We have conducted an audit of Charter School Oversight and certain information related to charter school sponsors, in fulfillment of our duties under Charter 29, RSMo. The scope of the audit included, but was not limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate internal controls over significant management and financial functions related to the oversight of charter schools.
2. Evaluate compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions related to charter school oversight.
4. Compare Missouri's charter school funding method with that of other states.
5. Evaluate potential changes needed in state laws governing charter schools and charter school sponsors.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, (3) no significant deficiencies in management practices and procedures, (4) differences between states on how they fund charter sponsors, and (5) opportunities for improvement in the state laws governing charter schools and charter school sponsors. The accompanying Management Advisory Report presents our findings arising from our audit of Charter School Oversight.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Charter School Oversight

Introduction

Background

In 1998, Missouri began allowing for the formation of charter schools in St. Louis and Kansas City under Section 160.400, RSMo. This statute made Missouri the 34th state to authorize the creation of charter schools. Charter schools are separate schools that receive the same funding as public schools, but are allowed to operate free from some rules and regulations that apply to traditional public school districts. As of June 30, 2019, Missouri had 38 charter schools.

Sponsor formation

Each charter school must have an approved sponsor. An approved sponsor has the authority to open, monitor, and evaluate its charter school(s). Missouri revised state laws governing charter schools in 2012, which grandfathered in all entities sponsoring a charter school as of August 28, 2012, and established the Missouri Charter Public School Commission (MCPSC). The MCPSC is an independent sponsoring entity consisting of 9 members appointed by the Governor, with consent of the Senate.¹

Section 160.400.3, RSMo, allows the following entities to become a charter school sponsor (1) the school board of Kansas City Public Schools or St. Louis Public Schools; (2) a public 4-year college or university with an approved teacher education program; (3) a community college with the service area encompassing some portion of the district; (4) any private 4-year college or university with an enrollment of at least 1,000 students, with its primary campus in Missouri, and with an approved teacher preparation program; (5) any 2-year private vocational or technical school designated as a 501(c)(3) nonprofit organization under the Internal Revenue Code of 1986, as amended, and accredited by the Higher Learning Commission, with its primary campus in Missouri; and (6) the MCPSC.

To become a sponsor, these entities, except the MCPSC and sponsors grandfathered in by the 2012 legislation, must submit a sponsorship application to the Department of Elementary and Secondary Education (DESE) as provided under Section 160.403, RSMo. Once the entity is approved as a sponsor, the DESE executes a 6-year renewable sponsoring contract with the sponsor. The Kansas City Public Schools is the only new sponsor approved since 2012.

¹Section 160.425, RSMo, governs the creation of the MCPSC, its members, duties, and funding. No more than 5 members shall be of the same political party and no more than 2 members shall be from the same congressional district. Appointees to the MCPSC are selected by the governor as follows (1) 1 member from 3 recommended by the commissioner of education, (2) 1 member from 3 recommended by the commissioner of higher education, (3) 1 member from 3 recommended by the president pro tempore of the senate, (4) 1 member from 3 recommended by the speaker of the house of representatives, and (5) 5 additional members appointed by the governor, one of whom is selected from 3 recommended by the Missouri School Board Association.

Charter School Oversight Introduction

The following table lists all charter school sponsors since the beginning of the charter schools program in 1998. Some of the entities are no longer operating as sponsors.

Sponsor	Operating from
University of Central Missouri	1999-Present
Southeast Missouri State University	2000-Present
University of Missouri - St. Louis	2000-Present
Saint Louis Public Schools	2001-Present
Saint Louis University	2008-Present
Washington University	2009-Present
University of Missouri - Columbia	2010-Present
Kansas City Public Schools	1999-2005 ¹ 2015-Present
Missouri Charter Public School Commission	2015-Present
University of Missouri - Kansas City	1999-2019
Lindenwood University	2010-2018
Missouri University of Science and Technology	2001-2013
Missouri Baptist University	2006-2011
Harris-Stowe State University	2000-2006

¹ Sponsorship ceased for a 10-year period after closure of Westport Edison Academy in 2005.

Sponsor governance

Sections 160.400 through 160.425, and 167.349, RSMo, provide requirements for the organization and administration of charter schools. In addition, 5 CSR 20-100.250, establishes policies and procedures for the DESE to oversee and evaluate whether a sponsor is in good standing with its obligations. The DESE approves and provides oversight to sponsors who, in turn, assist in opening, monitoring, and evaluating charter schools.

According to Sections 160.400.11(3),(4), and (5), RSMo, for a sponsor to remain in good standing, it must fulfill its obligations under Sections 160.400 to 160.425, and 167.349, RSMo, including, but not limited to, negotiating contracts with its charter schools, conducting contract oversight, and implementing a process that uses comprehensive data to make renewal decisions. Each contract must clearly state the rights and responsibilities of each party regarding school autonomy, expected outcomes, measures for evaluating success or failure, consequences for poor academic performance, and other material terms. The sponsor must provide oversight that evaluates charter school performance, monitors compliance, and advises on intervention and renewal decisions, and ensures autonomy.

Under Section 160.400.17(1), RSMo, the State Board of Education (SBE) is required to evaluate sponsors every 3 years to determine if they are in compliance with established standards. The SBE completes these evaluations through the DESE. If DESE personnel determine a sponsor is in material noncompliance with its duties, Sections 160.400.17(2), (3), and (4), RSMo,

Charter School Oversight Introduction

provide procedures for remediation. Under the procedures, the DESE will notify the sponsor and give the sponsor time to complete corrective actions. If compliance issues continue, the Commissioner of Education conducts a public hearing and the SBE may recommend corrective actions, which may include withholding the sponsor's funding and suspending the sponsor's authority to sponsor a school that it currently sponsors or an additional school until the sponsor corrects the noncompliance. The SBE may also decide to remove the sponsor's authority to sponsor. The sponsor is provided an opportunity to respond to the recommendations. Final determination regarding corrective actions is determined by the SBE. If the SBE removes a sponsor's authority, the MCPSC becomes the sponsor of the suspended sponsor's charter schools.

Sponsor funding

Per Section 160.400.11, RSMo, a sponsor receives 1.5 percent of the amount of state and local funding allocated to each charter school from the DESE not to exceed \$125,000, adjusted for inflation. The DESE will continue to remit the sponsor payment as long as the sponsor fulfills its obligations set out in state law and in the sponsor's contracts with the charter schools. The MCPSC has received both the 1.5 percent allocation for each school sponsored and a state appropriation to help with the commission's operations and oversight of its sponsored charter schools. Beginning in July 2020, the MCPSC will only receive the 1.5 percent allocation from charter school funds.

Section 5 CSR 20-100.260(1)(I) requires the sponsors to submit to the DESE an annual financial accountability report that shows if the sponsor spent at least 90 percent of its funding to support charter school operations and compliance.

Charter School Oversight Introduction

Sponsors received the following funding for the 2 years ended June 30, 2019.

Sponsors	Year Ended June 30,		
	2019	2019	2018
	Charter Schools Sponsored	Payments Received	Payments Received
University of Central Missouri	8	\$760,383	\$778,852
Southeast Missouri State University	1	86,878	79,437
University of Missouri - St. Louis	7	427,921	407,285
Saint Louis University	1	32,282	118,329
Washington University	2	177,812	173,877
University of Missouri - Columbia	8	640,888	521,424
Kansas City Public Schools	2	35,295	22,394
MCPSC	9	369,728	28,724
University of Missouri - Kansas City ¹	0	336,389	671,537
Lindenwood ¹	0	75,992	148,814

¹ Sponsorship responsibilities transferred to MCPSC during the year ended June 30, 2019.

Charter school formation

Per Section 160.405.1, RSMo, when an individual or entity seeks to establish a charter school in Missouri, the person or organization must prepare and submit a proposed charter application to a potential sponsor. The potential sponsor reviews the proposal and has the option to approve or deny the application.

Section 160.405.3, RSMo, provides if a charter is approved by a sponsor, the charter application must be submitted to the SBE, along with a statement of finding by the sponsor that the application meets the requirements of Sections 160.400 to 160.425 and Section 167.349, RSMo, and a monitoring plan under which the charter sponsor will evaluate the academic performance, including annual performance reports, of students enrolled, in the charter school. The SBE must approve or deny a charter application within 60 days of receipt of the application.

The DESE provides assistance to the SBE during the application review process. DESE personnel review the charter application approved by the sponsor for state and federal compliance. The DESE then presents the charter school application with a statement of finding and a recommendation for approval or disapproval to the SBE. The SBE ultimately makes the decision on the school's establishment.

Charter school renewals

Per Section 160.405.9(2), RSMo, the sponsor's renewal process of a charter school must be based on a thorough analysis of whether (1) the charter school's annual performance report met or exceeded the district in which the

Charter School Oversight Introduction

charter school is located in 3 of the last 4 school years; (2) the charter complied with its legally binding contract with the sponsor; and (3) the charter school is organizationally and fiscally viable determining at a minimum that the school does not have a negative balance in its operating funds, a combined balance of less than 3 percent of the amount expended for such funds during the previous fiscal year; or expenditures that exceed receipts for the most recently completed fiscal year.

In the year the charter school is considered for renewal, the sponsor will submit a revised charter application to the SBE that demonstrates whether the charter school complied with the performance contract and federal and state laws. The SBE reviews the information provided and at its next regularly scheduled meeting votes on the revised charter application.

Charter school closures

The sponsors are required by Section 160.405.8, RSMo, to close or take other remedial actions if they identify the following:

- The charter school provides a high school program that fails to maintain a graduation rate of at least 70 percent in 3 of the last 4 school years unless the school has dropout recovery as its mission.
- The charter school's annual performance report results are below the district's annual performance report results based on the performance standards in 3 of the last 4 school years.
- The charter school is identified as a "persistently lowest-achieving school"² by the DESE.

² The DESE has procedures in place to identify "persistently lowest-achieving schools" in accordance with federal law (Section 1111(c)(4)(D) of the Elementary and Secondary Education Act).

Charter School Oversight Introduction

Figure 1: Number of charter schools opened and closed by fiscal year

Figure 1 shows the number of charter schools opened and closed by fiscal year since 1999.

Source: Prepared by the SAO using data from the DESE website. See Appendix A for a list of closed charter schools.

According to the sponsors and the DESE, charter schools primarily close for one or more of the following reasons (1) financial distress, (2) low enrollment, (3) board or administration mismanagement, and (4) poor academic performance. Appendix A provides more information on charter school closures.

Scope and Methodology

Our analysis focused on the oversight of charter schools by their Boards and sponsors and the oversight of sponsors by the DESE. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019.

We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of the legal provisions that are significant within the context of the audit objectives and assessed the risk that illegal acts, including fraud, and violations of applicable contracts or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions. This work included, but was not limited to, a review of Sections 160.400 through 160.425, and 167.349, RSMo, and 5 CSR 20-100.

Our methodology also included gathering information regarding the oversight of charter schools through discussions with various representatives from the

Charter School Oversight Introduction

DESE and the 8 active sponsors. We also reviewed sponsoring and performance contracts, annual sponsor reports, sponsor policies and procedures, the DESE's evaluations of sponsors, and other pertinent documents.

To evaluate and compare Missouri's charter school sponsor funding with those of other states, we obtained and reviewed information from the National Association of Charter School Authorizers (NACSA) that compared authorizer fees and funding systems as of February 2015. We also contacted charter school officials in other states to verify the NACSA information reflected current practices.

Charter School Oversight Management Advisory Report State Auditor's Findings

1. Charter School Boards

State law does not require members of the board of directors for charter schools to obtain a specific amount of training or meet certain qualifications. As a result, it is unclear whether board members are adequately prepared to oversee charter schools. Sponsors expressed concerns during our interviews about the lack of regulations and laws governing charter school board training and qualifications.

Charter school boards are responsible for overseeing charter schools to ensure the compliance with state laws and regulations and that the schools are meeting all of the requirements set forth by the sponsor, the DESE, and state law.

Board training

State law does not require board members to obtain a specific amount of training. As provided in 5 CSR 20-100.260(4)(L), sponsors are required to ensure that charter board members are aware of and have access to adequate training to fulfill their duties. However, there are no state laws or regulations specifying what is considered an adequate amount of training and if any must be obtained. Based on our review, sponsor's training requirements for their charter school board members varied (see also MAR finding number 2).

Prior to August 2019, Section 162.203, RSMo, required public school board members to obtain 16 hours of training during their first year. As of August 2019, the statute requires 18 hours and 30 minutes of board training for newly elected public school board members plus 1 hour of refresher training annually thereafter. Charter school board members have no similar training requirement. As a result, they may not receive a similar level of training as their public school district counterparts and may not obtain the necessary training to provide appropriate oversight.

Board qualifications

State law does not provide any minimum qualifications for an individual to serve as a charter school board member. Initially, the individuals or organization that start the application process of opening a charter school select the charter school board members. Board members then appoint individuals to fill any board vacancies.

Section 162.291, RSMo, requires public school board members to be a citizen of the United States, a resident of Missouri and the school district, and at least 24 years old. In addition, school district board members are elected by the voters of the school district.

Charter school closure due to ineffective board oversight

As discussed in the Background section, charter schools primarily close for four reasons. DESE officials indicated ineffective board oversight is directly related to three of those reasons (board and administration mismanagement, financial distress, and poor academic performance). Our review of charter school closures identified 23 of the 26 schools (88 percent) closed for the primary reason of either mismanagement, financial distress, or poor academic

Charter School Oversight Management Advisory Report - State Auditor's Findings

performance. School closures result in displaced students who must seek enrollment elsewhere.

Figure 2 shows the percentage of schools that closed for each of the primary reasons for a charter school closure.

Figure 2: Primary reasons for charter school closures

Source: Prepared by the SAO using data obtained from the DESE.

Conclusion

Considering the duties and responsibilities of charter school board members and the impact their effectiveness has on a charter school and its students, continual board training and at least minimal qualifications are necessary to ensure board members have the skills to oversee schools and stay up-to-date with current regulations, guidance, and best practices.

Recommendation

The DESE work with sponsors to ensure charter school board members meet the same training and qualification requirements of public school board members. The DESE should also work with the General Assembly to revise charter school laws to require charter school board member training and board member applicants meet certain qualifications.

Auditee's Response

The DESE concurs with the recommendation and will work with sponsors and the General Assembly, if necessary, to ensure that members of charter governing boards are appropriately trained and qualified.

2. Inconsistent Oversight

Charter school sponsor oversight of schools is not consistent. In addition, sponsor representatives indicated additional information or guidance would be useful regarding their duties.

No set standards have been established for the frequency of charter school reviews, contents of the annual oversight report, or what sponsors monitor at charter schools. In June and July 2019, we met with representatives of the 8 active sponsors and obtained an understanding of their organization's

Charter School Oversight Management Advisory Report - State Auditor's Findings

oversight procedures. We identified the following differences in the level of oversight they provided:

- The frequency of onsite reviews varied among the sponsors. Four sponsors performed monthly reviews, three performed annual reviews, and one performed quarterly reviews of their charter schools.
- Sponsor oversight reports varied in the amount of information included and the areas of review. All sponsors reported on academic performance, financial performance, and school governance. In addition to these areas, some sponsors evaluated the school's curriculum, the culture of the school, teacher performance, and the school's community involvement.
- One sponsor did not perform reviews of attendance records used to determine the average daily attendance (ADA). Funding is distributed to charter schools based on ADA. The sponsor representative said it was not the organization's responsibility to review attendance records, but the other seven representatives said their organizations reviewed these records.
- Seven sponsors provided funding annually for charter school board members to receive board training, but only two evaluated if the board members obtained training during the year.

The inconsistencies identified suggest more guidance may be necessary. Additional resources such as guidelines or standards would help sponsors provide consistent oversight and comparable reports of charter school performance.

Recommendation

The DESE work with sponsors to determine what additional oversight resources or standards would be useful and provide that guidance.

Auditee's Response

The DESE concurs with the recommendation. In the time following the audit period, the DESE has implemented two significant initiatives that address the recommendation. First, the DESE developed a comprehensive list (assurance checklist) of statutory requirements that charter schools must meet. Sponsors have their schools affirm and sign that they are fulfilling the requirements of the law and send a copy to the DESE. This initiative provides significantly greater clarity to schools and sponsors about their responsibilities. Second, the DESE has implemented a new sponsor evaluation system. The system was developed collaboratively with sponsors and is based on standards that were updated within the last two years.

Charter School Oversight Management Advisory Report - State Auditor's Findings

3. Charter School Sponsor Funding Comparison and Use

State comparison

Charter school sponsor funding methods and use of sponsor funding should be periodically evaluated.

Section 160.400.11, RSMo, provides the expenses associated with sponsorship of charter schools shall be defrayed by the DESE retaining 1.5 percent of the amount of state and local funding allocated to the charter school. This amount is capped at an amount adjusted for inflation. In 2019 and 2018, the capped amount was \$151,984 and \$148,814, per school, respectively. The DESE pays the retained funds for each charter school to the school's sponsor. This funding method was established in 2005 under Section 160.400, RSMo, but the law excluded school districts and the SBE from receiving sponsorship funding. Revisions to the statute in 2012 removed those exclusions.

We compared Missouri's funding methodology to methods used by other states that operate charter school programs. Forty-four states and the District of Columbia (D.C.) have authorized charter school programs. We identified various funding methods used by these entities.

- Seventeen states do not provide any guaranteed funding.
- Two states use a formula-based variable fee methodology.
- Two states provide annual appropriations to the sponsors.
- Twenty-two states, including Missouri, provide sponsors a percentage of the state and local funds allocated to their respective charter schools (see Figure 4). Several states award a different percentage based on one or more of the following criteria (1) type of sponsor, (2) number of charter schools sponsored, (3) the number of students, (4) grade-levels the school provides, and (5) time the charter school has been open. Only Missouri and Tennessee allocate a percentage of school funding and also limit the total per school sponsor funding to a set dollar amount.
- Two states provide an appropriation and a percentage of charter school funding.

Charter School Oversight Management Advisory Report - State Auditor's Findings

Figure 3: State charter school sponsor funding by method

Figure 3 shows the percentage of states using the various funding methods. See Appendix B for more information on each state's funding method.

Source: Prepared by the SAO using data from the National Association of Charter School Authorizers (NACSA) and the various states.

Figure 4 shows Missouri provides the second lowest percentage of school funding of states using that method. See Appendix B for more detail on the range of other percentage rates and variables.

Figure 4: Maximum authorized rates for states using the percentage funding method

* The state uses a combination of appropriation and percentage funding methods.

Charter School Oversight Management Advisory Report - State Auditor's Findings

Use of funding

Some Missouri sponsors use part or all of their funding to provide additional programs and services to their charter schools rather than for administrative costs related to oversight duties. Additional programs and services include mini-grants, school improvement projects, charter school board trainings, and/or funds for continuing education for teachers. Two of the 8 active sponsors' representatives indicated they use all of their funding to provide additional resources to their charter schools. The remaining 6 sponsor representatives indicated they use a portion of the funding to provide additional programs and services to their charter schools. Sponsor representatives indicated their organizations need the funding to provide adequate oversight; however, due to limited school funding, they felt the charter schools needed the additional resources more to meet student needs.

Conclusions

Because the sponsorship funding method authorized in state law has not been revised since 2005, other states use various other sponsor funding methods, and Missouri sponsors use funding received for charter school purposes unrelated to oversight, a review of the funding methodology is necessary. Such a periodic evaluation would help determine whether the current funding is sufficient to allow sponsors to appropriately monitor their charter schools and ensure those schools meet student needs.

Recommendation

The DESE review other sponsor funding methodologies and evaluate if sponsor funding allows for appropriate oversight and meets the needs of charter school students and make any necessary recommendations to the General Assembly.

Auditee's Response

The DESE concurs with the recommendation and will collaborate with sponsors to review this topic and possibly make recommendations for change.

Appendix A

Charter School Oversight Charter School Closures

School	Sponsor at Time of Closure	Year of Closure	Primary Reason for Closure (1)
